FRENCH RECAPTURE PART OF TRENCHES LOST IN CHAMPAGNE; GERMANS GAIN WEST OF MEUSE

ATTACKS ON FRENCH LINES AGAIN CEASE

Continued Artillery Fire Indicates Early Resumption of Battle.

Teutons Capture French Positions on Both Sides of Forges Brook.

Capture of Over 3,000 French Soldiers and Officers Announced.

Paris, March 8, via London.—In the Champagne the French have recaptured portions of the trenches lost on March 6, according to semi-official announcement made here today.

The situation north of Verdun is unchanged. No infantry attacks were made last night, the announcement says. Artillery fighting continues.

The text of the communication issued by the French war office this afternoon follows:

"In the Champagne district to the east of Maisons de Champagne, we launched an attack which placed us again in possession of the sections of trenches occupied by the enemy on the sixth of March. In the course of this fighting we took eighty-five prisoners, including three officers, and captured a machine gun. A counter-attack on the part of the enemy delivered a little later against the positions we held was successfully repulsed."

"Highways Shelled."—In the Argonne our artillery has shelled the highways in the vicinity of Mont Faucon, over which it was reported that automobile transports were making their way.

"In the region to the north of Verdun no change has been observed during the course of the night the Germans continued their bombardment of our front to the west of the river."

TRIAL OF LORIMER AGAIN POSTPONED

Chicago, March 8.—Trial of William Lorimer, former United States senator, which was to have been resumed today after a postponement of several days, again was postponed by agreement until next Monday because of the illness of William E. Dever, presiding judge. Lorimer is charged with conspiracy in connection with the wrecking of the La Salle Street Trust & Savings bank of Chicago.

SENSATIONS IN TRENCHES

Horrible Moments of Men While Waiting for Something to Happen.

Attack on Enemy Without Orders Relieves Strain on Soldiers.

Paris, March 8.—"You are not cool enough to feel fear during a battle," said a captain of light infantry, who in civil life is a professor of philosophy and who fought in the battle of Verdun, "but when the uproar ceases, when the cannon are silent, you have a sensation that something is going to happen, but what, you do not know. You expect anything. Those are the horrible moments and the following is an instance."

"The German attack was beginning. In a little wood near Vaux we had made ourselves a hiding place, taking advantage of a hollow in the ground where the searchlights passed over us. All day and evening the German artillery searched out our lines all around our shelter. Great shells tore craters, but our improvised trench remained untouched. Toward 2 o'clock in the afternoon..."

STEEL COMPANIES ARE CHARGED WITH FORMING TRUST TO FIX WAGES

Ohio Grand Jury Returns Indictments Against Six and Judge Gary.

Said to Have Conspired to Keep Labor at Same Figure.

Chairman Gary Says the Indictment Is an Outrage.

Youngstown, Ohio, March 8.—Indictments were returned today by the Mahoning grand jury against the Youngstown Sheet and Tube company, the Republic Iron and Steel company, the Brier Hill Steel company, the Youngstown Iron & Steel company, the Carnegie Steel company, the United States Steel company and Judge E. H. Gary, executive chairman of the United States Steel company. The defendants are charged with having formed a trust to fix the wages of common labor in violation of the laws of Ohio. These indictments followed a sweeping investigation of the East Youngstown riots and labor situation.

Specific Offense.—The specific offense charged against the six steel concerns is that they conspired to keep the wages of common labor at the same figure at the time of the strike at the Republic Iron & Steel company and the Youngstown Sheet & Tube company.

WAGE AGREEMENT TO BE RATIFIED

Joint Conference of Operators and Miners On in New York.

New York, March 8.—The joint conference of bituminous miners and operators from the Middle West met here today to ratify the wage agreement drawn up by the subcommittee of employers and employees to go into effect April 1 for a period of two years. The subcommittee completed its work late last night after sessions that lasted over nine days.

The agreement provides for wage increases that will amount to more than \$8,000,000 a year in Western Pennsylvania, Ohio, Indiana and Illinois. The increase will have an important bearing on the wage contracts that are to be negotiated in the soft coal fields of Central Pennsylvania, West Virginia, Michigan, Iowa and Kentucky in the near future, and later in the year in Missouri, Kansas, Oklahoma, Arkansas, Wyoming, Montana and Washington.

TONG FEUDISTS ARE WARNED TO DESIST

Otherwise Blockade of Tourists on Chinatown Will Be Declared.

San Francisco, Cal., March 8.—Tong quarter received a warning today from the chief of police which stated that unless peace was made immediately between the Suey-On and Hop Sing tong, he would declare a blockade upon Chinatown and warn all tourists to stay away from the quarter.

Leaders of the belligerent societies were subpoenaed to appear tonight before the grand jury to testify concerning the latest outbreak of inter-tong warfare.

The dead walls in Chinatown today flamed with red posters cautioning upon Chinatown and warn all tourists to stay away from the quarter.

FORMER MAYOR OF TOLEDO ON TRIAL FOR BRIBERY

TOLEDO, Ohio, March 8.—Completion of the jury to try Former Mayor Carl H. Keller on a charge of bribery involving \$500 in connection with the purchase of city fire apparatus, was accomplished late yesterday. Hearings of testimony began today.

Bonuses for Employees.—The sixth annual distribution of bonuses to employees under its profit-sharing plan is being made today by the Youngstown Sheet & Tube company. Over \$250,000 will be given to the 8,000 employees eligible to participate, the bonuses representing 5 per cent of the annual wages for the year 1915. Over \$1,100,000 has been distributed by this company under the plan.

Seattle, Wash., March 8.—Returned early today on yesterday's municipal election bore out last night's estimate of a plurality of 6,000 for Hiram C. Gill, re-elected mayor. Mayor Gill's opponent was Austin E. Griffith, former chief of police.

Dr. Hector T. Carvay, manager of the company, issued a formal statement today saying the plant had been "bombed."

Result of Outside Agencies.—"I am convinced," he said, "that the explosion in our plant was the result of outside agencies. Careful investigation has shown us the first explosion was not such as would have occurred had chemicals stored in our buildings let go."

"I believe a bomb with only a small amount of explosive was set off just inside the peroxide plant, the slight explosion that followed giving most of the employees a chance to escape. The second explosion was also caused by a bomb, but those that followed were those of the stores of chemicals in the plant."

No one was injured by the explosion today but one man was killed and another badly injured by the explosion last night.

ORPET ARRAIGNED ON MURDER CHARGE

Counsel Moves Indictment Be Quashed; Hearing Next Monday.

Waukegan, Ill., March 8.—William H. Orpet, Wisconsin university student, indicted for the murder of Martin Lambert, 15 years old, whose body was found in a woods near her home at Lake Forest after she had died of poison, was arraigned before Judge Edwards in the Lake county circuit court today where Leslie Hanna, his attorney, entered a motion that the indictment be quashed. Judge Edwards set the hearing on the motion for next Monday morning.

Attorney Hanna said he was not prepared in an early trial for his client and after the preliminary motion had been argued, he made a plea entered he would ask to have the case go over to the October term of court. The attorney said he was considering the advisability of asking for a change of venue.

State's Attorney Ralph Dady said he would oppose a change of venue and urge a speedy trial for the defendant.

If Orpet should plead guilty and throw himself on the mercy of the court I will agree to the greatest possible leniency for the boy because of his youth," said the state's attorney.

GERMANY AGAIN EXPLAINS ATTITUDE REGARDING THE "U" BOAT QUESTION

Washington, March 8.—The complete text of the memorandum presented today by Count von Bernstorff to Secretary Lansing, follows:

"The Imperial German government, on account of the friendly relations which have always existed between the two great nations, and earnestly desiring to continue them, wishes to explain the 'U' boat question once more to the American government."

At the outbreak of the war, the German government, acting upon the suggestion of the United States, immediately expressed its readiness to ratify the Declaration of London. At that time a German prize code already had been issued, which was entirely and without modification based upon the rules of the Declaration of London. Germany thereby proved her willingness to recognize fully the existing rules of international law which ensure the freedom of the seas for the legitimate trade of neutral nations, not only among themselves, but also with belligerent countries.

RESTRICTED NEUTRAL TRADE.—"Great Britain, on the other hand, declined to ratify the Declaration of London and, after the outbreak of the war, began to restrict the legitimate trade of neutrals in order to hit Germany. The contraband provisions were systematically extended on Aug. 5, 20, Sept. 21 and Nov. 11, 1914. On Nov. 8, 1914, the order of the British admiralty followed, declaring the whole North sea a war zone in which commercial

shipping would be exposed to the most serious danger from mines and men of war. Protests from neutrals were of no avail, and from that time on the freedom of neutral commerce with Germany was practically destroyed. Under these circumstances, Germany was compelled to resort, in February, 1915, to reprisals in order to fight her opponents' measures, which were absolutely contrary to international law. She chose for this purpose a new weapon, the use of which had not yet been regulated by international law, and in doing so could and did not violate any existing rules, but only took into account the peculiarity of this new weapon, the submarine boat.

"The use of the submarine naturally necessitated a restriction of the free movement of neutrals and constituted a danger for them which Germany intended to ward off by a special warning analogous to the warning England had given regarding the North sea."

AMERICA TAKES ACTION.—"As both belligerents—Germany in her note of Feb. 17, and Great Britain in those of Feb. 18 and 20, 1915—claimed that their proceeding was only enacted in retaliation for the violation of international law by their opponent, the American government approached both parties for the purpose of trying to re-establish international law as it had been in force before the war. Germany was asked to adapt the use of her new weapon to the rules which had been existing for the former naval weapons and England not to interfere with the food supplies intended for the

non-combatant German population and to admit their distribution under American supervision. Germany, on March 1, 1915, declared her willingness to comply with the proposal of the American government, while England, on the other hand, declined to do so. By the order in council, March 11, 1915, Great Britain abolished even what had remained of the freedom of neutral trade with Germany and her neutral subjects. England's object was to starve Germany into submission by these illegal means."

"Germany, after neutral citizens had lost their lives against the wish and intention, nevertheless, in the further course of the war, complied with the wishes of the American government regarding the use of her submarines. The rights of neutrals regarding legal trading were, in fact, nowhere limited by Germany."

GUNS ON MERCHANT VESSELS.—"Then England made it impossible for submarines to conform with the rules of international law by ordering the use of guns on merchant vessels for attack. Photographic reproductions of those instructions have been transmitted to neutral governments with the memorandum of German government of Feb. 8, 1916. These orders are in obvious contradiction with the note delivered by the British ambassador in Washington to the American government on Feb. 25, 1914. On account of the proposal made

INDIANA RESULTS STILL IN DOUBT

Watson and New Running About Even for the Senatorial Nomination.

Indianapolis, Ind., March 8.—Results of Indiana's first state-wide preferential primary, held yesterday, was still very much in doubt early today. Returns on the principal contests, which were waged for the Republican nomination for United States senator and governor, had been received from only about one-sixth of the precincts. In these James E. Watson and Harry New were running about even for the senatorial nomination.

James P. Goodrich had a substantial lead for the Republican nomination for governor over Warren T. McGraw and Quincy A. Myers. It was estimated that about 65 per cent of the total vote in the state was cast.

NEW NOTE IS PRESENTED TO UNITED STATES

Concedes International Law Makes No Provisions for Submarines.

Position With Regard to Torpedoing Armed Ships Clearly Stated.

Reviews Events Leading Up to Decision to Act Against Enemy.

Washington, March 8.—The German government, in a memorandum handed today by Count von Bernstorff to Secretary Lansing, outlines in detail its position in regard to armed ships, reviews events leading up to its decision to torpedo without warning all armed merchantmen of its enemies, concedes that international law, as at present constituted, makes no provision for the use of submarines, and expresses a willingness to operate its submarines in accordance with international law prevailing prior to the war on the condition that Great Britain does not violate the same laws.

The memorandum also contends the evidence appended to the late German announcement proves that British ships armed extensively for defense have been instructed to act, and have acted offensively and that they are not peaceful traders, as the United States has asserted they would be by Sir Cecil Spring Rice, the British ambassador. The memorandum reiterates the position of the German government.

BAKER TO ASSUME DUTIES THURSDAY

Leaves Cleveland for Washington to Become Secretary of War.

Cleveland, Ohio, March 8.—His nomination already confirmed by the senate, Newton D. Baker, former mayor of Cleveland, left today for Washington, where tomorrow he will take the oath of office and enter upon his duties as secretary of war.

To some of his friends Baker said jokingly just before leaving "I shall have a great deal to learn. Why, as a boy, never even played with tin soldiers."

RUSS ACTIVE IN BLACK SEA

Muscovites Continue Operations Along the Coast of Armenia.

Italy Determined to Regain Possession of Avlona Section.

London, March 8.—Attention is being drawn to the operations of the Russians along the Black sea coast in Armenia. The advance in this region is enabling the central Russian army, well inland, to keep up its onward march from Erzerum toward Sivas, some 200 miles west of Erzerum.

According to the current official statement from Constantinople, the British army under Gen. Aylmer on the way to the relief of Gen. Townshend at Kut-el-Amara has been making renewed efforts to advance. It is declared, however, that all its attempts failed.

Rome advices indicate that Italy has determined to make every effort to retain possession of the Avlona section at the southern end of Albania. Allied troops have withdrawn from virtually all the other Albanian territory to the north in the face of the Austrian advance southward.

The Italian chamber of deputies by a vote of 281 to 25 upheld the ministry of Premier Salandra after the premier had energetically replied to demands by socialist groups for an investigation into the conduct of the war.

WILL IMPROVE MAIL SERVICE

Pouch System Will Be Installed for Suburbs March 10.

Quicker Deliveries Will Be Made From West Duluth.

Mail service between West Duluth and New Duluth, Gary- and Morgan Park will be greatly improved on March 10, according to orders received yesterday by Supt. C. C. Salter of the West Duluth postoffice. Pouch service between West Duluth and the suburbs will be instituted on that date.

Each train to the suburbs will carry pouches from West Duluth to both Morgan Park and New Duluth. Return pouches will be carried on these trains for West Duluth. This service means that in the future mail from West Duluth will not have to go up town and then be remailed from the Duluth postoffice for the suburbs.

Letters and other mail matter dropped at the station at the uptown office the same day and resulted in unnecessary delay.

With the new service in effect letters can be mailed during the forenoon at the West Duluth office and be delivered the same day by carrier in New Duluth. Mail for Morgan Park will be delivered the same day that it is received. Each of the two trains now operating daily to the suburb is carrying mail for the government.

WILL PLAN RAISING OF LARGE FUND

Bethany Church Will Work to Secure \$10,000 for Children's Home.

At a meeting of the board of control of the Bethany Children's home, established in the building recently purchased from Alfred Merritt, Thirty-ninth avenue west and Ninth street, which will be held this afternoon at the home of Officer Carl O. Swan, 219 East Sixth street, plans for raising \$10,000 for maintaining the home will be discussed.

The recent Minnesota conference of the Swedish Lutheran church gave this board authority to solicit aid from the various churches of the conference. The board this afternoon will also probably select a superintendent for the institution.

Members of the board are Rev. A. T. Elblad of Superior, chairman; Dr. John A. Krantz, pastor of the Elv Swedish Lutheran church; Rev. G. O. Swan of the First Swedish Lutheran church; B. E. Wellberg of the West and J. A. Forsman of West Duluth, and Andrew Johnson of Superior.

ASK FOR TROUT FRY.

West Duluth fishermen would Restock Streams Near Duluth.

West Duluth fishermen will ask the state game and fish commission for trout fry to be distributed in the streams near Duluth. Several streams need restocking, say lovers of the sport, and many requests have been sent in.

Business men of the community have promised to deliver all of the fry sent here. Several of them have offered the use of their automobiles to take the cans to various streams. Last year the state furnished a quantity of pike fry for the district, which was quickly distributed in a similar manner.

ANDREW O. LUND DIES SUDDENLY

Falls Dead at Home After Eating Hearty Breakfast.

Andrew O. Lund, aged 60, fell dead of heart failure at 7:30 o'clock this morning in the kitchen of his home, 119 North Fifty-third avenue. Mr. Lund had just eaten a hearty breakfast and while preparing to go out to do some chores, he fell over and before a physician could be summoned, died.

Mr. Lund had not been working this winter and had been suffering from a slight attack of grip. He was considered in very good health by his family and friends to whom his death was a great shock.

Mr. Lund was a resident of West Duluth for more than twenty years. He leaves a widow, Mrs. O. Lund, and two daughters, Misses Martha and Marie, Carl Lund, and another daughter, Mrs. D. Holm of St. Paul. He also leaves two brothers and two sisters residing in Sweden. The body was taken to Ball Brothers' undertaking rooms. The funeral arrangements will probably be completed late this afternoon or early tomorrow.

GOVERNOR MAY BE BANQUET SPEAKER

APPORTIONMENT OF ROAD FUND

St. Louis, Ramsey and Hennepin Counties Each Receive \$35,000.

St. Paul, Minn., March 8.—(Special to The Herald.)—The apportionment of the \$1,500,000 road and bridge fund among the counties of the state was completed today by the Minnesota highway commission.

Hennepin, Ramsey and St. Louis counties each received \$35,000, which is about 2 1/2 per cent of the total fund. Three per cent is the largest share that can be allotted to any one county. Winona county received the next largest allotment, \$30,000. The money was given the county because it is doing about \$500,000 worth of road work this year.

Stearns received \$27,000; Blue Earth, \$25,000; and Beltrami county, \$25,000. Cass county \$22,000. Among the other counties receiving more than the minimum allotment of \$15,000 were the following: Stearns, \$21,000; Pine, \$21,000; Polk, \$20,000; Kandake, \$19,000; Olmsted, \$18,000; Atkin, \$17,500; Carlton, \$18,000; Lyon, \$17,000; Mower, \$17,000; Ren-ville, \$18,000; Otter Tail, \$20,000; Yellow Medicine, \$17,000; Rice, \$17,000; Redwood, \$17,500; and Washington, \$17,500.

Gives Big Check for Bonds.
St. Paul, Minn., March 8.—(Special to The Herald.)—The Capital Trust & Savings bank of St. Paul, which purchased of the state practically all the Virginia bonds owned by it, turned over to the state treasury today \$1,013,100.38. The check was one of the largest to pass through the St. Paul clearing house this year.

SUPERIOR WETS AND DRIES ARE ORGANIZED

Form for Coming Campaign; Officers and Committees Chosen.

Meetings were held yesterday afternoon and evening by the "wet" and "dry" factions in Superior. In both instances organization was perfected to carry out the coming campaign.

The "wet" element will be known under the name of "Citizens' Educational league," and the "drys" have not as yet chosen a name. A meeting of the latter resulted in the election of H. A. Johnson, president; Louis Hantich, vice president; Dr. Ogilvie, secretary; vice president; T. F. Hunter, second vice president; and John Wick, treasurer.

R. H. Bradley was elected president of the Citizens' Educational league. An advisory board of twenty men will assist in conducting the campaign.

Women Found in Saloon.
John Tulonen, a saloon keeper, was arrested yesterday afternoon on a charge of allowing three women to remain in his place of business. The women were charged with loitering. All four pleaded not guilty and will be given a hearing in police court tomorrow.

BE LOOSE, SMOOTH, CLEAN
Madison, Wis., March 8.—A baby is not a doll to be dressed and undressed bedecked and beribboned for the amusement of its mother and other admirers. This feature in the clothing problem for the infant is given attention by speakers in the Baby week campaign this week. Babies are often overdressed, it is asserted, being garbed for show rather than for comfort. The baby experts in their talks are instructing mothers that the baby cares nothing for style, preferring simple clothing, built mainly for comfort.

The three essentials of its clothing, aside from the amount to be worn, are that it shall be loose, smooth and scrupulously clean.

Pure wool garments have been generally abandoned and the warmer garments are made of wool mixed with cotton or silk, and worn next to the skin they will allow proper ventilation for the body.

EFFORTS TO SECURE PARDON FOR LYNCH
Madison, Wis., March 8.—Efforts are being made to secure a pardon for James Lynch, who was accused of murdering Peter H. O'Leary and sent to the penitentiary for life. The trio was convicted by a jury in the circuit court three years ago. It was contended that O'Leary, a farmer of Dane county, was lured to the lake, robbed and then murdered. His body was found in the lake. Lynch has stoutly maintained his innocence, and claimed that some day the truth of the matter will come out.

Careless Use of Soap Spoils the Hair
Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary multifid coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifid coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.—Advertisement.

COPPER THEFTS WORRY POLICE

Detectives Unable to Trace Wire Stolen During February.

Less stolen property was recovered by police during February than for any other month in recent years, according to the monthly report of Lieut. N. U. G. Terry, filed with Chief R. D. McKercher yesterday.

Thefts of large quantities of copper wire which have baffled the police department, were responsible for the small percentage of recovery, according to Lieut. Terry. The average recovery is between 75 and 95 per cent, while that for February was but 15 per cent.

Value of property lost or stolen was estimated at \$2,888.08, while that recovered and returned to its owners was estimated as being worth \$537.

The copper wire thefts referred to included: The theft of 250 feet of wire valued at \$200, stolen from the Duluth Telephone company, at Eighty-first avenue west.

The theft of \$500 worth of power wire stolen from the Interstate Construction company, Forty-first avenue west and the bay front, on Feb. 19.

The theft of \$200 worth of trolley wire from the Duluth Street Railway company on Feb. 17. The railway men were working at Seventy-first avenue west.

Added to this list were two or three robberies at Port Gibson, Alaska, in which lumberjacks or transients figured as victims. Thomas Lyons of Minneapolis was robbed of \$175 in cash and a watch, this being the largest theft of that kind. Lieut. Terry reports that there were

thirty-seven cases of petit larceny, seventeen of grand larceny, four hold-ups and five burglaries.

Fort Gibson Barracks Burn.

Washington, March 8.—Destruction of the barracks at Fort Gibson, Alaska, by fire was reported to the war department today by Capt. McIntyre, commanding that station. There was no loss of life, the soldiers escaping from the barracks without injury. The barracks were occupied by Company B, Fourteenth infantry.

FRENCH RECAPTURE PART OF TRENCHES LOST IN CHAMPAGNE

Muse, but without putting forward their infantry.

"Our batteries responded with energy to the fire of our adversaries in this sector, as well as to the east of the Muse, where the artillery bombardment has been intermittent. There has been very spirited artillery fighting in the Woëvre. We have bombarded Blanzac, Gramaucourt and the environs of Fresnoy. The renewal of the great battle, however, is being momentarily awaited, the persistent activity of the heavy artillery indicating that the time for this cannot be far distant.

The assault on the fortress is now being pressed with greatest vigor along the four-mile front from the north of Chumars near the river, to Bethincourt, where the Germans have already pressed forward into the Corbeaux, between Doudan and Goeze Hill, the commanding positions held by the French.

Recent developments, however, have indicated that no particular part of the front is being the scene of a massed assault at any time, and the battle has been raging with intensity from the Woëvre, southeast of Verdun, where the town of Fresnoy was yesterday stormed and taken, around the curving line at Douaumont and on through the district just to the west of the Muse into the Argonne region adjoining.

German Statement.
Berlin, March 8, via London, 8:15 p. m.—The capture of a French position west of the Muse on both sides of the Forges brook below Bethincourt, six kilometers wide and three kilometers deep, was announced today by German army headquarters.

It was also announced that the vil-

ROAD AFTER LATE WARE

G. L. Douglass Will Look After Routing for N. Y. C.

Former Western Transit Agent Gets Significant Position Here.

G. L. Douglass, formerly Duluth agent of the Western Transit company, will remain in Duluth traffic circles, as agent for the New York Central lines.

The announcement made today that Mr. Douglass would shortly return to Duluth from Buffalo and assume a new position, makes it certain that the New York Central railway is to remain in the local field as an aggressive factor in the lake and rail business, even if the railroad has gone out of the steamship business.

S. J. Bigelow is the present commercial agent for the New York Central, and his title and work will be in no way affected by the new position that has been created here by the determination of the New York Central to go after rail business east of Buffalo, of Lake Superior.

Whether the Lehigh Valley railroad and the Erie and South Shore roads will follow the example of the Western road will use the same energy in securing lake and rail business that it employed while owning its own steamboats.

Some of the men formerly employed under Mr. Douglass in the Western Transit office here will, it is believed, be employed under M. S. Mead of the new consolidated line.

Whether the Lehigh Valley railroad and the Erie and South Shore roads will follow the example of the Western road will use the same energy in securing lake and rail business that it employed while owning its own steamboats.

GERMANY AGREES TO OBEY INTERNATIONAL LAW IF ENGLAND WILL DO THE SAME

(Continued from page 1.)

vious declarations that submarine warfare was begun by Germany in reprisal for the announced intention of Great Britain to starve the civilian population of the Central empires.

It also refers to the long-standing friendship between the United States and Germany and expresses the hope that the American people will when familiar with the explanations offered, fully appreciate the position in which Germany finds herself as a result of the blockade.

By way of supporting the contention that Germany's reprisals are justified, the memorandum enumerates various actions of Great Britain which have operated against the interests of neutrals and their citizens. Three are cited to show that Great Britain has violated international law.

To sustain the German contentions, it pointed out that Germany agreed to abide by certain terms of the declaration of London but, inasmuch as Great Britain had violated her obligations to conform with the terms of that declaration, Germany cannot be held to abide by the terms of a code which Great Britain disregards.

President to Go Ahead.
Washington, March 8.—With Congress standing squarely behind him, President Wilson is to go ahead with the submarine negotiations with the Central powers. After an all-day session, the house last night has agreed to the president's demands for an expression of congressional sentiment in the arms ship issue.

By vote of 276 to 142 the house tabled the McLemore resolution to warn Americans of armed ships.

This action together with that in the senate in killing a similar resolution has freed the president from the bonds of embarrassment forced upon him by the resolutions in congress.

The president's next step will probably be to answer Germany's last proposed armistice terms.

In this the United States will ask for further assurances guaranteeing that the German submarine campaign, in which all armed merchant ships are to be treated as auxiliary cruisers, will not endanger American lives.

by the United States on Jan. 23, 1916, regarding disarmament, the imperial government has been unable to obtain the disarmament of the merchant ships in her possession.

The president's next step will probably be to answer Germany's last proposed armistice terms.

In this the United States will ask for further assurances guaranteeing that the German submarine campaign, in which all armed merchant ships are to be treated as auxiliary cruisers, will not endanger American lives.

ORDERS TO RAM U-BOATS
The order to ram U-boats has been supplemented by instructions to masters of such ships to take such action as may be necessary to protect their ships.

Reports of payment of premiums and bestowals of decorations to successful masters of merchant ships show the effect of these orders.

England's allies have adopted this position.

Germany is facing the following facts:

"The blockade contrary to international law (compare American note to England of Nov. 6, 1915), has for one year and a season, been in force from the past two days. Snow storms are piled three and four feet deep in the city streets.

Heavy snows which came in January, makes traffic a difficult problem. The streets are filled with snow.

Only one school bus as some of them that came the day before, found it difficult to get through and one tipped over on the way home with the children.

The farmers are plowing the roads today so that the rural mail carriers and school buses can get through.

Some of the mills were forced to close down as they could not keep the tracks clear enough to keep lumber to the plants.

CONSOLIDATE POSITIONS

Germans Getting Men Together in Locations Now Near Douaumont.

Associated Press Correspondent Tells of Close Visit to Battlefield.

Metz, March 8, via Berlin and London.—A period of comparative calm still continues in the operations around Verdun. Germans are devoting their energies to consolidating the positions won by them last week within and on the verge of the fortress line.

The French, after a series of desperate attempts to regain the village of Douaumont, apparently have paused for the moment to take breath, and gather strength before renewing their effort to crush back the German wedge which has been biting its way into the vitals of the proud fortress.

The viewpoint of the battle from which the Associated Press correspondent has just returned is Chateau forest, which offers the nearest possible shelter to the village and fort of Douaumont. The fort itself was barely two and a half miles distant from the correspondent's position, and the village only a short two miles away. Closer inspection would have been impossible unless the trip were made by night, for the intervening country is open and in full view at several places, of the French observers.

No sign of life at Douaumont.

The wood itself had been swept and torn by a hail of shrapnel, which the French launched earlier in the day while searching the thickets for concealed batteries and it also had been under a heavy shell and rifle fire in the early phases of the offensive. The tops of thousands of saplings had been whipped off under fire like daisy heads under a swinging sickle. There was no sign of life discernible in the village of Douaumont, which is held by the Germans. The French, in charge after charge, in which fresh troops constantly were thrown in to replace their losses, and relieve their exhausted comrades, had forced their way to the village on several occasions, but as they were ejected by the Germans, and at the time of the correspondent's visit, they were clinging to a position at the outskirts of the hamlet. Earlier in the day, the French artillery dropped a few shells into the village, but this practice had ceased.

Fort Vaux, southeast of Fort Douaumont, lay under an intermittent cross fire from the German artillery. The fall of Fort Douaumont and the Harcourt redoubt—the connecting work between Douaumont and Vaux—left Fort Vaux "in the air" and exposed and unsupported to a fire from north and east. The French evidently were anxious as to its safety.

German Lines East and West. The German lines at this point run approximately east and west, and have bitten off that portion of the fortress represented by Fort Douaumont, and the slope of 384 meter hill, which it crowns, the village of Douaumont and the Harcourt redoubt. Thence the lines drop down the hillside into the Woivre plain and turn southward, roughly paralleling the slopes of Cote Lorraine at a distance ranging from one to two miles, although in one or two places the Germans have pushed forward to the very foot of the Cotes. The lines finally climb to the summit of the plateau again at the Sombres heights, and Les Eparges, fifteen miles southward from Vaux.

From another observation point, hill 307, just northward of Ornes, the Associated Press correspondent was able to survey this entire front, and witnessed the lazy pounding of the artillery as evidenced by the dropping of shells and occasional smoke halos from bursting shrapnel. But it was evident that the activity on this stretch of the front was within easy range of the opposing lines everywhere were within easy range, and there was no repetition of the condition at one phase of the operations when a German battery commander coolly placed his guns in plain sight of the French observers, having found that the French had no guns at that point capable of reaching his battery. A renewal of the heavy fighting is possible, therefore, at any time, and at almost any point along the whole line.

Where the blow will come, and whether the French or the Germans will first launch the offensive, is uncertain, but it is evident that it must come, since neither side can rest content in their present positions.

time, and at almost any point along the whole line.

Where the blow will come, and whether the French or the Germans will first launch the offensive, is uncertain, but it is evident that it must come, since neither side can rest content in their present positions.

Secret of Simonds Steel Told By Dealer

H. ELEVITCH, H. Elevitch of the Duluth Hardware Co., 19 Second avenue west, popular dealer in high-grade tools and general hardware, yesterday gave an interview to the writer.

"Statistics show," said Mr. Elevitch, "both by our own business and by records compiled by the Simonds Manufacturing Co. covering every state of the Union, that during 1916 there has been an extraordinary increase in the sale of the Simonds Saws. I will tell you the reason for it. The steel experts at the Simonds Steel Mills have been trying for some time to give steel greater resistance. The result is the new Simonds process of tempering which gives Simonds Saws a greater resistance against wear, that is, the quality to stay sharp longer, than any of the saws made from steel tempered by the old process. The news of this superiority, spread far and wide by the owners of Simonds Saws is the chief reason for Simonds predominance today. A French that will keep sharp, plus Simonds perfection must win in the long run."

Since 1852—for 64 years—Simonds has been making steel products, but Simonds Saws are sold on merit, not on tradition. Simonds Saws have always borne the same guarantee: "You can't own a Simonds Saw and be dissatisfied."

WILL COUNT VOTE OF 400,000 RAILROAD MEN

Heads of Various Unions Meet to Tabulate Result of Referendum.

Chicago, March 8.—Warren S. Stone, chief of the Brotherhood of Locomotive Engineers; W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen; L. E. Sheppard, acting president, and A. D. Garretts, vice president of the Order of Railroad Conductors, and W. G. Lee, president of the Brotherhood of Railroad Trainmen, met here today to tabulate the referendum vote of railroad employees on the question of whether their demand for an eight-hour day with time and half for overtime shall be presented to the railroads. The present wage agreement of the employees expires March 31.

The vote of the employees has been in progress by mail for two months and it is said more than 80 per cent of the men have voted in favor of the eight-hour day with overtime. About 400,000 railway employees, including every road in the country or 68 different lines are involved in the present controversy. The leaders are said to be opposed to arbitrating their differences this year, although they express the hope that a general strike in the country, will not be necessary.

Railroad officials have declared that the eight-hour day and overtime demanded by the employees would mean an increase in wages of approximately \$100,000,000 a year and that this increase cannot be granted under existing conditions.

The railroad employees' officials went into executive session as soon as they arrived in the city. Mr. Stone said the announcement of the referendum result may not be made for several days.

"SLIVERS," CIRCUS CLOWN, A SUICIDE

Frank Oakley Ends Life By Gas in New York Boarding House.

New York, March 8.—Frank Oakley, who as "Slivers," a circus clown, made millions of people laugh throughout the country, was found dead, a suicide, from asphyxiating gas, in a theatrical boarding house here early today.

"Slivers," who was 45 years old, came by his nickname through his height and slenderness. His cleverness as a contortionist earned him a circus job at the age of 14, and for years he traveled with Barnum's circus. Later he appeared in vaudeville. He was born in Sweden.

MYSTERIOUS DEATH OF WOMAN IN CAFE

Wife of Lew Shaw, Professional Billiardist, Found Dead at Table.

Chicago, March 8.—Circumstances surrounding the death of Mrs. Nellie Shaw, 50 years old, said to be an expert billiardist, in a crowded downtown restaurant last night, are being investigated today by Chicago police.

Mrs. Shaw, accompanied by two other women, whose names have not been learned, entered the restaurant and ordered supper. Half an hour later two of the women left and shortly afterward it was discovered that Mrs. Shaw, who remained at the table, was dead.

A physician who examined the body, said the death might have been caused either by poison or heart disease. A post mortem probably will be performed today.

Mrs. Shaw was the wife of Lew Shaw, a professional billiardist, who is said to be traveling in Illinois or Iowa, giving exhibitions.

COMMITTEE ENDS BRANDEIS HEARING

Gives No Indication as to When It Will Make Report.

Washington, March 8.—Public hearings on the nomination of Louis D. Brandeis of Boston to be associate justice of the supreme court were terminated today by the judiciary subcommittee of the senate. The inquiry has been in progress for a month. The subcommittee gave no indication as to when it would report to the judiciary committee.

The law firm of Brandeis, Dunbar & Nutter received \$43,852 as fees from all sources in the Lenox bankruptcy case and \$4,105 in addition for clerical service, according to the testimony today of Edward F. McConnen of the Brandeis firm, before the senate committee considering the nomination of Louis D. Brandeis for the supreme court.

MANY SUGGESTIONS BEFORE COMMISSION

Washington, March 8.—The interstate commerce commission had before it for consideration today a wealth of suggestions designed to solve the problems of freight congestion at the eastern terminals of trunk line railroads and of car shortage in the West. The proposals were made during a two-day conference between the commission, the carriers, the shippers and others.

The conference adjourned last night after hearing numerous speakers from every angle, although no decision was reached as to what steps should be taken to meet the situation.

House Back to New York. Washington, March 8.—Col. E. M. House, who has been here two days reporting to President Wilson on his recent trip to the capitals of belligerent nations, returned early today to New York. The president will continue corresponding with him regarding diplomatic questions pending between the United States and foreign nations and may go to New York within the next few weeks to pay him a short visit.

Prisoners on Way Home. Rotterdam, March 8, via London.—One American citizen and seven British subjects from Huhleben, the German detention camp for civilians of enemy countries, located near Berlin, have arrived here on their way to England. The American is Eugene Smith of Springfield, Mass., who has been a prisoner in Germany for six months.

AN Announcement: Beginning next week, the Glass Block will display, regularly—each week—three new and different styles in women's waists, originated by one of the oldest and best known New York manufacturers! We shall inaugurate a weekly Style Day, on which these waists will be shown first. This is something entirely new, a form of service absolutely unique, and of the utmost importance to Duluth women.

Something new—fresh, home-made candy in the Soda Buffet! "Perfectly delicious!" Real, old-fashioned home-made, "peanut brittle" for instance! You'll love it!

New Neckwear

Such alluring new things as we're showing in the Neckwear Department these days. New ties, for instance, at 50c. Windsors and Middles in plain colors, plaids, dotted and figured effects. New collar-and-cuff sets, too, at the same price (50c). They're especially popular just now, particularly the colored ones, (for this is going to be a "color season")!

We're showing the daintiest little sets in lavender, maize, pink, red, emerald and peach, as well as two shades of blue.

A new shipment has just come in from New York. The latest novelties in ready-made wear, as well as veils by the yard. Georgette crepes, too, and chiffons; the new fichu collars, larger than ever, in organdy and crepe from \$1.50 to \$2.50. (Neckwear Dept.—Main Floor).

SILKS

Have you noticed that we're featuring "specials" in Silks and Dress Goods, each week—certain exclusive fabrics that you can't match here in Duluth at anywhere near our price? Here's a list of this week's items—every one well worth seeing:

36-inch black Chiffon Taffetas (deep rich black, pure dye, unmatched), \$1.25.
40-inch Georgette Wash Crepe; white and twenty colors; light, medium and dark, for waists and dresses, 50c.
40-inch Silk and Wool Poplins. Jet black and 26 new Spring shades. (Exclusive), \$1.19.

Glass Block

"Who Is Imps and Angels?"

THUS the fairy "Weewee," in that delightfully symbolic little play, which was one of the contributions to the Drama League's Play Contest. And that, we suspect, is the question many mothers are asking this week, as they watch the laughing, rollicking youngsters, who are being weighed daily in the Masonic temple. Are you watching?

Don't Forget—This Is National Baby Week! And Our Baby Shop Is Offering 10% Discount to Mothers With Babies!

Every Duluth mother knows the Glass Block Baby Shop—of course—but we take this opportunity to extend to Duluth mothers the courtesy of a 10% discount on all purchases made in our Baby Shop (by mothers accompanied by babies) for baby's use. We're offering free, too, a valuable booklet, published by the American Medical Association entitled "Save the Babies." It gives, in a few short pages, the vital facts in connection with the proper care and treatment of infants, and is a book every mother should own.

Call at our Baby Shop for this free booklet, or write for a copy! We will gladly present you with one, free!

A Sale of White Goods

This sale started Monday morning with 8,500 yards of fresh new white goods, all at exceptionally low prices. Do You Like a Thrilling Story

Then you'll wish to read the new volume by Sax Rohmer, "The Return of Dr. Fu-Manchu." Imagine a man more daring than Raffles, more adroit than Arsene Lupin, more powerful than any other criminal in history or romance—and you have the diabolical genius of this author's famous villain, Fu-Manchu! Against this man, almost invincible in his hatred of civilization, Nayland Smith and Dr. Petrie pit their courage and resourcefulness. And all the while, moving through their lives with a wistful and terrible charm, is the beautiful slave girl, Karamaneh. No reader who loves the excitement of the mysterious will fail to appreciate this book. It's by all odds the best of Sax Rohmer's volumes. (\$1.35 in the Book Shop—Main Floor).

Smart Gowns for \$14.95

Dresses we've been selling as high as \$29.75. Rich combinations of Taffeta and Georgette, smart creations in shepherd checks, Crepe Meteor, Taffeta, etc. Attractive plaids, grays, greens and plain blacks. Bargains every one!

The popular methods of the Baby Week, which are those of all astute advertisers, form an invaluable method of reporting to the parents of this nation those standards of infant welfare which experts are endeavoring to make clear.

The baby week emphasizes the constructive side of infant care. It addresses not only individual parents but communities.

"The best test of its value will be the work that follows it."

"Undoubtedly every state board of health should secure what only six states have at present—a special division of child hygiene. No city or town should fail to provide instructive nursing service and to pay constant heed to the problems of hygiene and sanitation of proper housing and of recreation spaces, since all these immediately affect the welfare of infants."

"There are 3,600 counties in the United States. In every county seat there should be a center for the health work of that county—examining babies, and older children, and for furnishing expert advice in keeping them well—in short, a health teaching center."

"We must have complete birth registration."

"All these will be institutions for the common use—not for the use of a few more electrosynthetic, than public schools and weather bureaus and agricultural experiment stations."

"The New Zealand infant mortality rate is less than one-half of ours and is being further reduced."

"Why take less pains for American babies than New Zealand takes?"

Beethoven Program.

A Beethoven program was arranged by Mrs. A. P. Stewart for the regular meeting of the Matinee Musicale yesterday afternoon.

Before Browne gave the opening number "Adelaide," which was followed by the Sonata in A flat op. 110, played by R. Buchanan Morton.

Glen Bartholomew sang two Beethoven songs with good effect. The program closing with a trio composed of D. J. Michaud, violin; Bernard Segal, cello and Miss Theresa Lynne, piano. Miss Ruth Rogers was the accompanist.

To Investigate Gary Plan.

La Crosse, Wis., March 8.—L. P. Bennett, superintendent of the schools of this city, has been selected by the institute of public service of New York city as one of the three prominent school superintendents from different parts of the United States to carry out a three weeks' investigation of the Gary education plan in the schools of Brooklyn, N. Y.

Tobacco Crop Delivered.

La Crosse, Wis., March 8.—A large percentage of the tobacco crop of this city has been delivered to the buyers at warehouses. The quality as well as the quantity is better than for a number of years. Cold spring weather had driven the summer and an early frost brought havoc with the plants. The price received was from \$20 to \$40 per acre.

"BLUEBIRD" FILMS AT THE ORPHEUM

"Undine" Will Be First of Series of Feature Plays.

After a lengthy and careful search of the motion picture field for the best pictures available the Orpheum-Strand theater management has finally secured at a heavy expense, the famous Blue Bird photoplays, which, it is claimed, represent the supreme dramatic expression of the silent drama.

The Blue Bird productions were conceived immediately upon their initial showing in New York and Chicago as among the world's finest screen productions. Each picture is presented with a special musical setting, which is in itself an exceptional feature.

The first of the series of the four pictures to be shown will be the enchanting legend, "Undine," adapted from the classic French legend of the sea, by Pierre de la Motte-Fouquet, with Ida Schnall in the leading role.

Later Sarah Bernhardt, "The Divine Sarah," the world's greatest tragedienne, will be seen in the sensational picture, "The Third Degree," which is a French drama "Jeanne Dore."

Helen Ware, America's leading emotional artist, whose work in "Told in Full," "The Third Degree" and "The Price" brought her the highest honors, will be seen in "Secret Love," based upon Francis Hodgson Burnett's powerful story, "That Lass o' Lowrie's."

The Smalley's "Hop, the Devil's Brew," by Rufus Steele, is a dramatic portrayal of the secret methods of the opium traffic, and is also a Blue Bird production, produced with the consent and assistance of the United States custom authorities.

These screen productions will be presented for only four days each, afternoon and night daily, commencing next Sunday afternoon with "Undine."

STRONG PLAY AT ZELDA.

Nance O'Neil Begins Engagement in "Souls in Bondage."

Nance O'Neil, the celebrated star, is being featured at the Zelda for three days beginning with tonight's show.

In the multiple-reel feature, "Souls in Bondage," an original story written for the screen by Daniel Harrison Goodman, author of "The Gods of Fate" and "Revenge," this feature is being produced by Edgar Lewis, whose masterful work on "The Great Divide," stamps him as one of the foremost directors in the country.

"Souls in Bondage" was chosen by Nance O'Neil as the subject best suited to exploit the talents for which she is known the world over.

"Souls in Bondage" is a sex drama in five acts, and deals with incidents in the life of two sisters, and the tremendous sacrifice made by one for the other.

Abounding in thrilling suspense, and human appeal, this feature will strike home to the hearts of all who see it.

Loyal to the end, and unshaken in her love for her younger sister, Nance O'Neil registers in "Souls in Bondage" one of the greatest successes of her career.

The Yellow Jacket" in The Minneapolis News: "Unique, with its sense of occasion, and simplicity."

The Yellow Jacket" is a picture of the Russian ballet to a quiet but highly appreciative mirth.

Feature of this interesting little Chinese-American drama is that its charm grows from the fact that it is a story of the Chinese people in the world which is so realistically pictured.

The drama is a story of the life of the soft, effusive Chinese ways holds us. After the piece is concluded the oriental mists still envelop us, and the gentle voices and soft, impressionless music still haunt us.

We have verily been transported to China, and it takes us a long while to return.

"Philosophical, humorous, emotional as it is, 'The Yellow Jacket' is not a mere novelty. The play represents the presentation of the Chinese drama in a native theater in San Francisco. The beautiful silk art of the background, the costumes, and the orchestra are all real. Only the language of the actors betrays the American origin of the piece."

George C. Hazelton and Benrimo, the authors, together with Mr. and Mrs. Cobern, who are producing the play, have done their work in a truly artistic manner. They tell a quaint oriental tale of Wu Hoo Cit, tracing his life's course from birth to final happiness.

This state of affairs is a dramatic setting changed before our eyes by the ever-present property man, and with necessary explanations offered by the chorus, leader and indeed master of the company. The young hero is sent out into the world at an extremely early age because of the machinations of the second wife against his mother.

and after being seduced by the temptations of pleasure, finally succeeds to his lawful throne under the guidance of love and wisdom. The native customs of the Chinese are well portrayed, though it all rings the true note of life and its problems.

"The Yellow Jacket" will be seen at the Lyceum Thursday, Friday and Saturday.

Walker Whiteside, the famous dramatic actor, will appear for the last time today at the Orpheum-Strand in "The Melting Pot."

Mr. Whiteside is making a great success as a screen actor, and is admirably suited to the part he interprets in this play. The story as a photoplay is declared by many to surpass the production presented on the stage because several famous scenes, simply referred to on the stage, are elaborately portrayed on the screen.

The theme of racial hatred and the glory of America as the haven of freedom and justice for all creeds and nationalities, is a two-fold inspiration which should recommend the production to Duluthians, whose city is one of the great centers in which the fusion of races is going on.

The story of "The Melting Pot" is presented in heroic form. The horror and treachery of the massacre of the Jews at Kishineff by the Russians that won for the date the title of "Black Easter," is shown in a series of tremendous scenes full of thrills and emotions.

The masterful working out of the plot and the story of love between the Jewish hero-victim, the bloody persecution and the gentle daughter of the royal instigator of the massacre supplies all that is necessary to complete the ensemble.

But there is an added feature, a film tableau vivant in allegorical presentation of the conflicting elements pouring into the "melting pot" that alone is worth the price of admission.

What is probably the best of the vaudeville programs of the season at the Grand comes to the Lyceum with to-day's performances.

POPULAR SHOW CLOSING AT THE GRAND.

Toppling the bill of all who see it, are the Four Reel Girls in a scenic song and dance revue entitled "Through Five Countries in Song and Terpsichore."

Frank Ward, billed as "that somewhat different comedian," Between Trains, a comedy of domestic strife, and Paden and Reed, black and white funsters, are other prominent vaudeville features.

"Beyond the Law," a thrilling tale of the North woods in three acts, the scenes of which were taken in the vicinity of Virginia, Minn., and on the iron range, is featured among the photoplays. One of the stinger stories and two excellent comedies make up the remainder of the program.

Tomorrow the new bill, which opens for the week-end, has an exceptional feature in the Six Sisters, introduced in offerings of the song world and a reveal of tunes, jests and dances. The Random Duo, in acrobatic capers; Mattie Lockett, singing and character comedienne, and Simmons and Simmons in a comedy, singing and talking, oddity make up the vaudeville part of the program.

"Her Stepchildren," a two-part drama, two comedies and the Selig-Tribune News complete the bill.

The snowstorm of Monday and Tuesday deterred many from taking a trip to the Lyceum, but the show is still on.

BILLIE BURKE'S eight-reel moving picture, "LAST DAY AT THE REX," in which Miss Billie Burke captivated the audience at the Lyceum, will be shown at the Rex.

Patrons of this playhouse will tomorrow see Miss Dorothy Gish in "Betty of Crestone," a picture carefully constructed along Triangle lines. The star herself needs no recommendation. Some of the other players in this strong story of love are Kate Moore, Albert Taylor and Owen Moore, husband of Mary Pickford.

The play brims with romance, in which the demure little lady, who can show much fire and emotion when required, holds the center of the stage.

The appearance of De Wolf Hopper for a four-day run, beginning Sunday, in "Don Quixote," is another big audience braver the winter weather.

"Fighting Blood" at the Lyceum and "The Blacklist" at the Lyceum and "The Blacklist" at the Lyceum.

COMING TO LYRIC: William Farnum in several scenes, especially the fight scenes.

Today John Barrymore, in "Nearly a King," is shown in a Paramount picture at this theater, continuing tomorrow and tomorrow night.

Critic of the Lyceum elsewhere have nothing but praise for the production. It was in making this picture that Barrymore nearly lost his life, when being thrown out of his bunk on shipboard during a storm. It was almost too realistic for the actors and those who view the picture can see how it all happened.

It shows the laughable possibilities of an American young man being mistaken for a Balkan prince and being forced to play the part even against his will.

Friday Duluth will see a picture at the Lyceum with Blanche Sweet in "The Blacklist," which aroused a furor of objections and protest in Philadelphia and called out the censorship.

CONDUCTING MISSION IN CLOQUET PARISH

Cloquet, Minn., March 8.—(Special to The Herald.)—An interesting and constructive mission is being conducted in St. Andrew's parish, of which the Rev. James G. Ward is rector. It began with a celebration of holy communion on Sunday morning. The church was filled Sunday evening and again Monday evening. The music has been an inspiring feature and the

REV. JAMES G. WARD, Rector of St. Andrew's,

preaching by the Rev. H. J. Welner, D. D., of Virginia, of a strong and effective character. Interest is greatly increasing. Many questions are asked through the question box and answered by the missionary. The program daily is holy communion at 8:30 and 10 a. m.; children's service at 4 p. m. and preaching mission at 7:30 p. m. The mission will continue until Friday, inclusive.

MAKING READY FOR FLOODS

Farrell Orders Catch Basins and Sewers to Be Kept Open.

Preparations to prevent spring floods when the snow begins to melt are already being made by Commissioner Farrell, head of the public works commission.

Because of the heavy snowfall this winter it is expected that the first thaw will result in the flooding of many cellars and sewers and Commissioner Farrell has instructed his street foremen to open all catch basins and to clean gutters as early as possible.

In addition the foremen plan to publish a general request to the citizens of the city that they keep all gutters open and to make preparations to prevent floods in their cellars. Per-

FOR VETERAN

S. W. Clark Dies From Injuries Received in Fall on Ice.

Was Prominent in G. A. R. and Pioneer Resident of Duluth.

Servetus W. Clark, G. A. R. veteran and prominent resident of Duluth for thirty-four years, died at his home, 1407 East Third street, shortly after 11 o'clock this morning. He was 72 years old.

Mr. Clark had been ill for about three weeks. He was injured in a fall on some ice about three weeks ago, and complications which followed caused his death.

With his passing, Duluth loses one of its most prominent Civil war veterans. He served two years and was present at Appomattox, at the surrender of Gen. Lee to Gen. Grant and his staff. He was one of the twenty charter members of Joshua B. Culver post, No. 128, Grand Army of the Republic, and at the time of his death was one of the six surviving charter members.

He has held successively all the offices in the post, and was post commander for the year 1907. He served upon many of the important committees of the organization and was vice president of the Soldiers and Sailors Memorial committee at the time of his death.

Upon being mustered out at the end of the war, Mr. Clark returned to his home and civil life at Fairbault, Minn. In 1882 he came to Duluth from that city. He was master mechanic at the Clyde Iron works, and later chief engineer at the Duluth pumping station.

From 1888 until 1912, when he retired from active business life, he was proprietor of the Troy laundry. In addition to being a member of the Culver post, he was a prominent Mason, being a member of Palestine Lodge No. 75, A. F. and A. M.

In 1874 Mr. Clark was married to Miss Charlotte Moore of Fairbault. In addition to his widow, he leaves one daughter, Mrs. Charles Turner of Redton, N. D.; a sister, Mrs. H. H. Ramsey of Orange, Mass., and a brother, Arthur. His daughters-in-law, Mrs. Florence Clark, and a grandson, Charles, also make their home at 1407 East Third street.

Funeral arrangements have not been completed, pending word from relatives.

SISTERS EXPRESS GRATITUDE
TO THE CITIZENS OF DULUTH

"We are more than grateful to the people of Duluth for their generous response to our appeal for help," said the sister superior, of St. Mary's hospital this morning. "It is impossible for us to thank all of those who have worked for us and donated to the fund, so I hope the newspapers will again prove their generosity and undertake the task for us. We want to express our deepest gratitude to all who contributed to our fund, whether it was only a dollar or \$500. We know that those who gave have felt they felt they could afford. We want to also thank the committee members. It is impossible to mention all the workers by name, but I hope every one of them will realize how grateful we are. Many of them worked night and day for weeks without hope of any reward beyond the satisfaction of having helped in a worthy cause. May they have that satisfaction in the same degree that they have our gratitude."

Washington, March 8.—Owing to the heavy export of wheat and corn since the last harvest season, much interest centered in today's department of agriculture monthly report announcing the amount of wheat of last year's record crop remaining on farms March 1. The department's crop reporting board, from reports of its correspondents and agents throughout the country, estimates the amount of wheat, corn, oats and barley on farms, with comparison of preceding years, the proportion each crop which will be shipped out of the counties where grown, and the percentage of the 1915 corn crop which was of merchantable quality, as follows:

Wheat—About 241,717,000 bushels, or 23.9 per cent of the 1915 crop remained on farms March 1, 1916, compared with 152,903,000 bushels or 17.2 per cent of the 1914 crop on farms March 1, 1915, 151,750,000 bushels, or 19.3 per cent of the 1913 crop remaining in 1914, and 155,483,000 bushels, or 22.4 per cent of the 1912 crop remaining in 1913.

About 61.7 per cent of the 1915 crop will be shipped out of the counties

Gray's New Suits Are Blossoming
on the Street on Pleasant Days

You may have a charming little suit distinctly Spring-like in style and texture, yet not out of place on a March day. Styles are extremely sensible. You may select the suit that suits your figure best—a semi-Russian, a Norfolk, or a box effect—whichever you select will be correct.

The semi-Russian and Norfolk suit jackets are belted, the boxy effects are, of course, loose.

All have a decided flare at the bottom. Skirts are wide—they flare at the bottom. There is a decided fullness over the hips.

\$18.50 to \$48.50 is the present price range. The showing at and around \$25.00 is one to delight the thrifty woman who appreciates style combined with practical service.

Aberg Due to Arrive for Match With Johnson—Mike Gibbons Will Show Here—Beell Gets Out Old Red Tights—Ad Wolgast Through.

BY BRUCE.
ALEXANDER ABERG, accompanied by a secretary, Edward Delivink, a trainer and an international reputation as one of the greatest wrestlers in the world is due to arrive in Duluth today. The huge Finnish athlete made the jump from New York directly to Duluth, coming via the Twentieth Century Limited in order to arrive in the Zenith City in plenty of time for his contest with Helmar Johnson, the sensational Swede who has been beating some of the best wrestlers in the East.

The first Yousif, the original Turkish wrestler to invade the United States, was perhaps the most vicious athlete that ever hit these hospitable shores. The huge Turk man-handled his opponents in a way that made them almost beg for mercy. Tom Jenkins, with a heart like a lion, was almost fatally injured by the terrible Yousif. Aberg, huge and bear-like, is another great athlete who is not overly blessed with a lamb-like disposition. Aberg is a surly chap and often permits his temper to get the best of him. In his contest with the "Masked Marvel" Aberg inflicted such severe punishment on the man in the black hood, that Nat Goodwin, the celebrated actor and William Muldon, the famous old time wrestler, who were seated by the ringside, protested vehemently against a continuance of the contest.

In Helmar Johnson the Finn will be pitted against a tough and hardy opponent. Johnson, who has a sensational record in the big tournament that but recently came to an end in the Manhattan open house, being beaten by Charles Cutler in a contest that went over an hour before the big American wrestler claimed the job hold on the husky Swede and put him out of commission.

Promoter LaJoy expects the contest between the mighty Aberg and Johnson to prove one of the most exciting matches between heavyweights that has been wrestled in Duluth in many seasons. Aberg has caused a sensation wherever he has appeared.

Mike Gibbons Coming.
WHILE the present practice of demanding prohibitive purses upon the part of boxers may prevent Mike Gibbons from appearing here in a real ring encounter, the fans are to be given the opportunity of looking the great Phantom over and judging of some of the qualities that have made him famous as a boxer.

According to an announcement made yesterday in The Herald, the great boxer is to play his first fight here. If Gibbons wins from Jeff Smith in the St. Paul contest of March 17 he will appear here in the Zenith City. If Gibbons loses, it was announced that his Duluth engagement would be canceled.

Some few years ago, when Gibbons was unknown and untried, save by a few of his enthusiastic friends, he appeared in a fight here. The contest was held in the Eastern hall and the opponent of the Phantom was Jack Lewis, who later became one of the champions of the Northern league teams. It was about this time that Gibbons, scrapping all his money together, invaded New York. The story of how sporting editors of the metropolis laughed at Gibbons, is ancient boxing history, so to speak. It was when Mike knocked Willie Lewis out that he was pronounced one of the greatest boxers in the world.

Now, when he comes here, Gibbons, instead of an obscure boxer, is one of the most famous in the world—a pugilistic person known and justly held in great awe wherever boxing news is read.

Fred Beell in Training.
EARLY last October a little farmer down Wisconsin way took up the arduous task of training. Comebacks seem the mania of the present day. Just about the time the little farmer man dug up that hold pair of red tights and pulled a dilapidated wrestling pad out in the middle of his barn, Frank Gotch was taken by the comeback bee and bled himself to California to work in the golden sunshine that has made California famous.

Who is the little farmer man and why is he coming back? Why is Frank Gotch coming back? Joe Stecher! That's the answer to the months of steady training Freddy Beell has been doing, because the little Wisconsin farmer is none other than Beell. Chicago promoters have made Beell an offer to meet Stecher at the next show held in the Windy City. Down there they declare the wonderful speed and knowledge of Beell will make Stecher show everything he has. Perhaps, Beell, the old master of the mat, has been springing sensations since the day he came forth and beat the huge Evan Lewis, the original "Strangler" Lewis.

Wolgast Through Now.
THERE was a lingering curiosity to see just what Wolgast would do against Freddy Welsh. Honestly, you would be quite surprised at knowing the number of persons who have

thought that perhaps the little Dutchman had a chance with the title holder. Some said, you know, that Ad clearly had the better of the champion when he hurt his hand in the Madison Square Garden bout. A Wolgast in condition, it was argued, might perform a ring miracle.

Well, Wolgast had his last serious opportunity Monday evening. Insofar as all serious purpose is concerned, his ring career was ended in Milwaukee, the town that has always remained loyal to the little Dutchman. Once a great fighter, Wolgast made a serious bid for the title he has ever claimed he was robbed of, and failed to even make an impression against a boxer who is slipping.

Luke Leach Cross, it looks as if little Ad has ceased forever to be a factor among the lightweights.

HALL WINS THE MANLEY

Coson Defeated in Finals 13 to 10—Dinham-Cleveland Game Postponed.

Walter Hall closed another curling event last evening when he defeated Leslie Coson's rink in the finals of the Manley. Hall's rink finished up 13 to 10 in a contest that was close and extremely interesting from the first to the last end. Hall played an excellent game and out Coson out of several points by laying some nearly perfect shots.

Billy Dinham and Sam Cleveland failed to meet in the finals of The Herald. The game has been put over until later in the week. A good-sized gallery watched the finals in the Manley and much interest is being manifested in the contest that is to be played between Dinham and Cleveland. These two skips have very strong rinks, sharing with the Brewer-Whites the honor of being the best in the club, and naturally the curling followers are eagerly awaiting the meeting.

Following are the results of last evening and the draw for tonight:

JEFF SMITH SHOWS WELL

Future Opponent of Mike Gibbons Makes Hit With St. Paul Fans.

St. Paul, Minn., March 8.—With but nine days remaining before the big Mike Gibbons-Jeff Smith bout at the St. Paul Auditorium the two principals in the contest are working strenuously to get into the best possible condition. Smith yesterday proved to the satisfaction of a large assemblage of boxing fans that he is in superb shape and it looks like a good battle.

Gibbons is out of town at present, having taken his brother, Tom, to St. Joseph to meet Vic Hansen, but Mike is not neglecting his training while away. He expects to return Thursday and will put in six days of strenuous gymnasium work before he steps into the ring with the man who is picked by the fans to give the phantom one of the most severe tests he has yet faced.

Smith yesterday gave a great exhibition of his hitting powers. The stocky middleweight, who besides having the honor of being the only man in the world to knock out Les Darcy, also boasts of the fact that he has never been knocked off his feet. Three tough opponents gave the Easterner his workout. Big Al Falzer was first to go on and the two went three hard rounds. Then Johnny Sudenber, a tough middleweight, who recently arrived from the coast, stepped into the ring and the fans saw an interesting tilt. Smith wound up the afternoon's work with Johnny Salvatore, the local lightweight, and as Manager Al Lippe stated afterwards, Jeff could have gone on indefinitely.

WILL MEET HIBBING QUINT ON FRIDAY

Coach Blake Puts Central Boys Through Stiff Workouts.

Coach Blake is putting his Central high school basketball proteges through a hard workout all of this week in preparation for the big game next Friday night in the local gymnasium with the crack Hibbing high school quint.

The first game with the rangers earlier in the season resulted in a victory for Duluth by the close score of 25 to 24. The local quint at this time was at the height of its strength, and, as the boys were forced to their very utmost to win that game, it is expected that the weakened team next Friday night will experience a good deal of difficulty in getting away with the long end of the score.

The local Central team was materially weakened by the loss of Shaw and Christoferson. The fact was plainly brought out last Friday night when Central received a neat trimming at the hands of the Cathedral. About a month ago, with these two stars in the lineup, Central had an easy time whipping Cathedral. Hermann is a hard player, but the team is badly broken up without the regulars and the team doesn't seem to be able to get started.

The Hibbing aggregation will be out for blood this time, for in the last three years they have been defeated by only one point by Duluth. Although the team is weakened the men have the advantage of playing in their own gymnasium and the game, as a result, should be very close.

BENEFIT GAME TO BE PLAYED

Amateur Hockey League Will Stage Contest to Provide Banquet Funds.

At a meeting of the Duluth Amateur Hockey league directors to be held today, a date will be set for a benefit game to be played for the players of the league. The proceeds of the game will be used to pay for the annual banquet, which will be held during April.

The directors of the curling club have agreed to donate the use of the rink to the league. It is planned to give the best banquet in the history of the association this year, and for that reason the friends and followers of the league are asked to assist in

Contrary to general expectations, the Dook will not play second base.

Today's meeting will virtually wind up the affairs of the league for the season. The protest of the Big Duluth team on the game of last Friday may be passed upon. Other matters of routine business will be acted on.

BASEBALL

Tampa, Fla., March 8.—Twenty-three members of the Chicago Nationals, headed by President Weeghman and Manager Tinker, were met at the Tampa station yesterday by city officials and a brass band when they arrived on a special train to begin spring training. Two hours later Tinker had his men on the ball field.

Tinker indefinitely suspended Phil Douglas, a pitcher, who had preceded the other players here by a day, for failing to keep in condition after arrival.

Miami, Fla., March 8.—Manager Stallings and twenty-six members of the Boston National team, arrived here yesterday for spring training. The players soon after their arrival here, went out on the new field built expressly for the Braves' pre-season workouts.

Pittsburgh, Pa., March 8.—President Barney Dreyfuss of the Pittsburgh Nationals announced yesterday that pitcher Herbert Kelly had been released unconditionally. Kelly was obtained by the Pirates from the University of Notre Dame team.

St. Paul, Minn., March 8.—Pitcher Alva Gipe, who began last season with the St. Paul American association team, has again signed for 1916.

Chicago, March 8.—Dispatches from Tampa said Manager Tinker had announced that pitcher Phil Douglas would not be retained on the Cubs' staff. Douglas, according to Tinker, was not in condition to start practice. He was obtained from the Brooklyn Nationals in a trade last summer.

FENTON-DUBYS TAKE TITLE

Commercial League Leaders Beat Kelleys By 44-40 Score.

Northerns Defeat Big Duluths; Basket Ball Season Closes.

STANDING OF THE TEAMS.	Won.	Lost.	Pct.
Fenton-Dubys	4	5	.444
Kelleys	4	5	.444
Big Duluths	4	5	.444
Northerns	3	6	.333

The final games of the Commercial Basket Ball league were played last night at the Y. M. C. A., the pennant-winning Fenton-Dubys taking a lopsided game from the Kelleys by a score of 44 to 4, and the rejuvenated Northerns taking the Big Duluths into camp by the score of 28 to 16.

These games are the last of the 1916 season of the Commercial league. The final standing finds the Fenton-Dubys leading the league and thus winning the championship, the Kelleys and Big Duluths tied for second place and the Northerns bringing up the rear. From all sides the season this year was the most successful that the league has ever experienced. For the most part the games have all been close and hard fought. There was exceptionally keen rivalry between the several teams and the race was very close. Up until a short time ago the Kelleys appeared to have the better of the argument, but the consistent playing of the crack Fenton-Dubys aggregation soon forced them into the lead and they were never headed. There have been some exceptionally good players developed in the league this season and as a result a great brand of basket ball has been witnessed all season. A crack all-star team has been formed from the several teams and they have already made a name for themselves.

The games last night were rather one-sided, although some fast playing was witnessed at times. The Fentons had a runaway with the old rivals, the Kelleys, caging the basket from all angles and making it a fitting close to their championship season. The great work of Fenton and Burnett for the winners featured the contest, the former snagging nine baskets and the latter six.

The Northern-Big Duluth contest was closer and more interesting than the first affair. The hardware men presented a strong lineup and they had the edge on their opponents all the way through. Several of the Big Duluth regulars were missing, this fact accounting for their weakened showing. Budnick and Olson with seven and six baskets, respectively, started on offensive in this game.

The lineups and summaries of last night's games:

SUPERIOR NOT CERTAIN TO ENTER THE NORTHERN

Business Men Across the Bay Have Not Raised Sufficient Funds as Yet to Make Certain of a Ball Club—Decisive Action Looked for From Burmeister Within Next Few Days.

Today lugs in by the red ear another blue-smeared tale of Northern league woe. Superior is wavering, like a gent fox trotting with a city-owned lamp post at 4 a. m. The difficulty in securing money has never been more eloquently testified to than in the case of the Superior "business men." As the story progresses, the business interests over yonder have raised \$2,000 and then run aground.

Messrs. Armstead and Konkil went out among the people, as the scotchmen and prophets did in the days of old, and exhorted and painted beautiful word pictures. They came back to committee headquarters with some 2,000 meigs in their possession. Wearied with their excessive talking and exhorting and pleading and threatening, Messrs. Armstead and Konkil delegated the labors of money-raising to other members of the committee, and that's the way the proposition stands at the present time.

Two Sides To the Story.
Business men over in the village are somewhat peeved, it is stated, over stories and statements that have emanated from Burmeister. John has told in detail of the money he dropped in endeavoring to assist Superior in a baseball way. According to the words that pour hotly from the mouth of some of the business men of Superior, a half has not been told, for they say that Burmeister was not the only one to lose money, and that many of the backers of Northern league baseball who claim Superior as their home are considerably out of pocket.

It is believed that eventually Superior will come into the league. But the why-not-now part of the argument cannot be pressed. No manager has been named as yet. All the money has not been collected, and until the Superior proposition is settled definitely and absolutely, progress upon the part of the league is being held up and uncertainties, vague and growing, are showing their unwholesome countenance into the midst of the baseball party, and all is not well.

HARVARD LOSES GRIDIRON STARS

Three Fired From College for Failure in Examinations.

Cambridge, Mass., March 8.—Harvard's football squad for next fall received a heavy blow yesterday when three of its strongest candidates, Capt.-elect J. A. Gilman of Honesdale, a guard; Thomas Enwright of Fall River and W. J. Boles of Boston, both backfield stars, were asked by the college administrative board to withdraw from college because of failure to pass the midyear examinations.

Under the faculty rules, this means that Gilman and Boles, if they are able to return to college, will not be allowed to represent Harvard on the gridiron. Both have been in scholarship difficulties before.

Enwright, whose preparatory school record as a powerful back and great droppicker had led experts to pick him as the successor of Brickley and Mahan, still has a chance for reinstatement. If he attends the Harvard summer school, and passes examinations in September, he will be eligible to play.

Gilman's withdrawal leaves the Crimson football situation in an un-

With a portion of March cut out of the calendar, one finds, on scanning the local baseball horizon, that Superior has appointed no manager as yet. It has assembled no baseball team, has not surrounded itself with ready money to progress in rapid and orderly fashion; that the Northern league schedule has not been fully passed upon, amended, and that as yet it is not definite.

certain condition, for Harvard now is without captain or coach, as Coach Haughton's contract has expired and he has not yet announced his intentions for the fall. Gilman's playing last year made him a popular choice for the all-American football eleven. Richard Harle of Philadelphia, who played end on the eleven last season, was second choice for captain. NEW BOWLING LEADERS.

Big Meeting of American Congress Shows Good Scores.

Toledo, Ohio, March 8.—The Green Seals of Toledo, with 2,777, last night took the top position in the five-man event at the American Bowling Congress, now in session here. They are followed by the Stern Tailors, Cleveland, and the Stollberg and Parks, Toledo, with the Cleveland Front Axes, which had held first for three days, back in fourth place.

Bradwick and Mollenkopf, Cincinnati, 1,152, still lead in the two-man event, with P. and W. Green, Jacksonville, second, and Miller-Davis, Toledo, third. W. Hecman's score of 630 still heads the individual list. F. Wenzel, Toledo, and F. Hawkins, Jackson, Mich., are the runners up.

One squad of doubles and two of singles are scheduled to bowl today in addition to the five-man teams.

Another meeting of the executive committee will be held this afternoon to complete preparations for the annual election, to be held Friday. It is reported that a radical change in the prize list will be offered the delegates for adoption when the congress gathers.

Pugilist Dies of Poisoning.

Philadelphia, March 8.—Willie Gibbs, a featherweight pugilist of this city, died yesterday from poisoning, physicians say, resulting from an overdose of a drug. He collapsed Monday night in a saloon and in the morning consciousness was lost. Joseph Gold and Samuel Derens, who were with him at the time, were held as material witnesses under \$500 bail each to await the action of the coroner.

Pocket Billiard Games.

Chicago, March 8.—In a final finish, James Maturio of Denver beat John Layton of St. Louis yesterday, 100 to 73. Mike Petrio of Chicago had an easy time of it, defeating the champion of Jersey City, 100 to 61.

Intercollegiate Swim.

New York, March 8.—Princeton defeated Columbia in a swimming meet here last night by a score of 27 to 26.

His Only Victory.

New York, March 8.—Playing his sixth and last game in the amateur billiard tournament here yesterday, Jacob Klingner of St. Louis, defeated the European Class B title, scored his only winning bracket. He defeated Francis S. Appleby, 400 to 264. In the longest and most tedious game thus far, Edward W. Gardner of this city defeated Charles Heddon of Downey, Mich., by a score of 400 to 286. The game was Gardner's fourth straight victory.

ASSESSOR WOULD EXCHANGE OFFICES.

Scott Declares His Quarters at City Hall Are Insanitary.

City commissioners are considering a plan to exchange the council chambers for the quarters of the city assessor.

Several days ago City Assessor Scott made a protest against his quarters in the basement of the city hall building. "They are on a level with the sidewalk. In the summer time, he said, it was almost unbearable, as with the windows open, dust is blown into the office."

Commissioners Voss and Silberstein both favor a change and the proposition to move the assessor's quarters to the council chamber and to remodel the former's office into a meeting place for the commissioners appealed to both of them yesterday afternoon. In all probability the council will act on the matter at the meeting next Monday, authorizing the change and the necessary expenditures.

"The assessor's present quarters in the basement are decidedly disagreeable," said Commissioner Voss. "The council seldom meets more than a few hours a week, and it seems that the commissioners and council visitors could endure the dirt and odor for a few hours much better than those girls can endure it day after day. The change would entail little expense. I am in favor of it."

PROHIBITION LOSES IN VERMONT STATE.

Rutland, Vt., March 8.—Local option won over prohibition in this state yesterday by a margin of 13,164 votes. The prohibition amendment was first placed on the statute books in 1852 and repealed in 1902 by a majority of 729.

The vote yesterday on the question of re-enacting the amendment was: Yes, 13,164; no, 11,835.

Every county in the state with the exception of Orleans, gave a majority in favor of local option.

The state voted for direct primary elections by a vote of 6 to 1. The system will go into effect for the selection of delegates to the national convention this spring.

PRESIDENT WINS COMPLETE VICTORY IN HOUSE POLICY IS UPHELD BY TWO-TO-ONE VOTE

Congress Compelled to Acknowledge It Stands Firmly Behind Executive.

McLemore Resolution Warning Americans Tabled By Vote of 276 to 142.

The President's Supporters Sweep Over Opposition From the Beginning.

Washington, March 8.—President Wilson yesterday completely and decisively won his long and sensational fight to compel congress to acknowledge that it stands behind him in the submarine negotiations with Germany.

To the rallying cries of "stand by the president" and "is it Lansing and Wilson or von Bernstorff and the Kaiser?" a big Democratic majority and nearly half of the Republicans in the house rolled up overwhelming votes against the movement to warn Americans off armed ships of European belligerents.

The celebrated McLemore resolution, around which the anti-administration forces centered their fight, was tabled in other words killed, just as was the Gore resolution for a similar purpose in the senate last week.

From the very outset of the fight the president's supporters, without regard to party, swept over the opposition.

On the first vote which was a preliminary proposition to prevent opening the McLemore resolution to amendment and unlimited debate, the administration forces carried the day, 276 to 142. On that 192 Democrats, 63 Republicans and 1 Progressive voted to support the administration.

Twenty-one Democrats, 132 Republicans, 5 Progressives, 1 Independent and Representative London, the lone Socialist of the house, voted against it.

This was the crucial vote of the fight, the one point on which the administration leaders were uncertain. With victory in hand they moved on to the next proposition, the adoption of a special rule for four hours' discussion of the McLemore resolution.

Again they carried the day, this time 271 to 138, and then pushed their victory to a conclusion by tabling the McLemore resolution, 276 to 142.

In seven hours of intense, turbulent session, in which the administration opponents charged that the president was conducting a doubtful legal right and was shifting the responsibility of diplomatic negotiations to congress, the house away back and forth in the most sensational congressional spectacle of a decade, probably unequalled since the eve of the declaration of war on Spain.

President Wilson, calm and confident, heard the fiery results of the voting in the cabinet room at the White House with some of the cabinet members. He told them he was much gratified with the support of congress.

Released from the bonds of embarrassment forced upon him by the dimensions of the vote, the president represented in foreign capitals as indicating that he was making a statement to the sentiment of the elected representatives of the people. President Wilson's submarine negotiations with the central powers.

Next Step.

The next step probably will be an answer to Germany's last proposal to settle the Lusitania case, in which the United States will probably ask each further assurance as it considers sufficiently broad and complete, to guarantee that the new submarine warfare will not endanger Americans traveling the seas on merchant vessels.

The president and his advisers regard the action of the house as a victory since the eve of the declaration of war on Spain.

One of the day's surprises was the failure of the administration to develop appreciable strength against the president.

Representative Cooper and do not embarrass him in his negotiations with foreign countries. Was the whole burden of the argument of the administration leaders.

They paid little attention to the involved legal phases of the situation, they argued, that the president had said the reported attitude of congress was opposed to his policy was embarrassing him abroad, and to that they stuck.

Tributes were paid the president by almost all of the Democratic speakers. And Representative Davis of Texas continued to express approval of his remarks with Amen. Mr. Cooper responded "Thank you, Mr. Speaker."

The galleries were packed throughout the day and hundreds were turned away.

Now that votes have been taken in the senate and house and the state department is preparing to go on with negotiations, President Wilson hopes that there will be as little further discussion of the issue as possible.

How They Voted.

Following is a summary of the final vote on the motion to table the McLemore resolution.

HEALTH TALKS

WILLIAM BRADY, MD.

When the Old Man Retires

From the standpoint of material conservation—and that is the great concern of everybody nowadays—a vacation is absolutely indispensable. At least for every one over 40. The only question is: Which is a more advantageous vacation taken in small, frequently repeated doses throughout the year, or one taken in a single heroic dose at some particular season of the year?

Beyond doubt the vacation taken in small, frequently repeated doses throughout the year, or one taken in a single heroic dose at some particular season of the year.

By perseverance a workman, alone and undisturbed, can move a car of coal along the track; a married man can open a jar of fruit; a faithful patient can recover from tuberculosis; and a grateful customer can settle a doctor bill. By perseverance great battles have been won, woman has gained the right of suffrage, and immense fortunes have been extracted from big business. But perseverance can be overcome. The good workman stops once in a while to get a fresh hold.

After 40, one's expectation of life is considerably less than it was for persons under 30. I want to call your attention to the fact that on June 18, a little over six weeks ago, the president of the United States, in a note written to the allied powers, used this language with reference to what is now called "the unquenched right."

"In proposing this formula as a basis of conditions, I do so in the full conviction that each government will consistently adhere to the purpose of saving the lives of innocent people rather than the insistence upon doubtful legal rights, which may be denied on account of the new conditions."

Doubtful Legal Right.

"Doubtful legal right is what the state department terms this on Jan. 18, 1916, since then did it become an unquestionable legal right, concerning which there can be no part of patriotic Americans? Is your secretary of state a patriotic American or not?"

It is tabling, there will be no further discussion of the issue, giving the house an opportunity to vote on a simple resolution of warning, and thereby give notice to your president and my president, that the president of the United States, in a note written to the allied powers, used this language with reference to what is now called "the unquenched right."

Representative Hefflin, Democrat, of Alabama, dramatically asked the roll of the Southern states to ask them where they stood. From the back of the Southern delegations that the South was with the president. The issue, Mr. Hefflin said, was not a question of law, but a question of fact. The South was with the president, and the president, or von Bernstorff and the Kaiser.

Representative Decker, Democrat, of Missouri, replied: "In Germany the issue was, 'Will we stand with the Kaiser?' In England, 'Will we stand with the King?' In Russia the issue was, 'Will we stand with the Czar?' In Italy the issue was, 'Will we stand with the King?' In France the issue was, 'Will we stand with the President?' In the United States the issue was, 'Will we stand with the President?'"

North Asks Straight Vote.

Republican Leader Mann, who had been expected to take the lead in the struggle, only made one speech while the debate of the previous question was in progress. He stated that the president should be given a straight vote on a warning proposition.

Representative Shackelford, Democrat of Missouri, caused genuine surprise by a speech in which he stated that the McLemore resolution, it was due to Mr. Shackelford's activities, largely without the aid of the speaker, of a resolution started. He insisted that he still was for a warning resolution, but that he had decided to support the president's diplomatic negotiations, he was ready to vote against it.

In all the fight nobody, except Representative McLemore himself, had a word to say for the resolution, about which all the storm centered. The Republicans, because they wanted a chance to substitute another drawn by Representative Cooper.

The long debate, lasting from 11 o'clock in the morning until well after midnight, was a most interesting one. It was conducted with the utmost good feeling. Only once—when Representative Cooper stated his opposition—was there the slightest sign of bitterness. Republican mood and groaned. But with a few laughing remarks, and thumps with his gavel, Speaker Clark restored order.

Intentionally, the speaker celebrated his sixtieth birthday. The speaker, Mr. Clark, was the speaker's birthday. The members rose and cheered him enthusiastically.

Jests passed frequently. Once, when Representative Cooper was speaking, Representative Davis of Texas continued to express approval of his remarks with Amen. Mr. Cooper responded "Thank you, Mr. Speaker."

The galleries were packed throughout the day and hundreds were turned away.

Now that votes have been taken in the senate and house and the state department is preparing to go on with negotiations, President Wilson hopes that there will be as little further discussion of the issue as possible.

QUESTIONS AND ANSWERS.

Good Emetic.

Please state what is best to give for an emetic in an emergency when no doctor can be had?

Answer—A teaspoonful or more of syrup of ipecac, repeated every fifteen minutes until vomiting occurs. Or half a teaspoonful of powdered alum stirred in syrup or molasses. Or a teaspoonful of mustard in a glass of lukewarm water. Or a tablespoonful of salt in half a glassful of warm water. Or, best of all, we think, one grain of copper sulphate in a tablespoonful of water—this usually acts instantly on the stomach.

Candy Versus Juicecrack.

Is candy harmful for children of 6 or 7 years? Does it spoil the teeth? Does it make worms?

Answer—Good candy—real old-fashioned candy—is good for children. They love it, require it and should have it, but not all day; only after meals or at meals. Let it be dessert. Pure candy does not spoil the teeth—it makes better teeth. The "worm" question would look better in an almanac. Nothing but worms will produce worms.

Should one go to a dentist or a physician for treatment for Riggs' disease?

Answer—Consult both. They should work together.

If your question is of general interest it will be answered through this column; if not it will be answered personally if stamped, addressed envelope is enclosed. Dr. Brady will not prescribe for individuals cases or diseases. Address, Dr. William Brady, care of this newspaper, Duluth, Minn.

PLAYGROUNDS NEED REPAIR

Resurfacing Will Be Necessary at Several Schools, Says Batchelor.

Work Needed at Jefferson, Franklin, Longfellow and Madison Grounds.

School playgrounds at many buildings are unusable, and must be resurfaced or otherwise improved, before they are available for efficient work, according to J. R. Batchelor, city and school recreational director, in a report which was submitted to the board of education Friday night.

"At many schools," reads the report, "the grounds never have been surfaced and are a sea of mud a great part of the time, when a few loads of crushed rock would render them the finest kind of playgrounds."

The Ely, Munger, Washburn, Lester Park, Ensign, Lakeside, Webster, Madison, Seltzer and Washington schools are fairly well provided for, the report indicates, although the grounds need resurfacing.

Director Batchelor has the following to say about other buildings and grounds: "At Jefferson school there are two 25-foot lots fenced off from the remainder of the playground, and filled in and surfaced, they would go a long way toward relieving a bad situation."

"At Franklin school the alley is higher than the playground and water runs across the grounds continually. This should be remedied."

"There is no room for play at Madison school, but the city has condemned a lot of ground, and the school for play purposes, and the recreation director is endeavoring to make it into a playground."

There is no playground at Whitwell school. Two vacant rooms in the building are being used.

"There are no playgrounds at Emerson, Bryant or Lakeside schools, but each is within a block of a city playground."

"Adams school is undoubtedly in the worst condition, with respect to playground facilities, of any school in the city. There is no opportunity to relieve the situation. The only thing to do is to blast out some rock and add a few square feet where every little helps."

DULUTH WILL SEND FOUR DELEGATES

Representatives of Ad Club Will Be Named on March 28.

Duluth will send at least four delegates to the annual convention of the Associated Advertising Clubs of the World to be held at Philadelphia, June 25 to 28.

This was announced at the regular monthly meeting of the Duluth Ad Club, held at the Commercial club last evening. When the "On-to-Philadelphia" campaign was launched and a committee appointed to increase the Duluth delegates named to represent the club, to be held on March 28, officers will be elected and the convention delegates named to represent the local organization. Miron Bunnell was last evening chosen chairman of the "On-to-Philadelphia" committee.

Charles H. Mackintosh, president of the club, and the following non-instituting committee to prepare the slate for the election: Fred Hoff, chairman; Miron Bunnell, J. D. Milne and Zeig Sellman.

WOODSMAN UNABLE TO CONVICT "HOTEL" PROPRIETORS OF "BLIND PIGGING"

Steve Yuko, lumberjack, has decided that he is a poor detective.

Several days ago Yuko conceived the idea of avenging his friends, who had been robbed of various sums of money while at rooming houses on West First and West Superior streets.

Proprietors of the rooming houses were selling beer and whisky to the newly-arrived workmen, Yuko thought, and he knew it was illegal to sell liquor without a license.

"Come with me," he said to Detective Foster and Barber, "I will show you blind pigs."

Yuko visited four different rooming houses, returned with four bottles of beer. "I bought one in each place," he said.

A police raid followed and six proprietors were arrested as "blind piggers."

'Healthgrams' On Skin—Flashed to Thousands

One of Nature's signals is an unhealthy skin. It is a scientific fact that the skin indicates the condition of the blood and the blood is the building material for the body and all its vital parts. Unless the blood is nourished and kept rich and healthy, it will eventually react on the organs it feeds and reduce the individual to a pitiable condition. Little do people realize the physical ailments that drain away strength and vitality and that can be traced straight to the poor supply of blood.

Pimples, Eczema, Salt Rheum, Rheumatism, Carbuncles, Boils, Catarrh with its obnoxious results and the tendency to easily catch cold, Malaria and scores of other equally serious ailments, are all manifestations of bad blood. For over 50 years S. S. S. has been a mighty remedy for these disorders. Thousands of men and women have been relieved or actually cured by S. S. S. Many of them had spent years and hundreds of dollars for other remedies in a fruitless endeavor to regain health—a marvelous tribute to S. S. S. S. S. is purely vegetable and when taken into the stomach is absorbed by the blood, supplying certain elements which stimulate the action of the blood corpuscles and help them drive out impurities and build up the system. With such a tried and true medicine awaiting you at the closest drug store, will you go on suffering and looking badly when so many others similarly afflicted have turned to S. S. S. and found the meaning of perfect health. Our Medical Department will gladly advise you about your case without cost to you if you wish to avail yourself of this service. PUBLIC BUILDING OUTLOOK IS DARK

Little Hope for Hibbing Getting Desired Structure Very Soon.

Hibbing, Minn., March 8.—(Special to The Herald.)—Hibbing's proposed Federal building will have to wait till the present preparatory campaign is disposed of by the national lawmakers according to word Postmaster J. B. Conners has received from Sen. Scott, House Clerk and Congressman C. B. Miller to whom he wrote asking what the outlook was for Hibbing appropriation. Congressman Miller in his reply says:

"I beg to acknowledge the receipt of your favor of Feb. 19 stating the need of a public building erected by the government at Hibbing. Hibbing is certainly in every sense a town sufficiently large with interests sufficiently numerous to warrant the erection of a public building by the government. It is not against the proposition of getting the government to build a public building in the near future. It is not at all likely that any public building bill will pass congress this session or this congress."

Duluth Concern to Erect Substantial Structure on Pine Street Site.

Hibbing, Minn., March 8.—(Special to The Herald.)—One of Hibbing's oldest landmarks and the third wooden building erected here is being torn down to make way for a modern brick building to be erected by the Duluth Brewing company.

The old building is located at 205 Pine street and was built in 1893. John Dorsey occupied it at that time, as a hotel.

It was one of the first buildings erected on Pine street.

STYLE SHOW WEEK.

Hibbing Retailers to Make Displays March 27 to April 8.

Hibbing, Minn., Feb. 8.—(Special to The Herald.)—The retail committee of the Commercial club last evening planned for a style show week.

It was decided to hold a week's program of style show features, from March 27 to April 8. The retail committee is contributing to the public good by inspiring the city with new ideas and civic pride through the emphasis of a well dressed appearance.

The resolution expresses the wish that all citizens unite in making style show week a great success.

All local merchants have consented to get in on the great "style show week" and to display their window displays and live models will be out features.

Seated on the committee are B. M. Lippman, E. A. Lissack and W. J. Ryder as a committee of three to arrange for the details.

The good roads committee of the club did not meet last evening to plan a lunch for the members' being snowbound because of the bad roads.

Hibbing Railroad Man Says Fever Is Pretty Bad Across Line.

Hibbing, Minn., March 8.—(Special to The Herald.)—The Canadian spy scare is worked to death in Canada, according to Mr. C. Kraemer, Hibbing citizen and veteran railroad engineer on the Canadian Northern, who recently arrived from the Dominion.

Kraemer says he was sitting in a Winnipeg hotel recently when soldiers searched for a Canadian spy. He is a well built man, the captain of the company asked him why he did not join the company. Because I am an American citizen and have had enough trouble fighting the battle of life for fifty-three years," replied the Hibbing man.

SYRUP OF FIGS, FOR CROSS, SICK FEVERISH CHILD

Look, Mother! Is Tongue Coated, Breath Hot and Stomach Sour?

Harmless "Fruit Laxative" Best to Clean Tender Liver and Bowels.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When crows fever, restlessness, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what if your little one has a cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then take carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.—Advertisement.

COUNCIL WILL TAKE UP MATTER FRIDAY

Virginia Lawmakers Then to Act on Saloon Reduction Idea.

Virginia, Minn., March 8.—(Special to The Herald.)—Next Friday night the city council will meet in committee of the whole and thresh out the question of reducing the number of local saloons from forty-nine to twenty-five as covered in the ordinance introduced at last night's meeting by Alderman Murray and given its first reading.

The proposed reduction will be effective July 1, 1917. The report of the fire and police commission against granting the reduction of 24 bars to establish a saloon in the seventy-five feet of the quarters now occupied by him as a saloon brought up the question of cigar stores in front of saloons during the afternoon. Alderman Murray alleged the commission seeks to evade the law by ordering cigar stores out of front saloons and intimating that saloons would be established.

"If the police and fire commission wishes the law enforced, it is necessary to issue orders to the police department to that effect and no bars will be opened after 11 o'clock at night or on Sundays," declared Alderman Murray.

Alderman McChes said he did not know when Finch's application was made for a saloon. He said he was not in connection with the bars and that these could be opened by moving them to the rear of the building. He said he was not in connection with the bars and that these could be opened by moving them to the rear of the building.

The whole question will come up Friday.

SNOW

Much better weather, thank you. This sunshine is first rate.

Following the weather, there is a snow storm, which is a good thing, as it will melt the snow and give us a good crop of wheat.

IMPROVEMENT CLUB OUTLINES ITS WORK

Eveleth Organization to Continue Work Begun Last Year.

Eveleth, Minn., March 8.—(Special to The Herald.)—At the annual meeting of the City Improvement club the club was organized for the coming season and plans made to continue the work of last year.

S. H. Owens was elected president, succeeding J. C. Poole. G. A. Perham was re-elected vice president, while Miss Richardson succeeded Miss Hickman as secretary.

The committee which conducted the gardening contest last year continued its work. A premium list will be prepared at once so no gardeners can prepare early to compete in the contest.

It was decided to ask the city council for an appropriation of \$100 to be distributed as prize money through the contest. A committee will meet with the council at the next meeting.

The club also decided to ask the council to pass an ordinance to prevent the posting of signs or advertising matter on telephone poles on the streets where the council has power to do so.

D. & N. M. BRAKEMAN IS BADLY INJURED

Snow Plow Falls on Knife River Man, Sending Him to Hospital.

Knife River, Minn., March 8.—(Special to The Herald.)—Winifred Curry, a brakeman on the D. & N. M. railroad, was badly injured by a snow plow yesterday. The men were unable to lower the plow and Mr. Curry crawled under to locate the cause, when it suddenly dropped down on him, sending him back.

The blow partially paralyzed his left side. He was taken to Two Harbors hospital for treatment.

EVELETH FACES LAWSUIT

May Have to Defend Action for Using Imhoff Disposal Tank.

Eveleth, Minn., March 8.—(Special to The Herald.)—The city has been notified unofficially of a possible suit for royalties for the use of the so-called Imhoff tank as part of its sewage disposal plant and is invited to join with other cities using the tank in investigating the proposition.

The matter came to the attention of the Lawrence-McCann company of this city, builders of the septic tank in Virginia, when Mr. McCann has notified City Attorney J. C. McGilvery of the possible complication.

Seated on the committee are B. M. Lippman, E. A. Lissack and W. J. Ryder as a committee of three to arrange for the details.

The good roads committee of the club did not meet last evening to plan a lunch for the members' being snowbound because of the bad roads.

CANADIAN SPY SCARE.

Hibbing Railroad Man Says Fever Is Pretty Bad Across Line.

Hibbing, Minn., March 8.—(Special to The Herald.)—The Canadian spy scare is worked to death in Canada, according to Mr. C. Kraemer, Hibbing citizen and veteran railroad engineer on the Canadian Northern, who recently arrived from the Dominion.

Kraemer says he was sitting in a Winnipeg hotel recently when soldiers searched for a Canadian spy. He is a well built man, the captain of the company asked him why he did not join the company. Because I am an American citizen and have had enough trouble fighting the battle of life for fifty-three years," replied the Hibbing man.

Kraemer says while his train was hauling a company of soldiers to a

SYRUP OF FIGS, FOR CROSS, SICK FEVERISH CHILD

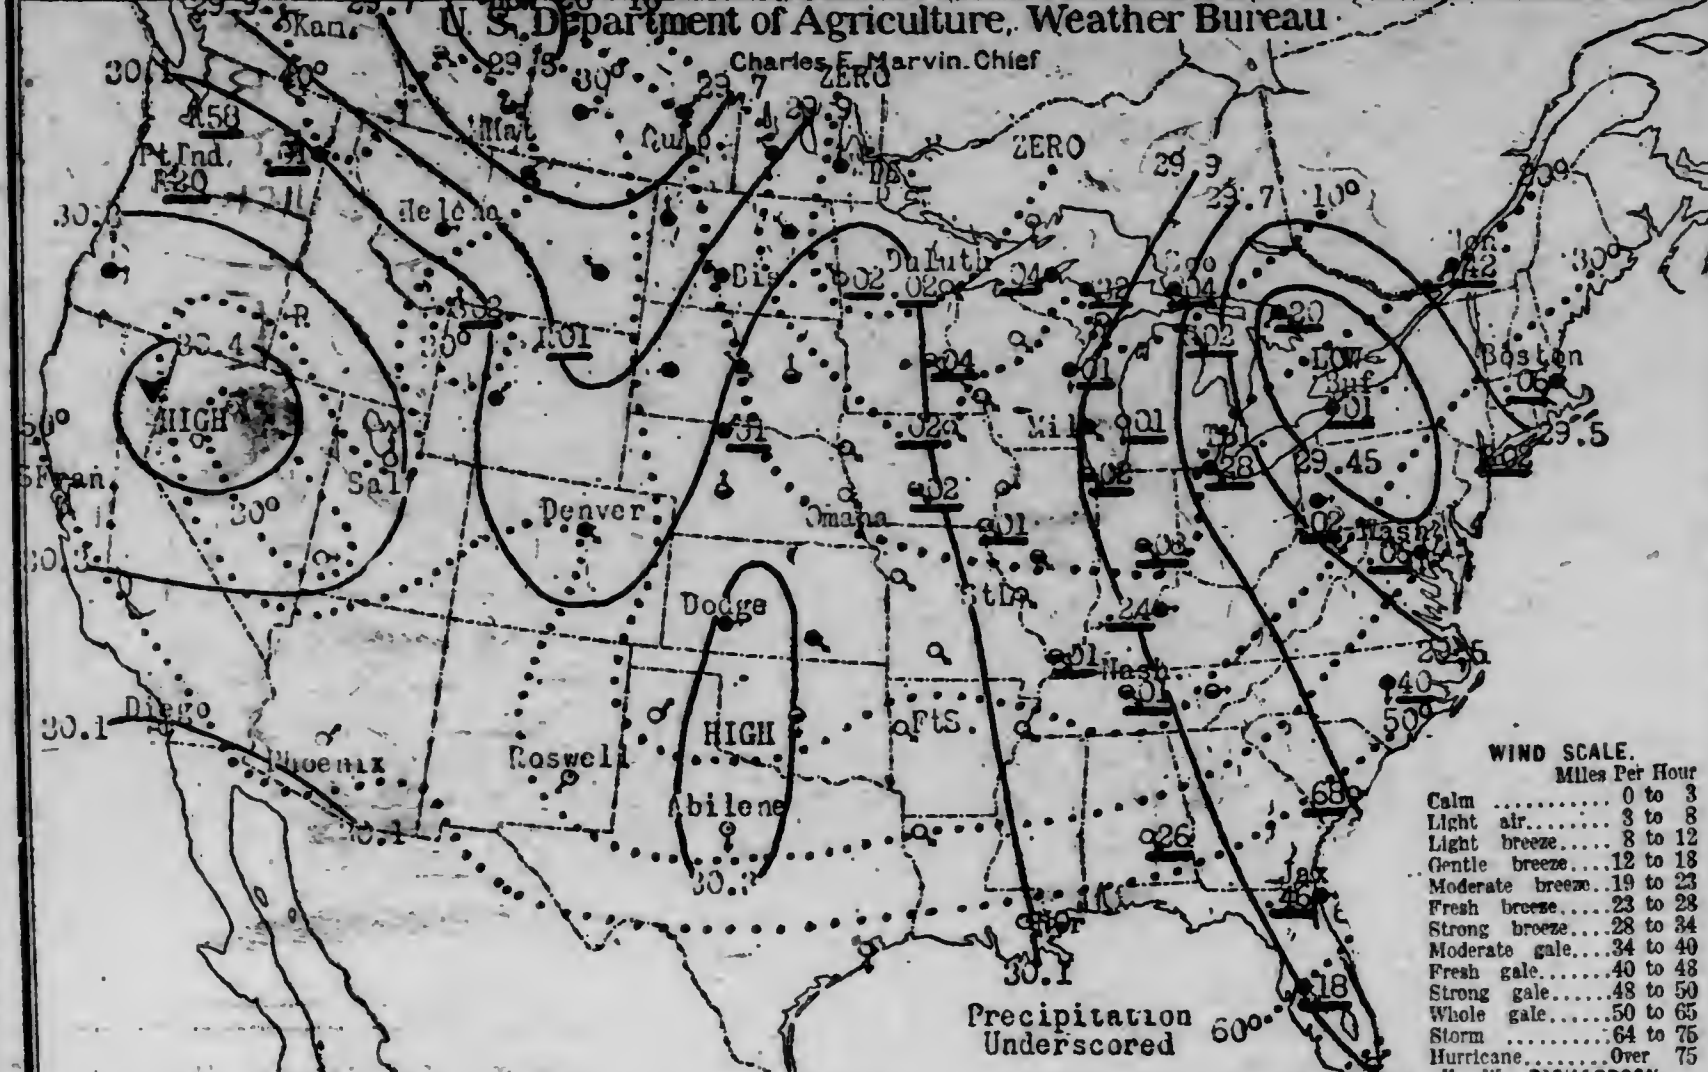

Look, Mother! Is Tongue Coated, Breath Hot and Stomach Sour?

Harmless "Fruit Laxative" Best to Clean Tender Liver and Bowels.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When crows fever, restlessness, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what if your little one has a cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then take carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.—Advertisement.

OFFICIAL MAP OF THE WEATHER

WHEAT TAKES FRESH BREAK

Market Slumps With Heavy Selling on Expected Bearish Crop Report.

Flaxseed Easier With Moderate Crushers' Support; Trading Active.

Duluth Board of Trade, March 8.—The market was stronger around the close, with short covering demand evident. A fair recovery was recorded. May wheat closed 2½¢ off and July 2½¢ off.

May durum closed 2½¢ off and July 2½¢ off. Oats closed ½¢ off at 39½¢ and 40¢ off on the track; rye unchanged to 1¢ off at 88¢ and barley unchanged at 66¢.

At Winnipeg, May oats closed ½¢ off at 40½¢. At St. Louis, May wheat closed at 81.07½¢ and July at 81.07½¢. At Kansas City, May wheat closed at 81.07½¢ and July at 81.07½¢.

At Minneapolis, May wheat closed at 81.07½¢ and July at 81.07½¢. Bear operators again took a turn at the bat in today's wheat market. Quotations opened off over 1¢ and thereafter prices moved away during the next two hours' trading, till a drop of 3½¢ was recorded.

Weakness was imparted through lower Liverpool cables and the market over there showing an increasingly tender tendency, with importers claiming that it is becoming easier to pick up wheat. Expectations that this week's statement will show larger shipments from Argentina also exerted an influence. The main cause of the break was, however, furnished in the impression that the government report on farm reserves to be issued after the close of the market would be bearish.

On that ground and on general conditions, the American grain company and some other big Chicago operators were said to be heavy sellers today, and the main market support appeared to come through short covering, as exporters did not seem to be interested and Eastern millers buying was only scattering in view of the difficulty of getting grain forward prior to the opening of navigation. Better bidding than in some days from that quarter did, however, appear on the low spots.

Receipts were light all round. At Duluth inspections were 104 cars against 159 a year ago. Minneapolis had 22 cars compared with 109 a year ago, and Winnipeg 216 cars compared with 202 last year. Probably owing to a more active buying after the movement, arrivals of bonded wheat here today fell off 64 cars, whereas they had been up to around the 150-car mark daily of late. Dealers are, however, of the opinion that the movement of Canadian grain here for the season has reached its apex, especially in view of notification by the Duluth Board of Trade that the elevators at this point are nearly all filled up.

May wheat opened 1½¢ off at \$1.13, and with persistent selling it stood at \$1.10 at the noon hour. July opened 1½¢ off at \$1.13 and declined to \$1.10 at 2 p.m. In the absence of export inquiry, durum showed special weakness. The May future opened ½¢ off at \$1.09 and declined 2½¢. July opened 1½¢ off at \$1.09 and declined 2½¢.

Flaxseed Sells Off. Lower cables helped depress the flaxseed market. Crushers refrained from buying on the bulge, and with moderate selling, the market yesterday's close was recorded. The close was well above the low of the session on buying credit to 1½¢ off at \$2.10 asked.

At Buenos Aires flax closed 1½¢ off at \$2.10. At London 5½¢ off at \$2.10. Cash sales Wednesday: No. 1 hard wheat, 1 car, \$1.16; No. 2 hard wheat, 1 car, \$1.15; No. 1 soft wheat, 2 cars, \$1.12; No. 2 soft wheat, 2 cars, \$1.11; No. 1 northern wheat, 1 car, \$1.14; No. 2 northern wheat, 1 car, \$1.13; No. 1 southern wheat, 1 car, \$1.12; No. 2 southern wheat, 1 car, \$1.11; No. 1 durum, 1 car, \$1.12; No. 2 durum, 1 car, \$1.11; No. 1 barley, 1 car, \$1.12; No. 2 barley, 1 car, \$1.11; No. 1 oats, 1 car, \$1.12; No. 2 oats, 1 car, \$1.11; No. 1 rye, 1 car, \$1.12; No. 2 rye, 1 car, \$1.11; No. 1 flax, 1 car, \$2.10; No. 2 flax, 1 car, \$2.09.

Broomhals cabled from Liverpool: "Market was weak influenced by cheap Manitoba, and weakness in London and the political news from the East. Spot market was weak, 1 to 2¢ lower with reselling. Cargo market was weak, winter and Manitoba 3¢ to 4¢ lower and no bidding; Platte and Australian were 7½¢ to 8¢ lower. Export demand is being satisfied at declining prices, and a belief in continued free marketing in North America in view of large reserves."

Russell's News, New York, said: "The continued lack of important buying of wheat for export is causing much comment. There is no special buying at this morning's break. A prominent local exporter says that political opinion is really the explanation of the practical cessation of export wheat buying. His advice from abroad are that the allies are confident of their position and are basing their policy on the successful marketing of Turkey, which is expected to result in that country being forced to make peace. Bulgaria is expected to be likewise influenced, in which case Roumania would be expected to join the allies and great efforts would then be made to overwhelm Austria."

GEN. VILLA RAIDS UNITED STATES

GERMANS CAPTURE VILLAGE AND ARMORED FORT OF VAUX WITH ADJOINING FORTIFIED PLACES

ATTACK MADE AT NIGHT BY POSENTROOPS

Repeated Assaults on Bethincourt Village Repulsed By French.

Early Report From Paris Says Germans Defeated at Vaux.

French Insist That the German Troops Cannot Take Verdun.

Berlin, March 9, via London, 3:45 p. m.—The village and armored fort of Vaux, northeast of Verdun, has been captured by the Germans, the war office announced today.

The announcement says that in addition to the village and fort of Vaux, numerous adjoining fortified positions were captured. The assault was made in the night by Posen reserve regiments.

Repulsed at Bethincourt. Paris, March 9, via London, 3:21 p. m.—On the Verdun sector west of the Meuse the French have repulsed repeated attacks on the village of Bethincourt, according to semi-official statement made here today.

Germans Defeated. Paris, March 9, 3:43 p. m.—The Germans have been repulsed between Douaumont and the village of Vaux after several heavy attacks accompanied by intense artillery fire and violent infantry assaults, according to the French official statement which says the attacks were completely defeated after having penetrated the village of Vaux.

French More Confident. Paris, March 9.—The official statement published last night has done much to relieve the tension which had been caused in the public mind by the expectation of a great onslaught on the main French defenses on the west bank of the Meuse. The French are now more than ever convinced that the Germans will not be able to take Verdun.

Military observers express the belief that the Germans originally intended a frontal attack on Verdun, which was (Continued on page 11, second column.)

GERMAN FLEET BACK TO PORT

Great Teuton Squadron Appears in the North Sea.

Watchfulness of British Fleet Causes Withdrawal to Base.

London, March 9.—The morning newspapers publish from their correspondents in Holland such details as are available there regarding the recent activity of the German fleet in the North Sea. According to these accounts the fleet included about fifty craft of all descriptions, from the most modern dreadnaughts down to old-fashioned torpedo boats. The fleet was escorted by two Zeppelins, which served as scouts to prevent a surprise attack by hostile vessels. One trawler sighted this fleet 165 miles due west of the mouth of the Elbe. Another saw it thirty-five miles northwest of Ymuiden. All the German ships were painted a war gray and were invisible at a short distance. Heavy clouds of smoke frequently hid them completely.

One Dutch trawler is quoted as having made the following report: "During the recent air raid on England a Zeppelin was seen scouting in advance of three cruisers and a fleet of destroyers and submarines, which were believed to have the intention of making a dash for English waters. The Zeppelin, however, made certain discoveries regarding the watchfulness of the British fleet and the German squadron hastily withdrew."

CANDIDATES FEEL BETTER

Views of Attorney General Relieve Many From Embarrassment.

Delegate Candidates Not Governed By the Corrupt Practice Act.

St. Paul, Minn., March 9.—(Special to The Herald.)—As Attorney General Smith and his assistants view it, the personal conduct of candidates for delegates to the national conventions to be voted upon next Tuesday is not governed by the corrupt practice act. But such candidates are subject, generally, to all the provisions of the election laws.

Candidates Relieved. This viewpoint, which Attorney General Smith says must not be taken as an official opinion by the department, relieves considerable embarrassment on the part of a number of candidates for delegates who figured they were "up against it."

Although early in the campaign Mr. Smith took the view that the primary laws had no relation to the selection of presidential delegates, his position was somewhat shaken by the findings of the supreme court, in which the presidential primary law was held to be constitutional. The court held that (Continued on page 11, second column.)

THREE HANGED BY VILLA; BODIES BURNED

Ranchmen Murdered by Mexican Bandits at Palomas Ranch.

Columbus, N. M., March 9.—Arthur McKinney, foreman of the Palomas ranch, William Corbett and James O'Neil, captured by Villa Tuesday, were hanged and their bodies burned today. According to information received here today, the hanging occurred when the bandits raided the cattle herd of the Bosques Grandes ranch.

400,000 CROSSED THE ATLANTIC LAST YEAR

That Number Sailed Between American and European Ports Despite War.

Washington, March 9.—Despite the perils of submarine warfare 400,000 persons crossed the Atlantic between American and European ports as passengers last year. Figures assembled by the bureau of navigation show that 250,000 of them traveled on vessels owned by the belligerents. One hundred and fifty thousand took passage on neutral ships.

Slightly more than half the Atlantic travelers were eastbound. The Italian ships carried more than one-third of the passengers. Only 38,000 of the passengers traveled first class. Two hundred and seventy thousand went in the steerage.

Passengers carried by belligerent ships are divided as follows: By Italian ships, 113,000; British, 89,000; French, 43,000; Russian, 6,000; Belgian, 1,000.

Those on neutral ships were: American, 51,000; Greek, 28,000; Danish, 27,000; Dutch, 23,000; Norwegian, 15,000; Spanish, 4,000.

'WATER WAGON' CAUSE OF RIOT IN TORONTO

Prohibition Parade Brings About Much Trouble at Ontario Capital.

Toronto, March 9.—Several persons were hurt here yesterday in a riot, as a result of a prohibition parade to the parliament buildings in which several thousand persons, many of them women, in automobiles took part. Some of the overseas soldiers took exception to an allegorical representation by Man Ontario on the "Water Wagon," and attached a placard bearing the words, "We Fought for You; Would You Deprive Us of Our Liberty?"

This was torn off by an angry mob and a fight ensued. A half mile long banner, a feature of the parade, was reduced to shreds, and mounted police were compelled to force their horses into the crowd before order was restored. Meantime the "waterwagon" had taken a short cut to the parliament buildings.

Premier Hearst, after hearing addresses by clergymen and receiving a petition from the paraders, which advocated a "dry Ontario," announced that if the referendum on prohibition is carried, the government will do all in its power to enforce the law.

ONE OF GERMAN GENERALS WHO ADVISED ATTACK ON VERDUN

GEN. VON DEIMLING. It is reported from Germany that the crown prince has had the advice of Field Marshal Count Haseeler, the oldest man in active service in the German army, and Gen. von Deimling, in his sensational attack on Verdun. This sketch of Gen. von Deimling was made in the trenches.

TURN ATTENTION TO ANTHRACITE MINERS

New York, March 9.—Bituminous operators and miners having agreed on a new wage scale for the soft coal fields of the Middle West, the international officers of the United Mine Workers of America today focused their attention on the anthracite situation with a view to working out a satisfactory agreement with the hard coal companies of Eastern Pennsylvania, who employ 175,000 men and boys.

MCCUMBER WITHDRAWS ARMED SHIP MEASURE

Washington, March 9.—Senator McCumber, Republican of North Dakota, today withdrew his resolution to warn American citizens off armed ships, stating that he thought that Americans had been effectively warned and that the pendency of his resolution might embarrass diplomatic negotiations.

ATTACKS TOWN IN NEW MEXICO; KILLS AND WOUNDS AMERICANS

UNITED STATES MAY BE FORCED TO INTERVENE IN MEXICAN AFFAIRS

Massacre at Columbus Brings New Crisis Before the President.

May Find It Difficult to Refrain Longer From Interference.

Not Decided Whether Troops Will Be Sent Across Line.

Washington, March 9.—Faced by a new crisis in Mexican affairs by the Columbus, N. M., massacre, administration officials admitted that President Wilson might find it difficult to refrain longer from actual interference.

What the administration leaders, who favor a watchful waiting course, fear most is an outbreak in congress with its consequent effect upon the country. The senate particularly, which contains many vigorous critics of the administration's Mexican policy, has just settled down from the flurry over the Cusi massacre of several weeks ago.

At the White House the only word given out was that steps would be taken to punish the Villa bandits, but it was not indicated whether Gen. Carranza would be called upon to do so or whether American troops would be sent over the line.

The state department is understood to have begun the draft of a memorandum to Gen. Carranza based on the report of Gen. Funston. The memorandum is being prepared with a view to its despatch in case Secretary Lansing decides to present the case to Gen. Carranza, it probably will be drafted along lines similar to the communication sent Carranza on the Santa Ysabel massacre, that because of the more serious aspect of the present incident, probably will be firmer than the previous one.

President Hears Reports. Washington, March 9.—First reports of the Mexican raid on Columbus, N. M., were received at the White House while President Wilson was having his first conference with Newton D. Baker, the new secretary of war. Officials admitted (Continued on page 11, third column.)

LINER IN COLLISION; NO LIVES ARE LOST

Newport News, Va., March 9.—The Old Dominion line passenger steamer Madison, New York to Norfolk, and the tug Daniel F. Willard, collided in Hampton Roads at 10:30 a. m. today. The tug was cut in two and sank immediately. There was no loss of life.

RUPTURE WITH GERMANY THOUGHT INEVITABLE

Paris, March 9.—A rupture with Germany is regarded by the Portuguese government as inevitable, says a Lisbon dispatch to the Mail. Special protective measures accordingly have been taken along the coast and at the entrance of the Tagus against submarines. The lighthouses have been ordered to remain dark.

FOR THE NATIONAL HONOR.

BANDITS 800 STRONG SURPRISE VILLAGE OF COLUMBUS AT DAWN

Eight Civilians and Six United States Troopers Fall Victims to Murderous Fire of Mexican Invaders.

Many Mexicans Shot Down By Soldiers Who Drive Them From Town and Pursue Them Across Border.

Columbus, N. M., March 9.—A band of Mexican bandits, numbering from 800 to 1,000, supposedly under the personal command of Francisco Villa, raided United States territory early today. They attacked Columbus, killed American civilians who exposed themselves and set fire to several buildings. For nearly two hours fighting continued in the streets. Col. H. J. Slocum speedily brought the Thirteenth cavalry into action and short after 6 o'clock drove the raiders across the border.

Nine civilians and six United States troops were the known dead early in the day.

The dead: A. L. RITCHIE, hotel proprietor. WALTON WALKER, Playas, N. M. MILTON JAMES. MRS. MILTON JAMES. J. J. MOORE, merchant. J. S. DEAN. C. C. MILLER, druggist. W. R. WALKER, guest Central hotel. UNIDENTIFIED CHAUFFEUR. FRANK KENDVALL, horseshoer, Troop K. SERGEANT MARK A. DOBBS, machine gun troop. CORPORAL PAUL SIMON. SERGEANT JOHN NIEVERGELT, band. CORPORAL HARRY WISWALL, Troop G. FRED A. GRIFFIN, private, Troop K.

The wounded: Jesse P. Taylor, Troop F; Thomas Butler, Troop F; Theodore Kalkorke, Troop L; Michael Barmazel, machine gun troop; John Yarbrough, Troop K; James Venner, Troop M; John Keogh, Troop G; Lieut. C. C. Benson, Troop G.

Villa in Command. Information that Francisco Villa and his chief lieutenant, Pablo Lopez, were in personal command of the raid was given Col. Slocum by a Mexican rancher captured by the bandits last Sunday and who escaped during the fighting. This Mexican told of the hanging of the American ranchers McKinney, Corbett and O'Neil. He added that a fourth American, whose name he did not know, had been hanged at the same time. The Mexican said Villa attacked with from 800 to 1,000 men and a machine gun platoon. The Mexican told Col. Slocum that (Continued on page 11, fourth column.)

COURT SAYS QUEEN LIL WAS SOUND IN MIND

Former Hawaiian Ruler Competent to Execute Deed of Trust.

Honolulu, March 9.—The supreme court of Hawaii held yesterday that Liliuokalani, former queen of Hawaii, was mentally competent when, several years ago, she executed a deed of trust conveying all her property to three trustees headed by the late Samuel K. Kamehameha, father of Princess Kaiulani, also deceased.

The decision was rendered in a suit brought by her nephew, John Kubio Kahanianale, better known as Prince Cupid, delegate to congress from Hawaii, to have the trust deed dissolved on the ground that the former queen was mentally unsound when she executed it.

GERMANY DECLARES WAR ON PORTUGAL

Berlin, March 9, by wireless to Sayville. — Germany declared war on Portugal at 3:30 o'clock yesterday afternoon and handed his passports to the Portuguese minister.

SENTENCES SUSPENDED

Canadian Soldiers Who Assaulted American Minister Not Punished.

Dragged From Home and Knocked Down in Street.

Berlin, Ont., March 9.—Sentence has been suspended on the two soldiers who, with others, recently broke into the home of the Rev. R. C. Tappert, pastor of St. Matthews Lutheran church, and dragged him to the street. Mr. Tappert says he is an American citizen and a protest against his treatment at the hands of the soldiers has been filed by the American consul at Hamilton.

At the trial Mr. Tappert said that when the soldiers came to his home he locked the door, fearing violence. The door was broken open and when the minister refused to accompany the soldiers to the street he was knocked down. While he was being carried into the street by the heels and the head, Mr. Tappert said, he was repeatedly kicked.

The two soldiers, Sergeant Major Blood and Private Schaefer admitted (Continued on page 11, second column.)

WORKS IS VISITING NORTHERN MINNESOTA

St. Paul, Minn., March 9.—S. D. Works, state insurance commissioner, left yesterday for a tour of the towns and cities in Northeast Minnesota, where he will inquire into the fire hazard due to the proximity of forests. Fire insurance ratings for this section will be placed largely on the closeness of the forests and protection from fire.

ANOTHER SHIP WILL BE BUILT AT SUPERIOR YARD

New Vessel Will Be of Well-land Canal Size and Cost \$350,000.

Last Boat Contracted for 1916 Delivery at Head of Lakes.

A contract for another steel ship to be built at the Superior shipyard has been acquired by G. A. Tomlinson, president of the Superior Shipbuilding company, who returned this morning from the East.

This is the last ship that will be contracted for 1916 delivery by the American Shipbuilding company, of which the Superior company is a subsidiary.

The new ship, which will be of Well-land canal size, will cost \$350,000, and will have a capacity of about 4,000 tons dead weight. The ship will be 257 feet long with a beam of 43.5 feet and will be used in the coast trade. The names of the owners contracting for her have not been revealed as yet, but will be later.

The vessel will be fitted with surface condensing, triple expansion engines, and will have copper piping and full canal equipment.

This is the second ship that Mr. Tomlinson has contracted for, to be constructed at the Superior yard this year. The other will be a reconstruction job, part of an old ship being used as the nucleus of the new, and being built up into a 600-foot vessel with 62-foot beam, costing in the neighborhood of \$450,000.

The work on the latter vessel will begin this month and there will be a little delay as possible in beginning work on the canal-sized ship, for the reason that she is to be delivered in the fall, before ice conditions will prevent her reaching the Atlantic coast.

The two contracts ensure a very busy season at the Superior yards, the busiest they have seen since the halcyon days of "before the panic." Thousands of men will be employed all summer, and it may be that before the contracts now on hand are filled, others will have been landed.

As there is no telling what will be done, I would not be surprised to see our yard crowded with orders and every yard on the Great Lakes in the same condition, so that we would have

to work clear through the next two years on full time.

"Never before in the history of the world has there been such a condition in ship demand and supply as at present. The lakes are had enough, but the coasts are worse. Every craft that can carry a ton of freight, no matter how small or how old she is, is being grabbed."

"I was in New York on this trip and learned some amazing things regarding the vessel conditions. It is an actual fact that ships are being built of yellow pine with auxiliary gas engines, the vessels about as large as a trifle larger, and are being sold at about \$240,000, or about \$120 a ton dead weight capacity. These boats are being contracted for delivery in ninety days and are being grabbed. They are being rushed out and pretty soon the coast trade will be alive with these yellow pine boats. They are getting enormous freight rates on the coast and one of these boats will earn her cost in a year, making the rest of her career a profit."

"For that reason, and with the demand apparently certain to continue, I am surprised to see a regular shipbuilding rush in our own yard."

**GALE AND COLD
WAVE COMING**

Zero Temperature and Forty-Mile Wind From Northwest Predicted.

Brand Whitlock says that spring in the lake region is a "summing up" and recapitulation of winter. Duluth experienced some of this kind of spring today.

"Cold wave with a northwest gale," was the news that Weather Forecaster Richardson gave out this morning. "When we say 'gale,' he added, 'it means a wind of forty miles an hour or more.'"

The cold wave and wind will start in this afternoon, continue tonight, and will get to its worst by tomorrow morning, at which time the indications are that the temperature will have dropped to zero or below. At 10 o'clock this morning when the cold wave announcement was made, the temperature was 20 deg. above zero.

Mr. Richardson said that there would likely be but very little more snow, and any that will be in the air during the gale will be that blown from the drifts.

**MCKINLEY BOY QUALIFIES AS
MARINE CORPS MARKSMAN**

In an official bulletin issued by headquarters, United States marine corps, Washington, appears the name of Ludwig Hegler of McKinley, Minn., as having qualified as a marksman in that branch of the government service.

Hegler, who is a son of Mrs. M. Hegler of McKinley, enlisted in the United States marine corps at its local recruiting station, 517 West Superior street, on Aug. 28, 1915, and is now serving at the marine barracks, naval station, Guam, Ladrones island group, where he is having many interesting and varied experiences.

Considering the fact that Hegler is scarcely more than a recruit, his performance in gunnery is looked upon as a credit to the government.

He is a short, stout, and well-built young man, and he expects him to break many marksmanship records before his enlistment expires.

WILL DISCLOSE SOME "BUSINESS SECRETS"

ERNEST B. DUNNING.

An important meeting of the local division of the International Sales Managers' association will be held tomorrow noon at the Commercial club, at which time Ernest B. Dunning will deliver an address on the subject, "Business Secrets."

The local division is composed of the sales managers and selling executives of the large mercantile institutions, including as well, members from real estate, insurance and other lines of activities.

The association has many important projects under way for the advancement of the business interests of this community and it is expected that before the year is over many plans of a very important character will have been materialized.

The officers of the local division are: F. X. Gravel, president; C. G. Scott, vice president; and E. W. Russell, secretary-treasurer.

All sales managers, whether members of the local division or not, are invited to be present at tomorrow's meeting.

**BRainerd ORCHESTRA
SCORES BIG SUCCESS**

Brainerd, Minn., March 9.—(Special to The Herald.)—Brainerd's symphony orchestra, directed by Edwin Harris Bergh, Donna Ribbles Platton and Carl Swanson, gave a splendid performance at the Brainerd opera house last night.

The orchestra, consisting of 25 players, was well received by the audience, and the performance was a great success.

Mayor Beise Announces Campaign Against Operation of Blind Pigs.

Brainerd, Minn., March 9.—(Special to The Herald.)—Mayor R. A. Beise is emphatic in his denunciation of illegal gambling in Brainerd and has ordered all blind pigs wiped out. City authorities are co-operating in connection with Indian agents.

The place of Arthur Boppel in the old "Nugget" saloon was raided and it is claimed beer was found. Check books and day book were seized to gain information regarding shipments, if any, were made.

BANNER LAND SALE.

Quarter Section Near Thief River Falls Brings \$7,360.

Thief River Falls, Minn., March 9.—(Special to The Herald.)—Spring activity in realty has already started. Judging from the number of realty transfers recorded in the register of deeds office. The prize sale was that of the James D. Turnwall quarter section, about six miles south of this city, in Sanders township, St. W. Edgard, Sr., for \$7,360. Peter Myron sold a quarter in 2, 163-40 to Anton Myron for \$2,200. Roy Knutson and wife transferred a small piece of 17, 142-40 to Knut Olson for \$1,000. The total value of the realty changing hands is in excess of \$15,000.

BRainerd Sewer Work.—(Special to The Herald.)—The city council voted to issue \$45,000 bonds for a general sewer to follow the road of the old sewer from Maple street to the Mississippi river. Amendments to the city charter were proposed which will be submitted to the charter commission, providing for the assessments against abutting property of the cost of paving street intersections and an amendment to increase the tax levy of the city to 13 mills.

FLOUR PRICE IS LOWERED

Best Grade of Spring Patent Selling for \$6.50 Per Barrel.

Bakers Stocking Up and Bread Prices Will Be Stationary.

With the best grades of spring patent flour now selling at \$6.50 a barrel, the cost has been reduced \$1 a barrel in the last five weeks.

This reduction has been about as a result of a break in the wheat markets from \$1.35 at the end of January in the May future, to \$1.11 its figure yesterday. Bakers and jobbers who had been waiting for weeks to replenish flour supplies that had been running low are reported to have taken advantage of the opportunity to supply their requirements, and many have bought in sufficient quantities to cover needs for some time ahead. Consumers are therefore now guarded against any danger of the price of the loaf of bread being advanced or its size being reduced, as had been feared at one time.

At the office of the Duluth-Superior Milling company it was stated today that large flour orders had been booked for its mills during the last week in consequence of the break in quotations. "Shipping directions have been good and bids splendid," he said. "So active was the trade in flour this year that our two mills were operated steadily all through the winter and accumulations of stocks were comparatively small."

There is evidence of a material expansion in our business as in other years we have seldom operated both mills during the winter. Latterly, however, on account of being unable to obtain cars to ship flour East we have been compelled to confine our production to the Duluth mill with a daily capacity of 6,500 barrels.

Besides in the East, the local mill company has established a good market in the South for its Duluth, Imperial and other special flour brands. That the Duluth mill has been hampered recently through this competition of Kansas City millers who have been able to buy damp winter wheat cheap and after drying it has found it to be of good milling quality.

Exports of the Duluth-made flour have also been upon an extended scale up until recently to Liverpool and other European markets. The tie-up on the Eastern railroads and in ocean freight has been a factor in the bar against the acceptance of foreign orders during the last few weeks.

The handling under which American mills are now laboring in handling export trade is illustrated in the statement that it now costs \$2 a barrel to ship flour to London, as compared with a normal figure of about 50 cents.

The Duluth-Superior Milling company's management is looking forward to the season now being entered upon being the most satisfactory in its history. Orders booked so far are said to be sufficient to assure large shipments going forward to the East at the opening of lake navigation, and consumption through this district is reported to be expanding remarkably.

The company is a large employer of labor, having a force of 400 men in its mills, in addition to its office staff and corps of salesmen.

ELECTION SUPPLIES READY.

Distribution Made for Presidential Primaries to Be Held March 14.

Election supplies for the presidential primaries to be held on March 14 were yesterday afternoon dispatched from the office of County Auditor Halden to the various voting precincts of the county. There are in all 176 precincts, but forty-five of this number are in the city of Duluth. The work of getting out election supplies is being done under the direction of J. O. Walker, deputy county auditor, and entails the distribution of more than a ton of printed matter.

**MINER IS AWARDED
VERDICT OF \$30,300**

New York, March 9.—A verdict of \$30,300 in favor of Walter Lawry, a miner, who was burned in a gas explosion in the Ashtabula colliery near Nanticoke, Pa., was rendered in the supreme court here yesterday against the Delaware, Lackawanna & Western Railroad company, which operated the colliery.

The attorney for the plaintiff contended that where a mine owner knows a mine is not being properly conducted, it becomes his duty to shut it down. Failure to do this, the attorney contended, resulted in permanent and disfiguring injuries to his client.

BIG FARGO PAVING JOB.

Three Pieces of Work Aggregating \$53,000 Awarded.

Fargo, N. D., March 9.—(Special to The Herald.)—James Kennedy, local contractor, was awarded the contracts for three jobs of paving that will be done in Fargo the coming summer. All will be done in bituminous paving, the property owners in each of the three districts petitioning for that kind of work.

The total cost of the three jobs will be in the neighborhood of \$53,000 and includes the alleys in block 8 of Robert's addition, Fourth street north and intersection avenues and Sixth avenue south.

The Fargo paving program has been materially cut down owing to the fact that it was found that on some of the streets and avenues for which the commissioners had been petitioned for paving, a considerable amount of underground work has to be done before the paving work can be taken up. In several cases protests have stopped contemplated work.

**FOR BRONCHITIS, SEVERE COUGHS
COLD AND WHOOPING COUGH**

Make the Best Medicine at Home—128 Teaspoonful for 50 Cents.

Money spent for the old style, ready-made medicine usually sold in bottles holding only 2 to 2 1/2 ounces (16 to 20 teaspoonfuls) is largely wasted, because most of them are composed principally of sugar and water.

You have to pay the same price as if it were all medicine. Stop wasting this money! You can make a better remedy for bronchial affections, at home at one-fifth the cost. Merely go to the Lyeum Pharmacy and ask for 2 ounces (50c worth) of Schiffmann's New Concentrated Expecto-rant, which they guarantee will give perfect satisfaction or money will be refunded. Mix this with one pint of boiling water, which makes a full pint (128 teaspoonfuls). This new, simple,

pleasant remedy is guaranteed to relieve the worst cough or cold, Bronchitis, Asthma, Whooping Cough, Hoarseness and Whooping Cough. One bottle will make enough home-made medicine to probably supply the whole family. Children like it so much that they will take it. It is unlike any other medicine, and positively contains no chloroform, opium, morphine or other narcotics, as do most cough mixtures. Keep it on hand in case of emergency and stop each cough before it gets a firm hold. The above drug is in fact any drugist in this city, will return the money (just the same as is done with Schiffmann's famous Asthma) in every single case where it does not do perfect cough mixture. Absolutely no risk in ever using this remedy—under this positive guarantee.

WEST END ASKED TO HEAD BETHANY HOME

Erick Myhrman Selected as
First Superintendent of
New Institution.

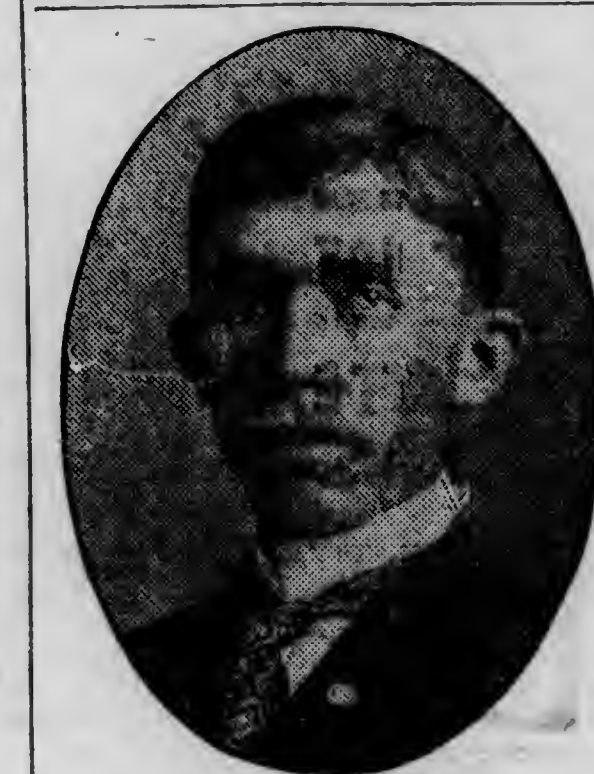

Campaign to Raise \$10,000
to Complete Payments
Is Outlined.

Erick Myhrman, 3917 Magellan street, was selected as superintendent of the Bethany Children's home at the meeting of the directors yesterday afternoon at the home of Rev. C. O. Swan, 219 East Sixth street. Mr. Myhrman has been an active worker in getting the institution located in this city, and while he has not definitely given his acceptance, it is believed by the directors that he will not refuse the position.

Plans for an active campaign throughout the Minnesota conference of the Swedish Lutheran church of the Augustana synod for a sum of \$10,000 needed. This sum is the amount required to complete the payment for the property at thirty-fifth avenue and Ninth street. An initial payment of \$2,000 was made at the time the purchase was made. The property cost the conference \$12,000.

A publicity bureau, which will reach through the mails prominent members of the conference, will be instituted. Miss Elsie Thorwall, 621 East Sixth street, has been selected corresponding secretary for the directors and will assist in this part of the campaign.

Plans for the opening of the institution will be made at the meeting of the directors in the near future. The opening date is set for May 1. Elaborate ceremonies are planned for the occasion.

CONSTRUCTION WORK IS BEING RUSHED

Four Buildings Will Be
Completed About
May 1.

Despite the handicap of storms the work of construction on buildings being erected in the West end is being rushed. The walls for the buildings on Twenty-first avenue and Superior street as well as those on Twenty-first avenue and First street have now risen to the height of the first story. The four buildings under construction are to be completed about May 1. The largest of the buildings, which is being erected on the corner of Superior street and Twenty-first avenue, will be arranged for six stories. The other three will be two, three and four stories deep. The other three will face Twenty-first avenue and be sixty feet deep.

The building being erected just east of this structure will be one story and be occupied by a department store. It will have a forty-foot frontage and be 100 feet deep.

SOUTH DAKOTANS LOSERS BY FLOOD

High Water Around Yankton
Claims Livestock and
Other Property.

Sloux Falls, S. D., March 8.—Heavy losses of hogs, cattle, horses and sheep by farmers in the lowlands of the James and Missouri rivers near Yankton, S. D., are reported by Yankton rescue parties who are patrolling the flooded area in boats.

Six to eight families are occupying single houses. In some houses horses and cattle have been quartered in the first story, while the family together with refugees occupy the upper stories.

First Train in Two Days.

One train from the west, the first in two days, made its way to Yankton yesterday. East and north, the tracks are covered with from eighteen inches to six feet of water. Between the towns of Volin and Mission Hill, communication by boat was established yesterday.

The ice gorge in the Missouri river between Yankton and Vermillion remains unbroken, but the water did not rise perceptibly during yesterday. The dammed waters of the Missouri have poured into the James river valley, and thence around the gorge and down stream.

Rev. Mr. Peterson has charge of one of the largest churches in the Iowa capital and the pastor is said to be one of the best known in the United Church conference. A visit from him is expected by the local congregation and his answer within a month.

The Zion church has been without a regular pastor since the death of Rev. J. M. Nervi in November. The pulpit has been supplied by various pastors of Duluth and Northern Minnesota.

Next Sunday Rev. P. F. Dahl of Minneapolis, president of the United Church Conference of the Norwegian Lutheran Churches of America, will occupy the pulpit at both services.

Many Farmers Attend Lectures on
Farming at Hermantown.

A large percentage of the farmers of Hermantown attended the lectures on farming given yesterday afternoon and evening and this morning by farm experts at the Hermantown Woodman hall. Poultry raising was the feature of the program of lectures for today. The speakers were M. J. Thompson of the St. Louis county state demonstration farm, Prof. E. C. Backman of the state agricultural school of St. Paul, and H. B. Larson, St. Louis county agricultural agent.

To Choose Paving Material.

All property owners on Eighth street between Twenty-fifth and Twenty-second avenue, and those on Twenty-second avenue between Eighth street and Piedmont avenue, are expected to attend the meeting to be held this evening at the council chambers of the city hall. The material for paving is to be selected at this meeting. Contractors have submitted bids on four classes of paving material.

STEEL CORPORATION TO BUILD TUBE PLANT

New Unit to Be Erected at
Gary at Cost of
\$25,000,000.

New York, March 8.—A new tube plant to cost \$25,000,000 will be erected at Gary, Ind., by the United States Steel corporation, according to official announcement made here by Elbert H. Gary, chairman of the corporation.

The new plant with other extension will make a total of about \$53,000,000 appropriated for new construction.

"We have decided," said Mr. Gary, "to build and will promptly commence the construction of a first class tube plant at Gary. It is estimated the improvements, including ore docks, ore yard, blast furnaces, converter mills, blooming mills, power station, waterworks, sheet and plate mills, universal plate mills, butt mills, job shops, and all auxiliary departments, will cost \$25,000,000. The probable plant will be built in two units, the first of which, it is hoped, will be completed in about fourteen months."

PRESIDENTIAL CANDIDATE ADMITS THAT HE IS WELL FITTED FOR THE OFFICE

William Grant Webster of Chicago, candidate for president, and whose name is on the primary ballot in Minnesota, is well qualified by education and accomplishments for high public station, according to his own admission.

Mr. Webster took his pen in hand yesterday, and wrote The Herald about himself and his platform. The affair is written with pen and ink and is evidently the work of the distinguished individual himself. He declares himself in favor of the annexation of Mexico, and of Canada, too, should the British empire become dismembered as a result of the war. The following, written by Mr. Webster, and bearing his signature, tells what he is for and against.

"William Grant Webster of Chicago, whose name will appear on the Republican primary ballot in Minnesota and other states as a candidate for president of the United States, has announced his platform, as follows:

"I favor the pacification and annexation of Mexico.
"I favor an immediate embargo upon the shipment of munitions of war to any belligerent.
"I favor a law prohibiting American citizens from traveling on belligerent ships.
"I favor prohibiting Federal reserve banks from subscribing to foreign war loans.
"I stand for national preparedness.
"Domestic questions are of minor importance at the present time; but as to the tariff, I have long favored a permanent tariff commission to investigate differences in the cost of production at home and abroad, and to report its findings to Congress.
"The United States could gain nothing by making war upon Germany, but we should hold ourselves ready to profit by any sudden change in the fortunes of the United States in the case of threatened dismemberment of the British empire, we should seize and annex Canada to prevent it from falling into the hands of Germany, or even to check the growing influence of Great Britain which, sustained by the favoring acquiescence of New York and New England, is coming more and more to look upon the United States as a British colony.
"William Grant Webster is well qualified by education and accomplishments for high public station. He is a graduate of Harvard university and of the Columbia law school, and he is a member of the bar of the supreme court of the United States. He be-

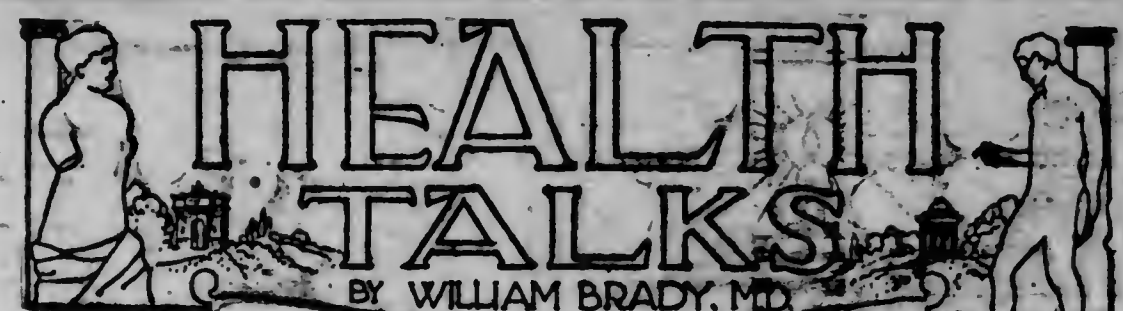

CHAPTER MASONS CONFER DEGREES

Keystone chapter, No. 20, Royal Arch Masons, observed Past High Priests' night last evening at the Masonic temple, the affair being largely attended by chapter Masons. Work in the Royal Arch degree was conferred on several candidates by past high priests, H. I. Plunio, presiding. He was assisted by Lyndon Ayres, W. D. Caldwell, W. J. Works, A. W. Torrance, C. G. Mead, C. G. Sterling, M. W. Turner and N. H. Wilson.

The degree work was preceded by a 6 o'clock dinner given by the officers for the past high priests and candidates. Among those who gave short talks on Royal Arch Masonry were: W. A. McDonald, John H. La Vague, Jerome E. Cooley and C. E. Longenecker, past high priests of the chapter. Mr. La Vague is the only living charter member of Keystone chapter, which held its first meeting nearly forty-five years ago. At that time there were only eleven Royal Arch Masons in the city. He gave an interesting talk on the early history of the chapter.

BELTRAMI COUNTY HAS NIGHT SCHOOL

Beltrami, Minn., March 9.—(Special to The Herald).—A night school, the first in Beltrami county for the purpose of educating foreign-born citizens and to aid them in becoming citizens of the United States, was established by

THE PERENNIAL TONIC

Now is the time to purify your blood. That is, if you hibernated, as everybody did a generation ago. Our fathers required spring tonics because the hard winters in those days left the system in a pretty weak condition. Their mothers had no use at all for night air, and ten nights in a bedroom was nothing at all compared with a hundred nights in the old-time bedroom, with the windows nailed shut and weather-strips tacked on the casing.

The blood requires a tonic, whatever that may be. In the summer, fall and winter. Oh, yes, we mustn't forget the spring. Why, sure enough, it is a "spring tonic." Isn't it? No one wants a summer tonic or a fall tonic or a winter tonic.

Just what a tonic is, we do not pretend to know, though we have prescribed for a number of years the best of confiding patients. If a tonic is something the system needs, something to restore a depraved body to normal conditions, we can recommend one for general consumption, that is for the general consumer. But the great trouble with our tonic and things is that they can't be bottled and taken from a spoon. Good medicine is as hard to take. The formula is as follows:

Put on your low-heeled, thick-soled shoes. Leave off your goshawks, throw out your chest and pin a note on the door saying, "Gone to call on Nature. Back soon with more pep." Then turn your face toward the sun and hit up a brisk, swinging pace. Walk till you begin to feel tired, then back home again. Make it at least two miles, and every day, rain or shine. Walking in the rain is the most enjoyable experience imaginable. If you are doing it from deliberate choice.

Every wife who loves her husband should take this tonic, no matter about how tired he is. If you are not sure about the milk, pasteurize it. If you are not sure about the milk, pasteurize it. If you are not sure about the milk, pasteurize it.

Dr. Brady will answer all signed letters pertaining to health. If your question is of general interest it will be answered through this column. If not it will be answered personally if stamped, addressed envelope is enclosed. By request, Dr. William Brady, care of this newspaper. Protected by The Adams Newspaper Service.

BEMIDJI PLANNING TO BUILD Y. M. C. A.

Beltrami, Minn., March 9.—(Special to The Herald).—Fifty young men, gathered at a banquet given by the two young men's classes of the Presbyterian Sunday school of this city Tuesday evening, discussed plans for a Y. M. C. A. for Bemidji.

The banquet was given for the purpose of interesting the young men of the city in the Presbyterian Sunday school. Charles Warfield, teacher of one of the classes, was toastmaster and called on several of the young men for toasts and talks. Rev. L. P. Ward, who has been in town, was a guest of honor at the banquet. He spoke on the advantages of the Y. M. C. A. and said that plans for the establishment of the young men of

Beltrami should be made. Definite plans for a Y. M. C. A. organization in this city are expected soon as the young men of the city have been discussing the proposition for some time and are now beginning to get together.

ROOSEVELT DISAVOWS ILLINOIS CANDIDACY

New York, March 9.—John W. McGrath, secretary to Theodore Roosevelt, announced yesterday that he had sent the following telegram from Roosevelt to Louis C. Stevenson, secretary of state of Illinois at Springfield, Ill.:

"I have just received the following cable for transmission to you: 'I hereby disavow candidacy of any and all delegates to Illinois primary who file petitions expressing preference for me for presidential nomination, Theodore Roosevelt.'"

BALFOUR'S REPLY TO CHURCHILL IS BITTER

Deprecates Controversy and Denies All Charges of Colonel.

London, March 9.—Bitterness marked the reply of A. J. Balfour, first lord of the admiralty in the house of commons to Col. Winston Spencer Churchill's attack on the naval administration, which the first lord said was unfortunate both in form and substance, and likely to arouse misgivings among the people.

While deprecating the controversy Mr. Balfour declared: "I absolutely deny Col. Churchill's charges."

He then threw the blame on Col. Churchill for depicting the ranks of skilled shipwrights by allowing them to join the army during Churchill's tenure of office, thus hindering the shipbuilding plans, which, however, the government had succeeded in keeping abroad with the needs.

"If the fleets at the command of this country at this moment are not sufficient to secure its safety, then in the whole history of Great Britain they never have been," was one of the parting shots uttered by Mr. Balfour.

Col. Churchill retorted with a brief speech, replying to his doubts about the execution of the battleship and destroyer program and asserting that even Mr. Balfour had not given any assurance on this point. He admitted there was no reason to suppose that the British margin of strength was not sufficient, but he thought the greatest efforts had been made to build at the highest possible speed. Other members protested against such a contest in the house of commons, and James Hodge, Radical for East Edinburgh, criticized Col. Churchill for starting a controversy which could not be easily stopped.

A number of other departments of admiralty activity, such as requisitioning merchant ships, arming of merchantmen and air defense, were subjected to discussion, but the committee of the house eventually approved a vote for 350,000 men for the navy and several other appropriations for naval expenditures, which had been introduced in this manner in order to avoid giving total amounts.

SPEAKERS' CLUB POPULAR.

About Fifteen Members Expected at Meeting of New "Y" Society.

The new club in public speaking, organized at the Y. M. C. A. Tuesday night, is now campaigning for new members, and it is expected that fully fifteen active members will be enrolled by next Tuesday night when the club meets at 7:30 o'clock. Considerable enthusiasm is reported for the club, and those who attended the first meeting, it is planned to have the first half hour of the evening devoted to instruction. Harvey Hoshour has charge of this work. Following there will be a hour of actual speaking.

ICE HEAVIER THAN AVERAGE

Menace Exists to Early Opening of Navigation at Duluth.

That in Harbor 34 Inches Thick and Still Forming.

That something or somebody is always taking the joy out of life is attested by the fact that lake conditions are far from propitious for the hoped-for early opening of navigation, and the consequent beginning of the season's business with a rush.

Now comes the first ice report issued this winter by the weather bureau, which declares that "the ice is heavier in Superior than for the last ten years."

And besides that, a statement made from the office of the Union Towing company this morning was to the effect that the ice is very heavy in the harbor and is still "making."

The ice report declares that the thickness of the ice in the harbor, measurement taken last Tuesday, was 34 1/2 inches. It also declares that the lake field extends out from fifteen to twenty miles and is solid, the ice being about seven inches thicker than the average conditions. The field began to form on January, and on Feb. 7 had reached beyond vision, but one week later strong southwest winds moved it out about twenty miles. The ice report says:

Report in Detail.
The reports from the regular and display stations of the weather bureau and the meteorological service of Canada indicate that there is a field extending out from Duluth twenty miles, and beyond this is open water; the ice is heavier than usual; from Kenosha point eastward there are very extensive fields of heavy ice and windrows. St. Mary's river is covered with ice ranging from 2 1/2 to 2 3/4 inches. Green Bay ice is heavier than usual over the northern portion. In Michigan, the fields are extensive over the northern portion north of the Manitowish islands, with a few scattered fields over the southern portion. The ice at the straits around 12 inches. In Huron the fields are confined to the northern and southern portions, with open water south of Thunder Bay island. St. Clair river is closed from below Port Huron to Lake St. Clair, and Detroit river from about Sandwich point to Bois Blanc island. The field in Lake Erie is extensive and covers the western and eastern portions and along the south shore. In Ontario the fields are small and are reported over the central and eastern portion.

There is more ice in Lakes Superior, Huron and Erie than last season. The ice is heavier in Superior than the average for the last ten years. Ice conditions at other important points:

CREDITS GIVEN FOR ATTENDING DEBATE

Students Urged to Hear Arguments on Preparedness Friday.

Students in the classes of United States history at Central high school will receive extra credit in their work for attending the big debate tomorrow night in the local auditorium, when the trio of debaters that represents Duluth Central clashes with the team from the East high school of Minneapolis.

This announcement was made by one of the instructors in history at the local institution, and it is expected that several students will take advantage of it. The debate will be on the question of preparedness. The question is one of such importance that instructors at Central believe that the students should hear it.

Interest in the debate at Central is high. The Minneapolis team is one of the best in the Twin Cities, and is confident of winning. Each Null, however, believes that his combination of Jacob Garon, Max Goldberg and Emanuel Cook will prove too strong for the team from down state, and that another scrap will be added to the bolt of the Duluth team.

DYNAMITE IN GRIP

That Man Ejected From Soo Train Hurled Under the Wheels.

St. Paul, Minn., March 9.—As a north bound Minneapolis, St. Paul & Sault Ste. Marie passenger train pulled out of the Union station here last night, James Ross, a laborer, of St. Paul, was ejected from a forward coach because he lacked car fare. In anger, he hurled his suit case at the departing train. It fell under the wheels, was torn open and its contents spilled, including a package containing two sticks of dynamite, which station employees found. Ross was arrested on a charge of drunkenness and disorderly conduct.

CASCARETS WORK WHILE YOU SLEEP

Only a Cold—Then a Cough—Then?

First you feel a little chilly—then you can't get warm. Followed by smarting eyes and sneezes. Then comes the cough. Then what? That depends upon your system's condition. If you are strong, a few days unpleasantness. If you are weak, it may go on longer, may result seriously. The weakness gains, and a host of disease germs find lodgment. The next you know, you are really sick. Colds are dangerous when they cannot be thrown off; the strong man throws them off easily.

The Moral Is to Keep Yourself Well

A neglected cold leaves an after effect of a congested membrane. It may be in the nose, the throat, or the lungs. Sometimes it is in the stomach and intestines. Perhaps you have grown used to it, and fail to notice any soreness. But it's there. A fresh cold aggravates it. Soon you have chronic catarrh. In time, that harbors a cold and forms a point of infection. It spreads until your whole body suffers from systemic catarrh. Then you are really in danger. Don't wait for that.

Peruna For Coughs and Colds—Take Peruna

It will soothe and heal the mucous membrane, no matter where it is affected. It will help clear out your system. It will build up your strength. It will counteract the poisons the congested membrane is leaving in your blood.

But don't wait until you are sick. While wonderful cures of chronic colds and catarrh by Peruna are daily reported, and in the last forty years have been so numerous as to make Peruna the nation's Remedy, it is better to stay well. Have Peruna at hand, use it freely at the first symptoms, and you will keep your body so well fortified that you will be free of colds, free of catarrhal symptoms, and enjoy your life to the full.

That's the common sense way in which thousands of people preserve their health. It's the kind of preparedness we all agree upon. It's true life insurance, that pays the benefits while you can enjoy them.

Ask the thousands who use Peruna. It could not have gained the place it occupies in the American household if it did not have unusual merit. Forget your prejudices and let Peruna make good for you, as it has for so many.

You may obtain Peruna in tablet form for convenience. Carry a box with you!

SCHEDULE

OF SALARIES

Board of Education Committee Fixes Teachers' Wages For Next Year.

After weeks of deliberation, the board of education committee on schools, working with Supt. R. E. Denfeld, has completed its draft of a teachers' salary schedule for the 1916-17 season.

Final touches were agreed upon at a committee meeting yesterday, and the clerical force of the board is busy preparing the list, to be presented to the general body for ratification at its monthly meeting tomorrow night.

During the present year the city of Duluth will pay between \$418,000 and \$425,000 in teachers' salaries, and the new schedule will call for an increase estimated at \$5,000. The present schedule will be in force until June.

Every teacher in the Duluth schools is hired for a year at a time, and the board revises the list of instructors for the coming year each spring. There are approximately 150 teachers in the city schools.

The committee has estimated that the increase will amount to about \$5,000, said Supt. Denfeld. "It may exceed that figure slightly, as we have found in years past that our estimate usually was low."

It is expected that the teaching staff will be increased by about ten instructors next September, or soon thereafter, because of the opening of the new school being built at Morgan park.

"I believe that a class should consist of not more than thirty pupils in order to have the most effective work," said Supt. Denfeld. "Of course there are times when we must exceed that number in order to meet conditions."

At least three public tennis courts will be laid out this spring by the city recreation department.

This announcement, which will be welcomed by many tennis enthusiasts of the city, was made today by J. R. Batchelor, recreation director, who has already made plans for the installation of the courts at Chester and Harrison parks and on the Mungler school grounds. If the plans for the proposed Hunter's Park playground center go through, six courts will be established on the property, Director Batchelor said.

"We will have at least three tennis courts in operation this coming summer," said Director Batchelor this morning. "There is a great demand for public courts and if these are popular during the coming summer, more will be laid out next year."

Residents at Hunter's Park are still negotiating for the proposed playground and social center adjoining the Washburn school, the property having been offered to the city recently for \$5,000 by Simon Clark, its owner.

NEW THEATER FOR SUPERIOR

Cook Brothers and Frank N. Phelps to Build \$100,000 House.

Will Be Run on Same Policy as New Grand in Duluth.

Under arrangements completed today Superior will have a new \$100,000 vaudeville and motion picture theater in the near future. The house will be run on the same policy as the New Grand in Duluth, and attractions of the same class will be played.

street and Tower avenue, Superior, and they will be joint owners of the new theater. The building will be of brick, concrete and steel, and modern in every detail with the latest system of ventilation and absolutely fireproof. There will also be play rooms and a nursery for children and rest rooms for women and smoking rooms for men.

The house will be arranged with two floors with a seating capacity of 1,200.

The construction and superintending of the entire work will be in charge of Manager Phelps, and he stated to-

day that Duluth and Superior would get the best possible house that \$100,000 could supply.

"We shall not only provide the best entertainment possible," said Manager Phelps, "but we shall put up a house that will be comfortable and fireproof."

Manager Phelps said that while the same class of entertainment would be played in Duluth and Superior the bills would not be the same, and it is planned to book many big-time vaudeville acts.

No time has yet been set for starting building operations, but Manager Phelps said that the work would begin as soon as possible.

Both the Cook brothers and Mr. Phelps believe that the success attained by the New Grand here should be repeated in Superior.

TENNIS FOR THE PUBLIC

City Will Have at Least Three Free Courts This Year

At least three public tennis courts will be laid out this spring by the city recreation department.

This announcement, which will be welcomed by many tennis enthusiasts of the city, was made today by J. R. LIGHTS AND SHADOWS OF POLICE COURT

DULUTH IS NO PLACE FOR VAGS

Police Rounding Up Undesirables Who Hang Around and Loaf.

March will be a record month in the police department for the arrest of vagrants, judging from activities of patrolmen during the first ten days.

About fifty "vags," including several ex-convicts and many "repeaters" at headquarters, have been caught in the police dragnet, and are being cleaned up West Michigan, West Superior and West First streets.

Jail or work farm sentences, with the option of leaving the city in a hurry, have been distributed carefully by municipal court judges, and Chief J. D. McKersher expects to have the troublesome element in good shape before the lumberjacks begin coming in from the woods.

The crooks begin to gather about this time, in order to prepare a roving reception for the lumberjacks," said the chief, "and the department is making a strenuous effort to get them out of the way as fast as they come in."

Five were arrested last night. Carl Eastland and Hjalmer Kauppi were given thirty-day sentences, and Gust Hunter and Ambrose Fuse will be tried this afternoon.

"DIDN'T STEAL \$20."

"Stole Only \$10," Says Louis Niemelä and Goes to Farm.

"I didn't steal four \$5 bills," said Louis Niemelä, 26.

"I had only three in my pocket when I was searched and one of 'em was my own," said Municipal Judge F. H. Cutting, "do I understand that you want to plead guilty to stealing two \$5 bills?"

"Yes," said Niemelä.

"Seventy-five dollars and costs or sixty days," said the judge.

Niemelä and John Lassila were fellow roomers at the Grace hotel and Niemelä was alleged to have stolen the money the night with Lassila's money.

His flight was a short one, for Lassila is a light sleeper and Patrolman Le Beau was standing at a nearby corner.

The house will be arranged with two floors with a seating capacity of 1,200.

The construction and superintending of the entire work will be in charge of Manager Phelps, and he stated to-

TOOK LITTLE STROLL.

Hanson Also Took \$50 in Cash and Watch, Police Allege.

On the night of Feb. 17 Harry C. Hanson was asleep in a room at the Nicollet hotel, 527 1/2

He awoke and went out to get a drink of water.

When he came down the hall he stopped at another room, police allege, and as a result of police investigation by winds and driving snow, he was found on a charge of first degree larceny, without bail, this morning in remains that still are here.

W. S. Robinson, another roomer at the hotel, lost \$50 in cash and a \$20 watch and a time piece on his stroll, Superior police found the watch in a pawnshop and learned that an Indian agent, Bert Patton, 32, had pawned it.

Patton said he bought it from Hanson and Superior detectives took both of them into custody. Patton was released today.

SPRING IS HERE.

Jitney Driver Is Arrested for Not Having a License.

Spring is here.

Even if the weather man says, "Cold wave and gale," even if you have to go through neck-high drifts in order to reach your front door, even if you are chilled to the marrow bone by winds and driving snow, and even if your winter overcoat is frayed and shabby from its long struggle, the fact remains that spring is here.

Soon its gentle zephyrs will warm the ground and melt the tiny green shoots. Weather prophets may say that more winter is coming, but the fact of spring was noticeable this morning.

A jitney driver was arrested last night for driving his automobile without a license. He was A. A. Sellers, 1014 West Second street, and he forfeited \$5 bail.

It was the first jitney case, or automobile case, of the year.

promptly as they thought he should and three shots were fired at him. Niemelä started to run and the two men also wheeled in their tracks and ran back toward the village.

On the description furnished by Niemelä, the village marshal arrested Hastings and Hammons, who were hiding in the woods on the outskirts of Brookston. Later a revolver was picked up in the woods near where the two men were captured by the village marshal.

Both men have refused to talk about the case and have maintained absolute silence about the charges of murder, which has been placed against them. Beyond asserting their innocence, they have refused to say a word concerning their predicament.

Hastings' two unmarried sisters, who are residents of Maine, arrived in the city today. They will attend the trial. Hastings told the authorities that he was born in Ireland and that he had relatives in Massachusetts. Hammons stated that he came from Oklahoma, but no further information concerning the past history of either of the two men has been obtainable.

WIRE THEFTS STIR POLICE

Two Arrests Already Made and More Will Follow.

Thefts of copper telephone and power wire during February valued at more than \$1,000 have started police on a searching investigation which already has resulted in two arrests, and which is expected to bring more within the next twenty-four hours.

John N. Meyers, 23, living at Twenty-fourth avenue west, and Fourteen street and employed as lineman by the Duluth Telephone company, confessed that he was implicated in the theft of a small amount of wire on March 4, when confronted with evidence obtained by Detectives Roberg and Barber, and Sergeant John Hunter.

Meyers and a companion were seen walking through an alley, carrying heavy loads of wire, and police soon learned of it. The companion has not been located by police.

The wire obtained that night was sold to Morris Cohn, West Duluth junk dealer, for \$5. Meyers told police, but when Mr. Cohn was brought in last night on a charge of receiving stolen property he denied it so vehemently that Chief J. D. McKersher released him until a further investigation had been made.

Meyers was sentenced to pay a fine of \$52 or serve forty days at the work farm by Judge F. H. Cutting.

SUPERIOR

LEADING PHYSICIAN DIES AFTER OPERATION

Dr. John Specht, 64, one of Superior's leading physicians, died at 2:55 o'clock yesterday afternoon at the Ellet hospital in Minneapolis. Death followed an operation for appendicitis last Sunday.

The body arrived in Superior this morning and was accompanied by Dr. Specht's brother, Dr. Joseph Specht, a practitioner in Superior for nearly thirty years. At one time he was president of the Douglas County Medical association, and was also city physician under Mayor Starkweather.

MOBILIZES HIS FORCES

Commissioner Takes Steps to Check Epidemic of Measles.

Manley in Charge During Absence of Health Director.

Steps to check the present epidemic of measles among the school children of the city have been taken by Commissioner Silberstein, head of the safety division.

Dr. J. R. Manley, assistant health director, has been placed in charge of the department during the absence of Health Director Fahy, while Commissioner Silberstein has appointed Dr. M. J. Larson, who has been handling the contagious diseases for the city, will continue in the work and direct the campaign to prevent a further spread of the disease.

Instructions were issued today by Dr. Manley that the "measles" sign should not be removed after the regular two weeks allowed by the health department, but that the signs must remain hanging until the patients and the house are inspected by a representative of the city.

In addition, Commissioners Silberstein and Dr. Manley urge parents

to watch their children carefully, while physicians are requested to report all cases immediately to the health department.

"There are about 500 cases of measles in Duluth," said Commissioner Silberstein, "but I believe that the epidemic is well in hand and that further spread of the disease will be checked."

Commissioner Takes Steps to Check Epidemic of Measles.

Manley in Charge During Absence of Health Director.

Steps to check the present epidemic of measles among the school children of the city have been taken by Commissioner Silberstein, head of the safety division.

Dr. J. R. Manley, assistant health director, has been placed in charge of the department during the absence of Health Director Fahy, while Commissioner Silberstein has appointed Dr. M. J. Larson, who has been handling the contagious diseases for the city, will continue in the work and direct the campaign to prevent a further spread of the disease.

Instructions were issued today by Dr. Manley that the "measles" sign should not be removed after the regular two weeks allowed by the health department, but that the signs must remain hanging until the patients and the house are inspected by a representative of the city.

In addition, Commissioners Silberstein and Dr. Manley urge parents

to watch their children carefully, while physicians are requested to report all cases immediately to the health department.

TODAY IN HISTORY.

Fight between Merrimac and Mon-
itor, 1862.

The Merrimac, a U. S. frigate sunk
when Norfolk navy yard was aban-
doned in 1861, raised by the Confeder-
ates and reconstructed as an iron-
clad, became a terror of the sea. March
3, 1862, she destroyed several Federal
warships at Newport News, but next
day the Monitor, Ericsson's "dreadnaught
on a raft," gave battle and forced her
to withdraw after an otherwise incon-
clusive battle. The Confederates burned
her when they evacuated Norfolk May
11, 1862. The Monitor sank at sea in a
storm Jan. 31, 1862. The Monitor-Merri-
mac fight was epochal, demonstrating
the uselessness of the old type of wood-
en warships.

KNUTE NELSON, AMERICAN!

In the shameful controversy that has
lately disgraced the congress of the United
States, Minnesota had the humiliating ex-
perience of seeing eleven of her twelve sen-
ators and representatives voting squarely
against American honor—voting for a con-
temptible abandonment of American rights
and a sacrifice of America's right to the
world's respect.

One member of Minnesota's delegation,
in both branches of congress, and one mem-
ber only, voted for America.

It was left to him to uphold America's
dignity and Minnesota's honor, and to him
alone; and right valiantly, though alone,
did he hold aloft the torch of honor and
self-respect.

All honor to Senator Knute Nelson,
AMERICAN!

With Haiti officially under his wing,
Uncle Sam will generally be expected to in-
clude in a few new coin songs.

PARTIES AND THE NATIONAL HONOR.

The president is standing for Ameri-
can rights. What certain congressmen
proposed is a base and humiliating be-
trayal of American rights.—The Herald,
March 2.
Congress is Democratic in both
houses. It has been doing what The
Herald charges, that party must bear the
odum. In fact, THE ONLY CONGRES-
MEN PLAYING THIS GAME OF "PEA-
NUT POLITICS" WERE DEMOCRATS.—
News Tribune, March 6.

Well, it has come to a vote.

This congress, "Democratic in both
houses," has sustained the president and
voted for American honor and American
rights by 86 to 14 in the senate and 276
to 142 in the house. So much for that.

How does the party record read? Here
is the vote against America:

	Senate.	House.
Republicans	12	103
Democrats	3	33

And here is the vote against America
in the Minnesota delegation:

	Senate.	House.
Republicans	0	1
Democrats	0	1

Those who voted against the president
in this shameful exhibition of poltroonery,
timidity, selfishness, partisan Copperhead-
ism and base reaction to alien influence
voted to deny an American right on the
high seas, to change international law in
the interest of one of the belligerents, to
give the cowardly submarine full license to
do its most devilish evil against Ameri-
cans, and to surrender safeguards of inter-
national law upon which America's inter-
ests for the future depend.

What party must bear the "odum?"
English society is taking up chess as a
pastime. They'll change to checkers as soon
as they realize how easy it is for a Zeppe-
lin bomb to upset a set of chessmen.

SUBMARINE AND MERCHANTMEN.

Germany specifically promised the United
States that "liners will not be sunk by
our submarines without warning and with-
out safety of the lives of the passengers."
Its new policy, effective March 1, is on
its face a square repudiation of that pledge,
though its latest word to the United States
promises a fairer reading.

There is gravity in the existing situation,
at best. It is highly probable that Ger-
many will be careful; that its order to its
submarine commanders cautions them
against involving the two countries in an-
other Lusitania controversy. And it is
highly probable that this caution will be
closely heeded. So perhaps it may come
out all right after all.

But it is a desperately ticklish situation.
The captain of an armed merchantman sees
a periscope heading his way. He knows
Germany's announced policy, and there-
fore knows that he is in danger. The in-
stinct to fire first is strong; and once he
has attacked he loses all protection of in-
ternational law.

On the other hand the commander of
the submarine, knowing the liner to be
armed, knows also that his frail undersea
craft is highly vulnerable, and that a lucky

shot from a small gun may sink him. Fear-
ing that that shot may come before he can
give warning and take steps to save pass-
engers and crew, the temptation to hurl a
torpedo will be hard to resist.

Manifestly, its policy having been an-
nounced, this country can only judge of
each case as it arises on the ascertainable
facts. If the liner takes the offensive, as it
may in self-protection, that is one situation.
If the submarine shoots without warning,
as it may in fear of the liner's gun, that is
another situation.

It is not a comfortable condition.
Germany does not always argue its case
wisely. The other day, for instance, Baron
von Schwarzenstein of the German foreign
office said that when Germany gave its
pledge about submarine warfare, "no such
thing as an armed merchant liner was
thought of." "Germany," he added, "when
she made those pledges never dreamed that
the British government would instruct mer-
chant liners to conduct offensive warfare." Proof that the British government has in-
sisted such instruction is still lacking.

But the baron is grossly in error when
he says that Germany had no thought of
armed liners when it gave its pledge to this
country.

On July 8, 1915, many weeks before the
pledge was made, his chief, von Jagow,
wrote this to the United States: "All dis-
tinctions between merchantmen and war
vessels have been obliterated by the order
to British merchantmen to arm themselves
and to ram submarines."

Yesterday's statement from Germany
wipes out all such quibbles.

Then there may be those who would import
Villa and make him secretary of war.

AN ISSUE OF FACT, NOT LAW.

Now that the stupid congressional fiasco
is out of the way, it is possible to look at
the German submarine controversy fairly
and freely, and it is discovered not, perhaps,
to be as bad as it looked.

Germany speaks fairly, on the face of it,
and comes as one seeking sympathy and
settlement rather than a quarrel.

Moreover, Germany raises an issue of
fact that, if it be substantiated by proof,
leaves the probability of an acute crisis
with Germany far more remote than be-
fore—if German submarine commanders use
horse sense.

Most of the German letter is aside from
the issue. A blockade is annoying, but it
is not unlawful, though England certainly
has committed unlawful acts in prosecut-
ing it. Moreover, it is difficult for Ger-
many to awaken sympathy because of Eng-
land's attempt to "starve" her, when almost
in the same breath Germany is convinc-
ingly declaring that she is pretty comfortable
and well fed.

But when Germany, after virtually ad-
mitting that the submarine is not sanc-
tioned by international law, after virtually
admitting that all things being equal the
submarine should obey international law
as it stands or remain idle, and after vir-
tually admitting, even, that a merchant
ship armed for DEFENSE cannot be at-
tacked by a submarine without warning,
specifically charges that England has in-
sued orders to its armed merchantmen that
make them offensive instruments, then an
issue of fact has been raised that must be
considered fairly. Moreover, this charge
is accompanied by what purports to be a
photographic copy of the British order,
which the American government appar-
ently considers serious evidence.

If British merchant ships are armed for
defense and their armament used only de-
fensively, then the German submarines are
defensive, then the German submarines are
in attacking them without warning,
and if Americans should be killed on a
ship so attacked there would be but one
course for America to pursue.

But if it is true that England has ordered
her merchantmen to attack submarines, then
defensive armament becomes offensive, the
submarine darts take chances by pro-
ceeding according to international law,
and Britain's violation of law sanctions Ger-
many's violation.

America can no more support Great Brit-
ain in an offensive use of merchant ships
than it can support Germany in an unlaw-
ful use of submarines.

The issues comes down squarely to the
question whether England has issued such
orders and committed such acts as Ger-
many charges. If she has, then her cause
is weakened, Germany's cause is strength-
ened, and it will be impossible folly for us
to get into a sharp dispute over submarine
tactics that are justified by the tactics of
merchantmen.

Germany says she is willing to abide by
international law if England will. If, as
Germany charges, England has been violat-
ing the law and using her armed merchant-
men in such a way that as a mere matter
of self-defense submarines must act re-
gardless of law, then this is a fair challenge
which England must answer before she
can expect the United States to participate
in her quarrel. England cannot take refuge
behind American neutrality for the com-
mission of unlawful acts.

If, on the other hand, investigation proves
the German charge untrue, and develops
the fact that it is being used merely as an
excuse for lawlessly continuing an unlawful
policy that can be justified only by its effec-
tiveness, not by law, then the situation will
be thrown back into its original chaos of
difficulty.

It must be peculiarly injurious to sena-
torial dignity to become known as "Senator
They-Say."

An Illinois farmer put \$2,500 in bills inside
an old catalogue, and his wife burned the
catalogue without bothering to look inside
it. Which simply illustrates, no doubt, a
heretofore unsuspected menace to those who
deal with catalogue houses.

Arbitration the Way Out

Editorial in the Chicago Herald.

The controversy now pending between all
the railways of the country and their train-
service employees is, in its possibilities, the
most menacing to national welfare of all the
"labor disputes" that have ever arisen in this
country. Should it go to extremes the nation
is threatened with nothing less than a com-
plete paralysis of transportation of commodi-
ties of all kinds.

The Chicago Association of Commerce has
rightly declared that such an interruption of
traffic through the whole country as is
threatened would be "a national calamity,"
and "if arising through arbitrary action of
either side, without the questions in dis-
pute being submitted to a careful and im-
partial analysis, would constitute an act
hostile to public welfare."

The language here used is a studiously mod-
erate. It would be an act destructive of the
public welfare. It would be a strike war
such as this country has never before known.
And the larger danger of the controversy
going to that extreme is real and cannot be
blinked.

The men are united as never before be-
hind their demands. The organizations of
engineers, firemen, conductors and other
trainmen are standing together. They com-
prise in their ranks three-quarters or more
of the total number of skilled workers in
train service. Their speedy replacement,
even if desirable, would be impossible. They
are conscious of their power and may re-
solve to use it to extremes.

On the other hand, the responsible man-
agers of the railways give many signs of feel-
ing that their backs are to the wall. They
are trustees for an enormous investment. The
business they are conducting has for some
years been one of diminishing returns. About
one-third of all railway stock has no divi-
dends. Many lines are now in bankruptcy.

They see simple ruin in yielding to the
men's demands for wage increases totaling
probably \$100,000,000 a year for these men
alone and \$330,000,000 if applied to all rail-
way employees.

There is a third party whose interest is
even greater. It is not merely the owners
of railway securities, though they number
between 1,500,000 and 2,000,000 as compared
with about 400,000 men in the train service
and about 1,000,000 all railway employees. It
is all the rest of the 100,000,000 of Ameri-
cans.

All industry, all commerce, all daily living
is so dependent on transportation that a na-
tion-wide paralysis of transportation would
speedily result in the suspension of practi-
cally all industries not purely local and in
famine in great cities.

Confronted with a prospect so ominous of
hardship and suffering coming home to every
household it behooves every citizen to dis-
card his own selfishness and to bring his
ownself to the point of adjustment of the
penalties which would be inflicted upon the
innocent by permitting the dispute to ex-
tend to extremes so too appalling. Lesser
disputes between capital and labor have been
settled by arbitration—this can be so settled.

It is understood that the men feel that the
time has come to "fight it out." It is known
that they are gravely dissatisfied with the
results of the arbitration a year ago. They
did not get as they wanted.

That happens in every difference of opinion
over prices and values of goods and services.
If the parties are not keenly interested in
the settlement, they will not make concessions and
compromises. In every business the divisible
profits have their limits. Neither labor nor
capital can permanently prosper when either
of them is asked to surrender more than a
fair share of the gains.

Let both railroad employers and railroad
employees remember that they are engaged in
a common cause and that in the long run
we all go up or down together. And let every
citizen exert himself, for his own welfare, to
bring these contending groups to a point of
adjustment of the dispute. The welfare of
us all. The machinery for doing justice be-
tween the parties and bringing their opposed
views into reasonable adjustment exists.
Let the fair-minded men on each side of the
dispute submit to the findings of arbitrators
who are certainly trying to be fair. The railway wages controversy
cannot be permitted to go to the extremes
of a war for mere "victory." What either
side might regard as "victory" would be pur-
chased at a cost to the whole nation too
frightful to contemplate. To avoid calamities
before this nation has ever suffered be-
fore there must be arbitration.

The Winged Lie

Chicago Herald: A Berlin dispatch says
that President Wilson's "alleged statement
that American entrance into the world war
would have the effect of ending it created
no sensation, for it merely confirmed the
powerful body of German public opinion in
the long-fixed idea that Wilson was weak
and is determined to force a break."

Thus we are told that the power and
danger of the winged lie. This baseless
rumor, retailed in the United States sen-
ate and denounced and repudiated as
soon as it was known to be untrue, has
as a solid fact in Germany. It has con-
firmed German public opinion in a long-
fixed and hostile opinion. It has rendered
the relations of the United States to Ger-
many difficult. It has made the task both
of Washington and Berlin all the harder.

It generally takes some trouble to get to
the bottom of a lie. But in this case the
deal more trouble to get it before the Ger-
man people. There are numerous obstacles
in the way—among them the meagreness
of means of communication. But no such
impediments exist in the case of a damaging
and dangerous falsehood. No sooner is it
said than it takes wings and goes over land
and sea upon its mission of evil.

Rippling Rhymes

By Walt Mason

High Flown Poetry.

Could I but swat J. Milton's lyre,
with all of Milton's vim, I would not
waste poetic fire on things embalmed
by him. We all agree that he was
great, a nobly gifted poet; great
thoughts were sizzling 'neath his pate,
until his hair fell out. We gaze upon
his pictured head, admire his bulging
brow, and say we're sorry he is dead—
but no one reads him now. His poems
are a punishment, imparting doleful
ache to any busy modern gent who has
his way to make. He has a large, im-
posing name, and it has come to stay;
and in Old England's hall of fame he
puts up lots of hay; but who would
read his long-drawn screeds, without a
quip or jest, of dreary gods whose tire-
some deeds were pipe dreams at their best?
This life's too short for endless
pomes that don't lead anywhere,
ground out by bards with lofty domes
and birds' nests in their hair. Had I
J. Milton's gift of song, I'd spring
some harmless mirth, embalming
topics, all day long, for people now on
earth.

The Impudence of It

By Barney.

Washington, March 9.—(Special to The
Herald.)—A few weeks ago the politicians
were mystified by the announcement that
Governor Whitman of New York had de-
clared for Mr. Justice Hughes as the Repub-
lican candidate for president. The governor
himself had been "mentioned" for the place,
along with numerous others whom the lead-
ers of the Republican side of the United
States congress contemptuously character-
ized as "two-spots," whatever that epithet
just means, it was the Virginia con-
tingent of the G. O. P. set itself into a con-
dition of agitation over the affair; and there
was an explosion. The Virginia contingent
has since been appearing for spoils, and
when the Democrats are in power, the Vir-
ginia set is always very hungry and very
thirsty.

At present Mr. Alvah H. Martin and Mr. C. B.
Slomp are the bosses of the Virginia Q. R.
and Mr. E. Cabell and Mr. S. Brown Allen are
covetous of the leadership themselves. The
two bosses were having it all their own
way when Mr. Allen wrote a personal and
confidential letter to one of the Martin-
Slomp following in which he revealed the
fact that in the war of the past eight years
Hitchcock was on the warpath of jus-
tice Hughes and that if things turned out
all right, those who wanted postoffices and
other like provender in Virginia would find
it prudent and profitable to drop the Mar-
tin-Slomp ox-cart and climb on the Cabell-
Allen band wagon, or words of that im-
port.

This letter fell into the hands of Mr.
Slomp, the Republican congressman from the
Ninth Virginia district, and he inclosed it in
a letter to Justice Hughes in which he gives
that gentleman to understand that if there
is anything in this Hughes movement he
can be depended on to bear a hand himself
in the matter. Indeed, the letters of Boss
Slomp and would-be Boss Allen reveal the
painful fact that Mr. Hill and his set did
not get quite deep enough when they re-
publicanized the nomination in Virginia.
An national convention. They are out for
the stuff in a practical way.

Justice Hughes replied briefly and to the
point, saying that he had no knowledge of
the affair, that he is entirely opposed to the
use of his name in connection with the nom-
ination and to the selection or instruction
of any delegate in his interest directly or
remotely.

That is a very significant word, that "re-
motely," and if it don't knock the trotters
from under any "dark-horse" movement, so
far as concerns Justice Hughes, language
has lost its force when employed by Jus-
tice Hughes.

The humor of the episode comes in when
we contemplate the role for which Mr.
Hitchcock is cast. He is to boss this great
reform movement for purity and decency in
politics, and here he is one of Hitchcock's
former henchmen in Virginia administering a
flogging to Mr. Slomp that spoils are to re-
ward the faithful after cleansing themselves
of standpatism and climbing on the Hughes
band wagon, on which are no seats for the
Martin-Slomp layout. Well, whatever else
that may be, it is Hitchcockism.

Justice Hughes can get the nomination by a
wink or a nod. Why? Because he is the
antithesis in politics of Barrenness in New
York, of Penroseism in Massachusetts, of
Forakerism in Ohio, of Jim Watsonism in
Indiana, of Joe Cannonism in Illinois, and so
on and so forth. It is the disgust of the rank
and file of the party that has made this clam-
orous demand for Charles E. Hughes.

And here without the knowledge or con-
sent of the party, a man who is not a member
of the party, by gum-shoe methods, one of
the most odious and discredited bosses even
the "Party of Great Moral Ideas" ever de-
veloped, is set to boss the party. It is a
great reform movement to purify politics!
It would be like the duke of Guise setting
the crown firmly on the head of Henry of
Navarre, or Prince Rupert leading the charge
for Oliver Cromwell, or Pope Leo X placing
Martin Luther at the head of a college of
cardinals, for Frank Hitchcock to take di-
rection of a movement looking to the es-
tablishment of a new order in Republican
councils. And then the impudence of it!

But cheer up, you genuine Hughes folks!
There is balm in Gilead, a physician there
who is no Wilson just as good, but he is a
good deal better. Vote for Wilson. That
will serve your purpose and accomplish your
ends. And that is what a great number of
you are going to do. There is nothing else
to do if you would satisfy your longing for
reform in the state and purity in the party.
Think it over.

The leaders of the party do not want
Hughes. He is not the first choice of a
single Standpatter. The thought that he is
available gives us the strength. Any one
of the "two-spots," Jim Mann talks
about could beat him for the nomination
all other things being equal.

But it is a groundhog case, and if the
standpatters of the party extend to the
far, the G. O. P. would swear out a writ
habeas corpus ad quod damnum, and levy
a contribution on the judicial ermine
to support a candidate for political
office who, if elected, would be expected
to pull out of the fire chestnuts for Pen-
rose, Barnes, Crane and company.

For Justice Hughes, nobody believes he is
ready for Hughes. What he is after is a
bunch of "hand-picked" unscrupulous de-
legates from the South that will take orders
from him at Chicago, and use the name of
Justice Hughes to prevent instructions for any
body else. So admit a boss as Hitchcock
could play Warwick at Chicago if he had at
his disposal 100 or so delegates from the
South looking to him for postoffices and
things.

The Fortunate Isles.

You sail and you seek for the Fortunate
Isles,
The old Greek Isles of the yellow bird's
song?
Then straight on through the watery
miles,
Straight on, straight on, and you can't go
wrong.
Nay, never left; nay, not to the right.
But on, straight on, and the Isles are in
sight.
The Fortunate Isles, where the yellow birds
sing.
And the lily lies girl with a golden ring.

These Fortunate Isles, they are not far;
They lie within reach of the lowliest door;
You can see them gleam by the twilight star;
You can hear them sing by the moon's
white shore.
Nay, never look back! Those leveled grave-
stones
They were landing steps; they were steps
unto thrones.
Or glory for souls that have sailed before
And have set white feet on the fortunate
shore.

And what are the names of the Fortunate
Isles?
Why, Duty and Love and a large Content.
Lo! these are the Isles of the watery miles
That God let down from the firmament.
Duty and Love, and a true man's trust;
Your forehead to God and your feet in the
smiles.
Duty and Love, and a sweet babe's
smiles.
And there, O friend, are the Fortunate Isles.

That "Cummins" Delegation

What Minnesota Editors Think of the Latest Political
Barbarism.

Prefer "Some Other."

Warren Register: Whether it is the fault
of the preferential primary law or not, Min-
nesota Republicans will not have much choice
when it comes to expressing their wishes
regarding the selection of a presidential
candidate this year. With Root, Hughes, Bur-
ton and Roosevelt all refusing to permit their
names to be used, the choice is narrowed
down to Cummins and Eatabrook. The re-
sult is likely to be a delegation nominally
Cummins, but made up largely of men who
prefer some other nominee.

Delegates and Delegates.

Staples World: "Mr. Eberhart wants to go
to the national convention, but he is not
above resorting to cheap subterfuge in or-
der to get there. He is not a progressive and
is not in sympathy with progressive lead-
ers. He knew he would not have a chance
of a chance of being elected a delegate un-
less he posed as a progressive and agreed
to support a progressive candidate so he filed
as a Cummins supporter. He isn't any more
for Cummins than he is for Bryan and every
citizen in the state who has given five min-
utes thought to Minnesota politics the past
eight years knows it. Mr. Eberhart is guilty
of trying to get support under false pre-
tenses. If he should be sent to Chicago by
the people of Minnesota to help nominate
Mr. Cummins, will he help nominate Mr. Cum-
mins when he gets there? He will not. He
will vote once for Mr. Cummins because
the law compels him to, but even as he casts
this one perfunctory vote, he will be in the
plot to defeat the nomination of any pro-
gressive candidate. There is not the slight-
est question about this. The deceit and
cheap trickery of his candidacy is con-
temptible. Are the people of the state going
to permit him to get away with it?"—Long
Prairie Leader.

The opinion is freely expressed that Long
Prairie's candidate for district delegate to
the national convention, Peter Scow, stands
in exactly the position pictured above. Will
the Leader kindly state what it believes Mr.
Scow's attitude will be in case he is elected.

But You Know He Represents Cummins.
Mora Times: Former Governor A. O. Eber-
hart wants to be one of the delegates at
large to go to the Republican national con-
vention at Chicago. Minnesota has had
enough of Eberhart and what he represents
and the voters should take advantage of
this opportunity to kill him off for good
next town-meeting day when they vote for
delegates.

Told Whom to Vote For.

Red Wing Eagle: It is reported that pri-
vate instructions have been sent out by the
so-called Cummins managers warning the
faithful against voting for other than Roose-
velt men for delegates to the national con-
vention. Everything done thus far points
to the carrying on of a Roosevelt campaign
under false pretenses, and while Wilson ad-
herents wish for nothing better than the
nomination of Roosevelt, the method by
which it is sought to secure his nomination
is none the less reprehensible in the eyes
of all right thinking people, whether Republi-
cans or Democrats.

"Only a Stool Pigeon."

Hastings Gazette (Republic): Should
Col. Roosevelt succeed in grabbing the presi-
dency next fall there will be war with Ger-
many just as sure as night follows day. Our
people want peace with all nations, so they
against every Cummins delegate. He is only
a stool pigeon for Roosevelt.

And There Are Others.

Preston Times: Speaking about Van Sant,
it may be noted that he also has filed as a
Cummins delegate. If elected the Cummins
men had better tie him to a post to make
sure they have him.

A Vote for X.

Warren Register: A vote for Cummins is
a vote for—who knows? On the Cummins
ballot are Roosevelt men, anti-Roosevelt men,
Hughes men, Root men, a Cummins man or
two, and possibly a Burton or a Weeks man.
Those elected will vote for Cummins to start
with, but nobody knows where they will land
ultimately.

As "Cummins" Men.

Red Wing Eagle: The Daily Eagle has re-
ceived from the Cummins headquarters a list
of fourteen names with the request that they
pick out four as delegates at large to the
national presidential convention and urge
people to vote for them. As we can't find
four in the bunch that we care to advise
anybody to vote for, we suggest that Sam-
vansant and Jim Mahan be delegated to do
the whole business.

A Field for Study.

Bagley Independent: The coming presi-
dential primary offers a field for study for the
average voter. The direct nomination of
presidents is a big experiment. In voting
for delegates at large voters will be put to
their trumps to know just how they are vot-
ing. There is Andy Raton of Minneapolis, a
strong personal friend of Col. Roosevelt, who
is running as a Cummins delegate. A vote
for Andy undoubtedly means a vote for
Teddy. There is Paul P. Belmont of Ben-
dine, an old political war horse with more
than an Erie canal mile, who caters to the
German vote and favors Cummins. Then
there is Adolph O. Eberhart whom we all
know, also for Cummins (until the dark
horse shows up). Then there is J. F. Jacob-
son of Lac Qui Parle county, who can be
counted on to do the right thing at all times.
By instinct Jacobson is a hardware man, but
by nature he is just an every-day square
man, a poor campaigner but a clear thinker.
It might be a good plan to send one honest
man along with the Minnesota delegation to
the convention.

A Warning From the Past

(From the Red Wing Daily Eagle.)
Here is an incident from Abraham
Lincoln's time which finds fitting ap-
plication today: In 1862 a committee
of citizens called at the White House
to express its dissatisfaction with Presi-
dent Lincoln's conduct of the war:
After listening patiently to the com-
plaints of the delegation President Lin-
coln said:

"Gentlemen, suppose all the property
you are worth was in gold, and you
had put it in the hands of Blondin to
carry across the Niagara on a rope.
Would you shake the cable, or keep
shouting after him, 'Blondin, stoop a
little more—go a little faster—lean a
little more to the north—lean a little
more to the south?' No; you would
hold your breath as well as your
tongue, and keep your hands off until
he was safe over. The government is
carrying an enormous weight. Untold
treasures are in their hands. They are
doing the best they can. Keep silence,
and we will get you safe over."

Remembered Him.

TWO PLEAD GUILTY TO FIRST DEGREE MURDER

Minneapolis, Minn., March 9.—Pleas of guilty to a charge of first degree murder—a proceeding almost without precedent in the Hennepin county courts—were entered today before District Judge W. C. Leary by Charles Swanson and Raymond Hawkes, confessed slayers of Godfrey Carlson, who was shot to death in his meat market when he resisted three highwaymen, who held up the place the night of Oct. 16, 1915.

The two defendants, whose pleas mean life terms in the state penitentiary unless they are withdrawn, had no attorney. In view of this, they will be permitted to change their pleas and enter a defense if they should care to do later.

What to Do for Itching Skin

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment, that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of a resinol ointment and resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over 20 years. Resinol usually stops itching instantly, healing the eruption quickly, unless due to some serious internal disorder. Resinol ointment and resinol soap can be bought at any drugstore, and are not at all expensive. Write for free sample, Dept. J-R, Resinol, Baltimore.

"EIGHT HEAD" SCORED FOR FIRST TIME IN THE WEST DULUTH CURLING ANNALS

"JIM" DONALD.

ALEX DONALD.

For the first time in the history of curling in West Duluth and for the third time in the annals of the sport in Duluth, an eight-head was laid at the Western curling rink last night. The head was laid during the seventh end of a game between Alex Donald and Kenneth A. McDonald, the former turning the trick.

Laying an eight head is paramount to every man on the winning rink playing a perfect game by getting his stone into the "house." The opponents must also fail on all their shots. One other such head was laid this winter by Will Dinean in a game with an opponent at the Duluth Curling rink, and several years ago Ralph Bradley was given credit for doing the same thing.

The score put an end to the game between Donald and McDonald, it then being 15 to 4. One other game was played last night in the Universal event between T. E. Olson and G. J. Mallory, the former winning 10 to 8.

Three games are scheduled for this evening. The Universal event will be played in the semi-finals of the Dufrenoy event and semi-finals will be played in the Henrickson event between R. F. Wade and G. J. Mallory.

Directors of the club this morning decided that they would have music for skating at the rink tomorrow night. This probably will be the last time that music will be provided for skaters on a Friday evening. Music will also be provided for next Tuesday evening.

far and told them that they should attend in large numbers the last meeting of all the women's committees, which will be held on Wednesday, March 16, at 3 p. m. at the Moose hall, 224 West First street.

DULUTH WOMAN DIES IN IDAHO

Mrs. J. W. Mann, Pioneer, Succumbs While Visiting Daughter.

Mrs. J. W. Mann, 75, wife of Capt. Jacob W. Mann, 121 North Sixty-first avenue west, a pioneer resident of West Duluth, died Saturday at Spirit Lake, Idaho. Mrs. Mann left Duluth on Dec. 15 to visit her daughter, Mrs. O. Anderson of Spirit Lake and was taken ill shortly after her arrival there.

Mrs. Mann was well known in West Duluth. She leaves behind her husband, three daughters and two sons. The late George Mann of this city and Daniel Mann of Alaska. The daughters are Mrs. H. M. Carey of Spokane, Mrs. May Sowles of Worthington, Minn., and Mrs. Anderson, Burial took place at Spokane, Wash.

LADIES' NIGHT AT CLUB.

Program, Cards and Dancing Arranged for Friday Night.

Members of the West Duluth Commercial club have arranged to entertain about fifty couples tonight evening at the club's "ladies' night." A musical program, card playing and dancing will be featured. Other amusements is planned. L. A. Barnes is chairman of the committee on arrangements.

Proctor Mothers' Club.

A Proctor Mothers' club was organized at a meeting held yesterday afternoon at the Proctor hall. The officers elected are: Mrs. C. H. Conner, president; Mrs. Charles Burke, secretary; and J. E. Code, treasurer. Other members of the club are Mrs. H. E. Beckett, Mrs. M. L. Rapold, Mrs. Frank Reitzel, Mrs. A. Kutz, Mrs. J. Carlson and Mrs. Anna Melbich.

Youth Sent to Work Farm.

Sixty days at the work farm was the sentence meted out to Helmer Nelson, aged 19, who was arrested Tuesday evening on a charge of theft. Nelson pleaded guilty to the charge in police court yesterday afternoon. Nelson is alleged to have attempted to embrace the girl against her will after

WANT \$1,000 DAMAGES FOR CHANGE OF GRADE

A jury was drawn in Judge Dancer's division of the district court this morning to try an action brought by Rocco and Dominio Donvito against the city of Duluth to recover \$1,000 damages to their property by reason of the change made in the grade of Commonwealth avenue last June.

The plaintiffs are owners of lot 3, block 1, Ironton, Third division. When the grade was changed, the lots were left twenty-three feet above the level of the grade. Gardner & Davis are attorneys for the plaintiff and J. E. Samuelson, city attorney, is defending.

Moose Elect Officers.

D. A. Hartwick was elected dictator of West Duluth lodge, No. 1478, Loyal Order of Moose, at the annual election held last evening at the Moose hall. Central avenue and Ramsey street. The other officers are Hugh Viqvivic, dictator; A. Gagnon, prelate; Claude Osterman, treasurer; Matt. Hanson, trustee; Frank Rice, outer guard; and Roy J. Baker, delegate to the grand lodge.

Bazar Committee Meets.

A meeting of the Proctor auxiliary of the German-Austro-Hungary Relief association, under whose auspices the Red Cross and war relief fund bazar will be held at the end of this month, was held Wednesday afternoon at Proctor hall. M. Blumh, editor of the German Press and manager of the fair, addressed the women, and informed them that he had made arrangements with the D. M. & N. railway for a special service on Friday, March 25. He congratulated the Proctor women for the work they had done so

PREPARING FOR ELECTION

Deputies Are Arranging Forty-five Ballot Boxes For City.

Many Changes Made In the Polling Places For Next Tuesday.

Preparations are being made today by City Clerk Borgen for the presidential preferential primary election next Tuesday.

Yesterday the city clerk received the ballots from the county auditor and today Deputies Ash and Williams are preparing the forty-five ballot boxes which will be distributed to the judges next Monday morning.

The polling places will be open from 6 a. m. until 9 p. m. next Tuesday, voters expressing their preference at this election for presidential candidates and also voting for four delegates-at-large in each party and two delegates from the Eighth congressional district.

Because of the many changes in polling places since the last local election, the following list is reprinted at the request of the city clerk.

First election district—Old fire hall, Fifty-first avenue east.

Second district—Barnum house, Forty-seventh avenue east.

Third district—1827 London road.

Fourth district—Basement Endion M. E. church.

Fifth district—Basement normal school.

Sixth district—Hunter's Park grocery.

Seventh district—1131 East Fourth street.

Eighth district—118 Fourteenth avenue east.

Ninth district—221 East Third street.

Tenth district—413 East Superior street.

Eleventh district—610 Ninth avenue east.

Twelfth district—703 East Fourth street.

Thirteenth district—417 East Fourth street.

Fourteenth district—246 Lake avenue south.

Fifteenth district—703 Lake avenue south.

Sixteenth district—203 East First street.

Seventeenth district—108 East First street.

Eighteenth district—105 West Fourth street.

Nineteenth district—110 First avenue west.

Twentieth district—26 North Fourth avenue west.

Twenty-first district—17 North Fifth avenue west.

Twenty-second district—607 West Superior street.

Twenty-third district—1101 West Superior street.

Traffic to Suburbs Resumes.

Traffic between West Duluth and the suburbs has again reached normal. A large snowplow was used yesterday afternoon to spread the snow from the center of the street and make traffic for automobiles and other vehicles again possible. Jitney service has again been established between the two points.

DANDRUFF MAKES HAIR FALL OUT

25 Cent Bottle of "Danderrine" Keeps Hair Thick, Strong, Beautiful.

Girls! Try This! Doubles Beauty of Your Hair in Few Moments.

Within ten minutes after an application of Danderrine you can find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderrine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and unmanageable, just moisten a cloth with Danderrine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store, toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all you surely can have beautiful hair and lots of it if you will just try a little Danderrine.—Advertisement.

FARGO HOSPITALS TO BE ENLARGED

Fargo, N. D., March 9.—(Special to The Herald).—The hospital facilities of Fargo are to be greatly increased during the next year, if the present plans of both St. John's and St. Luke's hospitals are carried out.

Some time ago it was announced that St. John's hospital would start a campaign to have the old building enlarged and the construction of an addition to that institution that would increase its capacity by 150 rooms, and now St. Luke's hospital association has announced that an addition will be erected to that institution that will increase its capacity by fifty private rooms.

The directors of St. Luke's have decided to build an additional wing that will cost in the neighborhood of \$50,000, which will be raised by the sale of bonds by popular subscription.

At St. John's hospital a new nurse's home will be dedicated about the middle of April, and in June the campaign will be begun for the raising of funds for the construction of the 150-room addition to the present hospital building.

Retail Merchants Begin Movement for Improved Standing for City.

State Insurance Commissioner Works Will Be Here Friday.

An effort will probably be begun tomorrow night to obtain better fire insurance standing for Duluth as a whole, and, consequently, better rates.

S. D. Works, state insurance commissioner, will be present at a meeting to be held at the Commercial club by the Duluth Retail Merchants' association, at which he will make an address on fire insurance conditions and listen to anything the Duluth business men wish to advocate. He will be accompanied by Mr. Solerstrom, one of his deputies, and Mr. Fisher, chief of the bureau of underwriters of Minneapolis, and they will likely take part in the discussion.

The insurance commissioner, in a recent order, required the insurance companies to pay Duluth and Northern Minnesota on a relative equitable basis with the rates in Southern Minnesota; but the underwriters have objected to some features of this, claiming extraordinary conditions in this part of the state. This meeting will likely be for vigorous discussion.

Duluth is now in the third class of cities for fire insurance. Minneapolis is in the second class, and St. Paul is between first and second. It is claimed that Duluth should be given a high rating as Minneapolis at least, and this will be urged.

SENTENCES SUSPENDED

(Continued from page 1.)

that the minister's story was substantially true and the former sought to justify their actions by saying that Tappert had shown by his utterances that he was an enemy to the British empire.

The crown attorney was not present when the men were brought before a magistrate for sentence. In releasing them on suspended sentence, the court said he was likely to be for so with the consent of the crown.

Tappert at Buffalo.

New York, March 9.—Information that the Rev. R. C. Tappert had arrived at Buffalo, with his family, was received today by his brother, the Rev. G. H. Tappert of this city. The Rev. R. C. Tappert was formerly a member of churches in this city and vicinity and, in March, 1908, he went to Berlin, Ont., three years ago.

His brother said that the Berlin pastor had never during his residence in Canada caused offense by expression or implication of pro-German sentiments, but his trouble there began a year ago when a statement regarding alleged Belgian atrocities was attributed to him.

"My brother was asked by a member of his congregation whether some features of the Belgian charges were true and simply replied that he doubted the truth of some of them. From that time on persecutions have never ceased." He added that the Rev. R. C. Tappert had been denounced as "an American parasite" and that he declined to contribute to a fund for the relief of Belgium. He said that the Berlin pastor's boys had been invited to swear allegiance to the United States flag and that they were Americans.

In February, the Rev. Mr. Tappert said that he had received a warning signed by "the Berlin boys," composed of a battalion of the German army, and that he had refused to sign it. He said that he would be tarred and feathered. Then he resigned his membership in the church and left Berlin.

At the parsonage at midnight on Sunday and called to him to come out. He declined, whereupon the front door of the parsonage was broken and the intruders seized him, and dragged him out to the rear of the house. He said that he had refused to give him a hat or overcoat.

"Some time the soldiers marched on my brother and down King street, hitting and slapping him. Then they took him to the rear of the barracks and ordered him to sing the German national hymn."

FARGO HOSPITALS TO BE ENLARGED

Fargo, N. D., March 9.—(Special to The Herald).—The hospital facilities of Fargo are to be greatly increased during the next year, if the present plans of both St. John's and St. Luke's hospitals are carried out.

Some time ago it was announced that St. John's hospital would start a campaign to have the old building enlarged and the construction of an addition to that institution that would increase its capacity by 150 rooms, and now St. Luke's hospital association has announced that an addition will be erected to that institution that will increase its capacity by fifty private rooms.

The directors of St. Luke's have decided to build an additional wing that will cost in the neighborhood of \$50,000, which will be raised by the sale of bonds by popular subscription.

At St. John's hospital a new nurse's home will be dedicated about the middle of April, and in June the campaign will be begun for the raising of funds for the construction of the 150-room addition to the present hospital building.

CHANGES IN INDIAN BILL

Number of New Provisions Affect Chippewas of Minnesota.

Part of Nett Lake Reservation to Be Transferred to Conference.

From The Herald Washington Bureau.
Washington, March 8.—A number of new provisions affecting the Chippewa Indians of Minnesota have been placed in the Indian appropriation bill by the senate committee on Indian affairs. The appropriation for the Pine-stone school in Minnesota has been increased to \$64,675, an addition of \$2,000 to build roads and a depot on the creek on the reservation. Of the appropriation of \$185,000 for relief and civilization of the Chippewas, \$60,000 and the one-fourth interest on the tribal funds to be used for the maintenance of free schools, is to be used for the compensation of employees, Chippewas to receive the preference in filling permanent positions where the position is paid from tribal funds. Another \$10,000 is to be used to furnish employment for Chippewas in building roads and making other improvements on reservation and another \$10,000 is to be used to establish an electric light plant for the White Earth agency.

To Be Transferred.
The lands and buildings of the abandoned Mahanomen Indian school are to be transferred to school district No. 1, Mahanomen county, for administration farm, at a price to be fixed by appraisal. Forty acres of land on the Nett Lake reservation are to be transferred to the Northern Minnesota Conference of the Methodist Episcopal church. The superintendent of logging on the reservations is authorized to spend \$25,000 from the proceeds of sale of timber for payment of scalars and check scales and clerks. The house provision for the Chippewas has been changed to provide that patents for ceded lands shall contain a reservation of minerals that may underlie them to the former Indian owners.

Provisions.
Six thousand dollars is provided to pay the expenses of a general council of the Chippewas to be held at Bemidji the second Tuesday of next July, and the expenses of delegates to council at White Earth and Detroit in October last. Fifteen hundred dollars is provided for the education of two Chippewa boys at law with academy, Wisconsin, in 1916, and \$2,500 for five boys at the same place in 1917.

The act of June 1, 1914, providing for the appointment of a commission to make a roll of White Earth Indians has been changed to read "and to the attorney-general" a member of the commission instead of one member to be designated by the attorney-general. That act is also amended to provide that no allotment shall be rolled where there is a suit now pending to cancel the conveyance of the land involved.

Provision is made for the creation of a forest reserve on the Red Lake Indian reservation to be administered by the secretary of the interior "in accordance with the principles of scientific forestry."

CHURCHES OBSERVE LENT

Services Are Being Held By Episcopal and Catholic Congregations.

Schedule for Worshippers for Solemn Period Is Announced.

Lenten services are now being held in all the Catholic and Episcopal churches of the city. With the beginning of Lent yesterday, Ash Wednesday, local churches this morning announced the program of services from now until Easter Sunday, April 23.

Father Floyd of the Sacred Heart cathedral said this morning that special Lenten services would be held at 7:30 o'clock every Wednesday evening until Easter week, including a sermon and benediction at each service. On Friday evenings there will be a devotion known as "Stations of the Cross." Vespers will be sung at a service at 7:30 o'clock each Sunday, followed by a sermon and benediction. During this Lenten season there will be a special course of sermons each Wednesday and Sunday evening on "The Sacrament of Matrimony."

At the Trinity cathedral special Lenten services are held daily at 4:30 p. m., excepting Friday, when they will be held at 6 o'clock in the evening, according to Bishop Morrison, head of the Duluth diocese. Holy communion services will be held at 10 o'clock each Thursday, with the regular services on Sundays.

During each week Dr. Ryan will hold regular services at 4:15 o'clock each Monday afternoon, followed by instruction to the confirmation classes at 5 o'clock. On Tuesday, Wednesday, Thursday, Friday, and Saturday, 4:15 p. m., Wednesday, 10:30 a. m., Thursday, 8 p. m., Friday, and 4:15 p. m., Saturday.

GOOD TRAFFIC DESPITE SNOW

Lack of Cars Now Greatest Handicap to Railroads.

N. P. Reports Large Surplus; Milwaukee Earnings Also Are Large.

Though handicapped by heavy snows, railroads in the Northwest are considered to have made remarkably good showings in net earnings during the last two months. Traffic is said to be limited at present only to the ability of the roads to furnish cars, and the outlook now is for traffic in all classes of commodities to set new high records this spring.

The Northern Pacific's report for January is issued today. It shows that the road earned a surplus after allowing for dividends of \$17,728 in the month, as compared with a deficit of \$10,887 for the same period last year. At the end of January the surplus for the seven months available for dividends was \$16,380,650, or within \$1,000,000 of the whole year's requirements. The company's earnings for the same period were \$2,807,985, an amount equal to the earnings for the same period of the company's \$248,000,000 stock outstanding.

The statement of the Milwaukee road is expected to make almost equally as good a showing and predictions are made that with its 600 miles of electrical development in Montana in full operation, a wonderful saving will be effected in transportation costs through its Rocky Mountain divisions. Even in the operation of the completed parts, economies effected are reported to have exceeded the expectations of the management. By April 1st it is expected that the two electrified divisions between Harlowtown and Deer Lodge will be in operation, and from that time on it will be possible to ascertain with certainty what savings the improved electric line in Montana will effect. The Milwaukee road expects to haul an enormous tonnage of timber from the Puget Sound country within a couple of years, and that was an important factor in its policy of electrification.

With the example of the Milwaukee before it, the Great Northern railroad is said to have under contemplation the electrical operation of its line in some sections of the West. Its experts are now preparing a report on a projected development and an amendment on that score is expected within a few months.

FINAL TRIBUTE TO G. A. R. VETERAN

Old Soldiers Will Attend Funeral of Late S. W. Clark.

Old soldiers will pay their last respects to Servetus W. Clark, G. A. R. veteran and charter member of the Joshua R. Culver post, No. 128, tomorrow afternoon at 2 o'clock.

The funeral will be held from the Clark residence at 1407 East Third street, beginning at that time, and Grand Army men will be in charge of the ritual. Mr. Clark died yesterday morning after an illness beginning about three weeks when he was injured in a fall on some ice. In the funeral the body will be placed in a vault at Forest Hill cemetery.

Clark was a Duluth resident for thirty-four years, coming here from Fairbault in 1882. He was master mechanic at the Clyde Iron works, chief engineer at the Duluth pumping station and later, for many years, proprietor of the Duluth Hotel.

He leaves a widow, one daughter, Mrs. Charles Turner of Heaton, N. D.; a sister, Mrs. H. H. of Grand Rapids, Minn., and a brother, Arthur, a daughter-in-law, Mrs. Florence Clark, and a grandson, Charles Clark, also, are living in Duluth.

GEN. LOPEZ IS AMONG KILLED

Mexican, Second in Command to Gen. Villa, Lost His Life.

Twenty-Four Bodies of Mexicans Gathered and Burned.

Columbus, N. M., March 9.—Gen. Pablo Lopez, second in command to Gen. Villa, was killed today. Twenty-four bodies of Mexican raiders had been gathered and burned before noon and officials reported scores more were in the brush.

Major Lindsey, stationed at Gibson ranch, sent three troops of cavalry across the border to reinforce Major Tompkins, who went in pursuit of the raiders.

Lebarro Marques was captured by American troops and locked in the guardhouse charged with having guided Villa to the border and pointed out houses where prominent American civilians, American soldiers and soldiers lived.

A Mrs. Wright, who stated that she and her husband and baby were captured by Villa several days ago, were liberated just before the fighting started. She said at that time Villa declared: "I am going to shoot up Columbus and make a torch of every man, woman and child."

Col. Slocum stated one squadron of cavalry was coming from Fort Bliss and that he had sufficient troops to whip Villa again.

Since 7 o'clock the town has been quiet with only a few shots in the air.

Major Hoover sent a telegram to Washington asking what the government was going to do.

Mrs. Wright, who said she was released before the fight started, stated that she had been compelled to remain in the saddle almost continuously for nine days.

Washington, March 9.—Secretary Baker transmitted to President Wilson reports about the attack on Columbus, N. M., as quickly as they were received at the war department. It was said that the White House that vigorous steps would be taken to punish the bandits.

The president directed Secretary Baker to do everything possible to protect Americans.

A student sent word to the war department that he be notified immediately of all developments. Reports that American soldiers had crossed the border in pursuit of the Mexicans were shown him. The conviction prevails in official circles that the attack was a bold stroke on the part of Villa to force intervention by the United States.

WORST BOOM IS RUMORED

Non-Partisan League Meeting at Fargo May Declare for Him.

Several Thousand Farmers Are Expected to Attend Fargo Meeting.

Fargo, N. D., March 9.—(Special to The Herald.)—It is expected that several thousand farmers of North Dakota will be here March 31 and April 1 to attend the state mass meeting or convention of the Non-partisan league, in the Auditorium here.

The convention will be attended by delegates from every county in the state and the organization will make arrangements for the part it is to play in the coming primary and in the general election in the fall.

This statement was made by E. C. Coates, editor of the Non-partisan league, who appeared before the city commissioners for the purpose of making arrangements for the free use of the auditorium during the convention. The use of the auditorium was granted by the commissioners.

Everyone is invited. The Auditorium meeting will be a mass convention to which everyone is invited, but it is understood that where in the city which will be behind closed doors and that every delegate to this meeting is pledged to secrecy as to the program that will be outlined.

Rumors still persist that the Non-partisan league will make an effort to get the name of John H. Wray, former president of the North Dakota Agricultural college, on the primary ballot as a candidate for governor, despite the fact that Dr. Wray has stated that he does not intend to become a candidate for the office.

The opinion is freely expressed among adherents of all parties that he would be a formidable candidate for the office, especially since his practical dismissal from the presidency of the agricultural college.

INCREASE CHARGES ON CARRYING GRAIN

Railroads Swell Tariff Half Cent Bushel in North Dakota.

Jamestown, N. D., March 9.—(Special to The Herald.)—A flat increase of half a cent per bushel on the freight carrying charges for grain from North Dakota points to the Minnesota terminals is being made in some localities in this state by the

GRAND FORKS REPORTER DID NOT REACH WAR FRONT

W. J. BARCLAY.

Grand Forks, N. D., March 9.—(Special to The Herald.)—W. J. Barclay, formerly a newspaper reporter of this city, who went to Europe as a member of the Canadian expeditionary force, got as far as London when members of his family, through the state department, obtained his discharge.

Barclay was about to be sent to the front when the United States state department intervened, and Barclay is now at the parental home in Menominee, Mich.

Barclay, The Great Northern was the first to advance the rates and the Soo and the Northern Pacific have followed suit. The rates will be behind closed doors and that every delegate to this meeting is pledged to secrecy as to the program that will be outlined.

A flat raise all over the state would mean a loss to the farmers of about \$5,000,000 annually, and a corresponding increase in the revenue of the railroads.

Advocates insist the state railway commission would have no power to prevent the rate increase, and that the rates are on interstate traffic and that all the commission could do would be to file a protest with the state.

Justification of the recent advance in the rates of the railroads is made by the fact that the North Dakota farmers are now enjoying lower grain rates than the farmers of Minnesota, South Dakota or Minnesota and the rate is necessary to make the operation of the railroads profitable.

Leaders of the Equity movement were discussing the situation here today and suggested their intention of making a direct appeal to the interstate commerce commission, and to the members of both branches of congress from this state in order to result in a rate reduction.

Merchants, as well as farmers, are complaining about advances in freight rates, although the methods in relation to merchants are different. Instead of flat increases in commodity rates the railroads are advancing classifications, and in that way securing the advances they wish.

The North Dakota Retail Merchants' association may take the matter up with the interstate commerce commission.

MAIL ORDER MATTER OVERFLOWS POSTOFFICE

St. Cloud, Minn., March 9.—Eighty-one thousand eight hundred and thirty pounds of reading matter sent out by a mail order house to people in the vicinity has overflowed the local postoffice to such an extent that storage room for a part of the carload of catalogues has been provided at the Carter building. The rooms of the postoffice are littered and cluttered with bulging mail sacks packed tight with catalogues.

NORTH DAKOTA EDITOR WHO WOULD BE GOVERNOR

GEORGE J. SMITH.

Plaza, N. D., March 9.—(Special to The Herald.)—George J. Smith, of this city, candidate for the Republican nomination for governor of North Dakota, has been a resident of North Dakota for many years. He came here from Neillsville, Wis., and took up a homestead twenty-four miles from Plaza.

Mr. Smith soon engaged in the newspaper business, and is now the publisher of the Plaza Pioneer, Stanley Independent, Douglas Herald, Ryder News, Makoti Herald, Van Hook Tribune, Public Opinion of Bismarck, and the Parshall Post.

In Wisconsin, Mr. Smith was a strong La Follette supporter, and he was in charge of La Follette's campaign in Clark county when the present senator was first a candidate, and the county was carried for him.

Mr. Smith is of German stock and was born in Hayton, Calumet county, Wisconsin.

WARROAD CANDIDATE CHALLENGES RIVAL

CHARLES A. MOODY.

Warroad, Minn., March 9.—(Special to The Herald.)—The local village campaign is not devoid of spice. This is evidenced by the fact that Charles A. Moody, founder of Warroad, who came to this section first as an Indian trader, then homesteaded the land upon which the village now stands and who is candidate for village president or mayor, has challenged T. F. Spreitzer, present mayor and candidate for re-election, to meet him in debate in the opera house next Monday night.

The election will be held Tuesday. There is said to be no love lost between Moody and Spreitzer, the former claiming the latter has gone out of his way to "knock" him on divers occasions; therefore, to get his side before the public taken suddenly, Moody decided to take a thirty-mile night drive to this city.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is a penetrating liniment, and it is everywhere tell of its soothing effect, how it allays pain incident to stretching of cords, ligaments and muscles. They tell of restful comfort of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morning sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradford Regulator Co., 408 Lamar Bldg., Atlanta, Ga.

It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

Gladstone—Edgar Mayle of Gladstone, who was committed to the Newberry hospital here by Percival Yelland, suffered from a hallucination that made him a dangerous man. Only 48 years old, an inmate of the Soldiers' home, was found dead in the barracks by a guard on Tuesday. According to Mrs. Roberts, Falkenberg died from the effects of an overdose of morphine.

Stevens Point—After suffering nearly five days before a doctor was called, then taken to a hospital, a thirty-mile night drive to this city, Ludwig Kalata, a Jeweler of Zieglers, died at St. Michael's hospital here.

The first step toward the reorganization of the Chippewa Sugar company of Milwaukee was taken Monday by the incorporation of the Chippewa Sugar Refining company, with \$500,000 capital, which will take over the interests of the old concern.

Stevens Point—Augusta expects to install a sewer system this summer. The Civic and Commerce Association is backing the project and is getting estimates of cost.

DAKOTA BRIEFS

Grand Forks, N. D.—Andrew Good, posing as a white slave reformer in the Northwest for several years, was arrested at Columbus, Mont., three weeks ago.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many things which we read about and are of immediate importance to the expectant mother, is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is a penetrating liniment, and it is everywhere tell of its soothing effect, how it allays pain incident to stretching of cords, ligaments and muscles. They tell of restful comfort of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morning sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get a bottle of "Mother's Friend" from your nearest druggist. Ask your husband to get it for you. Then write to Bradford Regulator Co., 408 Lamar Bldg., Atlanta, Ga.

It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

THIEF RIVER FALLS LANDMARK IS BURNED

Thief River Falls, Minn., March 9.—Fire Tuesday wiped out a landmark in the heart of the business section of Thief River Falls. The modern building will be rebuilt on the ruins.

A barber shop and a Greek restaurant were the center of the flames and their contents were either burned or destroyed by smoke and water. A real estate office was damaged by smoke and water and the Olympic con-

ago on a statutory charge, his 13-year-old daughter being the complaining witness. He was given a sentence of eighteen years by Judge W. C. Crawford. Good is 45 years of age and came originally from Iowa. He resided for some time at Elk River, Minn., coming to Stark county a little over two years ago.

Wilton, N. D.—Money is being raised to build a Scandinavian Lutheran church, which will be situated one-half mile west of M. G. Hagen's farm in Painted Woods. Already \$1,000 has been pledged and contributions are being received daily.

Mohrbridge, S. D.—At a meeting held here this evening, March 25, of the Dakota Fair circuit was organized and the following officers elected: President, E. H. Notbom, Secretary, Ray J. Murphy, Treasurer, F. B. Zimmerman, and Secretary, F. B. Zimmerman.

Devils Lake, N. D.—Announcement that the Interstate-Calumet company of Idaho has earned dividends of close to \$4,000,000 during the last ten months reminds old-timers of this section of the days when John A. Pershing, New York, formerly of Duluth, president of the company, was a resident of Devils Lake. Pershing was in the banking business here over a score of years ago. Several North Dakotans hold stock in the company which has paid such enormous dividends since the war started.

It is in good financial condition. Officers elected for the year are: President, John Perry, vice president, R. O. Lindberg; treasurer, John Rohrer, and secretary, Miller. Dr. A. P. Nelson, street commissioner; Syvert Johnson, weigher and scaler; Grant Price, city clerk. The appointment of assessor was postponed. Appointment of a member of the water and light commission resulted in the election of William Wagner after the fifth ballot.

Stillwater—The petition for the discharge of Claude May from the state prison on a writ of habeas corpus was denied in the district court by Judge Nethaway. It was shown that May was sentenced to the state prison by Judge Alfred Johnson in Dakota county and that the sentence was suspended for six months on condition that he attend church each Sunday and refrain from the use of intoxicants. The sheriff of Dakota county committed May to the state prison eighteen months ago without any further proceedings by Judge Johnson.

Mankato—Edwin Meyer, aged 22, son of the late Mrs. A. J. Meyer, was taken very sick the day of his father's funeral with appendicitis and was operated on at St. Joseph's hospital. This was the fifth attack and he was pronounced incurable. Dr. A. P. Schmitt, considered an operation necessary.

Brainerd—J. G. Brown has gone to Livingston, Mont., to attend a district meeting of the boiler makers, he being business agent of this district. At Missoula, Mont., he will attend the meeting of the Northern Pacific in railway work. Mr. Brown expects to return home on March 15.

East Grand Forks—Local street lighting has been reduced to less than one-third of what it was the same period last year. During the month of February, 1916, the cost of street lighting for East Grand Forks amounted to \$84.60, while that of the same month in 1915 amounted to \$225.00.

St. Paul—The state investment board approved loans aggregating \$34,195 without any further proceedings by Judge Johnson.

Rochester—The organization of a rifle club in the city is well on its way. The petition has already been signed by twenty shooting enthusiasts and the club is expected to be organized by the National Rifle association.

NEWS, GOSSIP AND COMMENT OF THE OLD SPORT WORLD

BY BRUCE.
Art Smith, the aviator, and his wife have decided to get a divorce. High life.
Little Trips to the Homes of the Famous.
No. 2, Jawn Ritchie.

(By Mail.) We found the famous sport writer asleep in his den. At first we were of a mind not to disturb him, but were hastily informed by Dr. Harry Williams, who was at Mr. Ritchie's house at the time we called, that Mr. Ritchie slept most of the time and that he would not mind being awakened; in fact, the good doc explained that it would do Mr. Ritchie a great deal of good.

"When did you begin writing sports, and what drew you into that occupation?" we asked of the great sport writer, as we sat on a Minneapolis hassock and pulled at a cheeoot.
"I am ashamed to tell you when I began writing sports," returned Mr. Ritchie, "and another thing, sport writing is not an occupation, it's a hazard."

At this shaft of glowing wit, so characteristic of the great author and creator of Amanda Oatbar and William Varnum, we unlocked a host of goodnaws, which caused Doc Williams to hastily look up from the football chart he was working on.
"Do you recall any of the early fights of this country?" we next asked.
"The war of 1812 and the Civil war," replied the well-known sport author.
"We mean prize fights—manipulations, managements, this wars of the sport," we hastened to interject.
"Well," began Mr. Ritchie, "it was a cub reporter when Tom Hyer defeated John McCusker, at Caldwell's Landing, N. Y., back in 1859. It was a snappy fight, and was great at counteracting. Hyer fought with bare fists, and as I recall it, the purse was \$75. It was a full-fledged fight reporter at this time and I believe, was one of the first sport writers to give a fight by rounds."

Here we were, sitting at the stockinged feet of a great and prophetic sport, who, like Moses of even more ancient times, led the way of the followers out of the fog and wilderness of logic, wit and punning, and we were suddenly carried back to the primitive sport ages and were basking in the sun of an eloquent dissertation.
"One of the first baseball games I ever witnessed," the great author continued, "was when Jake Beckley was a mere boy and Harry Chadwick was scoring his first game."
An involuntary exclamation of awe and reverence escaped from your respondent. To think that this venerable man had been engaged in the great world of sports when Jake Beckley was a mere boy!

"What do you consider your greatest article?" we eagerly inquired.
"Between 60 and 70 years," came the decisive answer. "Joe Cantillon has proved this. Young athletes, while possessing great zeal and exuberance, lack the steadiness of the veterans. This, I believe, applies equally to mental protechnics or body concentration. It was not until some time after the Civil war that I cast aside the articles and banal usages that are so frequently associated with the work of young writers."

We stood on the snow-covered sidewalk and looked back at the house we had just quitted. As the blatant youths in the days of Joseph were solemnized by conversations with the seers of prophets, so we felt awed and inspired. To talk with the man who had witnessed those stirring events that have gone to make up the great world history of this country. As we were on our way down to the National hotel Dutch room, our mind was held as in a trance, oblivious to the life that surged around us.

The Old Army Game.
Player Mann, who was under George Stallings, but is now a candidate for the Cub team, has written several of the sporting editors of Chicago that Joe Tinker is a greater manager than George Stallings. All this fellow should have to do to gain a regular place on the Cub team, is to behave himself and report at the park daily.

The Horrible Example.
Every time a fighter comes to St. Paul in quest of the elusive scalp of Mike Gibbons, they stack the invalid.

ing middleweight up against old Al Palzer. After the ambitious visitor has circled the altitudinous Albert like a hawk gaily goes around a prospective meal, the papers come out and laud the visitor and hang wreaths around his perspiring brow.
After harking back to what Farmer Lodge did to Palzer, we officially pronounce Albert deceased, even as a criterion.

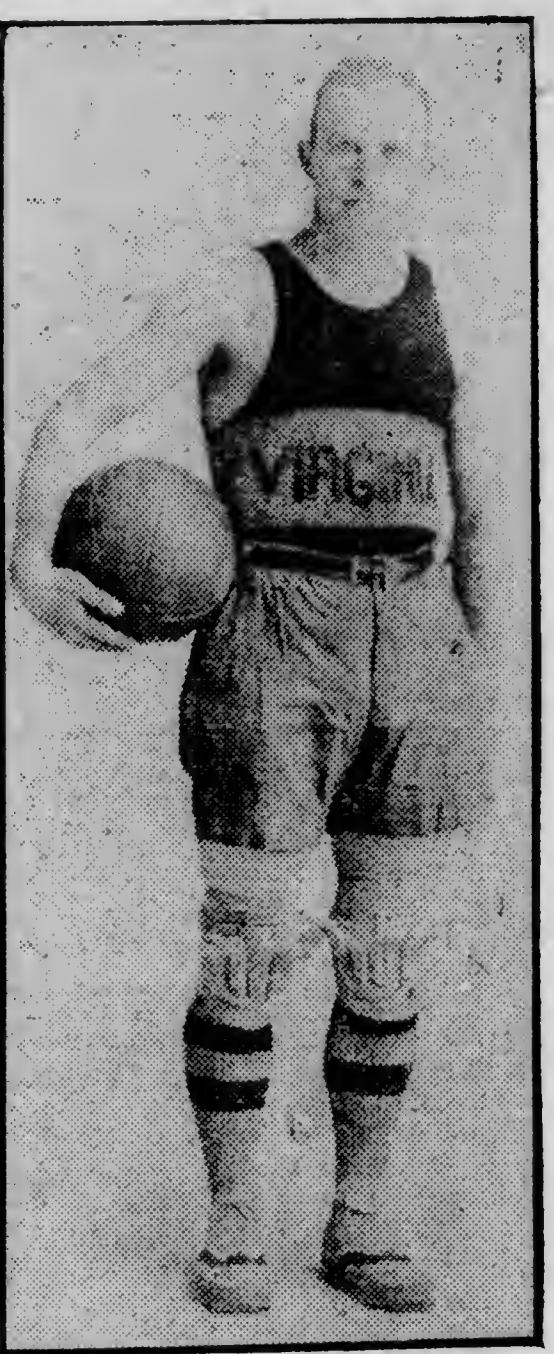

EXPECT HARD GAME WITH HIBBING
Range Quint Hopes to Down Central Team Friday Night.
A great game is ended for the Washington gymnasium for tomorrow night when the local Central high school basketball quint takes on the crack Hibbing high school aggregation.

About a month ago the Duluthians journeyed up to the range and took the measure of their opponents in an exceptionally fast and close contest by the score of 25 to 24. The local quint was then at the height of its strength and they were forced to go the limit to win.

Tomorrow night the rangers will come onto the floor seeking revenge. They have been defeated by Duluth by but one point in each of three games in the last three years, and they will make a mighty attempt to turn the tide of defeat tomorrow night. Because of the fact that the Central quint has been materially weakened by the loss of Shaw and Christensen, two of the team's stars, the rangers believe that they will be able to turn the trick this time, and that they need to make a mighty effort to do it.

Catch Blake, however, has been working hard with the Central quint and they are in great shape for a hot battle. The loss of the two men caused a break up in the wonderful team work of the Red and White combination, but the men are working hard to get back their old form and they believe that they will be able to take the measure of the rangers. The lineup of the two teams will be as follows:
Duluth Central.....Hibbing High
Mason.....Nord
Goggin.....Peterson
Schramm.....Schramm
Rosenberg.....Murphy
Hermanson.....Kaiser

STAR PLAYER OF THE VIRGINIA QUINT

FRANK CUMMINGS.
This lad is one of the crack basketball players of the crack Virginia quint. The range team has made a remarkable record this season, having failed to meet with a single defeat. Manager Joseph Dillon is after a contest with the strong Red Wing team. If a series of games is arranged between the two teams, it will decide the state championship. Most of the Virginia players are former college stars.

Boston Runner Lowers Halpin Time; Meredith Did It Two Weeks Ago.
Newark, N. J., March 9.—The world's record time for a 600-yard run, established by Tom Halpin in 1914, was bettered for the second time in two weeks here last night when Dave Caldwell of the Boston A. A. defeated Ted Meredith of the University of Pennsylvania by one foot in 1:13.5.
This is two-fifths of a second faster than Halpin's record. In Buffalo two weeks ago, however, Meredith was timed in 1:12.2.5.

GLASS BLOCK BOWLERS DEFEAT THE CENTRALS

COACH FOR HOCKEY MEN

Duluth Citizen Offers to Hire Expert to Instruct Local Players.
Big Duluths and Universals Will Meet in Benefit Game.

A famous hockey coach may be brought to Duluth next season to teach the fine points of the game to the members of the teams comprising the Duluth Amateur Hockey league.
This announcement was given out today by Duluth hockey officials, after a prominent citizen of Duluth offered to donate the entire expense of the securing of the best coach obtainable.
The man in question has been a keen follower of the game. Impressed by the remarkable progress achieved by the Duluth team, he became enthusiastic over the future of the game as conducted under its present auspices, and he made the offer to assist in putting the game on a higher plane than it has been in the past.

Universals and Big Duluths.
At a meeting of the amateur league officials, held late yesterday afternoon, it was decided that the protest of the Big Duluth management over the game of last Friday, in which the Universals won by the score of 2 to 1, would not be allowed. Manager Norsted of the Universals held that the foul playing time was not permitted by the times keeper.
It was pointed out that an agreement relative to the question of time, was made at a meeting of league officials, and that the Universals were lived up to in all its details.
The Big Duluths and Universals will meet Thursday evening, March 16, in a game to be played for the benefit of the league. As the last contest between the two teams was one of the best in the history of local hockey, it is expected that the benefit game will prove another sparkling encounter.

Members of both teams will practice between now and the time of the game, as the rivalry between the two teams is very intense. The Big Duluths win the coming contest, there will be violent cries of "Vindicated!" and should the Universals again prove the better team, there will be smirking and smiling and a flock of "I told you so's" scattered around the curling rink.
Speak Up, Mr. Good Sport.
League officials suggest that here is an opportunity for some good sport to donate a prize to be played for in a beautiful and interesting and exciting and would make the occasion a fitting finale to a season of amateur hockey.

Interest in the approaching game is already high and it is believed that as the game time approaches nearer, interest will be white-heated and fervent.

CENTRAL WINS HARD GAME

Denfeld Quint Gets Early Lead But Loses in Last Half.
Fee and Karon Play Star Game for Central; Score 35 to 10.

The Central high school basketball quint last night defeated the Denfeld high school team by a hard fought game by the score of 35 to 10. The game was played in the gymnasium of the West Duluth school and was witnessed by a crowd of more than 200 persons.
For a time in the first half it looked as if the Denfeld men would be able to give their opponents a close game. Central was handicapped by the strangeness of the baskets, and the West Duluth men got an early lead. They maintained it for some time in the first half and when the first period was over the Central five was leading by 10 to 4. Karon and Fee were the stars of the first half.

Central came back strong in the final half and swept the Denfeld men. The Denfeld men lacked knowledge of some of the finer points of the game but they put up a good fight. The Central team was without the services of its captain, Frank Goggin, and as a result the team work was somewhat broken. Fee at center, however, played a great game, getting a total of 12 points. The other men also played hard and consistently. The Denfeld men lacked knowledge of some of the finer points of the game but they put up a good fight. WILL ASK FOR NEW SCHOOL

Lester Park Residents Con-
demn Present Building
as Inadequate.

Already Crowded, With 115
New Pupils Expected
in Fall.

Lester Park residents, at a meeting of the Lester Park Improvement club at the Lester Park schoolhouse last night, unanimously agreed upon a campaign for better school facilities. A committee will appear before the board of education tomorrow night.

Vigorous condemnation of present educational facilities featured the meeting, and the belief that another grade school building would be necessary before the year was ended, was expressed.

The building is too small, as well as being unsatisfactory, because of its wooden construction, club members said. It is inadequate to provide for the pupils now enrolled in classes, to say nothing of those who will attend, beginning next fall.

"The principal's office has been moved out in the hall to make room for pupils," said one speaker. "It looks as though the next move would be into the street."

"There are 280 pupils enrolled," declared Mrs. W. A. Mollard, 6723 East Superior street, who is chairman of the school committee of the Lester Park Literary club. "We shall have 115 to 120 new pupils ready to enter the school next year, not including those from families that may move to this part of the city in the meantime." The committee which will present the club's views to the board at the March meeting tomorrow night consists of John H. Norton, chairman; John J. Dowling, Jr., Judge Bert Foster, J. E. Debb, J. F. Ingersoll, Dr. H. E. Webster, Dr. C. A. McFadden, W. G. Starkey, Stanley H. Hill, Clinton Brooks, C. H. Hall, Frank Letourneau, A. L. Snyder, W. A. Kennedy, Ralph J. Davis, Frank E. Thompson, Mrs. W. G. Starkey, Mrs. F. W. Palmer, Mrs. W. H. Vaughan, Mrs. H. P. Hare, Mrs. John H. Norton, Mrs. Joyce Westover, Mrs. David H. Williams, Mrs. J. E. Watta and Mrs. Mollard. The club secretary was instructed to write the board, advising the members of the club's action.

FRANCE NOW HAS REAL LOVE-MAKING

May Develop Into Revolution
of the Marriage
System.

Paris, March 9.—Genuine courtship—real love-making as an incident to marriage is one of the innovations that war has brought to France. It may develop into a revolution of the marriage system and is almost certain in any case to be the death of much of the red tape that has entangled, and more or less strangled, Cupid.

Marriage was hard hit during the first months of the war, but by reason of the authorization of unions by proxy and the infusion of war romance, it is rapidly recovering.

In Paris there were only 468 marriages in January, 1915, as against 2,241 in January, 1914. In December, 1915, there were 1,289, showing a remarkable recovery under the circumstances.

In a great many of these war marriages, it is noticed that girls without fortune are for the time being running their more favored sisters a close race, since in a great proportion of the marriages celebrated since hostilities began the marriage contract has been dispensed with; no mention of dowry or talk about money; romance has taken the place of finance.

Wounded heroes have in hundreds of cases fallen in love with and married their nurses; nearly every day the story is told of some man in a fighting regiment corresponding with an unknown sympathizer who has come home on leave to find that his "good mother" is worth marrying for herself.

Women and girls are doing "good mother" to unknown correspondents at the front have developed what is lightly called the "flirt at the front" into formidable proportions, and this is at this moment perhaps the most efficient marriage agency in the world. The sacrifices made by some

A SPOONFUL OF SALTS RELIEVES ACHING KIDNEYS

We Eat Too Much Meat,
Which Clogs Kidneys,
Says Noted Authority.

If Back Hurts or Bladder
Bothers, Stop All Meat
for a While.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scales and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink—Advertisement.

girls marrying soldiers who have been blinded or maimed almost to the point of total helplessness have spread the contagion and love affairs are born at every hand by the close communion of sympathetic minds centered on great events, and through the constant movement of soldiers coming in contact with new faces, every one of whom presents circumstances is bound to be sympathetic.

Some psychologists have inquired whether there was not in France a crying need for deeper affection, and whether the decreasing natality in the country was not due in great part to the obstacles of marriage and the more material considerations that always entered into it. The soul-stirring incidents of the war have unquestionably brought everyone into closer union and there seems to have been a general wiping out of old scores that kept acquaintances and even families apart. There have been many reconciliations through the exchange of news of the exploits of mutual friends and many instances of divided families reunited over the tomb of a fallen hero.

Young people are now being brought together by force of circumstance, not by the attraction of wealth, but simply by the greater force now asserting itself of youth and the common will. It is asked whether it will continue after the war and what effect it will have upon the future of France; an idealistic people, after being held in materialistic bondage so far as concerns so vital a question to the race, is coming out so strong in the present irresistible appeal to romanticism that many believe it will result in a transformation of the marriage system. Some contend that men will marry younger and marry for love instead of for money, will marry more in reason and sincerity, and that with the stronger tie of affection taking the place of interest, divorces will become less, while the population will grow correspondingly more numerous.

"MOVIE" SHOW AT STATE PRISON

Building Rings With Laughter at the Comedy
Films.

Stillwater, Minn., March 9.—(Special to The Herald).—Every Wednesday evening when dusk begins to gather about the Minnesota state prison, more than 1,000 inmates of the institution and take their places before the screen upon which is flashed the weekly "movie" show. The prison orchestra, composed of inmates, strikes up a popular air, and in a very short time the building is ringing with laughter for the opening film is always a comedy.

"And what is better for a diseased mind than laughter?" asked Warden C. S. Reed, today, in discussing the new system, which he says has proved very successful.

One demerit mark in a week takes from the inmate the privilege of attending the show, and out of 1,038 prisoners, there have never been more than 25 absentees during a performance.

"It is wonderful to see how these people strive to deserve the privileges accorded them," said Warden Reed. "So far not one of the twenty-five women prisoners has missed a weekly show."

"In censoring the films, we eliminate sentimental, wife-beating, drinking, robbery and blood-and-thunder matter. Shakespearean and other costume plays are very popular." When a villain in a drama picture is given the punishment deserved, the inmates applaud vigorously.

Warden Reed said that despite the favor shown the "heart interest" drama the inmates, as a whole, prefer the "up-and-at-em" comedies.

LONE BANK ROBBER IS STILL SOUGHT

Bandit Who Held Up Small
St. Paul Bank Not
Taken.

St. Paul, Minn., March 9.—Police throughout this section of the state are on the lookout for the bandit who entered the Security State bank, on the West side here yesterday, forced three employees into the vault, gathered up \$1,567 in gold and currency, and escaped toward South St. Paul in an automobile. More than \$5,000 in gold and currency was overlooked by the robber.

This is the fourth bank robbery by a bandit who has been robbing in Minneapolis and St. Paul in less than four months.

The bandit, with a gun in each hand, invaded the bank and poked the guns through the window, driving the president, vice president and cashier of the bank into a vault. Shutting the vault door, with the three inside, the bandit went to the money counter and drawer. There he found more than \$1,000 in bills and coins. Rapidly sweeping the money into a sack, the robber fled.

COUNTY'S SHARE OF FUNDS IS \$71,458

State School Aid at the
Rate of \$2.10 Per
Pupil.

St. Louis county's share of the semi-annual apportionment of the state's current school fund is \$71,458.50, according to notice which L. A. Marvin, deputy county auditor, received yesterday from St. Paul. Apportionments are made twice a year, in March and October.

The money received from the state will be spread on the books of the auditor to the credit of the various school districts of the county on the last Wednesday of the month.

The amount to which the county is entitled this year is fixed at the rate of \$2.10 per pupil and according to figures prepared by N. A. Young, county school superintendent, St. Louis county has 34,028 pupils entitled to apportionment.

Duluth schools have 13,550 pupils entitled to apportionment and will receive \$28,998.50.

CAPTAIN DIES AFTER BRINGING IN STEAMER

Boston, Mass., March 9.—Collapsing from exhaustion on the bridge after a four-day battle against the storms, Capt. Charles W. Chickering of the British steamer Clearway died last night as he was bringing his vessel into port with a \$1,000,000 cargo from the Orient. The Clearway had an unusually long and difficult voyage from Calcutta, she left there Dec. 31, and encountered much stormy weather which culminated in a series of gales off this coast.

New Minn. City Concern.
St. Paul, Minn., March 9.—The Wells & Dickey Trust company of Minneapolis was chartered yesterday by A. H. Turstin, state superintendent of banks. The company has a capital stock of \$200,000. The company deposited with the superintendent \$50,000 in securities.

MARKET HAS FAIR BULGE

Wheat Advances on Active Buying and Short-covering Demand.

Crushers Bid For Flax Supplies and Market is Sustained.

Duluth Board of Trade, March 9.—The market was strong around the close with fresh bidding and buying attributed to short covering.

May wheat closed 1/2c up, and July, 1/2c up.

Oats closed 1/2c up at 39 1/2c for on the track, unchanged at 37 1/2c, and barley, 2c up at 60 to 65c for on the track.

At Minneapolis, May wheat closed at \$1.05 1/2, and July at \$1.06 1/2. At Kansas City, May wheat closed at \$1.03 1/2, and July at \$1.04 1/2.

Contrary to general expectations the wheat market showed strength throughout the session. The government report on farm reserves was without influence, apparently being thought discounted in the long drawn-out decline. Opening figures were over 1c off and then a wave of buying started a rally which carried quotations to 1/2c above yesterday's close.

Some realizing then brought about a moderate decline.

While the market showed an upward trend today, dealers express themselves as not at all hopeful that the present price levels can be maintained. It is pointed out that with enormous stocks to market in this country, Canada, Argentina and Australia, it is not likely to show any anxiety on the score of supplies as they did a year ago. It is estimated that there is at present 10,000,000 bu of wheat unsold in Duluth elevators, whereas a year ago it was practically all under contract and could have been disposed of a couple of times over the present season. It is also a bearish factor, limited imports, it is pointed out, are picking up Canadian wheat first, so that American grain is awaiting its turn, instead of being in demand for drum there has been little demand in American spring wheat on foreign account of late.

Cash demand on the Duluth market was slow today, but the basis was unchanged at 1/2c under to 2c over May for No. 1 northern. The spreads in the lower grades showed a widening tendency and from No. 2 northern down they were a drop on the market.

Cash No. 1 northern was liberal, amounting to 154 cars of wheat and 22 cars of oats.

May wheat opened 1/2c off at \$1.05 1/2, advanced to 1/2c under to 2c over May for No. 1 northern. The spreads in the lower grades showed a widening tendency and from No. 2 northern down they were a drop on the market.

Receipts of bonded grain were liberal, amounting to 154 cars of wheat and 22 cars of oats.

MARKET GOSSIP.

At Buenos Aires closed easy with lowered export bids owing to the difficulty of shipments. Broomhall's agents estimate shipments of linseed this week at 74,000 bu. Weather is favorable. London opened easier.

Foreign crop summary: Balkan states—Crop outlook and weather are favorable. Sales to the Allies continue to be reported.

France—General crop outlook is not favorable. Portugal—Crops promises large on an increased acreage. The government promises to maintain the price at 83s per 480 pounds during the next three years.

Argentine shipments for week are estimated at 2,500,000 bu; corn 850,000 bu.

B. W. Snow says there is 85,000,000 bu more wheat on farms; 18,000,000 bu more wheat in commercial stocks and 41,000,000 bu more wheat scattered around the country; total 147,000,000 bu more wheat than a year ago.

Broomhall called from Liverpool: "What was easy, influenced by the American government report, but later with pressure in winter. Carman's 4 1/2c lower and Plates 4c lower. Later Manitoba became steadier at 1 1/2c lower than yesterday. There is less pressure of offers."

Rumors at Liverpool were current that combined shipments this week from Argentina and Australia would total very heavy, approximately 5,000,000 bu. This is not confirmed, as only moderate clearances this far are noted.

Duluth grain stocks, giving changes throughout the session. The government report on farm reserves was without influence, apparently being thought discounted in the long drawn-out decline. ABSENT-MINDED ABNER—He Ascertains Just How Simple a Simple Thing Can Be

By Walt McDougall

MEN SCARCE; CAMPS CLOSE

Loggers Are Handicapped For Help and Crews Are Combined.

Threshers Already Arranging to Contract For Men For Next Fall.

The scarcity of men for common labor has probably never been keener in the Northwest than at present. Several logging camps have been closed because of insufficient crews and outside contractors are already arranging to supply crews of men for the Dakotas next fall. Loggers, who send in orders for men now, get little satisfaction as men are scarce in Duluth and what few are here, refuse to go to the woods because of the deep snow, which is said to be handicapping activities in the camps, all through Northern Minnesota and Northern Wisconsin.

Camps Already Closed. "In some cases," said an employment man today, "camps have already been closed because of a shortage of men. What men were available were taken to other camps to round out the insufficient crews farther inland, and the camps used by the railroad stations will be opened later in the spring, and kept in operation all summer."

Loggers are particularly eager to get out a big supply of logs this year as the demand for lumber is good, and getting better all the time. They sawmills at the head of the Lakes are now running and the Alger-Smith mill at West Duluth will be opened as soon as the ice goes out.

High water also is expected this spring in all the streams, and conditions will be such that logs can be floated down the streams much easier than in years. Last spring thousands of feet of logs were held in Northern Minnesota for weeks because of low water.

Loggers now say that operations will be continued this spring in most of the camps until the first of April and perhaps later. It is doubtful, they say, if the weather changes sharply enough to destroy the ice roads before that time. The snow has been so deep that the road beds have been deep and hard.

Threshers Working.

Threshers in the Dakotas are already working about half for next fall. Some of them have already been in Duluth to arrange for full crews with employment agents. Last week they say, wages went up to \$3.50 a day and board, and men were hard to get at that price. This year conditions are much worse, and threshers are planning to secure full crews of men at good wages and pay them a bonus for staying on the job a reasonable length of time. Last year strike agitators were at work, and in some places in the Dakotas men stuck their pitchforks in the shocks of grain and refused to go to work before 1 o'clock in the morning. This year threshers will avoid labor trouble insofar as they are able.

NORTH DAKOTA JEWS AIDED WAR SUFFERERS

Fargo, N. D., March 9.—Jews of North Dakota contribute \$5,000 to relief work among the war suffering Jews of Europe, according to a report made by the general committee in charge of the work in Fargo and in this district. The Fargo committee made a total collection of \$3,407.60, while the Grand Forks committee, which handled the north end of the state, made collections of over \$2,000. The city of Fargo netted a total of \$1,853.20, while Moorhead and Dilworth produced \$125.

Judgment Not Settled.

Axel Oslund did not pay or satisfy a judgment for \$166 held against him in favor of the late Fred B. Rosson, prior to the latter's death two years ago, according to a special finding returned by a district court jury this morning. Oslund brought suit to set aside the judgment, claiming that he had settled with Rosson prior to the latter's death on Jan. 21, 1914. Ida C. Rosson, widow and administratrix of the estate, denied the claim and the issue went to a jury. The jury decided in favor of Mrs. Rosson.

TROOPS ORDERED TO MEXICO

INSTRUCTED TO CAPTURE VILLA DEAD OR ALIVE

INFANTRY ATTACKS ON VERDUN AGAIN CEASE; NEXT MOVEMENT OF GERMANS AWAITED BY FRENCH

VAUX FORT STILL HELD BY FRENCH

Violent Bombardment By German Artillery Continues on Meuse.

Germans Admit Opponents Are Holding Fort Reported Taken.

Recent Shifting of Attack to North Came Unexpectedly.

London, March 10.—A momentary lull in the desperate infantry fighting about Verdun is reported today from Paris. The Germans have not again attacked on either bank of the Meuse, it is announced, but violent bombardment of the defenses continues, indicating that the respite probably is to be brief.

Where the next German heavy blow will fall, military commentators do not attempt to predict. The recent shifting of attack from the region of Bethincourt and Goese hill to the scarred battle grounds of Douaumont and Vaux came with seeming unexpectedness, and according to Berlin achieved substantial results in the region of Vaux.

Contradicted by French. An official statement from Paris today, however, emphatically contradicts the German claim to the capture of the fort and village of Vaux. The (Continued on page 7, third column.)

NEUTRAL ZONE IS ADVOCATED BY LIND

Minneapolis, Minn., March 10.—(Special to The Herald.)—A neutral zone along the border from thirty to forty miles wide and policed jointly by the American and Mexican governments would put an end to border troubles, in the opinion of John Lind, former personal representative of President Wilson in Mexico.

MINN. GUARD IS ALL READY

Will Answer Any Demand Made By President, Says Governor.

Present Strength 3,400 Men Can Be Greatly Increased.

St. Paul, Minn., March 10.—(Special to The Herald.)—In anticipation of possible trouble with Mexico as a result of the recent border outrages and a probable call for troops, Governor Burnquist today held a lengthy conference with Adjutant General Wood regarding the present condition of the Minnesota National Guard. The conference was made further interesting by the receipt of several telegrams from leading New York papers asking the governor's opinion regarding foreign matters now in dispute.

One telegram from the New York Sun asked of the governor the number of men Minnesota could provide in the event of a call for troops. Another from the New York American (Continued on page 7, fourth column.)

FRENCH CONSIDER THE SITUATION AT VERDUN HIGHLY SATISFACTORY

Public Greatly Cheered By Results of Thursday's Fighting.

Germans Fail to Bend, Much Less Break, the Blue Line.

Assailants Take Half Day's Rest to Recuperate Forces.

Paris, March 10, 5:45 p. m.—The situation at Verdun is regarded as much better from the French viewpoint as a result of yesterday's fighting. The public is greatly cheered by reports of successful resistance on the part of the defenders of the fortress. Notwithstanding an enormous expenditure of ammunition and unstinted sacrifice of life, the Germans have failed to bend, much less break, the blue line.

The inference drawn by the general public is that the German wave has advanced as far as is in its power without further wastage on a large scale with the German general staff hesitates to make with four army corps already put out of action in the struggle of eighteen days.

Exhausted by three days of violent efforts, the assailants called a half day's rest to replenish the depleted ranks of infantry. The French took advantage of the respite to sweep out the Germans still remaining in the region of Vaux.

FRENCH STEAMSHIP SUNK BY SUBMARINE

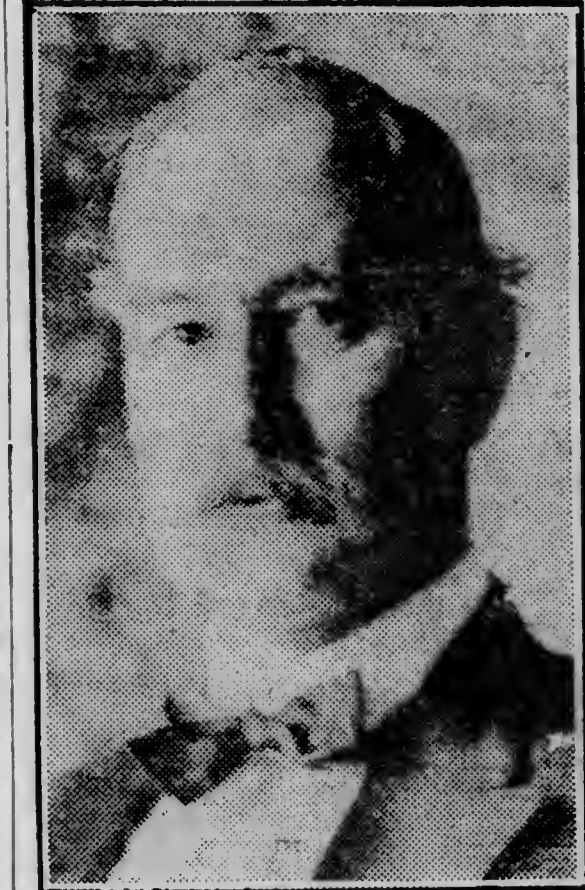

First Report of Presence of Submersibles Near That Part of French Coast.

Paris, March 10.—A Havas dispatch from Havre says that the French Line steamship *Louisiane* sank last night at 11 o'clock. All the crew were saved. No passengers were aboard. It is presumed that the vessel was sunk by the same submarine that has been operating along the coast between Boulogne and Havre and which torpedoed the *Hermione*.

The *Louisiane* had arrived from New Orleans, which port she left on Feb. 11, entering Newport News on Feb. 17 and leaving on the following day. The vessel was built in 1905 at Dunkirk and was owned by the Compagnie Generale Trans-Atlantique. She was of 5,109 tons gross, was 375 feet long and 47 feet beam. She had for many years been engaged in trans-Atlantic passenger service, mostly to ports in the Gulf of Mexico. No further details of the loss of the ship have been given out.

The allusion in the above dispatch to a submarine operating along the English channel between Boulogne and Havre is the first word that has been received here regarding the presence of a hostile craft on that part of the French coast. Available shipping records made no mention of a vessel named *Hermione*.

SENATOR A. B. FALL Of New Mexico.

American's Pocketbook on Lopez. Columbus, N. M., March 10.—The pocketbook of T. M. Evans, one of the Americans killed in the Santa Ysabel massacre, was found on the body of the Mexican identified as Pablo Lopez, second in command to Villa.

DOING HIS BEST TO STIR UP TROUBLE.

WOMAN ASKS \$5,000 FOR BEING HUGGED. Salt Lake City, Utah, March 10.—Davis Mattson, secretary of state of Utah and acting governor in the temporary absence of Governor Spry, was sued for \$5,000 damages yesterday by Mrs. Irene P. Quinting of Salt Lake City, who alleges that Mattson hugged and kissed her against her will Jan. 1, 1916. Mr. Mattson has issued a formal public statement asserting that the suit was brought as part of an effort to force a settlement of a claim for personal injury sustained several months ago by Mrs. Quinting through a fall, when she was employed as a waitress at a cafe in which Mattson was interested.

VILLA PLANS ARE REVEALED

Papers Show Decision to Wage War Against Americans Last Fall.

Step Taken Immediately Following Carranza Recognition.

Columbus, N. M., March 10.—Papers found on the battlefield opposite here yesterday revealed that Francisco Villa decided last October to wage warfare against Americans. This step, according to Villa's personal documents, was taken immediately following recognition by the United States of the Carranza de facto government, and began with the institution of Villa's campaign in Sonora, which ended disastrously at Agua Prieta on Nov. 20. Among the papers found was what purported to be an agreement between Villa and Mexican residents of Colonia Morelos, near El Tigre, Sonora, pledging mutual support in an effort to oust Carranza and other Americans, confiscate their property and operate their mines and farms.

BRITISH WAR BOATS ARE SUNK BY MINES

London, March 10.—The British torpedo boat destroyer *Coquette* and the torpedo boat *No. 11* have been sunk by striking mines, it was officially announced this afternoon.

The official announcement says the number of casualties in connection with the sinking of the warships was forty-five.

IS NOT CONSIDERED AN INVASION

SOVEREIGNTY OF REPUBLIC SCRUPULOUSLY RESPECTED

American Government Has Decided that Peace of Both Mexico and United States Is Imperiled By Continued Activities of Gen. Villa.

Five Thousand Soldiers, Now Available at Border, Will Be Sent Across First; No Plans Made as Yet to Use the National Guard.

Washington, March 10.—President Wilson today ordered American troops over the Mexican border to capture or kill the Villa bandits who yesterday raided Columbus, N. M.

Maj. Gen. Scott, chief of staff, of the army, announced that the expedition would consist of not less than 5,000 men, all of which are available on the border under Maj. Gen. Funston.

Gen. Scott said today that the necessity of providing even a stronger force for the border than it now has while the American troops are operating in Mexico, would necessitate using some troops not now there for the punitive expedition. They probably will be ordered from other posts. No plans have been made so far as it known for use of the national guard.

In its present stage the president's order does not mean armed intervention in Mexico. It provides for a punitive expedition to deal with lawless forces over which the Carranza government has no control.

STATEMENT FROM WHITE HOUSE. The following statement was issued at the White House: "An adequate force will be sent at once in pursuit of Villa with the single object of capturing him and putting a stop to his forays."

"This can be done and will be done in entirely friendly aid of the constitutional authorities in Mexico and with scrupulous respect for the sovereignty of that republic."

It was said at the White House that the American government wants Villa dead or alive and that no steps will be neglected to carry out that object.

NOT AN INVASION. It was declared that the United States will not consider the punitive expedition an invasion of Mexico and will continue to deal with the Carranza government. The American government is still opposed to armed intervention in Mexico, but has decided that the peace of both Mexico and the United States is imperiled by the continued activities of Francisco Villa.

The cabinet was unanimous in deciding that Villa must be caught. It was said that the pursuit of Villa will be undertaken in a comprehensive way and organized plans will be laid for his apprehension.

Officials received the word of the decision to go after Villa with troops with undisguised satisfaction. Cabinet members expressed themselves as greatly pleased. Army officers voiced unanimous approval. A general feeling of relief that the administration had finally decided to take the step was apparent.

Convinced of Necessity. The president himself is firmly convinced of the necessity of eliminating Villa from the Mexican situation. He is represented as just as determined to oust Villa as he was to oust Victoriano Huerta.

The announcement of the intention of the president to send troops into Mexico was accompanied by accounts not equalled by those at the White House since the determination to send the Atlantic fleet to Vera Cruz in 1914.

Pains were taken by officials to point out their hope that Gen. Carranza would realize the spirit in which the American troops were being sent after Villa.

Carranza will be notified immediately that the United States has no intention of taking any Mexican territory whatever and respects fully the sovereignty of that nation.

American officials realize that Carranza may have difficulty in consenting to the presence of American soldiers on Mexican soil because of popularity of the Huerta regime.

VILLA AT HEAD OF MAIN BAND FIFTEEN MILES FROM BORDER

U. S. AND CHINA TO BE MORE INTIMATE

Such Is View of Dr. Wellington Koo, New Chinese Minister.

Washington, March 10.—Relations between China and the United States, already friendly, will become more and more intimate, in the opinion of Dr. Wellington Koo, the Chinese minister.

The minister so expressed himself in an address before a Masonic gathering here last night attended by many members of congress, in which he referred with pride to the unbroken record of amity between China and the United States since the signing of the first treaty between the two countries, twenty-two years ago. It was the first public utterance of the minister since he came to Washington.

Dr. Koo pointed out that the Chinese people entertain the most friendly sentiments for the United States, and added that the United States and cherish the same ideals as the Chinese, charity, justice and humanity.

And your friendship for us is accounted for by your feeling that China's conduct toward foreign nations is regulated by the same principles as obtain in the foreign intercourse of the United States.

Quiet Prevails at Present All Along the Mexican Border.

Columbus, N. M., March 10.—The list of known dead in the raid of Mexicans under the leadership of Francisco Villa on this town yesterday remained at seventeen early this morning. Increased border patrols of American soldiers, together with state guardsmen and cowboys, were stationed along the international line last night to guard against a new attack.

Villa, at the head of the main band of Mexicans, is reported fifteen miles south of the border, where he took his stand after a running fight with United States troops yesterday.

Armed raiders were reported in the vicinity of Hachita, N. M., last night and extra troops were rushed to that vicinity, but no trouble was experienced.

Two hundred and fifty men of the First Battalion of the Twentieth Infantry, under Maj. W. R. Sample, arrived from Fort Bliss early this morning and were the first reinforcements (Continued on page 7, second column.)

TO ORGANIZE GRADE LEAGUE

Batchelor Will Arrange for School Baseball Games This Year.

Games Will Be Played on the Ten City Playgrounds.

Grade school baseball leagues will be organized shortly by J. B. Batchelor, recreational director.

With the success of the football leagues last fall and the hockey leagues this winter, Director Batchelor this morning announced plans for the organization of baseball leagues among

all the school boys in the city. The games will be played on the ten public playgrounds, the season to open as soon as weather will permit.

Early next week Director Batchelor will send out notices to all the school principals, inviting boys in the sixth grade and under to participate in the baseball contests, which will continue throughout the summer months. As all the seventh and eighth grade boys will join the junior high schools next year, it is the director's plan to separate those in the sixth grade and under and organize a junior high school league later in the spring.

A meeting of all the boys interested will be held in the council chambers within two weeks, and at that time an organization perfected, rules laid down and a schedule drawn up for the summer.

According to the tentative plans of Director Batchelor, there will be six divisions, the winners to participate in the summer for the city championship honors. The divisions follow: Division A, Fairmont, Ely, Longfellow, Irving schools; division B, Merritt, Bryant, Lincoln and Monroe schools; division C, Adams, Madison, Emerson and East; division D, Jackson, Whittier and Washington; division E, Nettleton, Franklin, Jefferson, Edison and Munster; and division F, Lester Park, Lakeside, Washburn and Cobb schools.

SMALL BOY NEAR DEATH UNDER CAR

Falls From Sled and Is Dragged By Trucks—May Recover.

While being hauled by a companion along the street, Louis MacLean, aged 3, 2631 West Fourth street, fell from his small sled and under the wheels of a westbound Grand avenue car early last evening. He was dragged several feet and sustained lacerations of the scalp, a crushed finger and injured limbs. He was taken to St. Luke's hospital, where physicians express hopes for his recovery.

The boy was riding on a sled drawn by Herbert Forward. They were on their way home along the upper side of the street, from room between the car and the sled was small and the MacLean boy, believing that he would be hurt, attempted to get out of the way. In doing so he fell off the sled and rolled under the car.

The car was going slowly at the time and was brought to a stop within a short distance. The low-hanging trucks had caught in the boy's clothing and dragged him along the street but prevented him from getting under the wheels.

Have you tried a Don Duluth cigar? It's very good. Made in Duluth.

ASKS CONGRESS TO SEND ARMED FORCE

Senator McCumber of North Dakota Introduces Resolution in Senate.

Washington, March 10.—Senator McCumber, Republican, of North Dakota, introduced a resolution in the senate today providing that congress shall direct the president to immediately send an armed force into Mexico "to hunt and destroy" murdering bands guilty of atrocities against American citizens.

Senator Ashurst, Democrat, of Arizona, sought immediate consideration of the McCumber resolution but it was blocked on objection by Senator Stone. Mr. Ashurst declared that from his own information of conditions on the border of his state he knew that troubles in Mexico, instead of near an end, were only beginning.

Senator McCumber asked Senator Ashurst if he was in favor of the passage of his resolution. Mr. Ashurst brought forth applause from the galleries by declaring that although the shooting was not in his state, he was not a senator of state, but of the United States and ready to protect people no matter in what state they lived. It is the duty of the senate, said he, "to vote authority to send troops after these red-handed cut-throats, bring them back to Columbus where they made a funeral pyre out of American citizens and shoot them on the spot. That is, I would give them grape-shot instead of grape juice."

GO SLOW, SAYS SHAUGHNESSY

Opposes Plan to Raise Canadian Contingent to 500,000.

Declares It Would Be Serious Draft on Working Population.

Montreal, Que., March 10.—Lord Shaughnessy, president of the Canadian Pacific Railway company, is opposed to the plan of Sir Robert Borden, the Canadian premier, to raise the Canadian contingent in the European war to 500,000 men. Addressing a meeting of business and military leaders, held here yesterday to encourage recruiting, Lord Shaughnessy said he did not regard the plan as practical and that if Canada was to attempt to raise 225,000 men in addition to its present army, it would cause a serious draft upon the working population. He announced that the agricultural department has asked the Canadian Pacific for aid in tilling 10,000 farmers to the western provinces for seedling and harvesting work.

Lord Shaughnessy advised that Canada go slow about recruiting, saying that some of the first Canadian contingents are still in camp in England while 130,000 men, representing an outlay of probably \$12,000,000 a month, are still in Canada with no prospect of being moved to Europe for a long time. He said it would have been better to have gone more slowly and saved \$5,000,000 Canadian for use hereafter. He asked if it would be wise to go on lessening Canada's ability to give financial aid to the British empire when the time of its need should come.

No Industry Threatened. Maj. Gen. Sir Sam Hughes said that no industry would be threatened by shortage of labor if 1,000,000 men went to the front, adding that Montreal could recruit 50,000 to 70,000 men. Lord Shaughnessy replied if so the women would have to enlist.

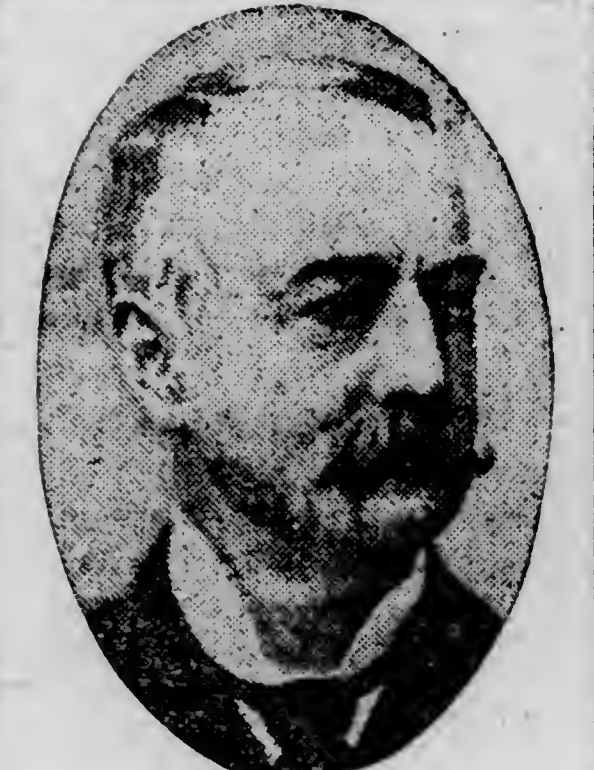

The meeting adopted a resolution approving the plan to recruit men in Montreal and calling upon employers to encourage their employees to enlist. A French-Canadian, that no action be taken to accelerate Canada's share in the war was lost in a storm of hisses.

CURIOUS ABOUT SEAMEN'S WAGES

Customs Officers Ordered to Investigate Before Giving Clearances.

Regulations regarding the allotment of seamen's wages must be fully complied with before clearance papers can be procured. Customs officials are requested to make close investigation of these conditions before granting clearance papers.

In a communication from Secretary of Labor Redfield to Collector of Customs Harris Bennett the following instructions are given:

"Officers of the customs will not issue a clearance to any vessel seeking clearance until the shipping articles have been examined as to allotments of seamen's wages.

The department is advised that at certain ports the practice has arisen of shipping seamen at 10 wages for the first month and 25 for the subsequent months of the voyage. This transaction, on its face, creates the suspicion that the provisions of section 11 are being violated, and you should satisfy yourself beyond reasonable doubt that such is not the fact before granting clearance.

EPIDEMIC IS MOST SERIOUS

School Physician Thinks Estimate of 500 Cases of Measles Conservative.

Disease Has Tendency to Develop into Pneumonia—Several Deaths.

Regulations have been made more strict and the number of school inspectors has been quadrupled by city officials, who are co-operating with Dr. J. H. Anderson, school physician, in an effort to make some headway against the epidemic of measles which is sweeping the city.

Safety Commissioner Silberstein has estimated that there are 500 cases of the disease among school children, and Dr. Anderson is inclined to increase this number.

Parents are wrong in thinking that it is ordinary measles, Dr. Anderson said, "for we find that in many cases it is developing into pneumonia, and causing quite a number of deaths. One nurse just reported three cases that developed into pneumonia and I have just learned of two deaths."

It is very serious, and parents should understand that in many cases their children. At first it was most prevalent in the West end, but now it has spread all over the city. There are ninety-two cases at the Longfellow school alone. It has sprung up at the Washburn, Cobb and other East end schools during just the last few days.

The Irving school at West Duluth seems to be the only one so far which is not seriously hampered by the unprecedented spread of the disease. An extra visiting nurse is being employed, and the city has put on several more inspectors, I understand.

"We have taken radical steps," he said, "and now are excluding all children in families where anyone has the disease."

Parents should watch their children closely," said Commissioner Silberstein, "and report to physicians or to health officers if they observe any signs of the disease."

Dr. J. R. Manley, assistant director of public health, who is in charge of the city's campaign during the absence of Director E. W. Fahy, issued orders yesterday forbidding parents to remove quarantine signs upon the expiration of the usual period of two weeks.

"Signs must remain up until the patient and the house have been examined by a health department representative," he said. "This rule will be enforced until the present epidemic is over."

NEITHER RESPONSIBLE FOR FATAL COLLISION

On Oct. 16, last, there was a collision on a two Harbors-Duluth road. Dr. Anderson, two Harbors, was killed, as was a horse being driven by Andrew Anderson.

Whether the horse and wagon collided with the automobile, or vice versa, the city has been unable to determine. Judge W. H. Smallwood's division of municipal court yesterday afternoon rendered a verdict.

Anderson, owner and driver of the

horse, was seeking \$450 damages for injuries to himself, and as a punishment to the auto. In a previous action, which went by default, he was awarded \$175.

FOUR BIDDERS ON SIDEWALK LAYING

Three Want Jobs East, and One, Work West of Twelfth.

Bids were opened this morning by Secretary of Works Culver on laying 110 cement and 53 plank sidewalks during 1916. As soon as the figures are available, arrangements will be made by Commissioner Farrell to award the contracts, so that construction work can begin early in the spring.

A. N. Nelson, E. P. Hilliard and D. H. Clough submitted bids on the laying of cement walks east of Twelfth avenue west, while Herman Nyhus, manager for the W. H. Killin company, presented the only proposal for laying the cement walks west of Twelfth avenue and all the plank walks in the city.

Two weeks ago the council adopted Commissioner Farrell's resolution, designating the cement and plank walks to be laid during the year.

COME TO AID OF BROTHER BOARD FACES LONG SESSION

Sisters of Alleged Murderer Here From Massachusetts for Trial.

Five Jurymen Chosen to Hear Hastings and Hammons Case.

Mrs. M. Farnsworth and Miss Margaret Hastings of Clinton, Mass., are spending a few days in Duluth. No, this isn't a society item. It's just a story of two sisters who came half way across the continent to be with their brother in his hour of need. He is now on trial in district court here charged with the crime of murder.

Mrs. Farnsworth and her sister, Margaret, did not know where their brother, Michael, was last October when he was arrested for the killing of William Saari, homeowner, which took place on a lonely stretch of road three miles south of the village of Brookston.

But shortly after his arrest, Hastings wrote home and told of his plight. He asked that his sister, Margaret, come to his aid. She did so, and yesterday morning the two sisters arrived in the city to be with their brother during his trial, which began this morning.

The sisters, both young women, occupied front seats in the courtroom this morning while the jury was being selected.

Five Jurymen Chosen. All morning was given over to the selection of a jury and when the noon adjournment was taken, only five of the twelve had been secured. They were: J. S. Strate, salesman, 628 Woodland avenue; Herbert C. Gustaf, forty-third avenue and Robinson street; John Haugen, granite cutter, 216 Excelsior street; P. A. Bell, crane operator, 1431 M. P. Orchard, clerk, 729 West Second street. Both the state and the defense exercised several peremptory challenges.

Hastings and Hammons are charged with having attempted to hold up Saari and one Matt Niemi, his neighbor, and to have killed Saari in the attempt. Saari and Niemi were returning to their farms after a trip to the harvest fields of the Dakotas and Hastings and Hammons were strangers who had been seen in the village the day before. Niemi, who will testify for the state, claims to have been witness to the shooting.

Hammons, the 20-year-old boy, who is facing the murder charge, will fight his battle for freedom without the help of his relatives. Although Hastings, his alleged accomplice, has been in correspondence with his relatives since he has been in jail, Hammons has neither written nor received any letters. He told the jury that he came from Oklahoma but is silent as to who his relatives are and has made no effort to get into communication with them.

Walter P. Dacey is attorney for the defense. He is a well-known lawyer for murder in the first degree; the crime charged against the two men, life imprisonment in the state prison.

Everybody who smokes a Don Duluth cigar likes it. Nuff said.

NEGRO COLONY FOR ST. LOUIS COUNTY

Plans on Foot to Bring Colored Farmers From the South.

If the efforts of development enthusiasts are successful, a colony of Kentucky and Tennessee negroes may be brought to settle on undeveloped agricultural lands in the northern section of St. Louis county. F. L. Jones, negro newspaperman, who is about to begin the publication in Duluth of a magazine designed to be circulated by Pullman porters in all sections of the United States, was in Virginia yesterday looking up the indications that might be made to bring a colony of negroes to the northern part of the county.

Jones has located several similar colonies in Northern states. More than twenty years ago, a negro colony was brought to Otter Tail county, where it has since flourished. So far as known it is the only negro colony ever brought to Minnesota.

MANY SQUATTERS ON STATE LANDS

More Than 600 in County—State Auditor Here Concerning Them.

Six hundred squatters are located on state lands scattered throughout St. Louis county, according to State Auditor J. A. G. Preis, who is in Duluth today to confer with Lyle Moody of Hibbing, squatter agent for the county by virtue of an act passed by the 1912 legislature.

Mr. Moody's duties are to visit squatters who are located on state lands and to collect rents for the state and in cases where rents are not forthcoming to enforce ejectment proceedings in the courts against the squatters.

Under no circumstances does state land occupied by a squatter pass to the occupant by the law of adverse possession. The law specifies that so far as state holdings are concerned, the rule of adverse possession does not apply.

Teachers' Salaries and Appeals for Improvements to Be Considered.

Many Problems Vital to the Public Schools Must Be Decided.

Directors of the board of education will have a busy time tonight at Central high school building, during their March meeting.

They will: Pass or reject the 1916-1917 schedule of teachers' salaries to be presented by the committee on schools.

Hear a committee of twenty Lester Park residents who desire a new school building erected to replace the Lester Park school.

Hear a committee from the Garfield Avenue Improvement club which wants a manual training course installed at the Madison school.

Receive a report from Recreational Director J. R. Batchelor in which he says that school playgrounds are badly in need of reorganization.

Pass upon the appointment of William Noyes of Columbia college, who has accepted a position as director of manual training to succeed Edward F. Gelfer.

Will hear the report of the committee on maintenance of buildings and grounds upon the progress of work at the new Morgan Park school, for which ground was broken late in February.

Twenty members of the Lester Park Improvement club have signified their intention of meeting with the board, to urge upon directors the building of a new school in their district.

They argue that the present frame structure is inadequate, and that it will not be large enough to accommodate the pupils who will be enrolled there next fall.

Directors of the board agree that additions to the building are impracticable. There is no question but that they will have to have a modern structure in time, said W. B. Getchell, chairman of the building committee. "Just how long the present building will serve is a question."

Mrs. T. J. Dacey, chairman, and other members of the school committee, have been working on the new wage scale for several weeks. They will recommend salaries calling for a \$5,000 increase. The present salary appropriation of the school is \$125,000 between \$118,000 and \$125,000 annually.

TAKEN BACK BY EMPLOYER

Forger Pleads Guilty, Is Paroled and Returns to His Work.

Prisoners Indicted By Last Grand Jury Are Arraigned.

When Charles W. McKusick was arraigned in district court yesterday afternoon under indictment charging him with forgery in the second degree, he entered a plea of not guilty, but this morning he changed his mind and also his plea. And when Leander Shotte, his employer, told Judge Cant that he would not object to McKusick going back to work again, the court continued the case for sentence and placed the defendant in the city jail.

McKusick forged a check for \$11.72 and on Feb. 23 last passed it on John Anderson, a local saloonkeeper. The court admonished him to keep out of saloons and to try to live uprightly in the future.

John Freeman, Garfield avenue grocer, who was indicted by the March grand jury on three counts charging white slavery, also appeared yesterday afternoon under indictment charging him with attempted assault in the second degree. C. H. Magdon was appointed by the court to defend him.

Albert Olander, 27, who was indicted by the March grand jury on a charge of assault in the second degree, also pleaded not guilty when arraigned before the court yesterday afternoon. Olander and an accomplice are charged with having made a violent assault on Enoch Anderson, 2205 West Sixth street, his wife and three daughters on the night of Feb. 4 last.

RUSSIAN TROOPS LAND IN TURKEY

Occupation of the City of Trebizond Said to Be Imminent.

Washington, March 10.—Russian troops have landed on the Black sea coast of Asiatic Turkey and the occupation of Trebizond is imminent, according to a dispatch received today from the American embassy in Constantinople. The state department also was advised that the American consul at Trebizond had taken over the archives of the German consulate there, the German consul having left.

Signs of Activity. London, March 10.—There are signs of renewed activity on the eastern front as the spring approaches. The Russians and Germans have been feeling out each other's lines at various points, small isolated engagements resulting. The most important move on the northern end of the line, seems to have been a German effort to cross the Dvina river above Dvinsk. The considerable force engaged in this effort was dispersed by the Russian fire, Petrograd claims.

BAN ON LIVESTOCK SHIPMENTS REMOVED

Madison, Wis., March 10.—In an order issued today the livestock sanitary board has removed the ban on shipments of cattle between Illinois and Wisconsin, which has existed for some time owing to the outbreak of foot and mouth disease in that state. The proclamation today declares that "all former orders relating to shipments on account of foot and mouth disease are hereby revoked and canceled"; second,

of the city hall site on Courthouse square.

The ordinance authorizing the transfer of the work farm and the purchase of the city hall site was passed on Feb. 21 and will become effective on March 25, when the necessary papers will be signed.

The contract, as drawn by City Attorney Samuelson and Charles E. Adams, attorney for the county commissioners, provides for the payment of \$30,000 by the county for the city's share in the work farm and for a transfer of this money as the first payment on the city hall site, the total cost of which is \$380,000, including the original purchase price in 1906 and the interest up to Jan. 1 of this year.

The city agrees to pay in full for the site on or before Jan. 1, 1918.

State of War Exists. Paris, March 10, 4:50 p. m.—The Portuguese legation announces that a state of war exists between the Portuguese republic and the German empire as from 6 o'clock last night.

GREAT BRITAIN HAS LOST 3,153 NON-COMBATANTS

London, March 10.—The number of non-combatants killed by Great Britain's enemies since the beginning of the war aggregates 3,153, Premier Asquith writes in reply to a request for information by Mrs. Hunter. Forty-nine men, 39 women and 29 children were killed in coast bombardments. One hundred and twenty-seven men, 92 women and 57 children were killed in air raids. Approximately 2,750 non-combatants lost their lives on board British merchant and fishing vessels between Aug. 4, 1914, and March 8, 1916; but the detailed figures are not available.

CONCENTRATE LEAN ORES

Experiments Begun in Duluth of Far-Reaching Importance.

Big Capital Interested and Work Will Continue for Year.

A test of a plan to concentrate low grade iron ore at a point and at a cost which will permit of its being used in the manufacture of iron, about to be made in Duluth, may result in a revolution in the iron industry. Its success will certainly mean, it is declared, a tremendous step toward conserving our natural resources, and will make valuable one thing that has been a waste, and, in fact, a detriment in iron ore mining.

The experimental plant for the concentration of low grade ore is already being prepared for. The site was formerly occupied by the Red Cliff mill on Third-ninth avenue west, below Onondaga street. The men associated in the test are Dwight E. Woodbridge and W. G. Swart, and the plan is the former's. Mr. Swart having charge of the operations. Mr. Woodbridge has interested men in the iron mining business, and is being backed with large capital, so that the scheme of concentration will be thoroughly tried out. First failures will not count and it is planned to put in, if necessary, at least a year on the actual testing of the plan.

Experiments Successful.
Mr. Swart, Mr. Woodbridge and others have already tested the system of concentration which will be tried at the new plant, and have found it successful on an experimental scale. The only question now to be determined is whether or not the plan can be used on a large scale and on a basis that will make it pay. It is recognized that the concentration must result in higher grade ore than that which has been going forward from the mine of this part of the country to the East, to equalize the higher cost involved and make the process pay. And there the question rests. This is what must be determined at the new plant. One that has been going forward to the East, furnaces has not been over 50 per cent, and it is hoped that the new process will produce a paying basis, at least 60 per cent ore.

That the success of the process means big things in the iron ore mining, is fully recognized. Under present conditions millions of tons of rock containing from 25 to 40 per cent of iron ore are considered worthless and thrown aside. It is to make this useful and save the iron it contains from being waste that the new process will be tried.

Lots of Material.
Millions of tons of this kind of rock will be available and its importance is best illustrated by the fact that those who have interested themselves in it are willing to spend several hundred thousands of dollars to make the experiments. The iron-bearing rock will be passed through crushers, then separated by means of electrical conveyors or machinery and the latter accelerated and made into a merchantable grade. The waste material will be taken from it and discarded.

In the northern part of this country there are extensive ore fields which contain rock carrying more than 40 per cent of iron ore, which is looked upon as unprofitable for mining. Large quantities of such ore have also been mined by the companies from open-pit mines in getting to the higher grade ore underneath, and have been thrown into stockpiles at various points on the iron range.

Many Plants May Result.
Should the experiment about to be started prove successful, there is no telling to what extent plant building will go. As many as the mining companies find necessary will be built on the various ranges, for a new chapter will have opened in the iron mining industry. Similar plants have been successfully used in connection with copper mining, and while the plant to be built here will be somewhat different, the promoters have hope of its utility. Machinery has been ordered and will be adapted to the needs of the experiment as it is found necessary. A crew of men is at work now preparing the ground, building the plant, and getting in shape the trestle that will be used as a lead to the plant. The power house formerly built by the Red Cliff Lumber company will be used and another building will be erected just south of it for contracts for construction have been given to McLeod & Smith. Large crushers will be installed, which will be accessible to trains by means of trestles, which will connect with the Soo line, just above

FIND CONTRABAND CONCEALED IN SNOW

Carlton County Officers Conduct Successful Raid at Kettle River.

Cloquet, Minn., March 10.—(Special to The Herald.)—Blindpicking in Carlton county is not proving a very profitable proposition, according to County Attorney J. E. Diesen. On Wednesday Mr. Diesen and Sheriff H. W. McKinnon made their second raid in the southern part of the county, entering the premises of Julius Wilkowski at Kettle River and found two gallons of whiskey in a snowbank just outside of his house. Wilkowski was arrested and taken before Justice Paul Ryan of Kettle River. He pleaded guilty and was given a straight jail sentence of three months without being given the option of paying a fine.

For Intoxicating Liquor.
Yesterday G. W. Cross, Indian agent for the Fond du Lac reservation, ordered David Dahl, Peter Ohman, John Hansen and Erik Strand taken before the United States commissioner at Duluth, charged with introducing liquor on an Indian reservation. The men were arrested Wednesday afternoon by the Indian police and brought to Cloquet and from here taken to Duluth.

SUFFRAGE DEBATE.

One of Features of Cloquet Mothers' Club Program.

Cloquet, Minn., March 10.—(Special to The Herald.)—Keen interest is being shown by members of the Mothers' club in the debate and program to be held in the high school tomorrow evening. There will be a talk by Dr. Brauldat on "The Care of the Child's Teeth." Dr. Brauldat has consented to meet only before the subject but to answer any questions the mothers may ask him. There will also be a debate resolved, That the Women of the United States Should Have Equal Suffrage With the Men of the United States.

CLOQUET NOTES.
Cloquet, Minn., March 10.—(Special to The Herald.)—T. Jones, an old Cloquet resident, now with the Western Railway Weighing association is in the city for a few days.

Mr. and Mrs. Anton Glinera went to Duluth yesterday where Mr. Glinera attended Mrs. C. E. Dennis for an operation. Mrs. J. A. Yetka returned yesterday from an extended visit with relatives at Stevens Point, Wis.

Rev. J. G. Ward returned yesterday from Virginia where he held Ash Wednesday services in the Episcopal church at the place. The preparatory class of the Presbyterian church met in the church parlors this morning at 9:30 o'clock. The high school basketball team went to Superior this morning to play the Nelson-Dewey of that place this evening. The Cloquet boys defeated this team when it was here.

Joseph Carron made a business trip to the Zenith city yesterday.

Mrs. Peter Hubert and daughter, Mrs. Harvey Ralph returned from Lake Linden, Minn., where they attended the funeral of Arthur Fish, Mrs. Hubert's son-in-law.

CLOSING OF CANAL HELPS RAILROADS
Tremendous Gain in Freight Traffic Reported By Various Roads.
According to W. H. Strachen, superintendent of the Lake Superior division of the Northern Pacific railroad, the closing of the Panama canal has resulted in a tremendous gain in freight tonnage to the railroads of the United States. An immense amount of tonnage, that would be shipped from the Western coast states to the Eastern seaboard by way of the Panama canal, is being carried all-rail.

"The Northern Pacific is hauling a great amount of tonnage," said Mr. Strachen. "Grain from the Western states is being transported all-rail to Eastern sea terminal points. The freight business of Western railroads is very good at the present time."

SUPERIOR

CITY OVERSHADOWS
THE INDIVIDUAL

Municipality Gains Much
Valuable Property Through
High Court Decree.

The abstract rights of an individual citizen must not hamper the development of a municipality and the people of an important city, according to copies of a supreme court ruling received in Superior today by attorneys interested in the action brought by M. S. Reicht to prevent the city from trading its bay front street ends rights for certain blocks of harbor frontage owned by several railroad companies. The decision permits the trade to stand and gives the municipality title to valuable dock property on the Superior bay front. Chief Justice Winslow holds that a "city standing at the head of what is probably the world's greatest inland waterway, the gateway to the water system of the Atlantic and the railway system of the Pacific, with a wonderful landlocked water front, must be considered in its broad relation to world commerce and its interests regarded as overshadowing those of a private individual."

Given Chance to Pay Fine.

Frank Schultz, a former Superior baseball player, who was convicted in the superior court of burglarizing the Lindstrom fur store on North Twelfth street, was sentenced to pay a fine of \$200. Judge Smith gave Schultz an opportunity of paying the fine during the next fifteen months. In passing sentence the judge told the prisoner that

TAKES PRISONER FROM OFFICER

Chief Refuses to Allow Railroad of Man Wanted in Remer.

Levi C. Boyer, who yesterday was induced by Deputy Sheriff Wilson of Cass county to go to Duluth, and who was placed under arrest on a charge of taking a team of horses which was mortgaged from Remer, Minn., and trying to evade payment, was released this morning at the instance of Chief of Police McKinnon. The chief took the man from the deputy off a train as they were passing through Superior, on the claim that Boyer could not be brought back to Minnesota without extradition papers. According to the story told by Mr. Boyer, he left Remer on consent of the holder of the mortgage to try to earn the money with which to pay off the debt. He has been in Superior for some time hauling coal for a local coal company. Deputy Wilson made his appearance in Superior yesterday and caused Boyer's arrest, and later induced the authorities to allow the man to go, and then requested him to come with him to Duluth on promise that he would not be arrested. It is claimed. When in Duluth he was placed in jail and held at the Duluth station for a few hours while waiting for a train to Remer.

FIFTEEN GAMES IN TROPHY EVENTS

Four Games Are Played;
Bagley and Defensia
Events Pending.

Fifteen games remain to be played in the regular trophy events at the Western Curling rink. The drawing for one more event, that of the club championship buttons, will be announced tonight and will be played through if the ice holds out. Last evening four games were played. In the Universal, Thomas Quinn won from T. F. Olson, 12 to 8; H. F. Wade won from G. J. Mallory in the Hendrickson event, 12 to 9; this defeated Melvin Olson 11 to 10 in the Stone-Ordean and Alex. Donald went into the finals of the Defensia by winning from Joe McDonald, 10 to 9. Only one game is scheduled for tonight. This game will be between Alex. Donald and T. F. Olson and will decide the Bagley event and the Defensia event.

PARENTS QUARREL; CHILD DESERTED

When Thomas Corking, 42, arrived home yesterday morning from his noticed tracks of some man leading to his home and charged his wife with adultery. He is also alleged to have beaten her and thrown her out of the house, according to the story Mrs. Corking told the police. The police took Corking in tow and today Mrs. Corking is seeking a warrant for assault on her husband. In the meantime their 2-year-old is being taken care of by neighbors. The child was found in the house, following the quarrel, and neighbors found it there.

DISORDERLIES SENTENCED.

New Duluth Police Raid Northern Hotel and Arrest Four.

New Duluth police last night made a raid on rooms in the Northern hotel which resulted in the arrest of Victor McDonald, 34, and Mrs. Mary Pearson, 22, who were charged with disorderly conduct.

In police court this morning all four pleaded guilty and were fined \$25 and costs with a term of thirty days in the county jail. The women were ordered to pay the fines and were remanded while the men raised the money during the forenoon.

FORM COMMERCIAL CLUB.

Judge Windom Elected President of Fond du Lac Organization.

Judge W. L. Windom was elected president of a newly organized Fond du Lac Commercial club at a meeting of twenty citizens of the suburbs held last night at the Fond du Lac Congregational church. A committee to draft a constitution and bylaws was appointed. Cameron Hewitt was elected secretary and treasurer, and the board of directors consists of M. Day, Edward Johnson and C. G. Bergquist. A proposal to hold the next meeting on March 22.

FINDS DRUNKEN MAN TOO CLOSE TO CASH

When the proprietor of a small store near Sixty-third avenue west went upstairs for a few moments last evening he believed he heard the tinkling of his cash register bell and rushed down again. Over the counter near his cash drawer was sprawled Jalmor Molne, 33. A policeman was called and Molne was taken to the station and this morning, when arraigned before Judge Lammers, pleaded guilty to being drunk. He was fined \$25 as an alternative of spending thirty days on the county farm.

MANY PASTORS WILL ASSIST AT REVIVAL

Plans for revival services to be held during the week of April 2 to 9, were completed yesterday by Rev. W. H. Farrell, pastor of Ashbury Methodist church, Sixtieth avenue west and Railroad street. The pastor will be assisted by Rev. Hardy Ingham of Endion M. E. church, Rev. John W. Hoffman of the First M. E. church, Rev. A. L. Richardson of the Lester Park M. E. church, and Rev. A. N. Harkness of Superior.

Special musical programs are to be arranged for each of the evenings, and will be under the direction of the Ashbury choir. Several well-known singers will be engaged for solo numbers.

Lund Funeral.

The funeral service for Andrew O. Lund, aged 60, 119 North Fifty-third avenue west, who died suddenly Thursday morning, will be held tomorrow afternoon at 1:30 o'clock from the Eldon Swedish Lutheran church, Fifty-sixth avenue and Ellnor street. Dr. John Krantz will have charge of the service. Interment will be in Oneida cemetery.

CHIEF PROBLEM IS TO FILL ORDERS

Otto Swanson, general manager of the Diamond Calk & Horachuk company, returned yesterday from Chicago, where he has been spending a few days on business. Mr. Swanson said this morning that business conditions

throughout the country appear to be the best in years. "We have orders on hand that will keep our plant going at full capacity day and night, until Jan. 1, 1917," said Mr. Swanson. "Some orders received recently may have to be turned down. We intend to put all of the machinery we can into the company's shops to turn out the orders, but at this time do not contemplate enlarging any of the buildings."

Splendid Laxative for Elderly People

Has Been Prescribed by Well Known Physician for Many Years.

The infirmities of age are especially manifest in a tendency to constipation, and call for treatment that will afford relief in an easy, natural manner. The rapid action of cathartic remedies and purgatives that shock the system should be avoided, more especially as the relief they offer is only temporary and is usually more than offset by disturbance to the vital organs caused by their violent action.

Nearly thirty years ago Dr. W. B. Caldwell Monticello, Ill., prescribed a compound of simple laxative herbs that has since become the standard household remedy in thousands of homes. It acts easily and gently, yet with positive effect, without griping or other pain or discomfort. Mrs. Rachel Allen, Galesburg, Kans., is seventy-one years old, and after using a bottle of Dr. Caldwell's Syrup Pepsin, wrote

IN COMMAND OF THE UNITED STATES TROOPS AT EL PASO

there should be no objection to American troops entering Mexico in pursuit of Villa and that he would give his government recommending co-operation.

Col. Slocum telegraphed the war department a brief report on the pursuit by the American troops. A request for further information has been dispatched to the Mexican government by Secretary Baker. The only information at that point at the war department early today was a report from Col. Slocum as follows:

Pursued Villa Five Miles.
"I sent three troops under Major Tompkins across the border. They pursued Villa about five miles, driving him into rough country, where he scattered after making one final stand which stopped Tompkins' advance. These three troops returned to Columbus again in about three hours. Lost one corporal, Troop G."

President Wilson and the cabinet took up today the question of whether a column of troops should be sent into Mexico to capture Villa and his band of bandits. Secretary Baker, attending his first cabinet meeting took with him the latest dispatches.

There was some discussion on the part of the administration to go so far as armed intervention in Mexico, but serious consideration was given to a plan of dispatching a punitive expedition to round up Villa and his followers.

Franklin Action of Troops.
Administration officials, from disapproving the pursuit of the American troops, praised their action and expressed regret that the troops had not been taken. The hope was expressed that Villa could be eliminated without a controversy with the Carranza government.

The president was represented as being determined that steps shall be taken to punish the rangers.

The return of the American troops from Mexico complicated the situation somewhat because the United States now is in a position of necessity of issuing orders if they go in again. Officials openly said they had hoped the troops would remain until Villa and his band were disposed of. At the same time they realized that the American force was very small.

It was decided at today's cabinet meeting that Villa and his bandits must be caught. Secretary Baker left the cabinet meeting early and hurried over to the war department. As the members of the cabinet came out all expressed deep satisfaction with the decision reached at the cabinet meeting. A statement is being prepared for the White House and will be issued later today.

on the scene. They were furnished with a fresh supply of ammunition and were sent to Victoria, thirty-two miles west of here. Other troops were reported to have been dispatched to other points along the border.

While the raid resulted in the death of nine civilians and eight soldiers on the American side, it is estimated that Villa lost no fewer than 100 in killed and twice that number in wounded.

Others Killed Before Attack.
In addition to those killed by the Villa bandits in Columbus, it is thought that several others were killed before the attack, later McKinley, William Corbett and James O'Neill, employees of the Palomas Land and Cattle company, were captured by Villa several days ago and are thought to have been executed. John Edward Wright and Frank Hayden, taken prisoners near Pearson, Chihuahua, are also believed to have been killed. A Mexican soldier is reported to have said also that the Mormon colony near Casas Grandes had been wiped out.

Quiet prevailed here early today. Trains which arrived overnight were held here until daylight, to avoid the possibility of attack from the Mexican side.

The troops under Major Tompkins and Lindsay, who pursued Villa into Mexico, returned late yesterday and aided in patrolling the border during the night.

With the first battalion of the Twentieth Infantry stationed at Victoria early today, Col. Slocum has about 840 men under his command prepared to meet any further advances by Villa on American soil.

Early today no signs of Villa's return from the hills was apparent. American civilians kept their homes and the school house, where the women and girls spent the night. The Mexican army was guided by patrols.

The town was quiet.

Carranza Will Not Object.
Carranza authorities, according to official reports from Juarez, would not object to the entry of American troops into Mexico to attack Villa.

In fact messages have been received stating that Carranza's army left Guzman to take the bandit chief in the rear with the expectation that the American troops would support them to have already crossed the border would attack him.

Army border posts and armed civilians early today watched for the reappearance of Mexican bandits along the border. A report that armed Mexicans had appeared opposite Gibson's ranch, eighteen miles from the border, immediately upon receipt of this report was considered. The American civilians left here in automobiles.

Soldiers and citizens divided attention to the visit along the international boundary with the work of clearing yesterday's battle field.

Early today approximately seventy-five Mexican dead on the American side had either been burned or buried.

Maj. Frank Tompkins, who yesterday afternoon returned to Columbus with troops that followed Villa into Mexico, estimated the Mexican dead at fully one hundred.

beaux wood, and in this effort were almost successful.

Renewed Fight of the Meuse.
The renewed fight of the Meuse, attended by a series of assaults on the German position, was continued today on this portion of the front. A good road runs through the plateau before Douaumont, possession of which would enable the attacking force to take the German position. Massed infantry, well supported by artillery, struggled hard to win the plateau. The French were able to hold off the assaults until the German position was reached. In the woods the German actions further.

The great successes in battles up to the present have been gained by means of violent shocks delivered by fresh and specially trained units of infantry and have generally been achieved rapidly. Of such a character was the assault on Vimour, which smashed itself against the French defenses on Feb. 26. The German army has a series of battles on small fronts.

At Loss to Explain Object.
French military observers are at a loss to explain the object of these assaults, as it is believed that the French will have grave consequences for the defenders.

Not often in the long battle between the French and the order to advance. When they did receive it, they showed that their offensive was not a bluff. They held in. They had such opportunities on Wednesday and Thursday. A French officer of light infantry said: "We have never had any such success in our history. They cleared my section of the wood in less than an hour."

On one point on the opposite edge of the wood, a German machine gun was posted in a ditch, protected by breastworks of felled trees. It poured a deadly fire into us. A sergeant and twenty men volunteered to drive out the enemy.

"Advancing by leaps and bounds from tree to tree, they got in among the Germans with bayonets. They took the gun and turned it about, starting a raking fire on the Germans. It took us long for they soon jammed the gun in their enthusiasm."

By early afternoon virtually the whole wood was in the hands of the French.

ular feeling in his country. Carranza, himself, however, is believed to be eager for Villa's capture that he may co-operate with the American troops.

Cabinet Decision.
At the cabinet meeting the discussion of the situation was brief and to the point. The cabinet unanimously agreed that the only thing to do was to send troops.

President Wilson took the same position and at once instructed Secretary Baker to issue the necessary orders. He also instructed Secretary Lansing to inform Gen. Carranza of the attitude of the American government. Leaders of both houses of congress were immediately notified from the White House of the president's action. They approved of his course.

Before deciding finally to send the troops after Villa, the president conferred over the telephone with Chairman Stone of the senate foreign relations committee and told him he believed the sentiment of congress would solidly support his action.

It was considered possible that within a few days President Wilson might go before congress to recite the series of acts by Villa which led up to the ordering of troops to effect his capture. It was said at the White House that the president had not yet decided this point.

No orders had been issued to the navy this afternoon, but it was considered probable that some of the Atlantic fleet might be placed in Mexican waters to be near if Americans in constant danger were endangered by anti-American demonstrations. The government is reluctant to make any naval demonstration that might be construed as against Gen. Carranza.

Elesio Arredondo, Gen. Carranza's ambassador here, received the news of the president's decision with the statement that he could make no comment and would at once notify Gen. Carranza for permission to send his troops to finally clean out the bandit forces. The state department will pass on the recommendation.

At the state department it was said that the negotiations with Gen. Carranza for permission to send his troops to clear out the bandit gangs will go forward.

Raid Will Continue.
Gen. Funston's dispatch added that "so long as the border is a shelter for bandits they will continue to harass our ranches and towns and add to our chagrin."

Brig-Gen. Pershing reported that the Mexican consul at El Paso thinks

No orders had been issued to the navy this afternoon, but it was considered probable that some of the Atlantic fleet might be placed in Mexican waters to be near if Americans in constant danger were endangered by anti-American demonstrations. The government is reluctant to make any naval demonstration that might be construed as against Gen. Carranza.

Elesio Arredondo, Gen. Carranza's ambassador here, received the news of the president's decision with the statement that he could make no comment and would at once notify Gen. Carranza for permission to send his troops to finally clean out the bandit forces. The state department will pass on the recommendation.

There should be no objection to American troops entering Mexico in pursuit of Villa and that he would give his government recommending co-operation.

Col. Slocum telegraphed the war department a brief report on the pursuit by the American troops. A request for further information has been dispatched to the Mexican government by Secretary Baker. The only information at that point at the war department early today was a report from Col. Slocum as follows:

Pursued Villa Five Miles.
"I sent three troops under Major Tompkins across the border. They pursued Villa about five miles, driving him into rough country, where he scattered after making one final stand which stopped Tompkins' advance. These three troops returned to Columbus again in about three hours. Lost one corporal, Troop G."

President Wilson and the cabinet took up today the question of whether a column of troops should be sent into Mexico to capture Villa and his band of bandits. Secretary Baker, attending his first cabinet meeting took with him the latest dispatches.

There was some discussion on the part of the administration to go so far as armed intervention in Mexico, but serious consideration was given to a plan of dispatching a punitive expedition to round up Villa and his followers.

Franklin Action of Troops.
Administration officials, from disapproving the pursuit of the American troops, praised their action and expressed regret that the troops had not been taken. The hope was expressed that Villa could be eliminated without a controversy with the Carranza government.

The president was represented as being determined that steps shall be taken to punish the rangers.

The return of the American troops from Mexico complicated the situation somewhat because the United States now is in a position of necessity of issuing orders if they go in again. Officials openly said they had hoped the troops would remain until Villa and his band were disposed of. At the same time they realized that the American force was very small.

It was decided at today's cabinet meeting that Villa and his bandits must be caught. Secretary Baker left the cabinet meeting early and hurried over to the war department. As the members of the cabinet came out all expressed deep satisfaction with the decision reached at the cabinet meeting. A statement is being prepared for the White House and will be issued later today.

Before deciding finally to send the troops after Villa, the president conferred over the telephone with Chairman Stone of the senate foreign relations committee and told him he believed the sentiment of congress would solidly support his action.

It was considered possible that within a few days President Wilson might go before congress to recite the series of acts by Villa which led up to the ordering of troops to effect his capture. It was said at the White House that the president had not yet decided this point.

ARMY HEADQUARTERS. IT WAS STATED THAT THE FRENCH HAD REGAINED A FOOT- HOLD IN THE FORT OF VAUX.

Paris, March 10, via London.—There was no change in the situation before Verdun either east or west of the Meuse, according to a semi-official announcement made here this afternoon. The announcement adds that the violent bombardment continues on both banks of the Meuse but that there has been no infantry attack by the Germans.

(Continued from page 1.)

Deny Capture of Vaux.
Paris, March 10.—An official note has been issued categorically denying the statement made in the German official communication of March 9, that "the village and armored fort of Vaux were captured in a glorious night attack by Posen reserve regiments under the leadership of Gen. Von Guretsky." This assertion, the note says, is in every way false.

The note denies other statements contained in recent German official communications.

The French official note says: "German official dispatches of March 9 affirm that in a glorious night attack the Posen reserve regiments No. 4 and No. 19, under command of the infantry general, Von Guretsky, stormed the fort of Vaux with a number of adjacent fortifications. This assertion is false in every way. At the very hour when the German communication arrived, the French staff found that the fort of Vaux had not been captured and that the soldiers guarding it were calmly at their posts."

(Continued from page 1.)

Assertions Untrue.
The same communication asserts further that German troops are engaged in clearing French troops still remaining out of Corbeaux wood, that the Germans stormed the village of Vaux. These assertions are both untrue. At the present moment the enemy only occupies the greater part of Corbeaux wood, the greater part of which is held by us. All German counter-attacks failed to drive us from it. The village of Vaux, attacked during the night by German troops, was vigorously defended and remains in our hands. The German infantry which succeeded in getting into the village were driven out at the point of the bayonet, and a system of game and fish laws that can be understood.

Two Score Years of Telephony

Forty years ago today, March 10, 1876, Alexander Graham Bell first spoke over the feeble telephone instrument he had invented, to Thomas A. Watson.

When that conversation took place there were only two telephones in the world and a hundred feet of wire.

Recently these same two men spoke to each other from the Atlantic to the Pacific—from New York to San Francisco—over a line 3,400 miles long.

Today there are more than 15,000,000 telephones in the world, 9,000,000 of which are in the Bell System in this country.

More than 21,000,000 miles of wire now connect every state in the Union, and the wireless telephone has extended speech across the seas.

WHITE EARTH CASES TO BE PROSECUTED

Minneapolis, Minn., March 10.—(Special.) J. Kearful, special assistant attorney general in charge of the 'White Earth' reservation Indian land cases for the government, returned from a two weeks' stay in Washington, with instructions from the department of justice to expedite the trial of the 1,200 pending land cases and bring them to a conclusion as quickly as possible.

"I shall be on the job all the time from now on," said Mr. Kearful, "and one of the cases are now set for trial and as I have just returned I must say just when they will come."

other Gives Credit to Father John's Medicine

Giving credit for the benefits received, the following letter from the mother of these two little girls is of special interest: "My two little girls are picture I send you, have taken their John's Medicine with good results. One of the children, Marcella, I throat trouble and tried several medicines, as well as the doctor's medicine, but did not get relief until she had taken John's Medicine upon the advice of an aunt. This little girl is a strong and healthy and able to attend her studies at school, which she had to leave for three months due under the care of the doctor. The other little girl is using the medicine as a tonic and it helps her." Mrs. Margaret M. Carey, 537 Broadway street, Norristown, Pa.

Father John's Medicine is a safe remedy for children because it does not contain opium, morphine, chloroform, cocaine, heroin or any other dangerous drugs or alcohol but is all pure and wholesome. A food medicine and tissue builder.

FRENCHMEN SHAVE OFF THEIR BEARDS

Use Razors in Honor of American Ambulance Drivers.

(Correspondence of the Associated Press.)

Pont-a-Mousson, France, Feb. 15.—The clean-shaven American motor ambulance drivers, mostly Harvard men, who have shared in the operations around the Bois de la Perle for nearly a year, have set a fashion in Pont-a-Mousson. The "Mussipontains," as the inhabitants of this old Lorraine town are called, have purchased razors, and even the soldiers resting here between two turns in the trenches go back beardless in honor of the Americans.

The garage of the section of the American ambulance operating here is located at Dieulouard, where occurred one of the bloody engagements of the battle of Nancy. There were only three cars at the beginning, but they have been increased to 25, running every hour of the twenty-four when there is an action on. When there is nothing doing at the front, three cars are kept ready at the relief post for emergencies, and the others in the garage ready for one of the systematic bombardments of Pont-a-Mousson.

"The Americans will have a good place in the history of Pont-a-Mousson," said a French officer of the division, "so that later on when our children read it they may know they should perpetuate the gratitude we owe to them."

Many victims of the 200 and more of shelling the town has endured over their lives to the aid of the American ambulance drivers.

The general commanding the division recognized their work officially in the following citation:

"Sanitary section No. 2 of the American ambulance. Composed of volunteers, French and our country, they all have not ceased to make themselves noticed for their enthusiasm, courage and zeal. Careless of danger, they have worked without respite to rescue our wounded whose gratitude and friendship they have won. Signed: 'The General Commanding.'"

The relations of the Americans with the French officers are excellent, and in Pont-a-Mousson they are "adopted citizens." The section working companies thirty American volunteers with several subaltern French officers and soldiers acting as interpreters.

STIR IN THE DUTCH METAL INDUSTRIES

German Export Prohibition Threatens Firms With Heavy Losses.

(Correspondence of the Associated Press.)

Rotterdam, Feb. 20.—A stir has been made in the Dutch metal industries by the latest German export measure, which amounts to the annulment of running contracts of Dutch firms with the German iron foundries and threatens the firms in question with the loss of millions of dollars.

Many of them are already turning to England and Southern France for iron supplies and would doubtless place big orders in America but for the abrupt freight.

Among other measures decided on with a view to counteracting the very unfavorable exchange rate against Germany, the government in Berlin issued an export prohibition on bar "universal" and strip iron, prescribing at the same time that consents for a minimum price fixed by it is paid. With a view to attaining this minimum price, the sale has been placed in the hands of the Steel Works union in Düsseldorf. The consequence is that the German iron works are prevented by carrying out the contracts they had entered into with Dutch customers, and thus die contracts are

thus annulled in order to get higher prices.

A meeting of the leading Dutch engineering and ship-building concerns and connected trades was held recently at which a resolution was passed emphasizing that the carrying out of the measure in question will cause serious damage to Dutch industry and urging the Netherlands government to take steps to get the export prohibition withdrawn.

A committee was appointed and charged to make representations to the German authorities. Some of the manufacturers present had already placed themselves in communication with British iron foundries with a view to obtaining their supplies and a second committee was nominated to prepare the way for securing other iron consignments in that country.

ENGLISH YOUTH IS MADE A MAJOR

(Correspondence of the Associated Press.)

London, Feb. 20.—Although barely 19 years of age, Henry Pattinson of Ruskington, Lincolnshire, has just been promoted to be a major in the British army. He has risen by sheer merit from a private in a schoolboy battalion, to a major in the British army. Pattinson's father is a minor town official in Ruskington. When the war opened the boy was at Halesbury school, where he had a greater reputation as a football player than as a scholar, although he was regarded as too young for a place on the school's first eleven. In the school military battalion his superiors reported that he "shows no special aptitude for military duties," but as soon as the war broke out he offered his services.

He was rejected on his first two applications but he persisted and the authorities finally stretched a point, and he was accepted as a second lieutenant in a competitive examination in September, 1914.

When he became a captain last June he was the youngest captain then on active duty in France. His regiment saw very severe fighting at Loos, after the series of battles there, he found himself the senior surviving officer. Until a new lieutenant was appointed he was in charge of his regiment, and he acquitted himself so well that he was in due course rewarded by promotion to his present place as major.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results From an Excess of Hydrochloric Acid.

(Correspondence of the Associated Press.)

Undigested food delayed in the stomach decays or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hydrochloric acid, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. "Thus everything eaten sores in the stomach much like garbage sores in a can, forming toxic fluids and gases which inflame the stomach like a hot balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea."

He tells us to lay aside all digestive aids and instead get a natural remedy, four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effecting and furthermore, to continue this for a week. While relief follows the first dose it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.—Advertisement.

LONG COST GOING DOWN

Eggs Take—Big Slump; Butter Prices Advance Slightly.

Fruits and Vegetables Are Plentiful and Prices Moderate.

Insofar as produce prices are concerned, the cost of living is being cheapened these days. Quotations will be found by consumers to average up lower today and dealers throw out strong hopes of still further reductions in the near future in many lines.

Fresh eggs continue to decline. As compared with around 40¢45 cents a few weeks ago, and being difficult to obtain at that, they are now quoted at 21¢23 cents a dozen for the guaranteed article. Receipts are increasing so rapidly that dealers say they would not be at all surprised if their quotations dropped a few notches yet before chickens begin to get their way next month. At their present figure, eggs are regarded as the cheapest food product in the list, and it becomes more generally appreciated by the public their consumption is expected to show a marked increase. Eggs were cheap last year at this time, too, selling at just 1 cent a dozen higher than their present market.

Butter prices higher. The butter market, on the contrary, is advancing, today's best creamery being quoted by the Bridgeport-Russell company at 35¢37 cents a pound, an advance of 1 cent from a week ago. Its price is 6 cents a pound higher than last year at this time. The higher range of butter quotations this spring is attributed by the trade to the increased consumption over the country, both locally and in the East. Storage supplies, which were large at the beginning of the year, are being rapidly used up, and consumption of fresh butter is gaining in spite of the higher prices. Production in Duluth is reported to be showing a substantial increase.

Receipts of fruits and green vegetables are increasing and the variety offered is better than for some time. The Fitzsimmons-Palmer company, the Stacy-Merrill Fruit company and the Johnson Bros. company, the local houses are featuring apples this week and the movement of both barrel and box is reported to be unusually good. Quotations are slightly lower. The supply of grapefruit is considered never to have been better than at present and its price also shows a moderate reduction. Florida strawberries are scarce, with their figure a trifle higher at 32 cents a quart.

In green vegetables the price tendency is lower through the list as a result of more liberal receipts from Louisiana, California and Florida. New potatoes from Louisiana are now to be had and there are also new Florida sweet potatoes. California cauliflower is cheaper, as are also Florida tomatoes and California and Texas head lettuce.

Minnesota potatoes are firm at 95 cents a bushel. Dealers do not care at present to predict the future course of the potato market. Stocks in growers' hands in this state are as large as reported, a substantial drop in that market would be likely, it is considered.

RAILROAD MEN WILL DEMAND 8-HOUR DAY

Vote of Organizations Overwhelmingly in Favor of Move.

Chicago, March 10.—It was officially announced here last night that the vote of 400,000 engineers, firemen and trainmen of American railroads overwhelmingly in favor of an eight-hour day.

The vote was taken by the members of these four organizations are not completed, it is expected that the vote is overwhelmingly in favor of presenting to the railway companies of the United States the requests for the eight-hour day and the time and a half for overtime. Consequently the vote will be carried forward in its regular course.

The present vote has no significance except as an indication of the desire of the men that this matter should be presented to a commission and all reports that it has any significance as a strike vote are erroneous and misleading. In the immediate future, the requests will be presented to the railway managements and the necessary steps taken to make the same effective.

The statement was signed by W. S. Stone, grand chief of the Brotherhood of Locomotive Engineers; A. B. Garretson, president of the Brotherhood of Railroad Conductors; W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen; and W. G. Lee, president of the Brotherhood of Railway Trainmen.

According to Mr. Stone, returns not yet in cannot possibly affect the results. The demands in a few days will be presented to the railroads and they will have thirty days in which to make reply.

The roads have made it plain that they intend to fight the proposed conditions. Upon their refusal to accede to the requests, which is taken as a foregone conclusion, committees representing both sides will be appointed to negotiate a settlement, if possible. The railroads, it is said, will insist upon arbitration under the Erdman act if the present negotiations fail.

RUSSIAN WAR LOAN IS PLACED IN JAPAN

(Correspondence of the Associated Press.)

Tokio, Feb. 5.—Russia has placed a loan of 50,000,000 yen, or about \$25,000,000, with Japanese bankers. The operation is really for the purpose of raising the money to pay for the quantities of war munitions which the Japanese government and private arsenals are furnishing the Russian government.

The loan takes the form of Russian treasury bonds of 5,000 and 10,000 yen and the rate of interest is 5 per cent. The bonds are redeemable in yen and the bonds will be issued at the rate of 95. Though the subscription list will be opened to the public, the syndicate of Japanese bankers interested in the loan does not seem to expect general support from the public, but expects the bulk of the subscription will be confined to the banking and insurance circles. In consequence an understanding has been reached between the syndicate and the Bank of Japan that the latter will accept the bills as remittance.

UNIVERSITY IS PRAISED

Minnesota Commended for Establishment of Course in Lumber.

Need of Trained Men in the Lumber Business Told.

Syracuse, N. Y., March 10.—Praise to the University of Minnesota for its establishment of a course in lumber was the feature yesterday of an address before the college of forestry of Syracuse university by Secretary F. S. Kellogg of the National Lumber Manufacturers' association, when he told of the need for trained men in the lumber business and of how that need is being met in several of the biggest educational institutions in America.

"More than anything else the lumber business needs scientific training for its own people," declared Mr. Kellogg, "for the lumber business, the second industry in importance in America, is today being developed along modern scientific lines. Not alone the forest engineer needs this training, but a technical knowledge of wood is needed all the way from the forest to the retail dealer, for the need of the industry today, and the need alike for the consumer, is for trained, correct technical advice in the purchase of the right sort of wood for special uses."

Trained Men Needed. "The whole business needs these scientific and technically trained men. Without such men, and the application of modern processes of manufacture and methods of merchandising, which make possible the utilization of all parts of the tree, forest conservation will be only a theory. The forest school graduate, who is willing to pluck-hole his sheepskin, don a pair of overalls and go to work in the woods or around the sawmill, will some day stand high in the lumber business. The industry has far too few trained engineers of production and distribution. Once it did not need them. Now it does. This is the opportunity for the college graduate who is not afraid of dirt and hard work."

This was the climax of an address in which Mr. Kellogg told how the industry affects 700,000 wage earners directly and indirectly \$80,000 more. He told how the lumber industry today is developing along lines that make the retailer the trusted adviser of his customer, and to be successful even in the retail sale of a board he must be able to give technically correct advice.

Lumber Courses in Colleges. Then he told of the work of the colleges in taking up lumber courses.

"A few months ago, hardly more than a year ago, there were only a few schools in America where forestry was taught. The new idea is to teach lumber through university extension courses to the men already in the business. Now look at them. An instructor in Wisconsin university extension division tells me that to his knowledge the following institutions have either begun giving practical courses on lumber and its uses or are planning to do so: The Universities of Maine, Wisconsin, Minnesota, Montana, Idaho, Washington, Oregon, California, Colorado, Iowa, Pennsylvania and Massachusetts."

Mrs. Kimery is in a hospital now, her face and body swollen from the treatment said to have been inflicted by her husband. The mob broke six horsewhips over the doctor.

GRAND FORKS BIRTHS FAR EXCEED DEATHS

Grand Forks, N. D., March 10.—(Special to The Herald.)—The year 1915

was a good one for the stork in Grand Forks. Statistics just compiled show 325 births in this city as compared to 203 deaths. September was the record month for births, there being 65. May was the biggest month for the grim reaper, 21 deaths being reported.

Barnum Postoffice Moved. Barnum, Minn., March 10.—The postoffice here, formerly in a brick building, has been moved to quarters in the Gerlach store. As the office was formerly located, the government was obliged to transfer the mail between the depot and the postoffice, but as matters are now arranged this responsibility will fall upon the railroad company.

LIGHTS AND SHADOWS OF POLICE COURT

"NEVER DRINKS."

Carolus Youngberg Hadn't Tasted Any Whisky for a Week.

"Don't you drink?" asked the judge. "Oh, sure, I drink milk, and water, and sometimes coffee," said Carolus Youngberg, 63.

"I mean intoxicating liquors," persisted the court.

"Whisky? Oh, no, never," said Youngberg. "I haven't had a drink for a week."

Police Capt. A. G. Fiskett and Detective Robert testified that Youngberg was unable to walk unassisted on the previous evening, and the court sentenced him to pay a fine of \$15 or serve ten days at the work farm.

"Those drinks you had a week ago must have been powerful ones, to last all this time," the court remarked when he imposed sentence.

JUDGE AS DRAMATIC CRITIC.

Must Decide Whether Dramas' Drama Was Comedy or Tragedy.

The last act of a little domestic drama was played by John Drama, 56, and Pauline Drama, his wife, this morning in municipal court.

Drama testified that the first scene, staged in their home at 511 East Fifth street, last night, was a comedy and not a drama at all.

Mrs. Drama complained that her husband's words were enough to provoke an assault, and that there was nothing comic about it, but that it was tragic.

Judge F. H. Canning evidently felt that he was not qualified to be a Drama-tic critic until he had witnessed a re-enactment of the performance, and released Mr. Drama until March 13, at 2 p. m., when he will pass upon the merits or demerits of Mr. Drama's acting.

"Perhaps it was a play upon words," suggested Police Capt. A. G. Fiskett.

The climax of the Drama's little drama will not be revealed until the 13th, however.

WILL DISCUSS NEW MEASURE

Council and Western Terminal Railway Representatives to Confer.

New Draft Claimed to Remedy All Defects of Old Ordinance.

City commissioners and representatives of the Western Terminal Railway company will hold a conference this afternoon to discuss the new draft of the proposed belt line franchise, which was submitted to Mayor Prince yesterday afternoon.

The original ordinance, granting the terminal road a franchise to construct a belt line in the city of Duluth, was tabled by the city commissioners several weeks ago, because its provisions were in violation of the charter, according to an opinion handed down by City Attorney Samuelson, and the new measure submitted yesterday is declared by representatives of the company to meet all objections. At the conference this afternoon the ordinance will be discussed thoroughly, and, if it meets with the approval of the city attorney and the commissioners, will be filed with the city clerk.

No action will be taken by the council, Mayor Prince announced, this morning, until the public has had ample time in which to discuss and study the measure.

E. C. Leidel, one of the promoters of the Western Terminal Railway company, and E. W. MacBerran, its legal representative, will attend the conference this afternoon. It was announced today while the city will be represented by Mayor Prince, Commissioners Farrell, Noss and Silberstein, and City Attorney Samuelson. Commissioner Merritt is in Minneapolis for several days.

The chief changes in the new ordinance are the provisions limiting the life of the franchise to twenty-five years in conformance with the charter, while transfer of the belt line is prohibited without permission from the council. The old draft gave the company an indefinite franchise, with the power to transfer it to any railroad entering Duluth, with the exception of the Northern Pacific.

The original route of the proposed belt line is included in the new ordinance.

The Don Duluth cigar is strictly a home product and it's a splendid cigar. Ask for it.

Information on Commissioner Silberstein's plan to have policemen carry blank cards for the purpose of reporting all accidents and injuries is desired by the "Policeman's Monthly," a national publication devoted to the work of police departments.

In a letter received today by the city head from N. J. Joder, editor of the publication, the latter asks for samples of the cards and an explanation of the plan to use the blank cards with a feature article now in preparation on "Other Values of a Patrolman."

The accident cards were printed two weeks ago and have since been distributed to all patrolmen in the city.

SUN BRINGS RELIEF TO THE RAILROADS

Snow Shovelers and Ice Pickers Will Soon Be Discharged.

There is one man in Duluth who is infinitely pleased to behold the warm and smiling radiance of "Old Sol."

That person is W. H. Strachen, superintendent of the Lake Superior division of the Northern Pacific railroad. The rather warm rays of today's sun mean that the last gang of snow shovelers and ice pickers will be dispensed with during the next day or so.

The season, according to the statement of Mr. Strachen, has been the most expensive in the history of the Lake Superior division of the Northern Pacific railroad. The expense has been incurred in battling the excessive amount of snow that has blocked traffic and tied up the terminals of the Lake Superior division, which extends from St. Paul to Duluth and Ashland to Staples.

Today a crew of seventy-five men is employed at Rice's point in shoveling out siding and switch heads. Most of the other terminal points and switching tracks have been pretty well dug out, though completing the job has required a vast number of men.

The coming of the first warm weather of March brings a real relief to operators of railroads in this district of the country, for it means that the first time in several months train service may be depended upon.

"WRECKED" BY A BOAT.

Michigan Man Arrested When He Seeks Craft at Depot.

Charles Hawkins of Mt. Clemens, Mich., bought a boat.

He planned to make Duluth his home for some time to come, so he wired acquaintances at New Haven, Mich., and told them to ship the boat to him at Duluth.

Chief of Police R. D. McKercher yesterday received the following telegram from a sheriff at Mt. Clemens: "Man named Hawkins will apply at C. & N. W. depot for a boat to ship him from New Haven. Watch depot and arrest him when he shows up. He is a vagrant here for abandonment."

Detectives Toewe and Bradley went to the Northwestern depot, and before long, Hawkins appeared, looking for the boat. He was taken to headquarters and booked as a fugitive.

Officers from the Michigan city will come to this city to bring him back.

ONE WAY TO GET "SERVICE."

Edward Schmidt Went After It With a Revolver.

Edward Schmidt, 42, a pug-naciously inclined lumberjack, and a capable man in the trenches before Verdun, but he is out of place in Duluth.

Schmidt, staid into a restaurant on Lake avenue south last night and demanded a meal. Furthermore, he was in a hurry, he said, and he wanted service with a capital "S."

Said service evidently did not please Schmidt, for presently he began pounding on the table until he had attracted the attention of everyone in the place, including the chef.

When Schmidt drew a revolver and began flourishing it, everybody scattered for safety except the chef, who jumped upon the belligerent one and relieved him of the loaded weapon.

Patrolman Bert Duff took Schmidt to headquarters and he was given a thirty-day work sentence today, without the option of a fine.

nance, which provides that the road shall begin at South First avenue east, extending along Railroad street and through the wholesale and dock district to West Duluth, over the hill and east in a circle to Lakeview where it will connect with the Iron Range.

The company agrees to pay for all improvements in the street, water, road, and sewerage, and to purchase 1,000 acres of property back of the hill to be held for factory sites.

City commissioners recently expressed themselves in favor of this franchise as a means of "breaking the neck from Duluth's terminal bottle," providing the city is well protected. Mayor Prince said today that the new measure will be turned over to the city attorney with a request for another opinion.

MILLER INTRODUCES NAVAL RESERVE BILL

Provides for 15,000 Men With Proper Training at Full Pay.

From The Herald Washington Bureau.

Washington, March 10.—A bill to establish a naval reserve of 15,000 men was introduced by Representative Miller today. The Miller measure follows in general the provisions of the bill recently introduced in the senate by Senator Nelson for the same purpose, but provides for 15,000 instead of 12,000 reserves, also provides that instead of the reserve being in actual training thirty days of each year, it shall be in such time as the secretary of the navy may direct.

The Miller bill provides for full pay while in training for both officers and men, with one-fourth pay for men and one-half for officers when not in active training on training ships of various ports, men and officers to be subject at all times to the call of the department.

Safety Head Receives Support of Woman's Council.

Commissioner Silberstein, safety head, received word this morning that the proposed milk ordinance has been endorsed by the Woman's Council of Duluth.

In a communication to the safety head, Mrs. A. A. Kerr, secretary of the council, states that the organization approves the plan to give the city the best milk in the country and urges him to continue in his efforts in behalf of the proposed measure.

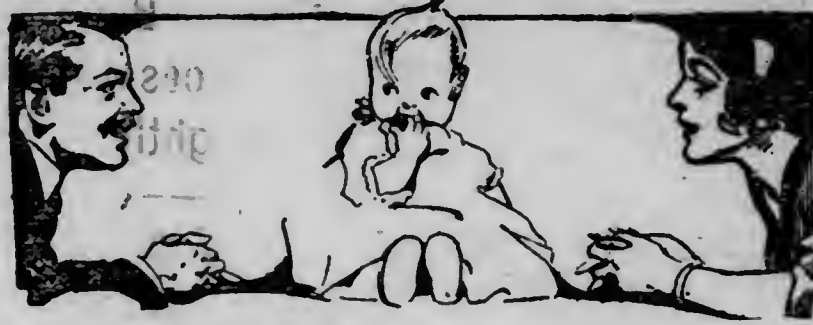

The milk ordinance is being studied by a committee of physicians, and as soon as they report, will be submitted to the council.

Baby-Week Souvenirs at Gray's Again Tomorrow!

Every baby who brings its mother to Gray's Baby Shop will receive a dainty and useful souvenir. If baby was weighed at the Baby Show, please bring card so that we may register its weight or we can weigh them here if you like.

We will not urge you to buy anything—we simply want you to see the careful way in which we have prepared everything that baby could need, or wish for—or their loving mother or aunties wish upon them.

Mrs. Thompson returned from New York recently, where she made it her business to buy the best the market afforded for little folks. The Saturday Club Booth at the Baby Show of "good and bad toys for children" showed many of Gray's good toys, recommended by welfare workers for little folks. We also furnished some of the toys which were not approved of. Come to our store and the department people will explain which are the better and why.

New Spring Shoes For Kiddies

These new Red Riding Hood shoes for the little folks are certainly models of the highest class of shoemaking from the standpoint of comfort, service and appearance. The broad toe lasts give absolute comfort to juvenile feet. The heavy sole is all sewed on, providing flexibility with the utmost service. Smart-looking patents and dull leathers to choose from. Priced at \$2.00, \$2.35 and \$2.75, according to size. Boys' rubber boots, sizes 9 1/2 to 2, at \$1.50 per pair.

Change Your Hat and Change Your Mind

These bright sunny days give old Sol a chance to show his warmth.

It makes you eager to lay aside the heavier wearables of winter and don the garments of spring-time.

And a new hat will be a most welcome change, especially such charming new hats as are waiting you at Gray's.

Styles are pleasingly different, but you must try them on to realize how becoming they are.

We'll look for you tomorrow.

There Are Some Mighty Good New Warner Corsets to Sell at \$1.50 to \$2.00.

They are sensible styles—the proper model will shape the kind of figure you want and will wear as long as you expect. It will hold its shape from the day you put it on until you discard it. They are not extreme in any way, save one—they are extremely good value.

As stated, these "just arrived" models are \$1.50 and \$2.00.

Other models in Warner makes, \$1.00 to \$3.00.

Women Who Get the Most Good Out of Their Clothes Buy Spring Suits Early

The spring styles are so very different you will be mightily delighted. You will find a charming model to suit the requirements of your figure.

The slender woman may have a style to give fashionable grace.

The stout woman may have a model which gives a pleasing poise.

The average figure may choose a style to emphasize the figure lines most desired.

This is possible because the preferred spring styles range from semi-Russian blouses and Norfolk to box effects.

The semi-Russian blouses and Norfolk models are belted and flare decidedly at the hips giving a trimness of figure, or a loose but apparent form-fitting style depending on the model.

Then, too, there are charming box effects for those who can wear them.

The Three-Way Collar Is a New Suit Idea Eminently Suited to Spring Wear in Duluth.

This collar may be worn in a high glove-fitting military effect or a high square cut effect or a low V neck. Worn either way, the tailoring is such that the effect is altogether that of a collar worn just as it was tailored to be worn.

Some of the Suit Jackets have detachable collars of white silk or other light materials. Touches of embroidery and novel buttons and silk finishings give further style touches of unusual attractiveness.

All skirts are full—most of them are flared at the bottom and have decided fullness over the hips.

An attractive novelty is a suit of Coral Jersey cloth. The price is reasonable, \$25.00.

A green Duvetyné at \$35.00 is a very aristocratic model.

New Coats Are Waiting to Be Tried On.

Tomorrow will be an opportune time to see how becoming the new coats are. Already a large assortment, embracing all the new models in coats for dress, for sport and general wear are ready.

Most of them range from five-eighths to three-quarter lengths. Many of them are belted with a decided flare from the waist as well they should be to be properly worn over the new styles in gowns and skirts.

The back line is rather straight, save for the omnipresent flare from the waist. Materials most preferred are serges, poplins, gabardines, silk poplins and black taffetas. The bell shape sleeve is in decided favor.

The blue family from Alice to navy is popular. Some greens, some checks, especially in black and white, are also in decided favor.

White Chinchillas Are Here at \$10 to \$22.50

Some of the White Chinchilla have colored velvet pipings and velvet collars to match.

Jersey silk jackets are elegant wraps for evening wear.

Only a limited few are to be had. Exclusiveness is promised those who buy.

They are variously shown in models from \$12.50 to \$25.00.

The Jersey knit and duvetyné models are here at \$15.00 to \$20.00.

A Bit of Dainty New Neckwear Will Freshen Up Your Dress Nicely

Scores of fresh new collars, Georgette crepe, organdy, voile and crepe de chine have just been marked ready for your choosing.

You will admire the unusually clever hem-stitching and tucking on some of these flat styles. Others are trimmed with insertion of filet lace that is really exquisite.

In white and colors, prices range 35c, 65c, 98c, \$1.25 and up to \$2.98.

A whole table full of fresh new neckwear, choice of any one piece or set—65c.

For your convenience we have placed on one table for tomorrow various styles of attractive new collars, vests and collar and cuff sets. Choose the one you like best. Pay only 65c. They are all mighty good values for the money.

SENATOR ROOT'S SPEECH AND THE CAMPAIGN

To the Editor of The Herald: Nothing that a Democratic orator could say at this time, or in the coming campaign, could be more prolific of Democratic votes than the now famous Senator Root speech; and unless the Republican party repudiates it and shows by its platform that it stands for honesty, fairness and American independence, that it is not committed to, or subservient of any foreign power, the speech will do immeasurable harm to the Republican party in the coming campaign, the more so because many hypocritical Republican papers have held it as the Republican keynote speech for the coming campaign. True it is that President Wilson seems to be led pretty much in the same manner and by the same forces that our good President Taft was in the latter half of his term. But the Democratic leaders in congress are proving themselves true to the rank and file of the American people; the influence of munition and lust of gain do not seem to influence them, and they are showing themselves to be conservative and fair, and that will count heavily in their favor when compared with the insincerity, unfairness and war-like spirit of Mr. Root's speech.

As it stands the Republican party will be looked upon as a "war party," and the American people will not place in power a war party at this time, they are not in a mood for war, and do not see the necessity of it, or the reason for world-wide panic in the agitation that has been spent upon them through a subsidized press by powerful financial agencies and hypocritical citizens of this country.

Mr. Root's play upon Belgium was ill chosen by him, and shows the insincerity of the Republican party.

sincerity of the Republican party. If he will you insert, in view of the invasion of Korea, while his silence on the march of the allies through Greece and China in face of protest, and his willingness to go to war with Germany for her interference with our commerce and not a word of protest against England's constant and deliberate interference, stamps the Republican party as partial and unfair. He terms the occupation of Vera Cruz "foolish," though our huge guns took great gaps in the thickest populated part of the city and scores of lives were lost; and places the Republican party to a "firm and fearless" enforcement of our diplomacy, if it be in power, and that can leave no question as to what he means.

Unless the Republican party repudiates him it will suffer.

QUESTIONS AND ANSWERS

This department does not pretend to be infallible. It endeavors, however, to answer questions sent to it by readers of The Herald to the best of its ability, referring the reader to the proper authorities in case of doubt, or that ask for advice on legal or medical questions.

To receive attention, every inquiry must bear the name and address of the person sending it. This is not wanted for publication, but as a record of good faith.

"O. A. P." Ramsey, Mich.: Can you explain to me what "carbide" (a substance we burn in our lamps in the mine) is composed of? Is it a manufactured or where is it produced?

Ans.: The substance referred to is "calcium carbide," and is produced by burning coke with lime in an electric furnace. The result of the burning is a lime-like substance, which is then crushed, carbon and oxygen and commonly known as "carbide." When water is put on this, the crystals disintegrate and an inflammable gas called "acetylene" gas is given off. Carbide is manufactured in Duluth and at Lacrosse, Falls and in other manufacturing cities.

"ART," "RULES," "PLAYS," ETC.

To the Editor of The Herald: I have read with interest the very lively debate a couple of anonymous dramatic experts have been carrying on in the Open Court, and I think I'd like to get into it with this: that there is such a thing as overplaying the "rules of the game" in dramatic art as in all other arts. Many good and successful plays violate the rules of dramatic composition right and left and are none the less good and successful, therefore. It is well to have rules, but artists must be bigger than rules. A man who sets out to write a play strictly according to your rules about "unity," "conflict," etc., would achieve perfection, perhaps—but perfection in failure as well as in compliance with the rules; like a man who sits down to write a piece in which no slightest rule of grammar or composition shall be infringed. Such a composition will be correct, but lifeless; and so a big dramatic composition guided by the rules rather than by a determination to tell a dramatic story or—paradoxical as it may seem—to paint a dramatic picture, rules are good, but the letter killeth and the spirit giveth life. Rules of dramatic construction, like rules of art and science, must be broken. They are well enough in general, but art can't be shackled by rules, and science can't be curbed art with his yardstick ever has been born; but fortunately artists big enough to break rules are not shackled by rules mostly made by little people often come into being. Otherwise art would die, and art isn't "dead" one yet—though it would be if the paralyzing influence of "rules" and the contamination of the highbrow pose were given full sway.

Tours for art uncramped by arbitrary rules, but using freedom with reason and restraint.

WAS BOUND AND GAGGED

West End Woman Says Burglar Tied Her to Heater.

House Ransacked—Neighbors Hear Her Moans and Release Her.

How a burglar entered her residence after she had retired, choked her into partial insensibility, tied her to the legs of a heater, and gagged her while he ransacked the house, is the story told Sergeant John Hunter of the West end police station, by Mrs. William Sear, 223 North Twenty-third avenue west yesterday. The police were furnished a description of the man and are searching for him.

Mrs. Sear went to bed at about 10 o'clock Wednesday night with her 2-year-old daughter. Her husband is employed nights at the steel plant. She told the police that some time between 11 p. m. and 6 a. m. the intruder entered the house. She was unable to say whether she had been tied one hour or over.

Shortly after 6 o'clock persons living upstairs heard moans and on investigating, found the woman bound and released her. When Mr. Sear returned home, he notified the police, and yesterday afternoon the sergeant, went to the house to complete the investigation.

Every room in the house had been ransacked, according to Mrs. Sear, but the thief got only \$1, which was all the money that was in the house at the time. Mrs. Sear said she was unable to tell what time the man came in because he worked in the dark.

The man is described as being about 5 feet 8 inches tall, weight about 150 pounds, with a cap and mackinaw, and of dark complexion.

KANSAN CALLED TO LUTHERAN CHURCH

Rev. E. F. Philblad, Ph. D., D.D., president of Bethany college of Lindenberg, Kan., has been extended a call to become pastor of Trinity English Lutheran church, Twenty-seventh avenue west and Third street. No word has been received as yet as to whether he will accept.

Dr. Philblad is said to be one of the ablest speakers in the Augustana synod, and has held a prominent place among the educational institutions of the synod for several years.

Local members of the church expect Dr. Philblad to visit this field within the next week or two to look the ground over before accepting. He may probably be in the city and occupy the pulpit of the local church at an early date.

INDIFFERENCE DEPLORED

Grace M. E. Pastor Talks of Lack of Interest in Religious Affairs.

Lack of interest in religious affairs was deplored in a sermon last night by Rev. J. Emmett Porter, pastor of the Grace Methodist church, Twenty-seventh avenue west and Third street. The sermon was one of a series in revivals which are being held at the church during the week.

The pastor's subject was, "We, All Like Sheep, Have Gone Astray." The musical program each evening is being given under the direction of Mrs. J. Emmett Porter.

THIEVES MAKE HAULS.

West end police are looking for the perpetrators of two burglaries that took place during the early part of this week. The tailor shop of M. Olson, 2727 West Superior street, was one of the places entered.

The burglar entered through the rear door, which was taken off its hinges. Several suits, some of which had been left for repair, were among the booty taken.

Some one entered a switchman's shanty at Fortieth avenue west Tuesday night and stole some clothing belonging to employees. So far the officers have not found any trace of the thieves.

STOMACH SUFFERERS

MAYR'S Wonderful Remedy. One Dose Will Convince You.

The Young People's Society of the Central Baptist church, Twentieth avenue west and First street, will entertain this evening at a farewell reception in honor of Mr. and Mrs. Myron Greisberg, who will leave in a few days for Cornwall, Wis., to make their home. A short musical program has been planned.

West End Briefs.

The Mothers' club of the Emerson school will hold its monthly meeting at the school on Thursday afternoon. A program will be followed by a social hour.

Mr. M. Carr, 3907 West Third street, who has been ill, is reported to be convalescing.

Mr. and Mrs. George Burke of St. Paul are spending a few days visiting relatives in this end of the city.

NEWS OF THE NORTHWEST

NORTH DAKOTA IS ENJOINED

State Cannot Stop Importation of Product of Certain Tobacco Concern.

U. S. Court of Appeals Reverses Judge Morris in Snuff Case.

Fargo, N. D., March 10.—(Special to The Herald.)—Dr. E. F. Ladd, state pure food commissioner, today said he would have no statement to make regarding the decision of the United States court of appeals of St. Louis reversing the United States district court of North Dakota in the case of the Weyman-Purton Tobacco company against the pure food commissioner, until he had seen Attorney General Linde.

About a year ago the United States district court of this state, Judge Page Morris of Duluth presiding, refused to grant an injunction against Commissioner Ladd prohibiting the prosecution of tobacco manufacturers from the sale of certain brands of manufactured tobacco, which one set of experts defined as snuff and another set as fine-cut chewing tobacco. Commissioner Ladd contended the brand in question was a substitute for snuff, the only difference being the method of cutting into shreds instead of pulverizing, as in the case of Copenhagen snuff.

The order of Judge Treiber of the United States court of appeals of St. Louis, granting the tobacco company an injunction against Ladd, throws the state open to this product, but it is expected an appeal will be taken by the attorney general and Commissioner Ladd.

HANDY STOMACH REMEDY TO HAVE ABOUT THE HOME

Instantly stops indigestion, gas, sourness, heartburn or acidity.

The moment "Pape's Diaprepin" reaches the stomach all distress goes.

As there is often some one in your family who suffers an attack of indigestion, acid stomach, dyspepsia or some form of stomach trouble, why don't you keep Pape's Diaprepin in the house handy?

This harmless blessing will digest anything you eat without the slightest discomfort, and overcome a sour, lousy stomach in five minutes. Tell your pharmacist to let you read the formula plainly printed on these 60-cent cases of Pape's Diaprepin, then you will readily see why it makes indigestion, sour stomach, heartburn and other distress go in five minutes and relieves at once such miseries as belching gas, eructations of sour undigested food, nausea, headaches, dizziness, constipation and other stomach disorders.

Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach with the common every-day cures advertised that they have about made up their minds that they have something else wrong, or believe there is a case of nervousness, gastritis, catarrh of the stomach or cancer.

This no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and turns to acid, gas and stomach poison, which putrefy in the digestive tract and intestines, and besides, poison the breath with nauseous odors.

AGED FARRIS MAN BRUTALLY BEATEN

T. H. Mackey Assaulted by Thugs and Robbed Near Depot.

Cass Lake, Minn., March 10.—(Special to The Herald.)—According to advices received here from Farris, T. H. Mackey, the oldest settler there and prominent business man of that town, as he left the Great Northern train last Monday afternoon, was assaulted by two ruffians with guns, who demanded his money, and failing to hand over his property, they knocked him down, rendering him senseless, and took his money and left him in the snow bank near the railway station.

Officers are seeking the thugs.

MUD LAKE LANDS TO OPEN APRIL 12

Lands Lie in Duluth, Crookston and Cass Lake Districts.

Crookston, Minn., March 10.—According to additional information received by Register P. M. Ringdal, of the local U. S. land office, lands in what is known as the Mud Lake district will be open for settlement April 12, instead of April 6.

On and after April 6 homesteaders may file on lands in that district. The filings will be dated April 26, then entry date. All who file on April 6 must be on the land April 12, ready to make improvements and to show that they are bona fide settlers.

The lands which will be opened lie in the Crookston, Duluth and Cass Lake districts and comprise 56,742 acres of ceded Chippewa land in the former Red Lake, White Earth, Leech Lake, Chippewa and Mississippi (Winona) Deer Creek, Bois Fort and Pigeon river reservations.

The above lands are in the Crookston district and are said to comprise some 10,000 acres, on which "squatters" or "settlers" have already settled waiting for the lands to be thrown open for settlement.

BAGLEY NEWS NOTES.

High School Basket Ball Girls' Team Defeats Virginia.

Bagley, Minn., March 10.—(Special to The Herald.)—The Bagley High school girls' basketball team defeated the Bemidji girls team last Saturday night in one of the local floor, the final count being 7 to 6. By defeating the Bemidji team was in line for the championship of this part of Minnesota. Bagley, although having played a few games, was represented by one of the best teams in its history, and as a result of the game played a few weeks ago in Bemidji, the interest was intense. The game was a clean one all the way through, considering the speed with which it was played, and the closeness of the game.

The assessors of Clearwater county met at the court house on Tuesday for the purpose of gaining knowledge of the rules and laws governing assessors which are issued by the state tax commission.

The county commissioners met in regular session on Tuesday. The matter of advertising for the bids for the new courthouse was taken up.

A meeting will be held next Tuesday to organize the Bagley baseball team for the coming season. Bagley has been represented by some good teams in the past, and the prospects look bright for the coming season.

VETERAN EDITOR QUILTS.

C. H. Slocum, First Clerk of Minnesota Legislature, Leaves Tripod.

Omo, Wis., March 10.—C. H. Slocum, the oldest editor in the Northwest, former owner of Minnesota papers and first clerk of the Minnesota legislature, has retired as editor and Tuesday the Omo Herald at the age of 80, and will be succeeded by Russell S. Howe, 25 years old, who won fame at the age of 18 in 1886, removing to Fond du Lac in 1888. In 1889 he learned the printer's trade. In 1893 he worked on the Chicago Herald, and two years later was foreman of the Christian Advocate, and at Fredonia, N. J., he was employed with Charles E. Leonard, father of Lillian Russell, and boarded with the family.

PINE COUNTY OLD SETTLER IS BURIED

Sandstone, Minn., March 10.—Following funeral services held at his home at Finlayson, conducted by Rev. Mr.

Blanchette, the body of Simon Birdsell, aged 85, a pioneer resident of Pine county, who died Wednesday, was buried here. Mr. Birdsell was a prominent resident of Finlayson and a pioneer in Minnesota. He was born in Canada and came to Minnesota in the early 60s, locating near St. Peter. During the Indian uprising he helped to haul the families out of St. Peter to places of safety with ox teams. He had resided in Pine county for eighteen years. Surviving relatives are: Mrs. Birdsell, a daughter, Mrs. A. J. Hall of Sandstone, and D. H. Birdsell of Finlayson.

OCTOGENARIAN ENTITLED TO ALCOHOL AS "RUB."

Bemidji, Minn., March 10.—(Special to The Herald.)—Frank Carpenter, 87 years old, who uses alcohol as a "rub," was arrested Wednesday for introducing liquor into Indian territory. He was accused of having several gallons of alcohol in his suitcase and when asked what reason he had for introducing it into Indian territory, he said that he heard that Plummer was going "dry" and that he wanted to get a supply, as he used it for a "rub." He was released and the charge dropped.

KILLED IN ISABELLA.

Forty-Foot Fall Fatal for Palmer, Mich., Miner.

Negaunee, Mich., March 10.—Yer Matti, 23 years of age, was instantly killed Wednesday in the Isabella mine at Palmer by falling from a bucket into the shaft, a distance of forty feet. Matti, with four other miners, were being lowered into the mine to begin work on the second part of the night shift when he met his death. He was standing on top of the bucket holding on to the rope, when he fell and dropped into the shaft. He did not get an outcry as he fell and some of the miners who were with him are of the opinion that he was stricken with a heart attack and was dead before he struck the bottom.

Matti's skull was badly crushed and he was internally injured. He had only been working for the Cascade Mining company two days.

GLIDDEN DOCTOR DIES.

Blood Transfusion Fails to Save Injured Veterinary Surgeon.

Ashland, Wis., March 10.—A heroic fight against death, combined with the best of surgical skill, failed to save the life of Dr. C. E. Schirmer, the Glidden, Wis., veterinary surgeon, who was brought to the city here yesterday after being crushed by a snow plow while standing on it as it forced through the snow, trying to make a "snap shot" of the spectacle. He died yesterday, despite the efforts made by skilled surgeons and nurses, during which blood transfusion had been resorted to. The body was sent to Lima, Ohio, for burial.

Veteran Commissioner Resigns.

Grand Forks, N. D., March 10.—(Special to The Herald.)—Because he thought the responsibilities of commissioner of the state were too great, W. M. Federmann, a leading druggist of Kansas City, stands by his convictions.

GIVES THE PEOPLE A SQUARE DEAL

W. M. Federmann, a Leading Druggist of Kansas City, Stands by His Convictions.

"I have always believed," he said, "that a druggist's first duty is to the health of his customers. I tell my people frankly that a safe, gentle, inexpensive laxative, such as Rexall, is kept in the home, will pay the biggest dividends of any investment ever made. I recommend it as the best family laxative, because it is put up in tasty candy tablet form that appeals to men, women and children alike, and is as delightful and pleasing to take as it is healthful."

We have the exclusive selling rights for this great laxative.

NEW POWER NOW AT GRAND FORKS

Electrically Developed Near Crookston Is Being Furnished.

Grand Forks, N. D., March 10.—(Special to The Herald.)—This city yesterday was furnished with water generated power. The new hydro-electric line, extending from the big power dam near Crookston to Grand Forks, was completed several days ago and yesterday the current was turned on for the first time. The current is generated by three large water-driven dynamos at the Crookston dam and is transmitted by a line of 100,000 volts to this city, whence it is distributed for commercial use. It precludes the necessity of large steam engines in this city and provides cheaper power for manufacturers.

RETURNS TO ISANTI AFTER MANY YEARS

Isanti, Minn., March 10.—William E. Ward, who came to Isanti county in 1864 and lived here four years, has returned to Isanti and declares that he will spend the remainder of his life in Isanti county. He was born in Isanti county and moved from here to Iowa, and during all these years he has remained in Isanti county. The Wards have purchased the home town in our neighboring state. SHOCK TO IRONWOOD.

Tragic Death of Captain Richards Widely Deplored.

Ironwood, Mich., March 10.—(Special to The Herald.)—The tragic death of Capt. Fred Richards of the New York National Guard, who died yesterday, has caused a genuine sorrow here where he was highly esteemed by the officers of the Newport. A native of England he came to Ironwood, Mich., about twenty years ago. He received his military education in the public schools of this city and in the class of 1890. On Oct. 8, 1910, he was married to Miss Lottie Balm, by his widow and one daughter, Ruth, 4½ years of age, his mother, and three sisters, Mrs. John Nichols, Misses Annie and Willie Richards. He was a member of the Ironwood chapter of the Anvil mine and Claude Richards.

BOY SCOUT REWARDED FOR SAVING LIFE

Mandan, N. D., March 10.—(Special to The Herald.)—"Dick" Furness, aged 14, Boy Scout of the first class, has received a \$100 reward for saving the life of a man who had fallen into the Grand Forks river. The boy was seen by the stream as the man was going down for the third time and saved his life.

WINS RATE CONCESSION.

Grand Forks Club Traffic Committee's Efforts Succeed.

Grand Forks, N. D., March 10.—(Special to The Herald.)—The action of the traffic committee of the Grand Forks Commercial club in taking up with the Great Northern, Northern Pacific and Soo railways the matter of extending their joint rate to the new towns on the Soo line extensions, has resulted favorably. The roads have promulgated new tariffs, effective April 5. These rates open up new Soo line points for Grand Forks jobbers, entitling them to joint tariff classes between Grand Forks and the new towns in Minnesota, North Dakota and Montana. Some of the points in the western part of the state which the new rates will most vitally effect are Garrison, Cole, Harbort, Underwood, Washburn, Mendota, Union, Baldwin, Arnold and Bismarck.

MISSOURI FLOOD INUNDATES FARMS

Vermillion, S. D., March 10.—Flood waters of the Missouri river have inundated lowlands west and southwest of Vermillion and many farmers of Clay county are said to be endangered. Water is flowing through the streets of Vermillion and has formed near there, and is holding firm.

Held to District Court.

Grand Forks, N. D., March 10.—(Special to The Herald.)—Edward Smith, who arrived here twelve hours too late to help Mrs. Robert McFadden, the 13-year-old Moore Jaw, Sask., wife, who left Canada with him, was arrested here today on a charge of unlawful cohabitation and was held to the district court. In default of \$500 bail he was remanded.

ARE PULLING TOGETHER.

Farmers and Commercial Club Members of Grassion Have Dinner.

Grassion, Minn., March 10.—(Special to The Herald.)—That there is a fine spirit of co-operation between local business men and nearby farmers was illustrated by the dinner given by the Commercial club Wednesday evening. Prof. H. B. Smith of St. Paul was the principal speaker. C. A. Gustafson was toastmaster. Movies and a social dance were features of an enjoyable evening.

CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleanser, such as always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a healthy and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the California Fig Syrup Company.—Advertisement.

ABERG DOESN'T BELIEVE STECHER COULD SCISSOR HIM

Huge Finn, Like Frank Gotch, Thinks He Can Evade the Deadly Leg Hold of the Nebraska Farmer—Freddy Welsh Is One of the Greatest Boxers of All Time, and Yet Lacks Popularity.

BY BRUCE.

RANK GOTCH occupied a ringside seat in the Omaha baseball park when Joe Stecher pinned the huge shoulders of Charley Cutler to the mat. After the second fall, when the crazy Nebraska farmer was waving straw hats in the air and acting like a lot of men possessed, Gotch rose and slowly shook his head. "That guy could never do that to me," said the once greatest wrestler in all the world. Yesterday the huge Alexander Aberg sat in a leather chair in the Holland hotel and shook his closely cropped head in much the same manner as Gotch must have indicated faith in his own prowess, when the name of the famous farmer boy of Nebraska was mentioned.

"I don't think Stecher he ever put that scissor hold on me," said the giant Finn, in his peculiar broken English. "When a man wait for him, then he put on that scissor, but when you move around fast, so, why I don't think he could get me."

That's what they all say. Cutler thought Stecher would prove the softest kind of a mark. Big Joe Rogers, weighing 270 pounds, thought sure he was the one grapple destined to take the measure of the "boy in the overalls." Gotch, it seems, is dead certain that his wonderful science will disprove some method to beat this 22-year-old marvel of the prairies, while Aberg, a wrestler who has beaten hosts of stars all over the world, believes he is the man who is to finally put a stop to the sensational winning streak of young Joe.

"Aberg is stronger than Hackenschmidt," said Edward Delivuk, his manager. "He has defeated Stanislaus Zbyszko upon four different occasions. Why, when this fellow has defeated these great men, and, in addition, defeated Nourahin, the huge Turk, who he hesitates to face this Joe Stecher?"

That's a problem that Delivuk and Aberg will have to solve for themselves. The greatest wrestlers in the world have been strenuously endeavoring to make a stand against Stecher, and yet, despite all their efforts, the scissor grinder swoops majestically on to victory after victory.

If Aberg, huge, powerful, the conqueror of every wrestler of note in the old world and numbering among his "stringers" Lewis, Hussane, and others, can defeat the bear-like Stecher, he will in a single day become the most famous wrestler in the world.

And while all this talk is going on, Helmar Johnson, the smiling, blond Swede, who has wrestled his way into the front rank of the recent New York tournament, declares he is going to

surprise the fans here by what he is going to do to Aberg.

When Freddy Welsh Is Right, REDDY WELSH is the most unpopular lightweight champion in years. Contrast him with Lavigne, Gans, Nelson or Wolgast, and then feel the deep decline in ring enthusiasm. Is it lack of enthusiasm, or what? When it comes to boxing, there is but one lightweight of recent years who can be compared to Welsh. That was Gans. And yet, great boxer that he is, Welsh lacks the appeal to the masses.

Maybe it is that Welsh cannot hit. Lavigne was a great hitter; one of the greatest of all time men. Nelson was never a hitter of the Lavigne, McGovern or Herara type, but he was a zig-zagger in every sense of the word. Wolgast was both a demon hitter and a thorough fighter. Ritche, while there may be doubt of his class, was a real and willing fighter. After this bunch of fighters came Welsh, and the followers of the sport have demonstrated in the case of the Pontypriid person, that between clever boxing and light hitting and simple pure fighting ability, there is a heap of difference. Welsh looked Wolgast the other evening with lots to spare. He boxed circles around Joe Rivers and Leach Cross on the coast. In one of the last twenty-round bouts held at Vernon, in real class, Welsh is a real champion, and yet the fact is every where made manifest that Fred Hall Thomas, alias, Freddy Welsh, is set down as a graceful young person, who deftly brushes the countenances of his opponents with his gloves and leaves the ring unmarked after a mild ten rounds of boxing.

Charles White has excessively yearned for a twenty-round meeting with Welsh. Here is a prediction. If Welsh and White are matched during the present year to box twenty rounds, Welsh will win. When the little Briton fights himself for a contest, he generally wins with something to spare. He'll beat White, too, and over the derby route, now just see if he doesn't.

SECRETARY WILL GET A REAL JOB

American Bowling Congress Will Change Plan of One Office.

Toledo, Ohio, March 10.—The annual election of officers of the American Bowling Congress brought officials together here this afternoon. William Agnew, Cleveland, is said to lead in the race for president. He has been vice president for some years. Grand Rapids, Mich., is expected to get the next tournament.

Changes in the constitution are expected to come up, among them a rule making Secretary Langtry's position a year round job, with commensurate salary. Sweeping changes in the manner of scaling the prizes are also to be effected, it is thought. Principal interest in yesterday's bowling was manifested in the five-man event, six of the first places being taken by new teams. Two new teams also moved to the top in the two-man event and a new leader came to the front in the individuals.

Bowling started at 8 a. m. today, with men from Grand Rapids, Chicago, Buffalo and Milwaukee in action. The five-man teams—Green Seals, Toledo, 2,777; Wedge Interlockers, Grand Rapids, 2,721; Bowling Greens, Bowling Green, Ohio, 2,698; George Schwab's, Buffalo, 2,686; Leverenz, Chicago, 2,679; Badolcher's, Pontiac, Toledo, 2,665; Adam Hahn's, Pittsburgh, 2,661; Kroening's, Cincinnati, 2,653; Milwaukee, 2,649; Brilli's, Chicago, 2,644; Schmidt and Lamont, Chicago, 2,633.

Two-man teams—Spickett-Kavanaugh, Detroit, 1,168; Gruber-Brunnett, Cleveland, 1,163; Broderick-Moltenok, Cincinnati, 1,152.

Individuals—P. Brunnett, Cleveland, 660; W. Heenan, Jackson, 650; F. Wenzel, Toledo, 617.

SHUTS DOWN ON BARNSTORMING

National Baseball Commission Approves Action of Major Leagues.

Cincinnati, Ohio, March 10.—The national baseball commission last night issued a notice approving the recent legislation by the two major leagues abolishing barnstorming trips. The national commission said:

"Adequate penalties on all major league players who, after the promulgation of this notice, may engage in games not conducted by their respective clubs, will be imposed.

"This action of the National and American leagues is predicted in the opposition of their respective clubs to the practice that has been abused from the standpoint of sportsmanship, and has resulted in injuries to players that have impaired their ability and earning capacity."

WENCK POINTED OUT THAT THE EXHIBITION WAS TO BE HELD UNDER THE AUSPICES OF THE SHOW CORPORATION WHICH HAS A BONA FIDE LEASE ON MADISON SQUARE GARDEN, AND WHICH IS ONE OF THE MOST IMPORTANT BEING ORGANIZATIONS IN THE STATE.

A bill introduced by Senator Dunnigan and which is now before the judiciary committee, would provide that boxing bouts be prohibited in buildings or enclosures not used exclusively for that purpose. In closing his letter, Mr. Wenck stated he could see no objection to holding boxing bouts on premises where other forms of entertainment are conducted, providing all the rules of the commission were obeyed in staging the exhibition.

The Dunnigan bill and resolutions have been tabled in the senate, pending the receipt of a copy of the explanation and offer to place the commission records at the disposal of Senator Dunnigan.

FAST GAME LOOKED FOR

Strong Cathedral Quint to Meet Northland College Team.

What is expected to be one of the fastest and most sensational games of basketball of the season, is scheduled for this evening in the Cathedral gym, when the Northland college team of Ashland will meet the speedy Cathedralites.

The collegians will enter the game with a very strong lineup, for in Warfield, Hanson and Gimme, they have a trio of stars and part of a five-man combination that will be hard to defeat. For the last three weeks they have been touring Wisconsin playing two week-end games each week with some of the fastest teams in that locality.

Cathedral will enter the contest slightly the favorites on account of defeating their opponents earlier in the season in a five-minute overtime contest, and by this fact Northland will strive all the harder to win thus wiping off the stigma of defeat.

The Catholic quint of late has been displaying great team work and their playing of baskets has been high up above their average points of the early season. They have lost but two games this season and by their win of last week over Central they have gained all the prestige that was lost. Considering that this is the last chance for local followers of Cathedral to see them in action on their home floor, it is expected that a very large crowd will be in attendance.

The second team of the school will meet the Peyton Paper company team in a preliminary contest to the big game. This game is also expected to be a hummer from start to finish.

GOOD SCORES CHALKED UP

Commercial League Bowlers Hit the Wood for Good Averages.

The Ryan & Russell bowling team of the Commercial league last evening won two out of three games from the Boston Lunch five, the Colts won two out of three from the Northern Shoes, and the Duluth Photos won three straight from the National Meats.

Some high scores were made during the evening, the Duluth Photo team getting the high total three-game score of the evening with a mark of 2,685.

NORSTED ANGRY OVER DECISION

Big Duluth Hockey Manager Refuses to Play Universals.

That the Big Duluth hockey team will not play the Universal team next Thursday evening is the statement made today by Ed Norsted, manager of the club. The Big Duluth player claims his team was given the worst of it in the recent protested decision, as a result of which the members of the Big Duluth septet have no desire to meet the Universals, even in a benefit contest.

In giving his reasons for refusing to allow his team to play, Norsted said: "I will not permit my team to compete with the Universal players next Thursday. The unfair treatment received in last Friday's game compels me to take this stand. I have been besieged by hundreds of local fans who wanted to know if the board of arbitration rendered the decision in last Friday's game, and I answered 'No.'"

"Neither Mr. Liggett of The Herald nor Father Robinson, who are members of the board of arbitration, were present at the hearing Wednesday afternoon."

SUPERIOR UNDECIDED IN REGARD TO NORTHERN LEAGUE

Business Men Across the Bay Are Expected to Arrive at Final Decision Before Night—League Meeting Expected to Be Called for Mill City—Fort William Wants to Come Back.

Bulletin Service.

Superior, Wis., March 10.—It was reported here today by the business men that Superior might be in the Northern league during the present season. It was declared by the consensus that reports of the lack of enthusiasm by financial interest have been greatly exaggerated.

From the Front.

Bulletin issued at 9 a. m.—The financial forces behind the local baseball team were reported to be making a great stand and holding their own. While little progress was made in the outlying districts, it was reported that \$1.25 was collected early today in the Tower avenue district.

Superior, Wis., March 10 (by mail correspondence).—Your correspondent was given an opportunity early today to inspect the operations of the business men. They were making a direct attack on the pocketbook of those possessing money or those believed to be in possession of money. Gen. Charles Armstrong is leading the attack in person. News reached headquarters early today that a detachment under Adjutant Silver Joe Konkel, stormed one of the big clothing stores on Tower avenue and captured \$3.75.

The fighting in the Tower avenue district is the fiercest of the campaign to date. We captured several clothing stores and the night clerk of a lodging house. A business man attempting to take refuge in the postoffice, was captured. We have also taken several promissory notes, but attach little importance to them.

Business Men's Statement.

"The fighting in the Tower avenue district is the fiercest of the campaign to date. We captured several clothing stores and the night clerk of a lodging house. A business man attempting to take refuge in the postoffice, was captured. We have also taken several promissory notes, but attach little importance to them."

Phelan Statement.

"Little progress has been made by the business men. They attempted to capture \$6.89 from the Bee Hive store early today, but were badly stung and retreated in disorder. Reported progress in the Tower avenue district is without foundation. They have repulsed the enemy at every point."

Situation in Shaky.

Whether Superior will have baseball or remain out of the Northern league during the coming season, will very likely be decided today, according to a statement issued by the "business men's" committee, the funds necessary to launch Superior's comeback in Northern league baseball, have been practically procured, but action is being deferred until more money is taken in.

Superior's procrastination has held up the league. Nothing definite has been accomplished in deciding upon the league schedule. Also, it might

be stated that it is not positive as yet what teams will make up the league. It is believed that it will be known today, one way or another, whether Superior is coming into the league. If the second largest city in Wisconsin does not decide to have organized baseball, a meeting of the league magnates will be called for Minneapolis, and the season's activities started off.

Meeting is Held.

Harry A. Blume, president of the Duluth baseball situation, yesterday was asked to come to Minneapolis for a conference with John Burnmaster and Charles Moll. Blume stated that he would go when the affairs of the league were in such shape as to permit of definite and final action being taken.

On top of the mixed and rather muddled affairs of the Northern league, comes complications in Fort William's request to come back in the league after taking the annual rest but two days ago.

Harry Blume yesterday received word that Fort William has reconsidered its determination to quit Northern league baseball, and now enthusiastically desires to re-enter the fold. That's the way baseball matters are going on March 10. By tomorrow there may be an altogether different alignment of league affairs.

Expect Superior In.

It is believed about among baseball men that Superior is expected to come in at the last moment. It is also true, it is rumored, that the league is going to let Superior stand on its own financial legs. The league men claim that Superior should take steps to learn to walk.

Armstrong of the committee of Superior business men informed Harry Blume that it would be definitely known today whether Superior could raise the necessary funds to float a baseball club. It is believed that if some definite action is not taken today, a meeting of the Northern league magnates will be called to take some action toward settling on the makeup of the Northern league for 1916.

It is probable that the league meeting will be held on Tuesday.

New Player Signed.

C. E. Wolgamott, a catcher and change-outfielder, was signed yesterday. Wolgamott played with Rock Island last year and is said to be a fast man. It is the intention of Blume to use this bird behind the bat when Tupper is not on duty and also in the garden.

Mike McGuff, a first baseman of Springfield, Ill., has been recommended to the Irish orator. The youngster is said to be a sparkling fielder and a handy willow winder.

TWO SURPRISES IN POCKET BILLIARDS

Chicago, March 10.—Joe Concanon of Jersey City, showing a reversal of form from that displayed in recent games, triumphed easily over Jesse L. Chapman of Chicago in the pocket billiard tournament yesterday, 100 to 28. Both players started poorly, but a high run of 18 gave the Jersey man an opening, and he ran out in twenty-four innings.

John Layton of Sedalia, Mo., whose illness handicapped him in a match with Maturato Tuesday night, surprised the spectators by beating Ralph Greenleaf, the Monmouth youth, 100 to 68. Greenleaf's 17 was the high run of the

Life Is Not All Beer and Skittles

SO said Warton, a poet of the 18th Century by which he intended to convey that good food and drink together with good amusements was the acme of contentment.

But the very fact that life is not all "beer and skittles (ten pins)" should give us the incentive to do as much as we can to reach that goal of contentment.

Skittles may stand for any form of amusement, recreation or sociability.

Beer in a general sense is beer. In a particular sense for particular people it should mean best beer, purest beer, beer of the greatest food values, beer of the most pleasing flavor. A case in point is

BUILDING CODE IS BEING FRAMED

Leading Sections Outlined and Accepted By Sub-Committee.

Leading sections of the proposed combined building, plumbing and electrical code already have been selected. These provide for the title of the code, the organization of the building inspector's office, the administration of the department, granting of permits, building fees and the method of appealing from the decision of the inspector, and were suggested by Adolph Anderson, deputy building inspector, who made a special study of the Chicago and Detroit codes for the committee. The sections were approved by Sub-Committee No. 1 and

will be recommended at the first meeting of the general committee, which will be held by its chairman, W. H. Hoyt, as soon as the remaining provisions are drafted and approved by the sub-committees, according to Edward Semple, secretary of the committee.

After the various provisions of the code are completed, the general committee will meet and draw up a complete draft of the proposed measure, to be submitted to the city council for action.

The leading sections provide for the bonding of the building inspector in the sum of \$5,000 and the deputies \$1,000 each. Another new feature included is that property owners must obtain certificates of ownership from the city assessor before the inspector can grant permits. This will be done to avoid mistakes, as many owners gave wrong descriptions of their lots.

The members of Sub-Committee No. 1 follow: Whitney Wall, chairman; H. G. Anderson, vice chairman; W. H. Gotschell, W. E. McEwen, H. M. Phelps, Alex. Anderson, William Burgess and George M. Jensen.

GEN. VILLA ASKED ZAPATA TO JOIN HIM

Proposed an Attack on the United States in Letter.

Columbus, N. M., March 10.—An invitation to Gen. Emiliano Zapata to march north and join in an attack on the United States was sent by Francisco Villa in January, according to a copy of letter found among Villa's captured papers. The letters were dated Jan. 6, Zapata, so far as known, made no reply to the letter. Villa wrote in the letter, "But will prepare and organize to attack the Americans on their own soil and let them know that Mexico is a land of the free and the tomb of traitors and cowards."

Villa proposed that the joint movement with Zapata against the United States should occur six months from Jan. 6, Zapata, so far as known, made no move to accept and this may have been responsible for Villa's decision to march on Columbus alone.

Villa in the letter attributed his defeat at Agua Prieta last November to the action of the United States government in permitting Carranza military authorities to send over American territory reinforcements for the Mexican town opposite Douglas, Ariz., and declared that set an invasion of the

sovereignty of Mexico and an insult to the people.

"At that time," Villa told Zapata, "I restrained but with the greatest difficulty the impulse of my troops to attack the city of Douglas."

Carranza, he also stated in the letter, had sold Mexico to the United States. Carranza, he also stated in the letter, had sold Mexico to the United States. Carranza, he also stated in the letter, had sold Mexico to the United States.

U. S. TROOPS WAIT FOR WORD TO CROSS BORDER

NORWEGIAN SHIP SUNK WITHOUT ANY WARNING; AMERICANS ARE SAVED

Submarine Attack on Silius Is Considered Serious Affair.

Contrary to Assurances Given U. S. By Central Powers.

Four American Sailors on Board Reported Saved.

Washington, March 11.—Consul Osborne at Havre reported today that when the Norwegian bark Silius from New York to Havre was torpedoed without warning in Havre Road on the night of March 2, seven Americans aboard were rescued.

The loss of the Silius was first reported last night from London. Three members of the crew were reported lost.

State department officials seemed inclined to view the attack on the Silius as a serious affair. The department will take immediate steps to get positive information.

If the Silius was torpedoed such an attack was contrary to the assurances the United States has secured from the Central powers.

One American Hurt.
Paris, March 11.—Seven of the crew of the Norwegian bark Silius, which was torpedoed and sunk yesterday, were Americans. The Silius left New York Feb. 4 for Havre.

The Petit Parisien says that one of the Americans was injured and was taken to the Pasteur hospital. He is John Hartman, 18 years old.

The Silius was a 1,600-ton, three-masted, formerly the British bark Helly.

It is reported that Capt. Syvertsen of the Silius was drowned. The rest of the crew was saved.

Four Americans Aboard.
New York, March 11.—There were only four Americans aboard the Norwegian bark Silius which was torpedoed without warning near Havre, according to agents of the line here and they were members of the crew. She carried no passengers.

The Americans were David Sherman of Bedford, Mass.; John Warman of Philadelphia; Daniel Stora of Connecticut; and Henry Monahan of Boston.

The bark, which was commanded by Capt. A. B. Syvertsen, sailed from New York, Feb. 4, for Havre, with a cargo of 2,200 tons of barley shipped from San Francisco.

The local agents said the Silius' crew numbered seventeen men.

AIRMEN DROP BOMBS ON RUSS WARSHIPS

Germans Claim to Have Inflicted Damage in the Black Sea.

London, March 11.—An official German communication, according to a Central News dispatch from Amsterdam, says that on Thursday morning German seaplanes dropped bombs on a Russian squadron of one battleship and five destroyers and on several Russian merchant ships in the Black sea near Kull Akra cape, on the coast of Bulgaria, about twenty-five miles north-east of Varna. It was observed that some of the destroyers were hit. German seaplanes, the communication adds, returned safely.

FRENCH DIE BRAVELY TO GAIN TIME FOR RESERVES TO ARRIVE

Heroic Episodes During Fierce Struggle in Defense of Haumont.

Paris, March 11.—The story of the defense of Haumont, one of the heroic episodes of the struggle around the fortress of Verdun, as told to the Associated Press by a participant, reveals how French soldiers died on the spot under the concentrated fire of heavy artillery and the shock of the masses of infantry, in order to gain time for the reserves to come up.

"The Germans concentrated their fire on Haumont at the outset," said the eye witnesses. "They must have suspected that it would be the center of our resistance. They undertook by systematic destruction to prepare for the capture of the place without too

TO BE CHARGED WITH MURDER

Mexican Prisoners to Be Held Responsible for Killing Americans.

Seven Wounded Villa Men in Hands of U. S. Authorities.

Columbus, N. M., March 11.—Seven wounded Villa soldiers captured by Col. H. J. Stocum's troops of the Thirtieth United States cavalry in Thursday's battle here will be charged with murder for the killing of the seven American soldiers slain in the fight, according to an announcement today by E. B. Stone, special agent of the department of justice. The prisoners include a boy 12 years old and two officers.

Stone added it was probable that similar charges of murder would be filed against the prisoners in the state courts of New Mexico in connection with the killing of nine civilians by the bandits.

Pablo Sanchez, arrested while signaling Mexicans across the border and held as a spy, will be charged with aiding an enemy while on the soil of the United States. The men against whom the murder charges are to be filed are Garcia, a captain, who has fought in Villa's army for three years; Lieut. Yzabel Chavez, with two years' service under the insurgent chief; Lemo

GERMANS START A NEW DRIVE NEAR REIMS, CAPTURING 1400 YARDS OF FRENCH TRENCHES

ASSAULTS ON FORT AT VAUX ARE RENEWED

Make Progress Along the Slopes, According to French Report.

Not Yet Reached Barbed Wire Entanglements at Front.

Paris Thinks General Battle Is Lessening in Intensity.

Berlin, March 11, via London, 3:35 p. m.—Capture of French positions 1,400 yards wide and about two-thirds of a mile deep, south of Ville Aux-Bois, near Reims, was announced today by the war office.

Fighting Violent.
Paris, March 11, 2:30 p. m.—There is still violent fighting for the possession of the fort at Vaux, according to announcement of the French war office this afternoon.

The Germans have made progress along the slopes leading to this position, but they have not yet reached the barbed wire entanglements in front of the fort.

The Germans hold some houses in the eastern part of the village of Vaux, while the French are still in possession of the western part of the town.

Battle Dwindling.
Paris, March 11.—The battle of Verdun is fast dwindling in intensity. The Germans have in no way impaired the main defenses of the fortress, notwithstanding the violence of their onslaughts. Whether they will make another big effort after a lull or whether the battle will end, as did the other great offensives on the western front, (Continued on page 5, first column.)

CARRANZA ASKS FOR PERMISSION TO SEND TROOPS OVER BORDER

Would Have Them Enter the U. S. in Pursuit of Bandits.

Reply to Request to Allow Americans to Enter Mexico.

Cites Instances Where Forces of Both Countries Have Crossed.

Washington, March 11.—Gen. Carranza, through Consul Silliman, has asked the American government for permission to send Mexican troops across the border and into the United States in pursuit of bandits.

Consul Silliman transmitted the following communication, dated at Guadalajara, March 10, which was handed to him by Jesus Acuna, Carranza's minister for foreign affairs. It is a reply to the American government's representations for permission to pursue the Villa bandits with American forces.

"In due reply to your courteous note, dated yesterday and transmitted today, through John W. Blair, (Silliman's secretary), I have the honor to inform you that having brought the above note to the attention of the first chief of the Constitutional Army and depository of the executive power of Mexico, he has directed me to say to you, to the end that you may, in turn, transmit it to the department of state of the American government, that he learned with regret of the lamentable incident which occurred in the town of Columbus, N. Mex., on account of the assault it suffered yesterday from the bandits led by Francisco Villa.

Ordered to Pursue Bandits.
"That although there has been a competent number of forces in the state of Chihuahua to re-establish order and afford protection to nationals and foreigners ever since Francisco Villa appeared on the scene, (Continued on page 5, second column.)

IS CONVICTED IN ONTONAGON COUNTY

Ontonagon, Mich., March 11.—Ralph Albert Thompson, aged 30, Eastern college man, was found guilty by a jury here of murder in the first degree for killing Henry Picotte, wife 20, of Walsh, Marinette county, Wis.

GEN. FUNSTON BUSY PLACING HIS FORCES AT STRATEGIC POINTS

Proposal of Carranza to Send His Troops Into the United States to Pursue Bandits Considered Favorable.

Gen. Villa Is Reported to Be Moving Fast to the Southeast With Not More Than 300 Men in Command.

Washington, March 11.—While American troops are preparing to move across the Mexican border to exterminate the Villa bandits, Gen. Carranza, in an official communication delivered through Consul Silliman has asked the United States for permission to send his troops into American territory if necessary in pursuit of outlaws.

Administration officials regard Gen. Carranza's proposal as favorable.

It is realized that such an agreement would go far to satisfy Gen. Carranza and permit him to comply with popular sentiment in Mexico.

Secretary Baker today referred to the American expedition as a "daring" one. This was regarded as a significant indication of the administration's policy to make it clear that it is proceeding with scrupulous regard for the sovereignty of Mexico and entirely in aid of the constituted authority.

Villa Moving Southeast.
Villa was today reported moving southeast with not more than 300 men. Last night's report gave his force as 3,000 but that is believed to include sympathizers in his territory.

According to Gen. Carranza, it was thought a threatened attack on the American Mormon colony at Casas Grandes had passed for the present.

The ambassadors from Chile and Brazil who took part in the Pan-American concert which resulted into the recognition of Gen. Carranza, called on Secretary Lansing today to inquire about the action of the United States. They were informed fully and made no comment. There was no indication of a disposition to do more than gather information.

Perishing to Command.
No definite announcement was made at the war department today, but it was generally understood that Brig. Gen. John J. Pershing will command the principal column toward American territory in the pursuit of Villa. Maj. Gen. Funston retaining command of the general operations, which is expected will involve the use of three or more columns.

Secretary Baker said that the war department had been deluged with telegrams from individuals and organizations offering services as volunteers. There was at present, he said, no need for summoning volunteers to the colors, although the department appreciated fully the patriotic spirit behind the offers.

Funston Has Full Authority.
Washington, March 11.—Instructions conveying full authority to Gen. Funston to dispatch a defensive expedition into Mexico to pursue Villa and his bandits are today in Gen. Funston's hands. Secretary Baker announced that full discretion as to the number of men to be used and the route to be followed has been left with Gen. Funston.

Secretary Baker specifically referred to the expedition as "defensive" today (Continued on page 5, third column.)

APPROVES COURSE OF THE PRESIDENT
Senate Committee Decides There Is Nothing for Congress to Do.

Washington, March 11.—The senate foreign relations committee today unanimously endorsed the action of the president in sending American troops into Mexico to capture Villa and his marauders.

It was decided informally, after full discussion of the circumstances and an explanation of the administration's course given by Chairman Stone, that there was nothing for congress to do at this time.

RAID FOREMAN'S HOME
Columbus, N. M., March 11.—Eighteen mounted Mexicans are reported to have raided the home of H. A. Blenkenship, the section foreman at Mapias, eighteen miles east of Columbus. The family, including two small children, escaped through the rear door and crawled to cover in the darkness, where they lay in the brush most of the cold night.

Train No. 8, arriving about daylight, was flagged and the family taken to El Paso.

The squad is said to have passed south into Mexico.

Mrs. J. J. Moore, wounded during the raid on Columbus, Thursday, was reported as being in a more critical condition today. Her wounds are not thought fatal.

SUMMARY OF THE WAR NEWS

The second great effort in the Verdun drive apparently is nearing its close. The latest German attacks have been directed at comparatively unimportant points on the front and west of the Meuse. Whether the present interval marks merely a lull before another onslaught or the return to ordinary conditions of trench warfare is an open question, but military opinion in France is that the great battle is at an end.

In Paris it is believed the diminishing intensity of the German attacks is influenced by the heavy losses the assailants are said to have sustained, but a Berlin dispatch reports that it is believed the German losses have been limited to relatively a few thousand.

The German admiralty announces that on Thursday German seaplanes bombarded a squadron of one Russian battleship and five destroyers, as well as several merchant ships, in the Black sea off the Bulgarian coast. It is said destroyers were struck.

The Portuguese cabinet has resigned to give place to a national defense cabinet, which has been empowered by parliament to take all measures necessitated by Germany's declaration of war. The Portuguese foreign minister revealed the fact that it was at the request of Great Britain that Portugal entered the war, which was the immediate cause of Germany's declaration of war.

OUR repeated statement that Goodyear users far outnumber the users of any other single brand is confirmed by the overwhelming Goodyear preference revealed in the tire census of seventy-one leading cities.

These figures show more than twenty-one per cent of the tires used in these cities to be Goodyear; and they may be accepted as indicative of the Goodyear standing in the country at large.

The basis for this emphatic public preference cannot be price; for dozens of tires sell for less than Goodyear.

It is found in Goodyear quality and in Goodyear features of construction, which make Goodyear Tires last longer, go farther and so cost less in the end.

ASKS DAMAGES FOR FALL.

City and Gidding Company Defendants in Suit By David Walker.

The city of Duluth is defendant in a damage suit brought to trial yesterday afternoon in Judge Dancer's division of the district court by David Walker, who asks \$615 for injuries alleged to have been sustained when he

tell through a trap door in the sidewalk at Michigan street and First avenue west on Oct. 29 last. The J. M. Gidding company is also named as a co-defendant.
Walker charges negligence, claiming that the hole was unguarded. The plaintiff is represented by Finlayson & Watt. City Attorney J. E. Samuels is appearing for the city and Abbott, McPherson, Lewis & Gilbert for the Gidding company. Trial of the case will be resumed Monday.

MAXIMUMS NOT RAISED

Limits to Teachers' Salaries
Left Unchanged By
the Board.

Increases Amounting to
\$11,625 Granted; List of
Teachers Engaged.

School teachers for the 1916-1917 school year were selected last evening by the board of education. In addition, a total increase of \$11,625 in salaries was authorized for those who have not reached the maximum set by the board three years ago. No maximums were raised, as was requested recently in a petition presented by the Duluth Teachers' association. The employment of twenty-nine new teachers for the year was also authorized by the board.

Mrs. T. J. Davis, in reading the recommendations of the board, announced that the total salary increases are classified in the following manner: Central high school teachers, \$1,300; Denfeld high, \$950; special, \$750; ungraded, \$600; eighth grade school principals, \$550; eighth grade teachers, \$725; seventh, \$775; sixth, \$725; fifth, \$725; fourth, \$700; second, \$700; and kindergarten, \$600. Last year the total salary increases amounted to approximately \$19,000.

The maximum salaries for the teachers follow: Seventh and eighth grades and junior high, \$950; first to sixth grades, inclusive, \$900; and kindergarten, \$850.

On motion of Edwin R. Cobb, the board voted to bar the publication of salaries authorized for the 1916 teachers next year.

The following teachers were appointed for the 1916-1917 school year:

Central High School—Leonard Young, principal; Marjorie Armstrong, Mary Bain, Frank Bartlett, W. Benson, T. W. Blair, C. S. Blake, W. D. Burkes, Gertrude Burt, Frank Curry, Gertrude Carey, Curtis Carman, Jessie Case, Wilhelmina Case, Carrie Castle, Mary Closson, Morris Conlin, E. M. PRISONERS MAY BE TRANSFERRED

The cases of sixteen prisoners now held in Duluth at the county jail, having pleaded guilty to a charge of in-

roducing liquor into Indian territory, will probably be transferred to the Federal court at Minneapolis, which will convene there April 4. The requests were sent by Deputy United States Marshal Mallory to Judge Booth, who will decide the matter. The prisoners are eager to be sentenced as their stay in jail previous to being sentenced does not count as a part of their imprisonment.

There are also a number of prisoners here who have pleaded guilty, but in these cases there cannot be any transfer. They must await the convening of the Federal court here on July 11.

Yesterday afternoon Deputy Marshal Mallory brought Walter Ylen from Sawyer to Duluth on a charge of introducing liquor on an Indian reservation. He was arraigned before United States Commissioner James Wharton, and pleading guilty, was placed under \$250 bonds. Being unable to produce his bond, he was placed in the county jail to await action of the Federal court.

GREEK DANCES TO FEATURE BAZAR

Greek dances will be a feature of the Red Cross and War Relief bazar, which will be given at the Duluth Auditorium from March 23 to March 25, under the auspices of the German-Austro-Hungarian Relief association.

Miss Edna Morter will appear in Grecian costume and she will be seen in several classic dancing acts. Twenty-four girls will appear in national costumes in a German scarf drill, under the direction of M. E. Althausen.

Master Oscar Kahan, son of Mr. and Mrs. Fred Kahan, will appear in George Washington costume, while his sister will be dressed as Martha Washington.

The boy will play a violin solo. He will be accompanied by Miss Sophie Appel. Miss Cecelia Pennell, who is now playing with the Duluth orchestra, will sing a vocal solo, accompanied by Franz von Loew. Miss Doris Pennell will give a reading, entitled "The Fiddle Told," accompanied by a violin.

Among the vocal soloists are Mrs. Donna Ribbetta Flaaten, Mrs. Homer Anderson and Louis Dworshak.

The Germania Singing society and the Orpheus society will be heard in several songs. Different orchestras will play every evening, and Kallinsk's Zither quartet will render some of the old German and Austrian folk melodies. The Normal School Glee club is on the program and the High School quartet.

The Children's Mass chorus under the direction of Rev. P. T. Bratzel will be heard on the opening day and on the closing day.

MARINE SERVICE ATTRACTIVE NOW

Trouble along the Mexican border has aroused interest in the marine service, and two applicants were received and accepted by Frank J. Duck, recruiting officer, at the Cliff hotel. The two men were sent to Minneapolis last night.

Yesterday Rudolph Dahlin, Superior, an ex-marine, rushed into the recruiting office, asking to be accepted in the service in China and the Philippines. The other recruit yesterday was Ray Baker, from Creek Center, Ill.

Lieut. F. J. Wille, head of this division of the naval recruiting service, will be in Duluth March 14 and 15 to inspect the Duluth office and to re-examine a number of applicants who have been held for another examination. Surgeon Idem will accompany Lieut. Wille.

RECORD AUDIENCE ATTENDS 'Y' BOYS' MINSTREL SHOW AT ORPHEUM

The Y. M. C. A. boys' department minstrel show, held at the Orpheum-Strand theater last evening, scored one of the biggest hits of any amateur performance ever given in the city. Ten minutes before the curtain went up every available seat in the house was taken, from the orchestra to the highest gallery.

The show opened promptly at 8:10 with a parallel bar exhibit by the Y. M. C. A. leaders' corps. This was followed by a violin duet by Erling Skold and Herbert Miska. The sketch entitled "An Extra Guest," by Stanley Lamb and Laurence Doby, was a scream from start to finish. A stick drill by Albert Olson and Clyde Bosley was something new and made a big hit.

While the scene for the minstrel was being set, pictures of Camp Miller were shown, also a picture of the new boys' department building. When this picture appeared on the screen there was deafening applause. When the curtain went up for the minstrel there was another outburst of applause and from then until the curtain went down every face was wreathed in smiles.

Interlocutor N. D. McLeod introduced the end music and each responded with a poetic joke. Needless to say, the end men were the big attraction. Stanley Lamb acted as emcee, and Russell Duncan as Rufus, Irving Grover as Alexander and Laurence Doby as Sambo. Their jokes were "hot off the bat," and kept the crowd in a continual state of laughter. The minstrel was well trained, dressed in black coats trimmed with red, white trousers and with black faces and curly wigs and each wearing a white carnation. The opening song was by Harold Hein and he kept his audience with him and had to respond to an encore.

Willard Thorp followed with "Back Home in Tennessee." His song was featured by his playing his own accompaniment on the guitar. J. R. Batchelor scored a big hit with his song "You're Like a Beautiful Song." Irving Grover, end man, sang "Take Me to That Midnight Cake Walk Ball." He had to respond to an encore and sang "I Didn't Raise My Dog to Be a Sausage." Lorimer Zinder, in a deep bass voice sang "Away Down in Arkansas." Laurence Doby, who appeared in the first minstrel show, given ten years ago, was back again and his appearance was the sign for extended applause. His song, "They Call Me Shine," brought him back again and again. Frank Bartholomew sang in a good voice, "George McGonagall in 'A Little Bit of Heaven' and George Ward in "America, I Love You" were two of the best songs of the evening. Russell Duncan, end man, made a decided hit in his song "What Did You Tell Me?" For an encore he sang "I Don't Want to Go to War." The minstrel was a success. The closing chorus was featured by a solo by Morris Bywater, a 12-year-old member of the club. He possesses a remarkable voice. He was followed by a duet by Harry and Sam Segoli. Their number proved to be one of the hits of the evening. "Old Deacon Jones," sung by the entire company, closed the most successful show that the boys' department has ever given. Edward Evans carried off the honors for selling the most tickets. He sold 340 and turned in \$103. Manager Reed made the Y. M. C. A. in Duluth as a boy salesman. He will go to Camp Miller for three weeks in recognition of his work.

ST. CLAIR IS PRESIDENT

Mining Man Will Head New Terminal Railway Company.

George A. St. Clair, president of the Section 30 Mining company, is president of the Western Terminal railway company, which is endeavoring to secure a belt line franchise from the city.

This announcement was made at a conference of city commissioners and officials of the company held in Mayor Prince's office yesterday afternoon, when the council members insisted on knowing who is behind the corporation. E. C. Luedel, promoter of the terminal line, and E. W. MacPherson, attorney for the company, were present at the conference, which was

called to consider the new franchise draft prepared in accordance with the city charter provisions. Mr. Luedel declared that the other officers are "dummies" at present, but that complete information will be given out in due time. "We certainly expect to make public these names before we ask the council to pass the ordinance," said Mr. MacPherson. "Before we do this, however, we should like to know that you are satisfied with the ordinance, and willing to pass it if the men behind the project come up to your standards of ability and financial standing. To disclose the names now would do no particular good, and might cause the company embarrassment."

Another conference will be held early next week, Mayor Prince announced this morning. No action will be taken by the council for several weeks, nor will the measure be considered until it is certain that the city is fully protected, he said.

ESTABROOK means new leadership, able, aggressive, progressive—the kind of leadership the Republican party must have if it is to win at the polls next November.

Mr. Estabrook, who came into Minnesota early yesterday morning practically as an "unknown," created a favorable impression. At times his words provoked applause which almost approached a riot. —Minneapolis Tribune.

The mystery of Henry D. Estabrook grows. He came yesterday out of the East an unknown, and electrified 400 Minneapolis men last night with his wit, poetry and philosophy, welded into eloquence by some of the old time oratorical fire. —Minneapolis Journal.

Mr. Estabrook impresses the casual interviewer most forcibly, certainly is different from the usual run of men in politics. —Duluth Herald.

His biography cannot be written by enumerating the offices he has held. He has for many years been a student of legal, political, economic and industrial questions. He has a rare, comprehensive grasp of national and international questions. He is a distinguished lawyer and, above all, a distinguished and patriotic American private citizen. —J. L. Washburn, of Duluth.

From the time he opened the Republican national campaign in Chicago in 1896, Estabrook has been known as one of the most

effective campaigners among the big men of the Republican party. He is eloquent, courageous, forceful, and a man of engaging personality. —The Railroad Employee.

"Mr. Estabrook is able, aggressive, sound in his Republicanism, and free of factional entanglements. To me, as a Republican, there is genuine inspiration and hope in Mr. Estabrook's candidacy." —Ralph H. Cameron, Republican National Committeeman for Arizona.

"That address constitutes a distinct memory to all who heard it, and all agree with the Chicago Tribune which has stated editorially that Estabrook is the greatest living orator of America." —Des Moines News.

"Wendell Phillips at his best could not surpass this man." —Boston Post.

TESTED UNDER MICROSCOPE

Chemicals, acids, alkalis and the like—and microscopes of delicate adjustments may play a silent but important part in a lawsuit which is being heard today before Judge Cant in district court.

There are suggestions of tampering with a timber deed which has been introduced in evidence, and in Judge Cant's chambers this afternoon expert chemists are conducting a test which will prove or disprove the claim.

William MacKay came into court this morning claiming a test which was made against J. W. Burgeson and the Sturgeon Timber company restraining the defendants from removing timber from his land in sections 22 and 27, 56-22.

The defendants claim that they are lawfully on the land engaged in removing the timber, and produce a timber deed given more than three years ago by Mr. MacKay. Mr. MacKay admits giving the deed, but claims that the deed was tampered with, that the word "three" has been erased or removed with chemicals, and the word "five" substituted in its place.

The paper is being submitted to a scientific examination, and the case apparently hinges on the outcome of the tests.

INJURED MEN ARE MUCH IMPROVED

Hans Thompson, 56, workman at the Clarkson Coal & Dock company's Garfield avenue plant, who was injured Thursday afternoon when a crank struck him, fracturing his skull, was reported as slightly improved today. Attendants at St. Mary's hospital say the injured man has a chance for recovery. Thompson is married and has a family living at 2129 West Tenth street.

Andrew Skog, 53, employed at the Scott-Greif Lumber company's mill at Twenty-fourth avenue west and Michigan street, slipped on some ice about 2 o'clock this morning and injured himself. He was taken to St. Mary's hospital in the police emergency. Skog

is married and lives at 2911 West Third street. His injuries are not serious, it is said.

George Holt, 602 Garfield avenue and Fred Boutin, 219 Fifth avenue west, employees of the Barnett & Record Contracting company, who were injured Thursday afternoon at the Consolidated Elevator company's plant, also were reported as better.

Holt sustained a broken collar bone and was cut and bruised about the head and arms, it was said. Boutin was badly bruised.

JUST QUIET LITTLE GAME.

But Police Heard Money Click and "Butted in."

"Was nothing more than a harmless little poker game, with five 'sitting in' and two others looking on, but Detectives Toewe and Bradley, with Patrolman Oscar Olson, heard the money click as they passed the room and investigated.

Robert Wrightman, 53, forfeited \$25 bail when he failed to appear in municipal court today to answer to a charge of keeping a gambling device. Frank Wallace, 27, Victor Aho, 42;

George Lawrence, 37, and Gerhart Laine, 35, forfeited \$10 bail each.

John Maki, 29, and Charles Rissa, 28, who were outworkers, were booked as vagrants. Maki drew a thirty-day work farm sentence, while Rissa pleaded not guilty and was held for a trial Monday.

BEATEN AND ROBBED.

Sebaka Man Returns Home With Faith in Friends Shattered.

Frank E. Mursu of Sebeka, Minn., is a pessimist. He believes the world is getting worse daily.

This is the reason: Last night Mursu, with two friends, started out to see the town. "I bought some drinks," he said, "and then we started down the street" (Lake avenue.)

When not far from the viaduct one of the friends said: "What time is it?" Mursu drew out his watch, and then the friends jumped upon him. They pounded him into submission, took his purse and knife, and fled into the darkness.

About the same time Patrolman Ricketts happened along and hearing

Mursu's cries for help, ran after the two fleeing men. He fired two shots into the air and Patrolman James Woods assisting him, finally rounded up the pair.

Hjalmar Anderson, 25, had Mursu's knife in his pocket. Frank Lindgren, 31, had \$5 in change and Mursu's pocketbook. Sixty dollars in addition to the \$5 was missing.

Donia Shakkelford, 23, negroes, living at 274 South First avenue east, is held as a suspect in connection with the case. Detectives Lahti, Roberg and Barber brought her to headquarters today while searching for Mursu's \$60.

Anderson and Lindgren waived examination on robbery charges and were bound over to the grand jury without bail by Judge F. H. Cutting.

Mursu, sadder but wiser, started back to Sebeka today.

Football Star to Reformatory.

Minneapolis, Minn., March 11.—Albert W. Smith, football star of Notre Dame university three years ago, pleaded guilty in district court yesterday to taking a diamond ring, valued at \$125, from Edith Hanson, 16 years, was sentenced to the reformatory. Smith declared that he was under the influence of liquor when he took the ring.

DEMOCRATS ENTHUSIASTIC

Gathering at St. Louis Hotel Develops Unusual Interest.

Plans Made for Getting Voters Out at Presidential Primaries.

The meeting of St. Louis county Democrats, held at the St. Louis hotel last evening, was rather astonishing even to the participants, in the matter of enthusiasm shown. It was called for the purpose of making arrangements to get a large vote at the presidential primaries next Tuesday, and it is not often that so dry an object develops anything more than a matter-of-fact attitude of willingness to work, at the best.

The meeting of last night, however, turned out to be one of the most enthusiastic gatherings that the members of the party have held in a long time. It started off with speeches by those who attended as representatives of the various voting precincts—and every precinct in Duluth and many from other parts of the county were represented—and the tone was of a warmer atmosphere than such meetings usually possess.

It all turned on the report that the so-called anti-lynch candidates for delegates to the Democratic national convention at St. Louis are likely to be found wanting in support of President Wilson for re-nomination. This has developed in the form of communications by adherents of that wing of the party, and more or less confirmed by other means.

Arrives Workers.
This report aroused the Democrats present last night, all of whom were strong Wilson men and supporters of the candidates for the delegation recommended by the state committee. Reference was made to the fact that more than ordinary interest in getting voters out on Tuesday night was being shown by the conference for they were instructed by the conference for President Wilson, and to stand by him first and last.

J. A. Farrell, city commissioner, and prominent Democrat, started the business, after Thomas Sexton had been elected secretary of the meeting, with County Chairman Harry Bennett in the chair, by offering a resolution endorsing the delegates recommended by the state conference. This endorsement was given by a standing vote.

A vote of confidence in the house, Fred E. Lynch, national committeeman, who, it was said last night, has had about the hardest time in the state over, in the absence of a congressional delegation.

Van Dyke Given Dig.
Incidentally, in connection with Mr. Lynch's endorsement, Congressman Van Dyke, the only Democratic member of the Minnesota congressional delegation, was given a dig by Mr. Van Dyke, who, in support of President Wilson, in the recent vote of confidence in the house, and one speaker last night said that while the Democrats of Minnesota are supposed to have one representative at Washington, recent events have made them doubtful.

Addresses were made by A. C. Wells, candidate for delegate-at-large; William Bernard, Charles McDonnell, E. McEwen, John Jensen, and others.

The representatives of the several voting precincts were given sample ballots and other material with which to work for a large vote and each pledged himself to do his utmost.

by return to normal conditions of trench warfare cannot be discerned at present. French military opinion is inclined to believe the latter will be the case.

On the west bank of the Meuse the Germans, facing an effective curtain of fire from the French, have been contented themselves with winning back at heavy cost portions of the Meuse valley, which were wrested from them on the preceding day.

Fighting to the east of the Meuse at present is hardly as active as it is west of the river. The ranks of the Germans were depleted by yesterday's heavy losses in the attacks between Douaumont and Haumont and on the village of Vaux, which were cut short by French fire before being developed.

of the village it was impossible to move either ahead or to the rear. We were cut off from all communication, the telephone and telegraph wires having been literally hacked to pieces by the shells. Our men, isolated and without the aid of the defense works on the two flanks, waited for the attack.

On ten big shells per minute at 1 o'clock the number went to 20 at 2 o'clock. Ruins piled on ruins, yet in the midst of the inferno our men preserved remarkable placidity.

"The village had seemed to sink in the earth while the concrete redoubt on which we had counted, crumbled and buried eighty men and several machine guns and destroyed our ammunition depot. Still no one budged. What we then held was nothing more than a raised village with the earth upheaved and transformed into a series of crevices, devoid of shelter. The only thing resting was the redoubt occupied by our colonel."

Advance in Three Columns.
"At 5 p. m. a German battalion advanced in three columns simultaneously: from the east, the north and the northwest."

"Those of our men surviving arose to meet the developing maneuver. The machine guns that were still intact were fired at maximum speed mowing down the enemy's ranks and obliging the German left to stop before our barbed wire."

"The center and right, however, came on and what was left of our force retreated to the new trenches southeast of Haumont, while machine guns decimated our assailants who had succeeded in ascending from the north."

"But they were too numerous. They got into the hollow of the village and took the post in the rear, setting fire to the redoubt by liquid flames projected through a cellar window. The machine guns that were still intact had grabbed rifles and were being aided by the survivors who were on the point of being captured, being burned alive."

"They came out of the redoubt with heads erect and marched through the burning fire of the machine guns. The colonel was untouched and the retreat was accomplished without further loss. With the machine guns left intact, we made another stand and barred the way to the Germans from the Haumont ravine to the south of Haumont and the fight went on."

TO BE CHARGED WITH MURDER
(Continued from page 1.)

Huiz, Juan Sanchez, Elias Mera and Antonio Morandaa, privates. The boy is Jesus Reyes, who with his father, Antonio Reyes, joined Villa three months ago in Chihuahua.

Prisoners Badly Treated.
The death of Jose P. Taylor, a wounded American soldier, yesterday at Fort Bliss, will be the basis for the eighth charge of murder against the prisoners, who are all so badly wounded that a United States commission probably will be summoned here from Denning or Albuquerque to arraign them as they lie in a hospital tent in the cavalry camp here.

Stone declared the cases against the prisoners had been rendered particularly strong by the fact that evidence had been found including papers taken from the prisoners' pockets, which was picked up on the battlefield, to show that while Villa was approaching to make the raid on Columbus, he addressed his troops, telling them to spare no effort to burn the town and to make "human torches of every man, woman and child."

Sanchez was picked up with fifteen other Mexicans yesterday by cavalry patrol. Fourteen were released, some being ordered across the border as suspects.

American soldiers made affidavits that he was signaling across the border. When he was searched, a pair of field glasses was found under his blue jumper. The removal of his eyeglasses revealed a gray military uniform.

appeared in the mountains of the above state, at the request of the governor of the state and of the constitutionalist army at El Paso, Tex., the first chief ordered the timely departure of 2,500 men commanded by Gen. Juan Cuatrecasas with instructions to actively pursue the bandits who had just crossed the line into American territory, which they undoubtedly did, compelled by the tenacious pursuit of the above mentioned forces.

Similar Indian Raids.
The above lamentable incident is similar to the incursions which were made in the states of Sonora and Chihuahua by Indians from the north of the government of the United States. Incursions into the state of Sonora occurred more or less about the year 1880 when Geronimo, the Indian chief, who did not many years ago have a numerous band of followers, invaded a part of the north of the state of Sonora, committing many murders and depredations of life and property of Mexican families, until after a long and tenacious chase by American and Mexican forces, the band of malefactors was annihilated and its chief was captured.

The incursions into Chihuahua, led by the Indian chief, Victoria, comprising about 800 Indians, took place between the years 1884 and 1886. Then the bands of marauders, committing also many crimes, went into the country as far as the villages of Teolochic and Tres Castillos, very near the capital of Chihuahua, and during the first formal encounter between them and Mexican forces, after having lost their chief, they were dispersed.

Both Countries Freely Crossed.
"In these two occasions through an agreement between the governments of the United States and Mexico it was decided that the armies might freely cross from the territory of one to the other in pursuit of the purpose of marauders. Recalling these precedents and the good results of both countries on account of the above agreement, the government presided over by the first chief, anxious to exterminate within the least possible time the forces led by Francisco Villa, who has been recently placed beyond the law, and to capture him to apply condign punishment, applies to you confidential agent, and addresses the government of the United States, requesting the necessary permission for the Mexican forces to cross into American territory if the incursion which took place in Columbus should unfortunately be repeated in any other point of the boundary line. The Mexican government would greatly appreciate a prompt and favorable reply from the government of the United States."

"Please accept, Mr. Confidential Agent, the assurances of my high consideration."

"JESUS ACUNA, Secretary in charge of the department of foreign affairs."

patched a messenger immediately on news of the Columbus massacre, and special trains were expected to start immediately with the refugees. Bishop Hurst, head of the local church, received urgent messages from the Salt Lake headquarters of the Mormon sect, asking that he take a possible action against his co-religionists being caught in a trap in Casas Grandes.

The bishop conferred with the Mexican railway officials regarding military protection. Since troops had already started from Chihuahua city, it was decided that they would be first on hand, and the protection of the refugees was entrusted to their care. The question now is whether the refugees can be gathered in time.

From the reports from Gen. Bertani, Villa and his men early in the day were dashing through the mountains into which they had been chased by American cavalry following the Columbus raid. Scouts reported that Villa was evidently relying on relays of horses, of which he is said to have great numbers, in order to head off the Mormons. He was reported traveling westward in the direction of the Casas Grandes river.

U. S. TROOPS WAIT FOR WORD TO CROSS BORDER
(Continued from page 1.)

with the administration's policy of regarding its action as one to repel invasion. Maj. Gen. Frederick Funston has ordered from President Wilson today to send an armed force into Mexico to take Francisco Villa and his army dead or alive and the Washington government expects him to execute them.

Funston, however, is carrying out the president's instruction are to be left to Gen. Funston, who was expected to have American troops moving into Mexico before nightfall.

The strictest secrecy was being observed by war department officials today regarding the army's plans for the capture of Villa. President Wilson is today aboard the naval yacht Mayflower on a week-end cruise down the Potomac. Unless some unusual development occurs the president will not return until Monday.

No Troops Cross Border.
No American troops had crossed the border this morning as far as the war department was advised. Many dispatches were received from Gen. Funston, however, informing the department as to the disposition he was making of his forces at strategic points.

Secretary Baker said that whatever reinforcements Gen. Funston might require to maintain an adequate patrol along the border in addition to the expeditionary force would be promptly furnished.

Gen. Funston confirmed today officially the killing of Pablo Lopez, Villa's chief lieutenant during the raid on Columbus and also the report that Lopez commanded the bandits who murdered nearly a score of Americans at Santa Ysabel. Gen. Funston also confirmed the report that 400 Garza troops had reached Palomas, six miles south of Columbus, to join in the pursuit of Villa.

A total of fifty-seven dead Mexicans have been found in and about Columbus, Gen. Funston reported. A report that eighteen more bodies are lying in the brush between the town and the border is being investigated. Gen. Funston said the effectiveness of the fire of the American troops during the engagement was splendid.

Secretary Baker suggested to Gen. Funston that the army aero squadron now at San Antonio be employed fully in connection with the pursuit of the Villa bandits. He was eager, Mr. Baker said, not only that the troops should have the benefit of the air scouts, but also that the aviators themselves should get the benefit of the experience in actual warfare.

Brigadier to Command.
San Antonio, Tex., March 11.—Maj. Gen. Frederick Funston announced here today that the direction of military affairs along the Mexican border, the expedition into Mexico to capture Francisco Villa will be in charge of a brigadier general. Gen. Funston said the name of the commanding officer would be given out at Washington.

The full aero squadron, stationed here, will be dispatched with the expedition. Organization of the expedition will not be completed for two or three days, Gen. Funston said, as troops from other army divisions than the Southern will be added to the border forces, going direct to the border. The general maintained silence today as to the size of the expedition and the points or points at which it will enter Mexico.

Slocum Congratulated.
Columbus, N. M., March 11.—Telegrams from army officials and prominent civilians throughout the country poured in today upon Col. Horace J. Slocum, commanding the thirteen cavalry, commending his exploit in the pursuit of the Villa bandits out of Columbus Thursday. Some of the telegrams referred to the battle as an incident that cut the "german knot" of the Mexican problem.

Tenth Reached Douglas.
Douglas, Ariz., March 11.—The Tenth U. S. Cavalry, Col. W. C. Brown commanding, arrived here today from Ft. Huachuca, Ariz., after a two days' march.

SNOWFALL HEAVY; COOLER SUNDAY
Up to 10 o'clock this morning about two inches of snow had fallen since the present session of precipitation started in during the night.

Weather Forecaster Richardson predicts that about two inches more will fall before the letup comes. He says that Mr. March is evidently emptying his pockets to get rid of the cold before the end of the month hence all the snow.

Tomorrow will be fair and mild, but, compared with the temperature of today, will be cooler. At that it will be only around 15 to 20 degrees, with which, with fair weather and mild northwest winds, should prove rather pleasant.

TO TOW OIL BARGE NEW YORK TO CHINA
New York, March 11.—What is said to be the longest tow voyage, New York harbor to Shanghai, China, in the history of the American oil shipping industry, was begun today when the steamship Richmond of the Standard Oil company sailed with Tank Barge No. 55 at her line end. The two vessels carry an oil cargo valued at \$3,000,000.

The Richmond and her barge were engaged in moving traffic on the Pacific coast at the outbreak of the European war and made the first tow voyage of its kind over the Panama canal, and have since been in service between New York and London. The present voyage will be by way of the Strait of Magellan.

UNABLE TO SETTLE SALARY SCANDAL
Chicago, March 11.—After more than a week's deliberation, the board of the city civil service commission in the city hall split-salary scandal, which will be made public tomorrow or Monday, it is said, will allow the entire matter to revert to its original standing.

The board, which is said to have been unable to decide whether the charges of Mrs. Page Waller Eaton have more weight or are more worthy of consideration than the denials of

northeast winds, should prove rather pleasant.

SEIZED SHIPS AT THE REQUEST OF BRITAIN
Lisbon, March 11, via Paris.—The Portuguese cabinet has resigned to give place to a national defense government which is now being formed.

In parliament yesterday, Dr. Augusto Soares, foreign minister of the retiring cabinet, read the notes exchanged between Germany and Portugal and also a note from Great Britain requesting the Portuguese government, in view of the alliance between these nations, to seize German ships in Portuguese ports.

Tranquillity prevails throughout the country. Parliament adopted a resolution giving the government power to take all measures necessitated by the state of war existing with Germany. Leaders of all the opposition groups offered to support the government. At the suggestion of the president of the

chamber, cheers were given for the Entente allies.

Portugal's seizure of German merchantmen was the immediate cause of Germany's declaration of war against the republic. It has not been known hitherto that Portugal took this action at the request of Great Britain.

BENSON CANDIDATE OF SOCIALIST PARTY
Chicago, March 11.—Allan L. Benson of Yonkers, N. Y., has been chosen as the candidate for president of the Socialist party by a referendum vote of the members of the party. George R. Kirkpatrick of New York was nominated for vice president.

Victor Berger of Milwaukee and Morris Hillquist of New York were chosen members of the executive committee.

Walter Lanserick of Chicago, present secretary of the committee, failed of election. The two unsuccessful candidates for members of the executive committee receiving the highest vote were: Carl D. Thompson, Chicago, 11,784; and Adolph Gerner, Mt. Olive, Ill., 10,882. Lanserick received 5,269 votes.

Many of the most prominent people in Duluth have ordered Reos.

HILL CITY CAUCUS.
Hill City, Minn., March 11.—The caucus nominated the following candidates: President, Thomas Warren; clerk, Ralph Hall; treasurer, R. L. Abrahamson; justice of the peace, C. F. Marri; constables, Fred Arnold and Walter Willet. The village council will receive bids for the \$10,000 bond issue March 21. The bonds will bear interest at 6 per cent. The bonds are issued for the purpose of refunding the floating indebtedness.

All black-tread Tires are NOT made of "BAREFOOT" Rubber

THIS message is written in the Spirit of Prophecy. A few months ago there were no black-tread Tires on the Market except Silvertown Cord Tires, which we alone manufacture, under exclusive patents.

On January 1st there were no black-tread Tires on the market EXCEPT these same Silvertown Cord Tires, (which we are not yet equipped to produce in half the quantity the market calls for) and,—Goodrich FABRIC Tires,—made from the self-same "Barefoot Rubber" as we have been putting into the Treads of Goodrich Silvertowns.

But,—Soon there will be not only a horde of "Near-Cord," Thread-Fabric "Cord," and other IMITATION "Cord" Tires, but there will also be the customary crop of "Black-Tread" FABRIC Tire imitations.

THESE black-tread IMITATIONS will resemble Goodrich "Barefoot" (Fabric) Tires as superficially and remotely as the Five-to-Seven layer Thread-Fabric "Cord" imitations resemble the Two-layer real Cord "Silvertowns."

They will resemble them exteriorly just enough to trade upon the Market created by the merit of the Originals. While Imitation is said to be "the sincerest flattery" we have had such a surfeit of that kind of flattery that we want to discourage it.

And this is to tell the People, before our Black-Tread "flatterers" put their "me-too-Black-Treads" on the Market, that the essence of Goodrich "BAREFOOT-RUBBER" Value to Consumers lies not in the COLOR but in its composition.

It lies in the especially devised Texture, Flexibility, Cling-quality, Stretch, Lightness and Resilience of that "Barefoot Rubber" alloy which, through years of Research, WE developed to match the marvellous Flexibility, Resilience and Power-conservation of our Two-layer-Cord "Silvertown" Tires.

Without that Silvertown EXPERIENCE we might never have known, or fully understood, the enormous advantage of such a Clingy, Stretchy, Light-weight, and Responsive RUBBER in all Tires.

COLOR alone would have been little help to us in making Silvertown Rubber Treads stand-up in the tremendous ENDURANCE Tests which the 100-Mile-per-hour-Races of 1915 provided.

And color alone,—Black, White, Red, or Gray—can do little for the Consumer who buys a "Me-too" Black-Tread Tire, of imitated make, on the assumption that all Black-Tread Tires must be made of similar materials.

The marvellous "Barefoot Rubber" now used in Goodrich FABRIC Tires (as well as in Goodrich "Silvertowns") is black only because we elected that color, primarily for distinction and association with our SILVERTOWN CORD Tires.

That COLOR has nothing whatever to do with the surprising Stretch, Cling-quality,—Light-weight, and MILEAGE of the "Barefoot-Rubber" alloy.

When, therefore, the usual crop of "flattering" Imitations sprouts upon the Market, DON'T assume that OTHER Black-Tread Tires have in them the "BAREFOOT-RUBBER" which made the enormous ENDURANCE of Silvertown Cord Tires possible in the 90 to 103 Mile-per-Hour Races of 1914-15.

GOODRICH FABRIC TIRES for 1916, with all the added Value that "Barefoot Rubber" gives to them, will be sold on the same "FAIR-PRICE" basis, as we established in January, 1915, through our propaganda against Padded Price-Lists.

No Tires on the Market, Size for Size, and Type for Type, are LARGER—and none more generously good at any price.

BIG ARMY OF BOWLERS FOR NORTHERN TOURNEY

Best Pin Men of the Northwest Will Roll in Meet That Will Open This Evening—Mike Gibbons So Good He Chokes Enthusiasm—Ketonen Still Winning—Many Cities After Gotch-Stecher Match—Green Gloves for St. Paul Match.

BY BRUCE.

WITH eighty bowling teams here today there is not the least question but that the Northern Bowling tournament will be not only the greatest by far ever held in this section of the Northwest, but one of the best held in the United States this season. All of the crack teams of the Twin Cities are here to roll, while the surrounding towns have sent in some crack alley heavies to add to the competition and general class of the tourney.

So great is the entry list that it has been deemed necessary to bowl in shifts, like they mine in extremely busy and industrious seasons. Three shifts will be employed on three days of the tournament to keep the Grand alleys from being cluttered up with the pin men.

Secretary Fred Teske and other officials of the Northern Bowling association have labored early and late to make the tournament a success, and now, in the opening day, it is absolutely assured that the local meet will surpass even the fondest expectations of the officials.

Duluth bowlers expect to make the greatest showing they have ever made in any tourney during the present meet. Never in the local history of bowling has so much class been exhibited as during the present season. Bowling here has come to the front with leaps and particularly long bounds, and it may be conservatively stated that Duluth has some of the best pin spillers in the Northwest.

With the very cream of St. Paul and Minneapolis bowlers here, and with the largest entry list that has ever represented Duluth, alley fans may be assured of the best article of bowling that has ever been witnessed here.

What Will Jeff Do?

WHEN a dub athlete or a ball team represents a city, the patronage is generally very much to the oskie waw wow. Conversely, when the athlete represents a city, the patronage is so all fired good that good position is sort of stifled, there is also not to be a dropping off, a sort of shrinking, as it were of the figures that the man in the box office adds up, honestly, or with occasional mistakes.

Connie Mack dismantled, disbanded and otherwise wrecked the greatest baseball team in the world, because, as he stated, the fans of Philadelphia failed to appreciate the article of baseball that was being provided for their benefit.

In a way this excess of class may come to apply to Mike Gibbons. Old Man Hocking has gotten to the point where he refuses to concede any mid-dleweight in the world has even the remotest chance with the Phantom over the merry round route. All this optimism upon the part of Edward makes it extremely frosty for Louis Dow and cohorts.

There is no way of evading, dodging or getting away from the hugely pertinent fact that Gibbons is a discrete mixture of horse, radish and tongue flaying mstrand when it comes to glove excellence. It is so good in fact, that fans are arriving at the point where they refuse to believe that any middleweight has much chance to outpoint him.

All this may suggest the thought that a happy medium of excellence may, in some instances at least, prove quite congenial to all concerned.

Ketonen Still Winning.

IN GAY and gaudy New Orleans the other evening Waino Ketonen tossed three of the local celebrities in thirty-three minutes. Also, on the third of the present season, the little Finn beat Harry Lazar, supposed to be some pumpkins down Mayson and Dixon way, two straight falls, the first coming in four minutes and the second in forty-seven minutes. Harry stepped into the ring in a red and white costume, at the good weight of 160 pounds, according to the letter from Waino.

The ordinary middleweight has about as much chance against this great little wrestler as the ordinary cat has in struggling with the complicated system of figuring out German and French questions of supremacy.

Fred Fulton Once Again.

AS matter sailing from the port of Milwaukee, declares in well chosen words that in the event of a Fulton victory over Jim Flynn, there is very apt to be a meeting between Jess Willard and the elongated Rochester plasterer in the Cream City some time before the ides of spring have advanced with outstretched arms to welcome in the rosy legions of summer.

One Flynn, living under the terrible affliction of the name of "Porky," proved a hurdle in the progress of the much touted white hope. The other Flynn is also apt to prove extremely tough picking for Frederick.

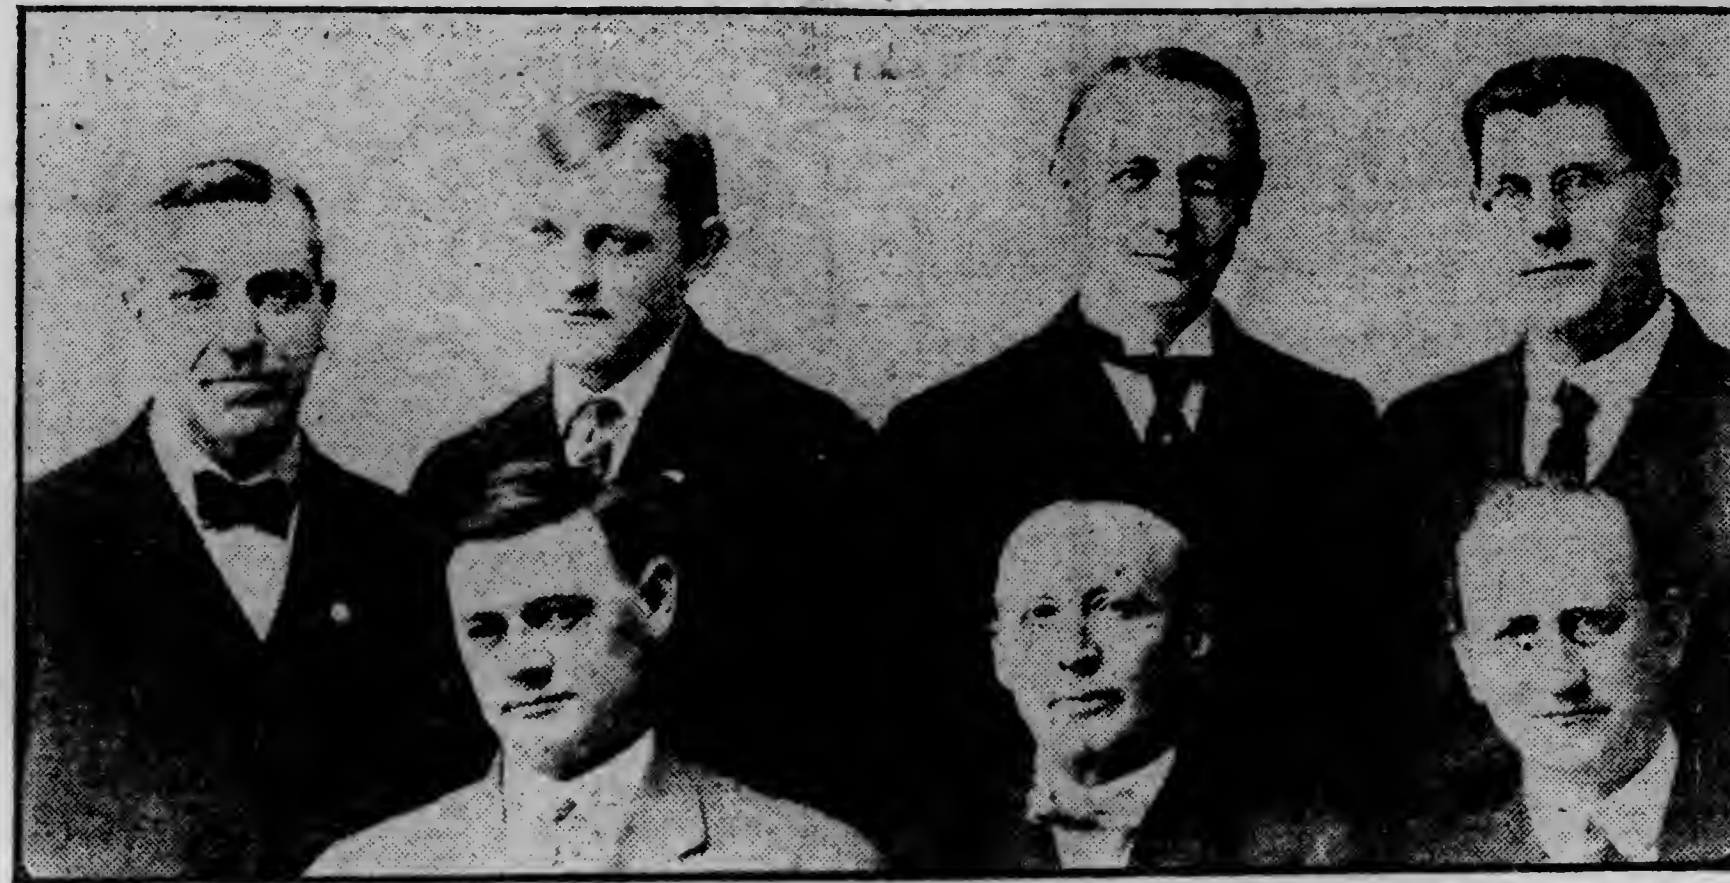

It was Jim Flynn who hid Carl Morris to a queen's taste and also the Pueblo fireman in a ten-round bout here last night. The men stood toe to toe and exchanged fierce head and body blows, with Flynn usually the aggressor.

Bidding for the Big Match.

NEW YORK, Chicago, Butte, Mont.; Rock Island, Kansas City, Sioux City and Omaha are thus far in the field to secure the Gotch-Stecher match. Gene Melady of Omaha, it is generally believed, will be the promoter to put on the big mat battle.

Tex Rickard has declared that, should he remain in the United States, he will make an offer that will drive the other promoters out of the bidding market. Gene Melady, shooting back, says he will wait until the oth-

ABERG DEFEATS HELMAR JOHNSON IN TWO FALLS

The Huge Finn Wins Through Prodigious Strength in Fifteen and Seven Minutes—Tommy Pappas Wins From St. Paul Grappler—Local "Masked Marvel" is Defeated.

BY BRUCE.

Alexander Aberg stood Helmar Johnson on his head last night and in turn Helmar stood the crowd on its collective head. Aberg won, defeating the handsome Swede in two straight falls, and in turn Johnson registered an immense hit with the crowd. After the bout spectators flocked to the ropes, four deep, and shook the hand of the Brooklyn Scandanavian in warm approbation of his great bout with the behemoth Finn.

In the matter of 42-centime strength, Aberg lived up to the remarkable reputation that has preceded him from Europe and has in turn advanced westward before the coming of the world's Graeco-Roman champion. At times the huge Finn would literally slam Johnson around the mat as if he were some inanimate object. But the game and remarkably clever wrestling of the Swede stood the crowd on its feet and there was a continual babel of roof-ringing shouts from the time the two giants met in grips until Aberg pinned Johnson's shoulders for the second and deciding fall.

Match Nearly Called Off. There was a roar and a rumble when the men were called to the center of the ring by Referee Joe Thomas, who ably officiated in the absence of Harry McCullum, who is seriously ill. The huge Finn insisted that the bout be wrestled in Graeco-Roman style. Johnson was equally obdurate and held out for the catch-as-catch-can style. His Aberg is a fussy person, it seems. He gesticulated violently, clearly in violation of the modern school of repression, then hastily donned his bath robe and started to crawl from the ring. He was hastily restrained by Manager Dellvik, who perhaps bought himself of the \$100 appearance forfeit that Promoter Cub Le Joy held in his left hip pocket.

Finally the Finnish giant reluctantly declared he would wrestle in the modern and distinctly American style. This decision was warmly greeted by a roar of approval from the excited spectators, some of whom were clambering on chairs and eating up part of the surrounding fall.

A Real Battle Ensnared. There was no sham or fraud about the battle that started just as soon as the puffed Finn laid his big hands on Johnson. For twenty minutes the spectators were treated to about the fastest contest that has been wrestled in the Auditorium in many seasons. Johnson never gave an inch to his huge opponent, but fought him back every inch of the way. The tremendous strength of Aberg, so great as to seem

time they have enjoyed in many like the other contests of the evening, this bout was of the hurricane style. Little time was consumed in stalling or sizing up. The big fellows rushed into the fray and wrestled like the attacks of the outsiders year. The "Masked Marvel" was going to win, but Kivi finally turned the trick, winning two out of three falls.

EXPECT LEADERS
TO BE DISPLACED
Higher Records Looked for in Toledo Bowling Tournament.

Toledo, Ohio, March 11.—Bowlers are predicting that few of the leaders in the American Bowling congress tournament will get through today without being displaced, in spite of the brilliant work against the maples yesterday. Two of the three events fell before the attacks of the outsiders yesterday but a number of star players from St. Louis, Buffalo, Chicago, Milwaukee, and Toledo are billed to roll tonight.

The Jose Gomez club whose 2844 loaded them in place in the five events, are in the money, although they are given only an outside chance to land the championship, by the fans. Hunter and Hendricks of Grand Rapids still top the doubles with 1252 while Pete Brunnett of Cleveland is high in the singles with 620. William Agnew of Cleveland yesterday was elected president of the congress. Expected friction over some of the amendments offered, failed to materialize, the changes being less drastic than were looked for by the delegates. The chief amendments provided for the extension of the secretary and treasurer's term of office from one to ten years.

Both Abe Langley of Milwaukee and Frank L. Padeloup of Chicago, were re-elected to the secretaryship and treasurer's office for the lengthened term, additional remuneration being paid to both men. Langley's fees were raised to approximately \$2,000 a year, making his office practically a permanent one throughout the year.

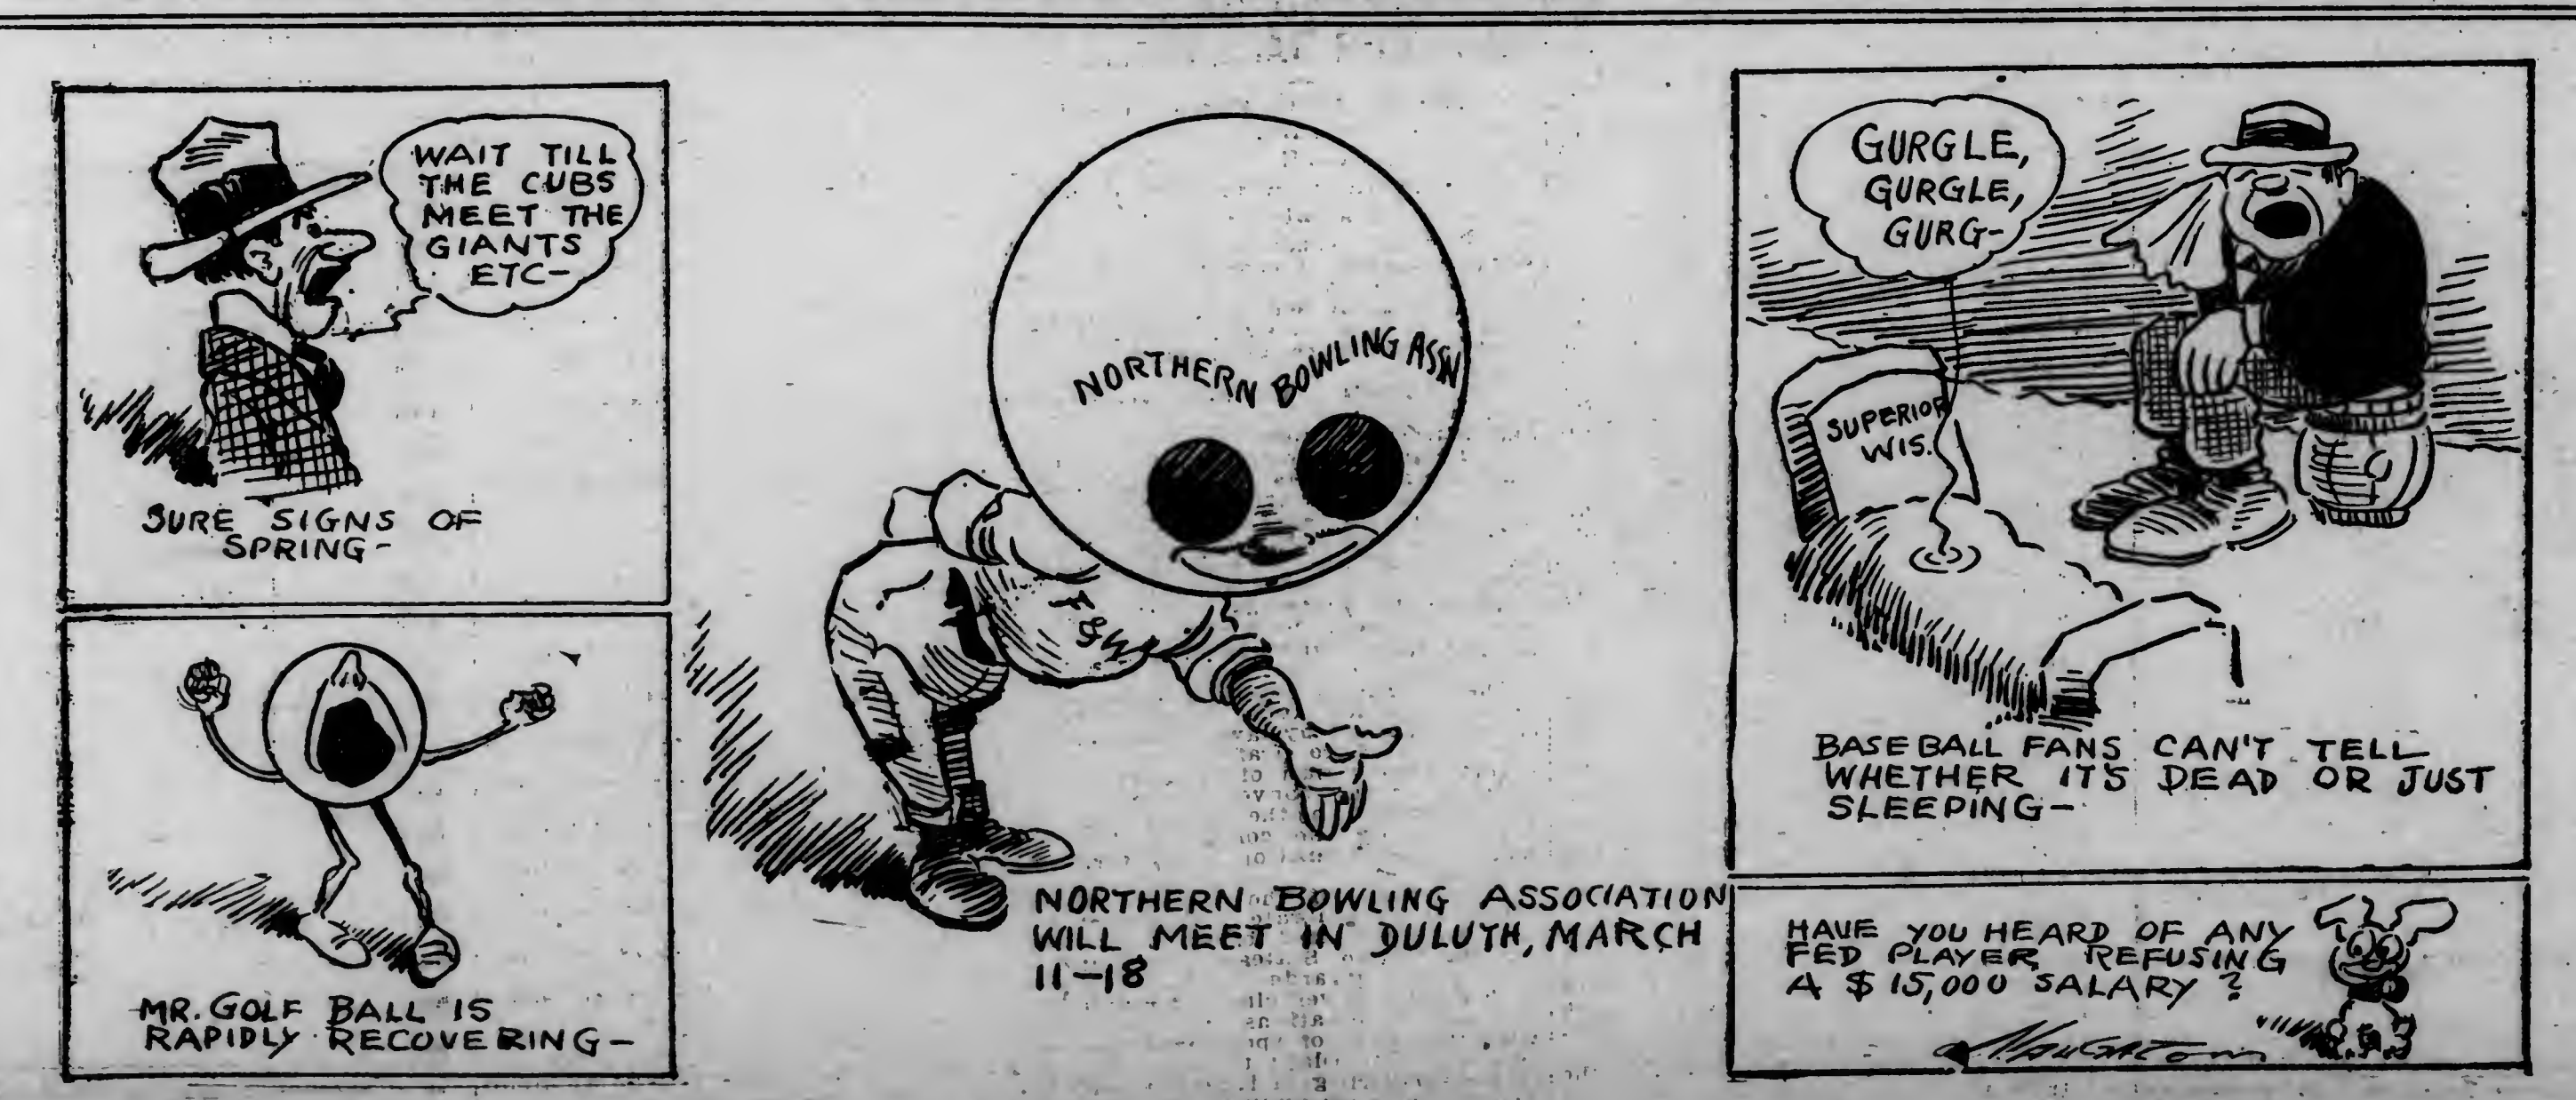

Grand Rapids landed the 1917 tournament, St. Louis being the only rival bidder, but withdrawing when the furniture city showed unexpected strength. The report of the prize committee showed a total of 1,163 prizes hung up for the present contestants. The leading five-man prize will be \$800, drops of \$50 being made for five places. There are 151 prizes offered with \$220 special prizes. The leading doubles will get \$420 with drops of \$60 and \$25 made for the first ten places. There are 291 prizes in the doubles.

The individual event will have 635 prizes, starting with \$240 with drops from \$15 to \$30 for ten places. The all-events starts at \$125 with fifty prizes hung up.

Re-Elected Hockey Captain.

Cambridge, Mass., March 11.—John D. Morgan, class of 17 New York city, was elected captain of the Harvard hockey team at a meeting of the "varsity players" under Capt. Morgan's leadership. Harvard won the Intercollegiate championship this year without losing a game, and with the loss of only two goals.

BOWLING

FOR BRAIN AND STOMACH FAG

The stomach is the engine of the human body. Blood is the fuel for the brain, which must have quantity and quality, and which the stomach cannot make without plenty of well digested food.

When Your Digestion Is Good Disease Has But Little Chance to Get a Foothold

Swing a regulation mineralite bowling ball for three games daily and the air pumps in your chest will give you the digestion of an ostrich. That's why bowlers never get appendicitis.

Bowling is proof against rheumatism and is a safe and pleasant flesh reducer for the corpulent.

Grooves in a business man's life are a menace. The same old routine of work, eat and sleep is a health wrecker.

"Be a tailor-made man; it costs no more." Yes, and I can prove it to the satisfaction of the most skeptical minded man on earth," said Mr. Mellin, the tailor, 404 West Superior street, this morning.

"Of course if a man will not pay over \$15 for a suit and is content to have it fit him in spots I'm out of it. But if a man is willing to pay \$35 to \$40 for a suit I can readily show him that I give better value in every way. Every garment I sell is made on the premises under my personal supervision, my workshops being arranged along most modern labor saving lines—there's no waste motion; my business policy is to do a large business at a small margin of profit rather than a smaller business at a larger profit."

"A suit made to one's measure is always sure to give better service—and is sure to give more satisfaction because it's built to fit one's peculiarities—it fits all over."

"I've confidence enough in the work I turn out to guarantee it in every particular—fit, color, style and wear."

"VILLA, DEAD OR ALIVE."

Well, we're in Mexico.
It isn't intervention. We are not going
in to straighten out Mexico's affairs. A
Mexican bandit who is about the sole dif-
ficult obstacle to peace in Mexico, even
though rather down and out, has raised this
country and murdered Americans on their
own soil; and it is too much to bear. So
American troops are going in to get him,
and here's hoping they will be successful,
soon.

Getting in and getting out again are two
things, maybe wide asunder. How quickly
we shall get out again depends, of course,
largely on Carranza, and whether he has
sense enough—or his surroundings will per-
mit him to use sense enough—to co-operate.
Our errand there offers no obstacle to him
—help, rather, and help that he very much
needs. Still, Carranza has shown himself
before to be stiff-necked and bigoted, and
besides he may think it dangerously un-
popular to consent to what is technically an
invasion. He resented the Vera Cruz in-
tervention, though it helped him.

Villa isn't going to be easy to get, or to
find. He is in a mountain country that he
knows like a book, and he has a good many
men with him. If, as he unquestionably
considers likely, others join him in blind
unreasoning resentment of "invasion," he
will have a good many more. If Carranza
is stupid and joins him, it may come to real
intervention and a bloody and prolonged
pacifying process.

Of course there was nothing else to do,
whether Carranza likes it or not. Villa's
deed was the final straw that broke the back
of American patience, and there seems to
be a good deal of satisfaction that at last
our soldiers are across the border. Cer-
tainly nobody can ever accuse us of having
been unduly hasty about getting them there,
or of lacking ample excuse for it.

Here's hoping that they will be back soon
—as near all of them as possible—with their
errand done and Villa disposed of. There
are those who are hoping that it will come
to real intervention, conquest and all. We
are not of those. The order to pursue
Villa was inescapable. It is to be hoped
that the early capture of Villa will be the
end of it.

At any rate, Villa deliberately started
something. It is irksome to see him get-
ting away with it; but if in the end, just be-
fore he dies suddenly, he realizes that he
does not like it as well as he expected to,
that part of it will be much more bearable.

Just a day of nice, warm rain now and
navigation will open all over the city.

THE "HYPPHEN."

News comes that a great many American
citizens of alien birth or immediate descent
are becoming irritated by the recent em-
phasis on the term "hyphenated Americans"
—a phrase that we are indebted to Col.
Roosevelt for, if we remember correctly.
Scandinavians in Minnesota, for instance,
are reported to feel aggrieved by the com-
mon use of the term.

They oughtn't to feel so. We do not re-
member to have seen or heard anywhere an
application of the phrase that could by any
distortion be understood to apply to them,
nor to any foreign element in the popula-
tion that is loyal to America—and we be-
lieve that all foreign elements, with in-
dividual exceptions, are entirely loyal to
America.

Knute Nelson, the one member of the
Minnesota delegation in both branches of
congress who voted to sustain the president
on an issue of American rights and Ameri-
can honor, was born in Norway, and there-
fore may be called a "Norwegian-American."
But there is no reproach in the term.
Minnesota glories in his stalwart American-
ism as much as it could if his forefathers
came over in the Mayflower.

The Swedes of Minnesota as a class are
as truly patriotic and as fervently loyal to
America as the descendants of the Swedes
who settled in Delaware in 1638 under
Peter Minuit.

This country is jealous of no heritage of

affection for native land that enriches the
lives of Americans born in other countries,
and that chimes harmoniously with their love
of the land of their adoption. They bring
their own culture and their own loyalty to
add to the stream that swells to make the
broad meaning of the word "American,"
and America is better and stronger for it
and for them.

This country does not think less of the
Germans because they love the Fatherland
and wish it victory. It WOULD think less
of them if they did not. It is not to any
racial element as a whole that the term
"hyphenated American" has been applied,
but only to those who have sought to in-
duce America to take action that would
have forced her to abandon her neutral po-
sition. These are only a part of the millions
of "German-Americans" who inhabit Amer-
ica, have prospered here and have helped
us all to prosper. And even these it may
be easier to understand if we could imagine
ourselves having changed places with them.
We can understand, though we do not
agree. Even though we believe them to be
mistaken and misguided, we can believe
them to be honestly in error.

Probably the talk of hyphens has been
overdone. It certainly has been overdone
when Americans born in lands that have no
part in the war feel that they are aggrieved
by it.

Most of those who have come to us from
other lands have come because they felt
their souls akin to our ideals. The very
fact that they have parted from home and
friends and kin and native soil, and have
braved the voyage across the Atlantic to
find a home in a strange land, shows char-
acter and courage that go far to prove
their desirable acquisitions. Most of them
have quickly entered into the spirit of
American life. Most of them are as loyal
to America as those who preceded them,
no matter by how many generations. There
were senators and representatives voting
on the side opposite to Knute Nelson, "Nor-
wegian-American," whose immigrant an-
cestors are many generations behind them.

The term "hyphenated American" applies
only to those, of whatever nationality, who
put their native land above the land of their
adoption, who strive to influence American
policies in favor of one belligerent or an-
other, and who seek to swerve American
political life to suit the will or need of an
alien interest. These, we believe, are few
in numbers if loud in voice.

All others, of whatever race or creed,
from whatever soil they spring, and wheth-
er their Americanism is of yesterday or of
three centuries gone, are American citizens
proud of the name and loyal to its deepest
meanings.

If the use of such a phrase is bringing
heartache to any of these, then it is time to
stop using it.

In current phraseology, Winter has re-
captured the trench taken during the last
week by Spring and snowshovel.

LIFE GROWS MORE COMPLEX ALL THE TIME.

"I never in all my life," said Congress-
man Fenechbuilder to the interviewer,
"longed for the return of the 'good old
times' as I do in these distracting days."

Lines of care are deepening in Congress-
man Fenechbuilder's face these days. He
has something the look of a man trying to
walk along a four-track right-of-way with
trains constantly whizzing by in opposite
directions on all four tracks. His dull,
sunken eyes show traces of sleepless nights
and days of worry and tribulation.

"What's the matter?" asked the inter-
viewer to whom this burst of confidence
was made by this eminent statesman who
has kept himself in office during many
troubled campaigns by his alertness in get-
ting his share out of every pork barrel and
by his deftness in offending nobody and
pleasing as many as possible.

"Matter? Everything's the matter!" al-
most shouted the troubled statesman. "At
the bottom, war's the matter."

"If I stand with the president, I find
every sympathizer with the Central powers
in my district on my trail. If I take a
stand against him, sympathizers with the
Allies hop all over me. If I try to be non-
committal, neutral American citizens call
me a coward and a trimmer."

"When the McLemore resolution came
up in the house I tried to fly to cover, but
it was of no use. If I voted to warn Ameri-
cans off belligerent merchantmen, I knew
a large element in my constituency would
flay me alive. If I voted with the admin-
istration to defeat the resolution, I knew
another large element in my district would
never forgive me. I kind of hoped that
when so many of my party voted with me
against tabling the resolution that there
would be some safety in numbers; but there
wasn't a bit. My district apparently didn't
give a hang about the rest. All it saw was
that I failed to stand by the administration
in an international crisis, and the papers
out in my district are issuing extras telling
what a contemptible wretch I am. I had
hoped, too, that my constituents would
see that I was trying to save them from
war, but they don't see it at all. Some of
them even say that a vote that weakens
the government in doing what it absolutely
must do increases the danger of war."

"And then there's Mexico. I thought I
saw a chance to make capital against the
administration by howling against the po-
licy of letting Mexicans kill Americans; but
I was flooded with letters telling me that
Americans ought to keep out of such a
place and that Wilson was right in letting
Mexico work out its own freedom. Then
I took up that side, only to discover that
some of my most prominent supporters are
stockholders in Mexican enterprises, and
that they were hot after me to fight for in-

tervention in Mexico. I shudder every time
I hear the word 'Mexico' these days.

"And preparedness—mother of mine! As
near as I can make out, while a consider-
able minority in my district is against do-
ing anything at all, and a smaller minority
is in favor of a Rooseveltian program of
militarism, the great majority thinks we
ought to have a sensible increase in the
navy, in coast defenses, in submarines and
aircraft, and a little stiffening up in the
army—a strictly limited defensive program.
But doggone it, if I stand for that, I am
standing for Wilson and the Democratic
program; and how in the mischief I am to
get any political nourishment out of trail-
ing along after a Democratic president
when I am a Republican, I can't see."

"Lord, but what a relief it would be to
get back to the good old times when all a
fellow had to do was to get his share of the
postoffice buildings and jobs and pensions
and river and harbor appropriations, parcel
out the appointments where they would do
the most good, and talk about protection
and prosperity, conservation and good
roads, the little red school house and the
vineyard cottage! Life was simple and
happy in those days, and now it is per-
plexed and complex and distracted, and a
poor devil of a politician doesn't know what
to say or do or which way to turn. Sher-
man was right!"

Villa should know his goose will be
cooked now that a Baker is at the head of
the war department.

"GERMAN EFFICIENCY."

An American newspaper correspondent,
a few weeks ago, was studying Germany
to note the effects of war upon it—es-
pecially to note how Germany stands
war economically. He found people well-
fed and generally contented.
"This is all very well," he said to his
cicerone, "but how about the poor? How
is it in the slums?"
"There are no slums in Berlin," replied
the German; and so it is.

Much awed and admiring talk these days
of "German efficiency," mainly to the ef-
fect that we must equal it or succumb—if
not in war, in the struggle for commercial
supremacy.

It is a good thing to talk about and study.
It is high time it were being talked about
and studied—especially studied.

Isn't military efficiency alone. That's
just the flower that Germany chose to
grow in that soil. Others might grow a
nobler flower—it is to be hoped that WE
would grow a nobler. The soil is the thing,
and the soil is all-around efficiency—with
social and industrial efficiency the founda-
tion.

What makes it?

If a German workman is hurt, the indus-
try stands the bill. So far, and so far only,
America has in part met the issue. Some
states, including Minnesota, have automatic
workmen's compensation laws that put the
burden on industry, where it belongs.

But if a German workman is taken sick
and has to lay off half a year, he is pro-
tected by medical attendance and half pay.
In America he must shift for himself.

If a German workman is permanently in-
capacitated by sickness he is protected by
insurance under state regulation. In
America he must shift for himself.

When a German workman grows too old
for efficiency and industry discards him for
a younger man, old age insurance cares for
him during his days in the Valley of the
Shadow. In America he must shift for his-
self. He is as completely cast out as a
sucked orange on a rubbish heap.

How did all this happen? Bismarck,
Europe's greatest statesman of the Nine-
teenth century, did it.

Why? Because the empire's social policy
is based upon the fundamental view that
the working class has, in a Christian and
civilized state, a claim to be sufficiently
protected in its economic existence against
the modern dangers of its vocation and
work as regards life and health, and that
the claim must be legally guaranteed be-
cause, as experience proves, no other meth-
od will reach the desired end.

If that reasoning seems too purely altru-
istic, then you can truthfully ascribe to Bis-
marck these conclusions also:

First, that national efficiency must be
founded on social and industrial efficiency
—on a working class protected and content-
ed and so capable of developing its fullest
potentialities of economic use. This policy
is not only the workman's right as a human
being, but the state's vital need as well.

Second, that a working population so
safeguarded will be more easily consecrated
to the support of the government that as-
sures this protection.

Third, that the best way to abate the
swelling and menacing tide of popular un-
rest is to do away with the causes of just
complaint.

Thus, Bismarck—not for the people, but
for the state, the empire, the Hohenzollern
—but the people benefitted, and today they
are justifying Bismarck's foresight and re-
paying the empire's policy by showing the
world the greatest example of the thorough
dedication of a people to a nation's cause
that history has ever furnished.

That priceless liberties were traded for
these benefits, and that after the war the
German people may develop a strong taste
for having their efficiency directed to other
purposes than Hohenzollern-grandifying
ends, have nothing to do with this discus-
sion.

This is the secret of German efficiency
—this and the many things that industrial
insurance typifies—things like practical ed-
ucation, rural credits, provision for a place
for every talent and an opportunity for
every capacity to devote itself to the em-
pire's economic and political development.

GERMANY NOT ONLY CONSERVES
AND REALIZES THE FULL POTEN-
TIAL VALUE OF HER LANDS, HER

MINES AND HER FORESTS, BUT OF
HER HUMANITY AS WELL.

That, in a word, is the simple secret of
German efficiency. Its highest development
has been illustrated by war, but it will lend
itself as readily to the same development
for peace. The nation that would hold its
head up among nations must have that ef-
ficiency, and it must get it by the same
methods. It can be done in a democracy
as well as in an empire. It can be dedicated
to the noble uses of peace as well as the
"blasting purposes of war. But you can't
have it with industry organized not for
national welfare but for billionaire-making.

William II, no mean statesman himself,
caught the amazingly simple common sense
of the Bismarck policy and has kept it go-
ing—has, indeed, broadened and supple-
mented it. Within two years, and just as
he was dropping the Bismarck pilot who
had made great his father's empire and his
own, by imperial edict he added to "indus-
trial protection" his own policy of "indus-
trial insurance" with the aim so to re-
gulate the time, the duration and the kind
of work that the preservation of health, of
the laws of morality, of the economic well-
being of the workmen and their families
and of their claim to the enjoyment of equal
rights should be taken care of. This edict
has resulted in much wholesome legislation
—an investment from which the empire is
now reaping huge dividends of loyalty and
service.

Some who urge us to study "German ef-
ficiency" are of such a character as to make
their preaching very amusing. They are
the very ones who most bitterly oppose
every item in the highly intelligent program
of Otto von Bismarck and William Hol-
enzollern, and who condemn them as "social-
istic."

Well in a way they are "socialistic." But
people are not so easily scared by a mere
label as they used to be. And there is the
humor of it—that men who are violently
opposed to anything that even savors of
"socialism" should preach emulation of Ger-
man efficiency, which is little more or less
than state socialism, though poisoned by
autocracy.

Yet, socialism, social justice, label it how
you will—these things must America
come if it is to compete, in war or in peace,
with that German efficiency which, no mat-
ter how misapplied, is now teaching the
world so many priceless lessons.

Having once been secretary to a postmas-
ter general, Secretary Baker should be a
master of strategy.

Just a Moment

Daily Strength and Cheer.

Compiled by John G. Sullivan, the Sunshine Man.
Faith and patience—Matthew ix, 18-22.
And so one man's faith is more than a
match for many people's scorn. The steady
trust of the ruler was not shaken by the
rude filippancy of the artificial mourners,
and his daughter was brought from the
dead. "This is the victory that overcometh
even our faith." Everything bows, like
fragile reeds, before the march of a vic-
torious faith. Scorn, and hatred, and all
manner of devilry, and death itself, all lose
their power in the presence of a belief which
remains steady and steadfast. "Said I not
unto thee that, if thou wouldst believe, thou
shouldst see the glory of God?"

And what an infinite reservoir of power
is waiting to be tapped by the hand of faith!
A ruler believes and his daughter is vital-
ized. A poor woman, bent and broken,
reaches out her thin, frail hand, and lo! she
is erect and graceful as the pine. And "my
sufficiency is of God." All that may need
is in the same wonderful reservoir of grace.
That healing flood is like the ocean fullness,
and it will fill every bay, and cove, and
creek in the wide-stretching shore of human
need.

"The healing of His seamless dress
Is by our beds of pain,
We touch Him in life's throng and press,
And we are whole again."

Rippling Rhymes

By Walt Mason

March Winds.

Oh, March is bad and boisterous, and
rude and rough and roisterous, she's
like a dippy squaw; she howls around
us frantically, and blows our hats off
spitefully, the worst you ever saw. And
as our lids go fluttering, the language
we are muttering the air around us
taints; of course it's rather rude in us
to use oaths platonically, but then we
are not saints. We paw around and
swear again, and long for summer air
again, for breezes warm and sweet; we
think we'll then be happier, but doubt-
less we'll be scrapper, when summer
brings its heat. Our language will be
vigorous, when our sore legs are chig-
gorous, when ants crawl up our backs;
we'll still be cussing dearly, while we
are swatting, wearily, the flies that
stick like wax. Our discontent's in-
herited; we hand out roasts unmerited,
to all that comes along; instead of
smiling merrily, we yelp and say, "Yea,
verily, whatever is wrong." Man
ought to face things cheerfully; com-
plaining always, tearfully, betrays the
spineless rube; man's head is largely
ivory and he for sense must strive or
he becomes a hopeless boob.

Another Orator

By Savoyard.

Washington, March 11.—(Special to The
Herald.)—Sergeant S. Prentiss disputes
with Thomas F. Marshall for first place
among the orators of America, after Patrick
Henry, and like Marshall he served but a
single term in congress, 1837-38. His seat
was successfully contested and declared va-
cant by the deciding vote of the speaker,
James K. Polk, afterward president of the
United States. In that wonderful effort at
Nashville, the campaign of 1844, held by
many to be the greatest political stump
speech ever made in our country, Prentiss
characterized Polk, the Democratic nominee
for president against his idol, Henry Clay, as
"that blighted burr that has fallen from the
mare of the war-horse of the Hermitage."
When he closed he fell exhausted into the
arms of "Lean Jimmy" Jones, who hugged
him and in an ecstasy of enthusiasm ex-
claimed: "Die, Prentiss, die—you will never
have another so glorious opportunity!"
The audience that heard his speech in the
house of representatives was one of the
most intellectual ever gathered in that
forum, including Clay, Webster, John
Quincy Adams, Edward Everett, Tom Corwin
and many others, and when he closed in that
magnificent burst, "Blaze away, the star-
spangled banner of this Union the bright
star that glitters to the name of Mississippi,
but leave the stripe behind, a fit emblem of
our degradation," the effect was tremen-
dous. He returned to Mississippi and at a special
election was chosen by an overwhelming
majority to fill the vacancy.

Extravagant stories are related of the
overwhelming effect of Prentiss' eloquence
both in the forum and at the bar. For ex-
ample, one of the most noted cases involved the
title to a large body of land in Arkansas be-
fore the supreme court, and opposed to him
were Reverdy Johnson and Mr. Meredith,
and it is the story that the star-spangled
banner to him as he concluded: "Young man, if
you were not the first orator in America I would
pronounce you the first lawyer." I doubt
that it is true, but it is a story that has
been told. Marshall was committed. He did say
that William Pinkney was the greatest law-
yer who ever pleaded at that bar.

When Prentiss, a native of New England,
appeared in Faneuil hall, after he had made
his great reputation at the South, his speech
was greeted by a whirlwind of applause
from an audience that included President
Ames and worshipped Rufus Choate. Web-
ster was present and was asked if he had
ever heard the speech equalled, and his an-
swer was: "Never except by Prentiss him-
self." His great rival, and oftentimes suc-
cessful rival, at the bar and on the stump, Jo-
seph Holt, said that Prentiss was the only
man whose performance equaled his reputa-
tion. Holt was the inventor of national con-
vention eloquence, and his speech in the
Democratic convention at Baltimore in 1840
in defense of John C. Calhoun, was never
surpassed, if equaled, by Bob Ingersoll, or
Roscoe Conkling, or James A. Garfield.

It was the golden day of eloquence in our
land—the day of Clay and Webster, of Mar-
shall and McKee, of Corwin and Choate, or
Prentiss and Haskell. For beautiful, stately
and symmetrical sentences, for chastity, pur-
ity and elegance of expression, Prentiss
was without a master even of that day. He
not only persuaded, but he convinced, and
his speech was English unadorned, "the
tongue that Shakespeare spoke."

The most famous speech that Prentiss ever
made was in the Wilkinson murder
trial at Harrodsburg, Ky. With a band of
a party of Mississippians who went to
Louisville, where one of them, perhaps Wil-
kinson himself, was to be married to a
charming woman, of the city. They were
guests of the famous Galt house, where they
received a tailor named Redman, who made
the wedding suit of the groom. There was
a dispute about the fit of the coat, and the
tailor's friends rallied to him. A fight en-
sued and the tailor was killed. There were
others wounded on both sides.

Wilkinson and his allies were indicted,
and a change of venue had to Mercer county.
Prentiss came on to defend his friends and
was associated with the famous John Rowan
of Kentucky and others. The leader of the
prosecution was Ben Hardin. I have read
the speeches of Prentiss and Hardin. That
of the former was splendid, magnificent,
gorgeous; but old Ben Hardin's was more
powerful effort. Prentiss, however,
carried everything before him, jury and au-
dience, and his clients were acquitted. Har-
din personally was very unpopular in the
community and was hooted out of town. He
got revenge. His two sons-in-law in the
Kentucky legislature were instrumental in
establishing the new county of Boyle that
was carved out of Mercer county.

But that was not all of the revenge he
got. This was Prentiss' story as Prentiss re-
lated it. Years after the murder trial
Hardin was in Mississippi and the legisla-
ture adopted a joint resolution inviting him
to address that body. Custom honored the
observance throughout the Mississippi
valley in those days. Prentiss heard of it
and rushed over to Jackson, rallied his
friends, and had the resolution reconsidered
and rescinded. Old Ben didn't care a rap,
but went over to Vicksburg, and put up at
a tavern kept by a man named Vick, for
whose family name town was named. He wait-
ed for a Louisville packet on the way from
New Orleans and to amuse himself he read
a voluminous legal record of a case pending
in the supreme court at Washington, to
which Vick was a party litigant, as was
Prentiss, their interests being adverse. The
landlord remarked that his guest seemed to
be interested in the record and asked if he
was a lawyer. "I am Ben Hardin of Ken-
tucky," was the answer. The host had heard
of him and asked what he thought his
chances would be. Hardin said they were
excellent if properly presented to the court.
Hardin was employed then and there. John
J. Crittenden was representing Prentiss, and
he urged his client to hasten to Wash-
ington, that Hardin was on the other side and
he was exceedingly formidable. But by this
time Prentiss' health was far from robust,
and he was very busy at home, and his mag-
nificent powers were somewhat impaired. He
did not attend the hearing in the supreme
court; Hardin won the case, and Prentiss
was beggared, for all he had was involved.
And now he moved to New Orleans, where
he struggled against adverse fortune, finan-
cial and physical, and not long after he died.

Prentiss was immoderate in everything.
One night on a steamboat he was playing
poker and won everything his ad-
versaries had. Then, just before he
leaned his head on his hands, resting on the
table and fell asleep, he delivered himself
of this blasphemous extravagance: "If the
angel Gabriel would descend from heaven
and play poker with me at a star ante, I'd
darken the firmament before midnight!"

Everyone recalls his like extravagance
about Cincinnati, where he spent some time
in his incipient manhood, a stardling, and
no one offered him a seat at the table. When
at the zenith of his meteoric career he was
in that town and was asked by the Whigs
to make a speech, a heated political cam-
paign being in progress, he refused, say-
ing:

"I will not open my mouth in public in
this town. On the day of judgment I shall
appear at the bar of heaven to prosecute an
indictment against Cincinnati, characteriz-
ing her as being the meanest hole on earth.
I will have the apostles for jury and I will
get a verdict of guilty."
Had he survived till secession, on which
side would he have been? A Yankee, he
was more Southern than the South, a duelist
and a slave-holder. But his speech on the
Pilgrim Fathers leaves speculation in doubt
as to his course in 1861.

Watered Gardens.

Robbins was studying a new seed cata-
logue as I entered—after his usual habit,
about this time of the year. The man never
ceases expecting that, somehow, those gor-
geous, pictured fruits and vegetables are
going to be found in his own backyard by
mid-July. He usually orders something less
than fifty-seven varieties of seeds and
plants them with elaborate care. The gar-
den never yet has quite come up to expecta-
tions, but Robbins, I imagine, hardly shall
expect that it will. At any rate, hopes
bring him happiness and exercise brings him
health, and what better fruits of a garden
are there than these?

The longing for a patch of ground and a
few tools to scratch it with is part of old
Mother Nature's bequest to us all. Plenty
who never have the soil have the longing.
A single pink geranium blooming in a
tomato can shows what many a woman
would do if she only had opportunity. The
crowds who throng the parks in tulip time
and pause before the florists' windows bet-
ray the immortal hunger.

THE little error from the past
Has overtaken you at last.
It wasn't much as errors go,
But you side-stepped and let it
grow
Into a fungus, come to blight
Your chance to win where

We would have weighed the cir-
cumstance,
Had you but given us the chance.
The whole thing might have
come to nought,
If you had faced the truth and
fought
The fool mistake.
You didn't take
Your medicine, so now, you

You'll find the dose is doubly
bitter.

When Correction Is Self-Protection

IF you don't know the name behind the goods, you can't be sure of the wear ahead of them. An advertised brand is of itself a guarantee. Any merchant who spends money to promote his name, must protect its integrity.

But rules, systems and inspections are liable to error. Machines and individuals make mistakes. Neither intention nor invention can provide for all accidents. Advertising is the only certain safeguard for consumer and producer.

Commonsense tells you that the cost of publicity in responsible publications is too great to be nullified by the disappointments and dissatisfactions which arise and quickly spread from disgruntled purchasers.

Never hesitate to return advertised goods that do not please you. You confer a favor by granting the opportunity for correction. The right complaint at the right time is worth more money than the cost of its adjustment. Advertisers mean to be square, otherwise they wouldn't give you a chance to find them out. It doesn't pay to call attention to double dealing.

Second Childhood

HER hair was snow-white and she was painted like Jezebel. Little splashes of time-stain streaked through the crafty enamel on her weakened neck and she haunted her brazen bosom and mole-speckled back before the corridor throng. A great modiste, in fine access of inspiration, created for some slip of a girl the winsome bit of gossamer in which she smirked.

Its evasive lines were never designed for that year-broken body, nor were such hocks contemplated when it was cut to dancing length.

She would have been lovely in brocade and old lace. Winter can be very beautiful. Grandmother's is a wonderful estate. For her, the reverence and the little subtle kindnesses and the secrets too tender for less gentle understanding and the confidences that only a wisdom-sweetened heart may fairly estimate.

But when grandmother hies to the revels and shakes her bunioned feet in the dance she becomes a pitiful, simpering, bedizened parody—a fair butt for the ridicule she inspires and deserves. What's come over you old woman? Where are your mirrors—your sense of proportion—your dignity? You've had your day and your play. Back to the side lines—this isn't your game. Leave the pretties for the lasses. You can't compete with May-day. Make way! Make way! Ghosts must not invade the kingdom of Spring. Second childhood is not youth. Fine feathers never yet changed an old hen into a chicken.

UNIVERSITY OF MINNESOTA

Problems of the University Set Forth in a Startling-Manner By Dean Johnston—Increase in Enrollment and Cut in Appropriations By the Legislature Cause Difficulties.

Minneapolis, Minn., March 10.—(Special to The Herald.)—Dean J. B. Johnston of the college of science, literature and the arts, has an article in the Alumni Weekly which sets forth the problems of the university in a startling manner. The trouble has come from the cut in appropriations for the university by the last legislature and has brought many difficulties, some of which seem insurmountable. Hand in hand with the material cut in appropriations came an increase in enrollment, which is the largest in actual numbers in the university's history and the largest in percentage, with the exception of a period from 1886 to 1899. Educators have agreed that the best results come from having one instructor for every twelve or fourteen students, but at the University of Minnesota there are twenty students for each instructor in the sciences. The fact that many have been dropped from the rolls who were only doubtfully deficient, in comparison with these figures other universities such as Harvard, Wisconsin, Michigan, Nebraska and Illinois have one instructor for every ten, twelve or fourteen men, and at many of the eastern colleges such as Cornell and Williams the ratio is invariably one to ten.

In the early history of the university, up to the year 1889, the ratio was never above one to fifteen and during the eighties it was one to eight or ten, but an increase in enrollment from 1888 to 1890 of 84 per cent raised the ratio to one to twenty, which is the worst condition in the history of the university up to 1916 and 1917. In one of the state universities with which Minnesota competes or is compared is the ratio above one to fourteen and it is often as low as one to twelve.

Another point of difficulty is the constitution of the faculty necessitated by the lack of funds. Minnesota has comparatively few men of professional rank as compared with men who rank merely as instructors or assistants. Harvard has 151 professors to 22 instructors, Michigan has 121 to 70, Illinois has 58 to 25, while Minnesota has only 46 to 48. This means that many classes, all of exceptional size, are in the hands of inexperienced men who are not particular specialists in their subjects. The need is absolutely urgent for the addition of at least twenty-five men of professional rank, but this would make Minnesota equal only to the worst of its competitors in the ratio of professors to instructors and of faculty members to students, that is one faculty member to every fourteen students as compared with one to ten at Wisconsin and Illinois. To place Minnesota on a level with these two institutions and many others in the East an addition of sixty-one professors and instructors and corresponding additions of assistants, teaching fellows and so forth would be required.

Under present conditions the entire energy of the teaching corps must be devoted to the student body, and the lower two classes, and all of that work in research and bulletin preparation which makes the university valuable to the state at large must be shirked.

Dean Johnston offers three possible solutions to these difficulties: First, a sufficient increase in the state appropriation; second, the legislature will handle the present number of students and provide for the normal increase which is

bound to come from year to year; second, to give a large number of students poor teaching and abandon all work in scientific research and drop the incipient plans for vocational courses; or, third, to eliminate ruthlessly all students who do not measure up to an exceptionally high standard of scholarship, thus discouraging many ambitious students and counteracting all the wholesome movement which is indicated by the increase in number of students applying for admission. It is much better to refuse a person admission at all than to let him in only to face certain failure in one of his first big life's projects, for it is certain that such a wholesome elimination as would be necessitated would work a criminal injustice.

A mass meeting of all university workers was held in the Little Theater early in the week to plan a week's campaign for funds to help the French war babies. Many novel plans were suggested and finally each girl was left to her own devices. Miss Genevieve Bernhardt, winner of the recent Vanity Fair contest, and Miss Kennea McKenzie will shine shoes all week in the Minnehaha office. Another girl will turn men's socks at regular prices, another will mend fountain pens, others will conduct candy sales and some will try their hands at baking and sell their products.

A state-wide educational campaign against the house fly will be instituted by the department of entomology. Mr. Howard has prepared a series of articles on the subject, which will be published in the papers throughout the state in an effort to extinguish the germ-bearing insect. The articles will be concerned chiefly in indicating the best and easiest methods of maintaining sanitary surroundings and eliminating the breeding places.

Rebellion has broken forth in the ranks of the Minnesota Cadet corps. The privates of the organization, numbering about 1,000, have decided to elect one of their number as leader of the Cadet ball to be given soon in the university armory. The word has been passed around that no officer is to be elected or even voted for under penalty of severe retribution such as only university students comprehend.

The extension division of the university has been presented with a war relief from Belgium. Soon after the war broke out a large cargo of flour was made up in Minneapolis and shipped to Belgium for distribution among the destitute of that nation. By way of showing their appreciation of American generosity, the children of the Belgium schools have taken the flour sacks and transformed them into exquisite pieces of embroidery work. One of these sacks was presented to the university by Prof. Vernon Kellogg of Leland Stanford, who has just returned from service on the Belgian relief committee. The words "Belgian relief flour," which were stamped on the sack before it left America, have been embossed in three colors of the Belgium flag. Shields of the flags of Belgium and the United States have been worked into each corner and tassels of red, white and blue adorn the edges.

Try this easy way to clear your skin with Resinol Soap

Bathe your face for several minutes with Resinol Soap and warm water, working the creamy lather into the skin gently with the finger-tips. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores. Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, lessens the tendency to pimples, and leaves the complexion clear, fresh and velvety. If the skin is in bad condition through neglect or an unwise use of cosmetics, apply a little Resinol Ointment* and let it remain on ten minutes before the final washing with Resinol Soap.

Resinol Soap contains no harsh, injurious alkali, and is not artificially colored. It is entirely due to the Resinol balsams in it. Sold by all druggists and dealers in toilet goods.

*Physicians have prescribed Resinol Ointment for over twenty years in the treatment of skin and scalp affections.

COMMENT ON PLAYS AND PLAYERS WHAT THE PRESS AGENTS PROMISE

FLORENCE STONE WILL PLAY HERE

Will Appear at Lyceum
March 17, in "The Marriage Game."

Miss Florence Stone, who several years ago was a supreme favorite with Duluth theater-goers, will be seen at the Lyceum next week, appearing Friday afternoon and evening—St. Patrick's day—in "The Marriage Game," under the management of A. G. Bainbridge, Jr.

The play, which has recorded a long and highly successful run at the Comedy theater, New York, has never been seen in this city.

As its name suggests, "The Marriage Game" is a bright, modern and snappy, up-to-the-minute comedy dealing with married folk.

The play begins with the introduction of three married couples, among whom seed of discord has, for various reasons, been plentifully sown. A rich bachelor friend, knowing of the difficulties, has a happy idea, and immediately invites the husbands for a week's cruise on his big yacht. The three guests are given to understand that the affair is to be a "bachelors' party." But feeling assured he has found a way straightened out the matrimonial tangles, the bachelor extends a similar invitation to the three wives, resting under the firm belief that a few days of close and continued contact will nicely iron out all difficulties.

One of the husbands, however, under the impression it was to be a "bachelors' party," brings a woman friend with him, a Mrs. Oliver, plump, pleasing and very pretty, but a young widow whose profession has long since barred her from recognized social circles. Mrs. Oliver makes the voyage properly introduced, with the three warring couples.

Skilled in the art of making herself agreeable to men, Mrs. Oliver promptly proceeds, with true feminine instinct, to captivate the three husbands, and the home port is not left far behind before the popularity of Mrs. Oliver with the men on board is painfully evident to the three wives. A common discomfiture and a common dislike, however, binds them together, and revenge is sought.

Forced partially to admit her true colors, Mrs. Oliver starts in by giving the three wives some very wholesome advice concerning the proper and correct care of husbands, which after some demurrings, the three wives accept as sound doctrine. The final act of the play is devoted to a series of very humorous recriminations, in which all on board take a hand, but in the end, all admit the folly of their ways and reconciliations follow.

Even Mrs. Oliver decides to go her way alone in the future, an ending which greatly delights the audience. In the part of Mrs. Oliver, Miss Stone has a part which she says delights her more than anything she has ever played, except, perhaps, some of the heavier and exacting roles of the great Sardin plays, and in which many Duluth theater-goers will remember her. "The Marriage Game" will be played at both matinee and evening, Friday, March 17.

"DIMPLES" WILL BE SEEN AT ZELDA
Mary Miles Minter Starred in Metro Photo-play.

Mary Miles Minter, the beautiful young actress, who has starred in "Barbara Frietche," "Emmy of Stork's Nest" and other Metro screen masterpieces, will be seen here at the Zelda theater for three days, commencing with tomorrow's show, in "Dimples," a five-part Metro play.

"Dimples" is an original story written especially for Miss Minter by Mary Louise Downing, and developed for the screen by Harry O. Hoyt. Miss Minter is surrounded by an exceptionally strong supporting cast, headed by Thomas J. Carrigan, her new leading man, and including Peggy Hopkins, Percy Fildmarsh, Charlotte Shelby, Mae De Metz, William Cowper, John J. Donoghue, Harry Ford, William Rausher and other prominent players.

Dimples is the daughter of a miserly father, who dies unexpectedly with a large fortune, which she does not know he possessed. A friend of the father, who enjoyed his confidence, obtains the money, and after a series of interesting incidents, hides it in her favorite rag doll. Another girl, in the same town, who has been engaged to a wealthy young man since childhood, breaks off her engagement to him when she learns he has lost his fortune. Dimples is secretly in love with this man and he is in love with her, but

neither speaks of this love on account of the previous obligation.

How Dimples receives her legacy in time to save the young man's fortune, and how a peculiar prank of fate brings them together, is unfolded in a unique and fascinating manner.

Robert Edeson, the well-known star, who will be remembered by Duluth theater-goers in his first screen success, "Mortmain," will head the Zelda program for three days commencing with Wednesday's matinee.

Mr. Edeson has appeared in a great many pictures. He has played heavy drama, comedy and comedy-drama, but the "Cave Man" is more suited for this distinguished star than any role he has ever attempted before.

**GRAND SHOW
REGISTERS HIT**

Six Serenaders Please Patrons; Bright Features for Next Week.

The bill at the New Grand this week-end, although featuring singing and dancing acts, is one of many hits.

Pretty girls, clever boys, agile dancers and the tinkling tunes make up the offering of the Six Serenaders, who top the bill in a most charming and enjoyable manner. Six clever youngsters contribute to the fun and frivolity. Each is an artist of ability and each does his utmost to please and entertain. A magnificent scenic investiture, enhanced by wonderful lighting effects, makes the offering a treat for the eye as well as the ear.

Mattie Lockett, "vaudeville's daintiest maid," offers a routine of characters in song and dance. Simmons and Simmons offer a comedy singing and one of the hits of the bill. Their style is snappy and of the "different" sort and their voices are much above the average, while their wardrobe is stunning. The Randow Duo offer acrobatic capers in a novel manner. These boys fill their specialty full of life and daring. A vein of good comedy runs through the photoplays. "Her Stepchildren," a two-reel drama teeming with heart interest. Jack Mulhall, Vera Sison and Charles Perry are featured. "At the Doors of Doom," a drama, two excellent comedies and the Selig-Tribune News, projecting as usual interesting views of

TRAVEL FILMS FOR LYRIC.
Burton Holmes Pictures Will Be Added to Star Programs.

That part of the public which has taken so kindly to motion pictures because they gratify the senses, instruct, entertain and relieve the tension of work and worry, likes to have variety. It has been found that the educational film also appeals and has its supporters.

With this in view the management of the Lyric, at considerable expense, has closed a contract to secure exclusively pictures of the travels of Burton Holmes, recognized as one of the world's greatest travelers, and once a week the "Travel" pictures will be shown as directed by this globe-trotter. They are to begin March 15, and it is assumed that they are far from dull. The first picture will recount Mr. Holmes' remarkable motor trip of the summer of 1915 through the picturesque and interesting districts of New Mexico.

Miss Blanche Sweet is at the Lyric today and tonight in "The Blacklist." Beginning tomorrow for three days, Vance O'Neil will hold the screen in "The Witch." Wednesday and Thursday of the coming week, Miss Florence Rockwell will return in "He Fell in Love With His Wife."

IN THE REALM OF BURLESQUE.

"The Mischief Makers" and "The Americans" Are Coming.

Next week at the Lyceum theater, beginning Sunday afternoon and continuing for four days, with a matinee daily, "The Mischief Makers" will be the attraction. It is one of the regular burlesque attractions with music and comedy.

One of the features of the attraction are the original Aloha twins, two Hawaiian girls, who do the dance of their native country, the famous "Hula Hula." This dance is to the Hawaiian what the tango is to Americans, only it has been handed down from generations and is more or less sacred. The cast of principals is a large and well selected one with such well known entertainers as Rich McAllister, Felix Rush, George Brennan, Phil Jaffie, Margaret Shannon, Mabel Clark, Ruby Lusby and others of equal worth. Great pains have been taken in the selection of the chorus and perhaps higher salaries paid than most road companies in order to secure the cream.

The scenes are taken from famous studies and executed by the leading artists in their line. One novel feature is the extended stage that reaches out over the front rows and enables the patron to become well acquainted with the performer and see them at short range.

"The Americans," Jarney Gerard's neutral burlesques, will be at the Lyceum theater for five days beginning Sunday, March 13. This is one of the

With "The Mischief Makers" at the Lyceum Tomorrow.

In one form or another has a permanent place in the folklore of many Old World countries. In selling up this fascinating tale as a suitable subject for displaying the art and power of Mr. Wardell, Mr. Belasco is reported to have produced a remarkable and altogether unusual play which brings the noted actor before the theater-going public in a role which is entirely different from anything he has heretofore attempted. It is promised, however, that the same sympathetic artistry which was revealed to such admirable advantage in "The Music Master," "The Auctioneer" and "The Return of Peter Grimm," will, in this latest Belasco play, be shown in an equally satisfying light. Instead of the leading role in "Van Der Decken," the company is headed by Edward Johnston and Ben Small.

An added attraction will be Mike and Tom Gibbons, weller and light-welter weight champions of the world.

Oliver Morosco's production of "Peg o' My Heart," America's most popular comedy, will be seen at the Lyceum theater the week of April 2. For the interpretation of "Peg o' My Heart," Mr. Morosco has selected cast from the numerous companies which played the piece in America and Europe. In the title role, however, he is sending

his premier "Peg," Florence Martin, who played the part for a year in Boston and five months in Philadelphia. She has also had supplementary engagements in New York city from time to time. Miss Martin's supporting cast will be made up, in part, from the players who appeared with her during the memorable Boston run.

"It Pays to Advertise," which Cohan and Harris will bring to the Lyceum theater Sunday, April 16, for four nights and Wednesday matinee, is a rip-roaring farce as ever rocked the sides of its auditors in heavy mirth. Rodney Martin is the son of a soap trust magnate. He fills the bill well, for he is very clean looking and has never had a stroke of work. About the time his dad is getting ready to throw him out for not working, he falls in with a press agent christened Ambrose Deale, who has a most astounding knowledge of the psychology of advertising for a man who has not taken the course in extension. He overwheals Rodney with statistics. "Why do you eat hen's eggs instead of duck's eggs?" he asks. "Hen's eggs are no better than duck's eggs. But when a hen lays an egg she sets up an awful racket and everybody knows about it. But when a duck lays an

egg she is silent and everybody knows about it."

See you never know it. Advertising, my boy, advertising.

After several amusing complications they form a partnership and decide to go in the soap business to fight the trust, which is controlled by Rodney's father. "Thirteen Soap," "Valucky for Dirt" is the name of their brand, and they advertise it all over. At the end of a month they are out about \$20,000 and no one has bought any of their soap. Their campaign was framed with the idea of forcing old man Martin, the soap king, to buy them out. But he is an old fox and does not fall. Just as they seemed doomed to failure their soap begins to "pull" and they get several big orders. However, they have no stock and no way of manufacturing any, so they are forced to buy it from the trust. And the trust refuses to sell. Complications follow fast, but not too fast for the authors to unravel them.

Lyman T. Howe's Travel Festival will come to the Lyceum theater the week of April 30.

FAMOUS FRENCH STORY AT SUNBEAM

Sunday will bring to the New Sunbeam one of the most entertaining stories shown in photoplay. This is Pasquall's famous tale of "The Two Sergeants," which tells of a friendship and self-sacrifice seldom equaled in literature. The picture is presented by the World Film corporation and has the same all-star cast that played in "Cabiria." The photoplay is said to be excellent, and many scenes of rare beauty are shown.

In addition Charley Chaplin will be seen in "Shanghai," one of his Essanay master comedies. New interest has been aroused in Chaplin since he signed a contract with the Mutual Film

corporation to play during the next year for \$500,000. This has been announced by the president of the Mutual Film corporation, and Chaplin has already received a check for \$150,000 to clinch the contract.

On Monday and Tuesday famous vaudeville artists will be shown in pictures, and Harry Watson with "The Mischaps of Musty Suffer." This series of comedies is in ten whistles, and the next number will be the third whistle.

Henry Walthall and Edna Mayo will be seen again Wednesday and Thursday in "The Strange Case of Mary Page." The mystery of the story is, "Who was the murderer of James Pollock? Each number will give a clue. The Sunbeam is unable to seat the large crowds coming to see this picture, and its popularity is increasing. On Friday and Saturday Fred Mason will be starred in "What Happened to Jones," one of the cleverest comedies ever seen at the Sunbeam.

Victor Morley in Vaudeville.
Victor Morley, well known to Duluthians from his numerous visits here, the first of which was as star of "The Twins," company is now in vaudeville. He is headlining Orpheum circuit bills with a one-act comedy called "A Regular Army Man," and has recently been in the Twin Cities, where some of his Duluth friends saw his act, which they praised most highly.

Mr. Morley has recently become a benefactor, having been married to Miss Carolyn Elizabeth Parson at Oakland, Cal. They will reside in New York.

At the conclusion of his present engagement in "Justice" which is to be seen in New York within a fortnight, Rupert Harvey will return to England and join the colors.

Miss Frankfield appeared for a short time with the Baldwin players

last summer at the Lyceum and later played character roles for several Broadway successes.

In this excellent feature Miss Frankfield has the role of Mrs. Jinks, the mother of the hero. Ann Murdock and Richard Travis have the other leading roles.

"One of the contradictions of life," laments Helen Evly in a philosophical mood. "Is that before a girl is married she is looking for a husband and after she has been married a year or so she is still looking for her husband."

Rosamond Carpenter, a young emotional actress, who has won distinction in her chosen field, promises to be the next exportation from this country to the artistic colony abroad. She has been invited to pack her trunk and make use of an American passport for a foreign country. She hesitates, however.

John P. Campbell, who directs the destinies of the Irish theater of America, completes his first appearance in motion pictures this week, and the elaborate feature in which he plays a leading part will be released within a fortnight.

Gareth Hughes, now playing with Elsie Ferguson at the New Amsterdam theater, has been invited to play Oswald in a special production of Ibsen's "Ghosts" early in the spring. This young actor is in great demand for regular as well as special productions, having recently played brilliantly in Strindberg's "East" in New York.

FREEDOM IS SHORT LIVED

Grand Jury Indicts George Chobotar, Released By Municipal Judge.

March grand jurors disagreed with Municipal Judge W. H. Smallwood on the case of George Chobotar, \$5,000,000 charge with a brutal assault upon a crippled widow.

On Feb. 28, when Chobotar was brought into municipal court for a preliminary hearing, Judge Smallwood refused to bind him over and ordered his release.

County Attorney J. Greene, however, presented the same evidence to the March grand jury and three secret indictments were returned against Chobotar. Two of the counts charge assault in the second degree and the third extortion.

Yesterday afternoon Chobotar was arrested on a bench warrant signed by Judge Cant's division of the district court, where he entered a plea of not guilty to each of the three indictments against him.

One indictment returned against Chobotar charges that on Jan. 27 last he attacked Mrs. Abbie Reon, aged

eight months. Chobotar was formerly employed by Mr. Reon and after the latter's death, he stayed to help with the work.

According to the story told in municipal court by Mrs. Reon, she was driven out into the snow, where she stumbled and fell. Fingers on both of her hands were frozen before George Johnson, a neighbor, rescued her.

The third indictment charges that on Feb. 13, 1916, Chobotar compelled her to sign an order for \$200 on M. R. Bush, Lakeside grocer, who holds some money in trust for the aged widow.

She claims that he threatened to blow her brains out if she refused. Terrified by the threats, she made out the order. When Chobotar came to Duluth to get the money, he was placed under arrest.

HERALD'S WEEKLY ROADS BUREAU AND BULLETIN

Distribution of \$1,500,000 from the state road and bridge fund to the thirty-six Minnesota counties was the chief business of the state highway commission when it met at its offices in St. Paul last Wednesday.

Delegations were on hand from a number of counties to ask liberal allowances from the fund, the largest ever handled by the state. No county may receive more than 3 per cent of the fund. Hennepin, St. Louis and Ramsey counties each received \$35,000. Most of the delegations urged support for the various trunk line highway propositions. Road enthusiasts from Steele, Rice and Dakota counties requested large allowances to aid the counties on their segments of the Jefferson highway.

Delegations from Scott, Le Sueur, Nicollet, Blue Earth and Brown counties asked liberal treatment for the Minnesota Valley scenic highway. Completion of the Lake Superior highway through Pine and Chisago counties was urged by delegations from those counties and also from the automobile clubs of Duluth and St. Paul. Henry J. Mullin, vice president of the local automobile club, was present as its representative.

Winona county received the next largest allotment, \$30,000. The money was given the county because it is doing about \$500,000 worth of road work this year.

Itasca received \$27,000; Blue Earth, \$25,000; and Beltrami county, \$25,000. Cass county was given \$22,500 and Dakota county \$22,000. Among the other counties receiving more than the minimum allotment of \$15,000 were the following:

Stearns, \$21,000; Pine, \$21,000; Polk, \$20,000; Koochiching, \$19,000; Olmsted, \$18,000; Aitkin, \$17,500; Carlton, \$17,000; Lyon, \$17,000; Anoka, \$17,000; Morrison, \$17,000; Mower, \$17,000; Kenyon, \$17,000; Otter Tail, \$20,000; Yellow Medicine, \$17,000; Rice, \$17,000; Redwood, \$17,000; and Washington, \$17,500.

Approximately \$250,000,000 was spent in the United States last year for road construction, with the resultant increase in land values throughout the country of from 100 to 400 per cent, according to statistics recently compiled by a number of automobile manufacturers. It is estimated that if an equal amount of money is put into road construction during the next ten years, the United States will be able to boast of more than half a million miles of good roads, representing a cost of \$2,500,000,000, and an appor-

All the information at our disposal is yours for the asking. Motorists outside of Minnesota are especially invited to make use of this department.

St. Louis, Mo.—The \$3,000,000 bond issue for good roads in St. Louis county having been passed at a special election by the overwhelming vote of 12,706 to 2,130, it is announced that work on the roads would be started within ninety days. From that time on an average \$600,000 a year will be expended on roads for the next five years. Several road boosting organizations carried on vigorous campaigns in favor of the issue.

Columbus, Ohio.—The annual report of the state highway department, just filed with Governor Willis by Commissioner Clinton Coven, shows that the department had under its supervision during the year 1915, 843 miles of road building, the contract price for which was \$10,514,797.67. Of this mileage 226 miles were of brick construction, 159 concrete and 448 macadam. Besides this there was ten miles of grading.

Tampa, Fla., March 11.—Plans are being made for the building of another big highway in this state, the new road being a link between Tampa and Miami and wearing the poetic name of Tamiami trail. This route will cross the Everglades, thus giving tourists an opportunity to see one of the most interesting sections of Florida.

Resolutions favoring legislation to minimize the danger from unprotected railroad and interurban crossings in Wisconsin were adopted at the annual meeting of the Wisconsin State Automobile association, held in Milwaukee.

The United States Good Roads association, at its annual meeting in Birmingham, Ala., endorsed the Federal highway bill, introduced in congress by its president, Senator Bankhead.

Nearly forty miles of improved highways will be completed in Elkhart county, Ind., at a cost of almost \$350,000 this year, and other petitions which are now pending action by the county commissioners may bring the

total expenditure for roads up to half a million dollars.

A party of good roads scouts from the Birmingham Motor and Country Club, Birmingham, Ala., are making road maps of all the roads in Alabama which lead to Birmingham.

PICKED UP ON "HIGH" Being a Compilation of Happenings the Last Week Among Local Automobile Dealers and Motorists.

The B. F. Goodrich Rubber company of Akron, Ohio, this week opened up a Duluth branch at 401 East Superior street, with Robert G. Ray in charge.

Mr. Ray was manager of the tire branch at St. Paul and is well known among local automobile and supply men. The local branch will serve as a stock depot for dealers and will carry everything in the Goodrich line. R. M. Miller of Minneapolis, who has been calling on Duluth trade for the last year, will continue in that capacity, making the local branch his headquarters in the future.

A feature of the Goodrich branch will be the touring bureau for the benefit of motorists, who are planning cross-country trips. Maps and guides for all roads leading out of Duluth will be at the service of motorists free of charge, Mr. Ray announced.

Another automobile agency has been established in Duluth.

Theodore E. Furlund announced this week that he has taken over the local agency for the Hupmobile and that Charles Hopping of San Francisco has arrived to take charge of the sales department. Mr. Hopping sold the Hup car on the coast and comes well recommended to this city.

SEEK FOURTH DIMENSION
Olds Company Puzzled By Telegram
From Island.

Lansing, Mich., March 11.—The fourth dimension, so long the vain pursuit of erudite mathematicians, is once more being sought with frantic energy by engineers of the Olds Motor works, since the receipt of the following from an island off the coast of South America:

"Gentlemen: Kindly send your best terms for some light cars—a two-seater to seat three, a three-seater to seat four, and a four-seater to seat five." Experts in the calculus and other forms of higher mathematics are invited to send in solutions to the problem.

Big Truck Business.
Washington, March 11.—It has been ascertained by the war department that in the period between August, 1914, and December, 1915, about 24,000 commercial trucks, valued at \$4,250,000 were exported for use by foreign armies.

GYPSIES LIKE THE BUICK.
Will Ride From Indianapolis to Pacific Coast in Palatial Style.

Long before the first robin dares set foot on northern soil, John Floris, a South American gypsy, and band of co-workers, living in a small cottage in West Twenty-fifth street, Indianapolis, will have started for the Pacific slope over the old National road in a motor-propelled palace that will make the main ticket wagon of the Barnum & Bailey circus look like a country hotel bus.

This resplendent domicile is built on a Buick D-4 one-ton truck chassis, which is equipped with a Buick valve-in-head, 37-horse power motor, and built expressly for Mr. Floris. It is the first car of the kind ever turned out in this country, for indeed the genial and progressive Mr. Floris is the first of his kind to discard the horse for the motor car. While this nomadic vehicle is not equipped with quite all of the conveniences of the modern apartment, it has all the latest motor appliances and will be far and away ahead of anything in gypsy rolling stock that will hit the road in spring.

DISCUSSES TREND OF AUTO DESIGN

A Ludlow Clayden, chairman of the standards committee of the Society of Automobile Engineers, in a paper on "Trend and Possibilities of Automobile Design," read before the recent joint meeting of the society, gives the following definitions of the ideal car:

"The ideal car should have two pedals and a steering wheel. When power is wanted for starting, for speed, or for hill climbing, press the power pedal."

MICHIGAN LEADS STATES WITH EIGHTY-SIX FACTORIES OUT OF 448

Where do all the automobiles come from? A late census of the industry shows there are 448 motor factories in the United States. These are distributed through thirty-four states. Michigan leads in the number of factories, with 86. New York is second with 60. Ohio comes third with 52; Illinois fourth, 47, with Indiana only two behind. The spread of the industry is indicated by the number of states in the West and South that have recently appeared on the auto map with one factory to their credit. Among the states credited with one factory are Georgia, Louisiana, North Carolina, Virginia, Texas, Nebraska, South Dakota, Utah and Oklahoma. Following are late statistics regarding this phase of the industry:

Passenger car manufacturers.....	236
Commercial vehicle manufacturers.....	257
Total manufacturers of passenger and commercial cars.....	493
Dealers, garages, repair shops and supply stores.....	27,700
States in which automobile factories are located.....	34
Proportion motor vehicles to population of United States.....	1 to 48
Mileage public roads in United States.....	2,273,000
Proportion of motor vehicles to miles of road, nearly.....	1 to 1

at when it is desired to stop, press the retarding pedal.

"At all speeds there should be no vibration and no sound."

"Over all roads the car should roll without shock at any speed."

"Its operation and maintenance should require no mechanical knowledge."

"It should cost little to buy, and less to run."

"If that is truly the ideal, are we not indeed a long way from satisfying it utterly?"

"The automobile of the type we know is a wonderfully perfect machine, like the typewriter or the telephone; but like both it is marvellously imperfect, in that it is an immense

QUICK SALE TO ACTOR.

Kissel Salesman Sells Car to Fiske O'Hara in Fifteen Minutes.

Fifteen minutes was the length of time consumed by a Kissel salesman in Baltimore to sell an "all-year" car to Fiske O'Hara, the famous Irish singer and actor.

Mr. O'Hara, with Mrs. O'Hara, came into the salesroom and after asking one or two questions, counted out the price in \$100 bills and drove the car away. He explained that he had been

looking at cars all winter and had made up his mind some time ago that a Kissel car would suit him best.

AD SPACE IS INCREASING

Growth in Auto Publicity in Newspapers Sets Record, Says Kissel.

Results Obtained Have Changed Opinion of Manufacturers.

"The record-breaking 1915 increase in the use of newspaper space by automobile manufacturers was flattering to the intelligence of the industry, as well as complimentary to the power of the press," says President George A. Kissel of the Kissel car.

"The growth of automobile newspaper advertising has been a very interesting development. In the early days of the motor car, the very idea of exploiting a highly priced article in the newspapers was regarded by the makers as little short of irrational. We then used the national magazines almost exclusively."

"But what a change! Gradually, by persistent work, the first car was made and they fared so well in results that others followed rapidly. I doubt if there is a single automobile manufacturer today who disbelieves in newspaper advertising, while most of them are enthusiastic on the subject."

"Statistics before me show gains of anywhere from 75,000 to 250,000 lines in the display automobile advertising of the leading newspapers of the United States in 1915 over 1914. And unless all signs fail, there is going to be another wonderful advance in 1916 over the present record."

HENRY G. DAVIS PASSES AWAY

Former U. S. Senator From West Virginia Dead at 93.

Was Candidate for Vice President With Parker in 1904.

Washington, March 11.—Henry Gassaway Davis, former United States senator from West Virginia and presidential candidate on the Democratic ticket in 1904, died here early today after a brief illness, aged 93 years.

Mr. Davis died at the home of his daughter, Mrs. Stephen B. Elkins, widow of the late senator from West Virginia. The primary cause of death was grip. The former senator was stricken about two weeks ago, and owing to his advanced age, was unable to withstand the attack.

Mr. Davis was born in Baltimore in 1823. He was prominently identified with railroad construction and coal and banking interests of West Virginia. He was elected to the United States senate in 1897 and retired in 1903, having declined a re-election. Mr. Davis was also a delegate to six Democratic national conventions and a member of the permanent pan-American railway commission.

Senator Henry Gassaway Davis was one of the most prominent political figures of the American progress for more than three-quarters of a century.

He was the "old-fashioned gentleman" in the senate. His utterances were those of the old Jeffersonian days. "Liberty and free government have always been secured at the cost of great sacrifices," he said on one occasion. "But history teaches us that both can be easily lost without the knowledge of the people."

Senator Davis' active political career began the year after the Civil war. He was elected a member of the house of delegates of the new state of West Virginia, and next served as state senator.

West Virginia sent him to the United States senate as its first Democratic representative in 1871. He served two terms with distinction. He ceaselessly urged congress to help the farmers by establishing an agricultural department. His own bills failed in passing, but he lived to see the day when his far-sightedness was recognized.

Two years after he had retired voluntarily from the senate, he was urged to become candidate for vice president of the United States. He declined. He accepted the nomination, however, as running mate with Alton B. Parker and thus became the oldest candidate, aged 81, ever selected for the office.

Champion of Liberty. The venerable senator was not only a Democrat in politics, but he was a Democrat in nature. He was the champion of liberty.

"Imperialism is a hurtful and abhorrent in a free government," he declared when accepting the nomination for vice president at St. Louis in 1904. "The policy of imperialism is always dangerous to liberty."

The great strength of Senator Davis, estimated at \$30,000,000, was acquired by his far-sightedness and his ability to take advantage of opportunities. He was the eldest of five children, and at an early age, on his father's death, became the bread-winner of the family. At 19 years of age he was a farm hand. He passed and won the lot of the nearest station and waited for sunrise.

"It is a waste of time," insisted young Davis, who was then master of transportation. He started the veteran operators by sending out the first night train between Baltimore and Cumberland. It marked a new epoch in railroad history.

Davis increased his wealth and fame rapidly. As a merchant, he made a small fortune. Then as a landholder in West Virginia he came into possession of coal lands which were destined to make him a prince of wealth.

Two towns in West Virginia owe their existence and prosperity to his multi-millionaire statesman. One bears his name, Davis, and the other the name of his son-in-law, Alton B. Parker.

In the latter city stand many memorials, hospitals, schools, children's homes and churches, commemorative of his generosity.

CENTRAL TEAM LOSES DEBATE

Minneapolis East High Gets Decision—Is Not Unanimous.

The Minneapolis East high school debating team, by a two to one vote, was last night awarded the decision over the local Central high school debaters in one of the most interesting contests ever held in this city. The debate was on the question, "Resolved, That the Army and Navy of the United States Should Be Materially Increased."

The winning team, composed of Howard Hall, Leonard Kees and Victor Horn, while the local trio was made up of Jacob Garon, Emanuel Cook and Max Goldberg. The judges were Supt. C. E. Compton of Two Harbors, Supt. Peter Olesen of Cloquet and Prof. E. Williams of the Superior normal.

GREAT BRITAIN ADJUSTS MEAT PACKERS' CLAIMS

Washington, March 11.—From unofficial, but reliable sources, it was learned yesterday that the long standing case of the American packers, involving the detention by the British government of large quantities of meat products shipped from the United States to the neutral countries of Northern Europe, has been adjusted.

While details of the settlement are lacking, it is known the British government has undertaken to secure the exporters against loss by a system of long-time contracts.

Estimates of the value of cargoes seized by the British government are detailed on the ground that they were destined to Germany or Austria, aggregate from \$1,000,000 to \$2,000,000 and for many months the packers have been conducting negotiations directly with the British government to secure reimbursement.

You Know the Worth of This Paige

Here is the Paige Fleetwood "Six-38". It is the five-passenger Paige—and its price is \$1050. The beauty, the luxury, the elegance of the upholstery you can see for yourself.

The POWER, the flexibility, the buoyancy and liveliness of this motor will amaze and thrill you when you ride in this luxurious five-passenger car.

So, first consider the car. Then consider the name, the prestige, the guarantee, the national supremacy of the Company back of the car.

You KNOW that there are no new, radical unproved engineering theories in Paige Cars. You KNOW that Paige refuses to market an experiment.

You KNOW that, being a Paige, this Fleetwood "Six-38" is just as sound, just as supreme in

value and quality as the Fairfield "Six-46" (\$1295) which is admittedly without a superior in the Light Six field.

You KNOW that Paige is best and, therefore, the safest, soundest, sanest investment.

The cost of labor and materials is constantly increasing. But Paige flatly refuses to compromise Paige Quality.

Of one thing you can be certain. The price of the Fleetwood will never be less than \$1050 and the price of the Fairfield will never be less than \$1295. But we cannot undertake to guarantee against an advance. Therefore, for your own protection we urge you to buy your Paige NOW.

Five-passenger Fleetwood "Six-38"—\$1050.

Seven-passenger Fairfield "Six-46"—\$1295.

The contest for the honor of being delegates to the national Democratic convention at St. Louis next June has been looked upon, up to within a few days ago, as being more of a factional fight—a result of personal jealousy—than anything else. But, with that still regarded as the original cause, rumors have been bruited about which have given the contest a more serious aspect.

It may be, at bottom and in the final analysis, also, a case of Wilson vs. Wilson-vener.

On the surface, the two batches of candidates are for President Wilson's renomination. That the candidates recommended by the state conference held in St. Paul on Feb. 3 are for the president out and out and have received explicit instructions not only to vote for him, but to vote as a unit with no

second choice provided, is a matter of record.

But with the so-called anti-Lynch delegates, doubt has arisen. They say, "Oh, of course, we're for Wilson. Within the last week communications from anti-Lynch adherents have been printed, and the story has otherwise gained circulation, that while the anti-Lynch men are ostensibly for the president, they are not wholeheartedly so, and are ready to break away with little or no inducement. Just why, is not made clear, except that they might take it as a means of splitting the regulars.

Fight Becomes More Serious

For this reason, the fight for success at the presidential primary on Tuesday has become more vigorous among the men who believe that the 1,200 delegates who gathered in conference in St. Paul last month represent the sentiment of the Democracy of the state; for, aside from the desire to prevent the minority from winning, they wish to take no chances on Minnesota being for the president as firmly as her delegation proved itself at the Baltimore convention.

Four men who helped nominate President Wilson at Baltimore seek to go to the convention which will renominate him. They are: A. C. Weiss of Duluth, publisher of The Herald, who is a candidate for the position of delegate-at-large; John B. Galarneau of Aitkin, in the Sixth district; M. J. Daly of Perham, in the Ninth district; and James F. Williamson of Minneapolis, in the Tenth district.

Are Wilson Supporters

All of these men stood stalwartly by Mr. Wilson in the Baltimore convention and, not content with merely voting for him and helping hold the Minnesota delegation in line, got out and worked for him on the floor of the convention with others from other states who were wavering, and with still others, to bring them over. They contributed in no small way to his nomination four years ago; and wish to show that they feel that their choice has received the commendation of the Democracy of the state, by standing for election to the delegation again.

The case of James F. Williamson of Minneapolis is one where more than party fealty and more than the ordinary admiration for President Wilson rules. Mr. Williamson was a classmate of President Wilson at Princeton. They were chums there as students, and have been lifelong friends since then.

Keen Personal Interest

That Mr. Williamson followed with the keenest personal interest the career of Mr. Wilson from the time that he entered politics in New Jersey up to the present, is well known among his personal friends, and he is particularly eager to go to the St. Louis convention as a delegate from his home district, the Tenth, to do what he can for the renomination of his friend.

Stops Tobacco Habit in One Day

Sanitarium Publishes Free Book Showing How Tobacco Habit Can Be Banished in From One to Five Days at Home.

The Elders Sanitarium, located at 663 Main St., St. Joseph, Mo., has published a free book showing the deadly effect of the tobacco habit, and how it can be banished in from one to five days at home.

Men who have used tobacco for more than fifty years have tried this method and say it is entirely successful, and in addition to banishing the desire for tobacco has improved their health wonderfully. This method banishes the desire for tobacco, no matter whether it is smoking, chewing, cigarettes or snuff dipping.

As this book is being distributed free, anyone wanting a copy should send their name and address at once.

Primaries on Tuesday

Supporters of New System Are Working for Big Vote.

Choice of National Delegates No Longer Left to Bosses.

Those who have been interested in developing the primary system of choosing candidates for public office, are urging that voters, regardless of party affiliation, get out next Tuesday and vote at the first presidential primary the state has ever held.

Minnesota is one of the pioneer states of the union in the development of primaries, and was one of the first to offer voters the opportunity to choose delegates to the national conventions of the various parties by popular vote, taking this matter out of the hands of the politicians and boss-controlled, ring-ridden conventions.

The old-time politicians are much opposed to the primary system, and would like to see it killed off. It would be mighty pleasing to them should the vote next Tuesday be light, showing a lack of interest among the voters.

May Pick Their Leaders

In this primary election of Tuesday, the voters will have an opportunity to express their preference among the candidates for the presidency in the party with which they are affiliated. Each voter will have the right to vote for four delegates-at-large of his party and for two district delegates.

So far as the vote cast for the candidates for delegates is concerned, it will do him only an honor of recognition as a public leader; but even in this choice is important, for the recognition of the voters as to leadership is something worth obtaining, and it might be well for the man who is about to cast his vote to consider well whom he would like to so recognize from among those whose names are in voting.

One may indicate his preference for the presidency, so far as the nomination is concerned, in the party to which he hitches his wagon, and his secondary privilege is to vote

for the delegates whom he wishes to have represent the party at the national gathering.

Democratic Situation

In the Democratic party, there is just one choice for the presidency; and, anyway, that is the condition the nation over, for President Wilson's opinion, if there be any with the temerity to oppose him, has not yet developed anywhere. The choice of candidates for the delegation endorsed by the St. Paul conference of the party, Feb. 3, are known absolutely to be for the president, while the opposition is not known certainly to be so inclined.

In the Republican party there is a split. So far as the Cummins-labeled men are concerned, there are those who say that many of them are not Cummins men, but, bearing the label, nobody dares charge them openly and conclusively with being otherwise, so it is a case of grab your ballot and take your choice.

The St. Paul crowd also has a tickler in the field, and in view of the fact that Candidate Estabrook spoke in Duluth this week, there may be a disposition among Duluthians who heard him to vote for him.

Favored by Cummins Men

On the Cummins ticket, it is understood that the delegates at large who were elected Tuesday are O. J. Larson of Duluth, Former Congressman Fred C. Stevens of St. Paul, Former Governor S. R. Sant and J. F. Jacobson of Madison.

The Progressives will have no ticket before the voters on Tuesday. In view of the fact that Hiram W. Johnson, who was named as presidential candidate, requested the secretary of state to have his name taken from the ballot, which was done, and as there was no opposition, the secretary of the Progressive candidates for the delegation to the Chicago convention, to the convention authorities and let it go at that.

Progressive Delegation

The delegates-at-large of the Progressive party and those from the Eighth and Ninth districts—these being Duluth territory—are as follows:

At large—P. G. Jacobson of Madison and Milton D. Parry of Minneapolis; Eighth district—A. B. Stewart of Duluth and John C. Lewis of Nashua; Ninth—Fred L. Farley of Red Lake Falls and William A. Marin of Crookston.

The Sixth district, also in Duluth territory, seems barren of Progressive delegates.

WILL NOT AGREE TO DISARMAMENT

Washington, March 11.—The Entente allies have agreed to inform the United States that they cannot accept the proposal in Secretary Lansing's recent circular memorandum that a modus vivendi be entered into for the disarmament of belligerent merchant ships. Conferences between the allies on this subject have ended in a deadlock, and the American suggestion are expected in the near future.

Advices to the effect that the United States does not question the right under international law of merchantmen to arm for defense. Disarmament by agreement as proposed, purely is a humanitarian expedient on account of the development of submarine warfare. Without such an agreement the law stands as it always has and it was in recognition of this principle that the United States informed Germany that her announced intention of sinking armed merchant ships without warning was inconsistent with assurances previously given in the Lusitania and Arabic cases.

In their reply to the United States, the allies will express appreciation of the motives which moved the United States government in the interest of humanity to endeavor to remove the dangers to the lives of non-combatants. But they will express the view that the proposition to voluntarily surrender the right of a merchant ship to carry arms for her own defense, would result in a change in the principle of international law itself instead of being, as viewed by the allies, a mere tactical change in the application of the law, or the rules framed under the law.

Wolves Kill Badger Stock

Brantwood, Wis., March 11.—Wolves are becoming numerous in various sections in Price county. In some instances, they are killing farm stock. This is especially true near the town of Phillips. Brantwood and Emery are among the places where the most impossible for the deer to run in the event the wolves catch them.

CLUBS AND MUSICAL Activities of Week in Women's Clubs and Musical Circles

Executive Board of Twentieth Century Club Holds Last Meeting--Study Class of Matinee Musicale Will Meet Tuesday--Meeting Dates for Federated Clubs Announced.

HAT the end of the club season is close at hand is shown by the plans several sections of prominent organizations are making for their last meetings.

The executive board of the Twentieth Century club held its last meeting Thursday, when a nominating committee was appointed. The committee, which will report at the annual meeting, to be held March 27, is composed of Mrs. H. P. Bjorge, Mrs. John H. Norton, Mrs. M. Cook, Miss Grace Colby and Mrs. J. T. Culbertson. Most of the departments will finish their schedule of programs by the last of this month, but the West Duluth study class, which meets only once a month, will have an April meeting.

Matinee Musicale.
The Study Class of the Matinee Musicale will hold its last meeting Tuesday, but the regular season of the club will not end until March 21, when "Undine" will be given.

At the meeting of the presidents of the local clubs belonging to the state federation, which was held yesterday, it was decided to arrange for a morning program for children and a night program for adults, which will be given by Mrs. Adeline Maran, April 15. The proceeds will be turned over to the endowment fund of the Minnesota Federation of Women's Clubs.

Mrs. Liggett, who gave several programs of readings for children here in the fall, has met with great success in Chicago and the Twin Cities, where both children and grown persons were equally interested.

Dates for Federated Clubs.
Of interest to all the federated club women of the state is the announcement of the dates of the meeting of the Minnesota Federation of Women's Clubs, which will be held at Anoka from Monday, Sept. 18, to Thursday, Sept. 21, inclusive.

The convention board of Anoka hoped to have the convention one week earlier, but found it impossible to receive the official approval of Mrs. William T. Coe of Wauzata, the state president.

The club local affairs of this week included an interesting talk by Mrs. Charles D. Coburn of "The Yellow Jacket" company on the Chinese theater, and a reading by Mrs. Otto Johnson and Mrs. F. G. Sandstrom.

Temple Aid Society.
The regular meeting of the Temple Emanuel Aid society will be held Tuesday, March 14. A musical program will be given by the orchestra quartet will play the following:

A. Andante Impassionata, Rubenstein; B. Scherzo, Schumann; C. Scherzo, Schumann; D. Scherzo, Schumann; E. Scherzo, Schumann; F. Scherzo, Schumann; G. Scherzo, Schumann; H. Scherzo, Schumann; I. Executive Board of Twentieth Century Club Holds Last Meeting--Study Class of Matinee Musicale Will Meet Tuesday--Meeting Dates for Federated Clubs Announced.

HAT the end of the club season is close at hand is shown by the plans several sections of prominent organizations are making for their last meetings.

The executive board of the Twentieth Century club held its last meeting Thursday, when a nominating committee was appointed. The committee, which will report at the annual meeting, to be held March 27, is composed of Mrs. H. P. Bjorge, Mrs. John H. Norton, Mrs. M. Cook, Miss Grace Colby and Mrs. J. T. Culbertson. Most of the departments will finish their schedule of programs by the last of this month, but the West Duluth study class, which meets only once a month, will have an April meeting.

Matinee Musicale.
The Study Class of the Matinee Musicale will hold its last meeting Tuesday, but the regular season of the club will not end until March 21, when "Undine" will be given.

At the meeting of the presidents of the local clubs belonging to the state federation, which was held yesterday, it was decided to arrange for a morning program for children and a night program for adults, which will be given by Mrs. Adeline Maran, April 15. The proceeds will be turned over to the endowment fund of the Minnesota Federation of Women's Clubs.

Mrs. Liggett, who gave several programs of readings for children here in the fall, has met with great success in Chicago and the Twin Cities, where both children and grown persons were equally interested.

Dates for Federated Clubs.
Of interest to all the federated club women of the state is the announcement of the dates of the meeting of the Minnesota Federation of Women's Clubs, which will be held at Anoka from Monday, Sept. 18, to Thursday, Sept. 21, inclusive.

The convention board of Anoka hoped to have the convention one week earlier, but found it impossible to receive the official approval of Mrs. William T. Coe of Wauzata, the state president.

The club local affairs of this week included an interesting talk by Mrs. Charles D. Coburn of "The Yellow Jacket" company on the Chinese theater, and a reading by Mrs. Otto Johnson and Mrs. F. G. Sandstrom.

Temple Aid Society.
The regular meeting of the Temple Emanuel Aid society will be held Tuesday, March 14. A musical program will be given by the orchestra quartet will play the following:

A. Andante Impassionata, Rubenstein; B. Scherzo, Schumann; C. Scherzo, Schumann; D. Scherzo, Schumann; E. Scherzo, Schumann; F. Scherzo, Schumann; G. Scherzo, Schumann; H. Scherzo, Schumann; I. New York Orchestra Need Not Worry About Its Finances

The New York Symphony orchestra, which will play here March 23 under the direction of Walter Damrosch, has little to worry it in the financial line, having a yearly endowment of \$100,000.

Walter Damrosch, conductor of the orchestra, says in this regard:

"Boston owes its splendid symphony orchestra to the enthusiasm of Col. Higginson, who as a young man became an ardent student of music, and later, after becoming one of the great bankers of this country, decided to found and endow a model orchestra. He was aided by Harry Harkness Flagg, a highly gifted and accomplished musical amateur, endowed the orchestra of the Symphony Society of New York with an income of \$100,000 a year. "When Mr. Flagg made his promise that he would meet whatever deficit might arise in what men of business would call the operations of the New York Symphony orchestra, he gave also to the conductor the two most precious gifts that an executive artist may receive—a free hand and a purse for all his needs. They are significant examples of gifts to the conductor of an orchestra; since, blessed with these gifts, the conductor has the finest incentives prompt him, rehearse the chosen music to the utmost, and in all these things the conductor has the reasonable thought of the financial endowment of the orchestra. The conductor has no other financial incentive."

Walter Damrosch, conductor of the orchestra, says in this regard:

THE HOME PERFECT

Would you be interested in the most perfectly appointed home, a home you may feel proud to call your own?
In the above house you will find all you desire, but let us go in. The entrance porch, more commonly used, is the one on the side of the building. Its brick paved floor snugly fits the house with an air of restful repose. A large massive fumed oak door meets your gaze as you step upon the porch. This is to simply prepare your mind for the surprises beyond. The next attractively arranged reception hall is the first room you enter. From this hall opens the living room. Rest awhile in the quiet gentility of this commodious room. Nothing is obtrusive. A large open hearth fireplace gives warmth to the room and enjoyment to the family during Duluth's chilly spring evenings.
The dining room, as well as the living room, look out upon the formal garden which is placed in the front of the house, reached by the novel doorway

leading from the living room onto a brick paved terrace. This gives to the two most important rooms in the house unobstructed sunlight throughout the day.
The well arranged kitchen and rear service is the point in mind in this section of the building.
Four light, cheerful bedrooms greet the visitor as he arrives at the head of the attractive stairway leading to the second floor. Note the absence of any waste room, this is only secured by architects who put their whole soul into their work. Every home designed by us must be perfect—no matter how much time we spend to reach this goal and in the above home we have endeavored to give an idea of what can be secured in the way of a livable, cheerful and attractive house in which the rooms are not permitted to spill into each other in crude American fashion.
This building can be erected in the city of Duluth for the sum of \$6,400.

Prosperity! Prosperity Everywhere!

It has struck Duluth to stay. What's the use of paying rent? If your landlord can afford to own a home to rent to you, then it stands to reason that you can own as good or better home at the same or less cost. He pays upkeep and taxes on your money and makes a profit. Get a lot and build a home. Do it now. Sit by your own fireside. We'll make you a loan covering one-half of the cost of house and lot for a term of five years at lowest rate of interest. We have several lots on which we will build to suit you. We make a specialty of loans on improved Duluth property.

LESTER PARK WANTS SCHOOL

Demands Preliminary Action for Adequate Building and Gets It.

Board Orders Committee to Make Early Report—Other Business.

Twenty-five residents of Lester Park, representing the various organizations in that end of the city, appeared before the board of education at its regular monthly meeting last evening and made an appeal for the construction of a new schoolhouse.
After several members of the delegation had spoken, the board members voted to refer the matter to the committee on maintenance of schools and grounds, with instructions to report at the earliest possible moment. J. R. McGiffert, vice president, presided in the absence of President Frank Brewer, who is in California, and also appointed C. Francis Colman as an additional member of the committee to temporarily replace Mr. Brewer.
John H. Norton, former county attorney and chairman of the Lester Park delegation, was the first speaker. He pointed out that the present Lester Park school is a wooden structure, was erected more than twenty-five years

ago and that it has served its usefulness. "The building," he said, "is inadequate in that there is not enough seating capacity for the teachers and pupils. Classes are held in a small store-room, while one of the teachers has a desk in the hall."
"We are not preparing a case," he said, "but we are ready for action. We have waited many years while other sections of the city that had a greater need were served. We come forward, the quarters inadequate, not only for the 150 or 200 children who will be ready to enter the grade school in two years, but for the present enrollment. It will take a year to build the school. We ask the immediate action of the board on the matter."
Others who spoke in behalf of the proposed schoolhouse were: Mrs. David H. Williams and Mrs. W. A. Molander, representing the Lester Park Literary club, and Judge Bert Pesler, Lloyd Williams and John Jensen, Jr., of the Lester Park Improvement club.
More Children Coming.
It was pointed out by the speakers that 150 children will become pupils of the Lester Park school during the next two years, these figures having been obtained by means of a house-to-house census. It was also shown that the postoffice department now makes 150 more calls every day than it did two years ago in that section of the city.
The communication from McBean, Nesbitt & Co., urging the construction of a new Lester Park school, was read by Clerk C. A. Bronson.
Mrs. Mabel W. Spring, president of the Women's association, urged the board members to attend a lecture by C. A. Prosser on "Educational Surveys," at the Commercial club, March 21.
The request of the Denfeld senior class for an extension of the stage was read, and the matter placed in the hands of the committee on buildings and grounds.
The communication from Commissioner Silberstein, urging the installation of automatic sprinkling systems in all schools as a protection for the children in case of fire, was referred to the committee on maintenance with a request that it report by made

when the annual statement is prepared. The report of Treasurer Cobb showed a bank balance of \$129,344.75.

DULUTH SCHOOLS IN FRONT RANK

Duluth's junior high school system, now in the process of installation, will rank with that of any city in the United States when completed, according to Supt. R. E. Denfeld.
"Standardization tests and the junior high school system formed the two principal topics for discussion at the annual convention of school superintendents at Detroit, Mich., beginning Feb. 21," Mr. Denfeld told directors of the board of education last night at their first meeting since his return from Detroit.
"The statements made and the arguments advanced on these subjects," he said, "show that Duluth is not behind in its educational work. I am satisfied, after hearing arguments pro and con for the junior high school, and visiting the Detroit school buildings planned for such schools, and examining the course of study, that our buildings and our course of study are better than any I have seen in Detroit."
I am going to buy a Reo.

UNIQUE PROGRAM BEING PREPARED

Street Car Employees Will Give "Ladies' Night" in Near Future.

Something unique, which members of the committee in charge will not divulge, is to be arranged for the entertainment to be given by the Duluth Street Railway Employees' Athletic association at its "Ladies' night" program to be held in the near future. The date has been set for next Tuesday evening, but owing to preparations being delayed, the date will probably be set for a week or two later.
One of the stunts that will feature the program and which is causing a delay, is a burlesque on street car operation. In order to produce the comedy, a "dinky" is being built in the clubrooms. This will probably not be ready for another week.
The musical program is being arranged by young women employees of the company and wives of members. The committee consists of Mrs. A. D. Jones, chairman; Misses Alice McMeekin, Clara Bartholdi, Alice Sullivan, Martha Onsgaard, Winifred Leonard and Edith Halgren.

line to about sixteenth street, which is a junction point of the Hermantown and Hutchinson county roads.
At the meeting last night were Walter A. Swanson, county commissioner; Capt. K. A. Franklin and A. B. Widar, members of the Commercial club committee, and F. M. Mitchell, C. O. Bergstrand and Frank Nordquist, representing the Hillside Improvement club and property owners on Piedmont avenue.

WATER CAUSES DAMAGE AT MILLS

Damage estimated at more than \$2,000 was caused by water from the sprinkler system at the Patrick Woolen mill on Garfield avenue last night. The automatic sprinkler system turned in the alarm, and a fast run to the place was made by Department No. 2 to the fire.
A spark from what is known as a picking machine is believed to have ignited some of the woollens, and this set off the sprinkler system. The water had flooded the floor and damaged a large stock of goods in the building. Some goods ready to be shipped were slightly damaged.

PRESBYTERIANS WILL HOLD COMMUNION

The regular quarterly communion services at the Second Presbyterian church, 1515 West Superior street, will be held at 10:30 o'clock tomorrow morning. A meeting of the session will be held at 10 o'clock to examine and receive new members.
The young men's Bible class will hold another of its social evenings on Monday. George Stevens will give an informal address on "Patents." The public is invited to attend the meeting.

Anderson Funeral.

The funeral service for Mrs. Agnes Anderson, aged 35, who died suddenly Thursday at her home at 2002 West Second street, will be held Monday afternoon at 2 o'clock from the West End undertaking rooms, 2118 West First street. Rev. W. E. Hamann, pastor of St. Peter's Episcopal church, will officiate. Interment will be in Park Hill cemetery.

West End Briefs.

J. F. Borgeson, known as the "blind musician," will play tomorrow evening at the First Norwegian-Danish M. E. church, Twenty-fourth avenue west and Third street.
The Young People's Society of the Central Baptist church, Twentieth avenue west and First street, was host at a farewell party given at the church last evening in honor of Mr. and Mrs. Myron Grelsborg, who will leave early next week to make their home at Cornwall, Wis.
Mr. and Mrs. A. S. Blecher of Marquette, Mich., who have been visiting relatives in the West end and Hermantown, left last evening for their home.
Miss Dorothy Englund of Minneapolis, who has been visiting relatives in this end of the city, left for her home yesterday.

U.S. TROOPS MAY CROSS BORDER ANY MOMENT

CROWN PRINCE'S TROOPS REMAIN IN TRENCHES WHILE ARTILLERY BOMBARDMENT IS CONTINUOUS

PRONOUNCED PAUSE AROUND VERDUN FORTS

No Attack By German Infantry Either Sunday or Sunday Night.

Bombardment Is Particularly Heavy in Woivre District.

Small Engagement in Le Pretre Forest Is Reported.

London, March 13.—A pronounced pause has come in the German offensive operations against Verdun, so far as the infantry arm is concerned, according to the official bulletins from Paris.

Sunday passed without infantry advances and the crown prince's troops did not leave their trenches for an attack at any point during last night, the French war office reports.

There has been no cessation of the artillery play, however, the bombardment continuing along much of the front. It was particularly heavy in the Woivre district where the French guns have been searching out hostile positions, indicating that some move by the Germans to the east or south-east of the fortress on the French right flank is anticipated.

A small engagement occurred in Le Pretre forest, on the left bank of the Moselle, west of Pont-a-Mousson, to the east of the Michiel salient, where the French report penetrating 200 yards of trenches and withdrawing after destroying the German positions.

French aviators bombarded the station (Continued on page 11, second column.)

BARK MAY HAVE BEEN SUNK BY AERIAL BOMB

First Officer of Ship Thinks He Heard Noise of Aeroplane.

Paris, March 13.—The first officer of the Norwegian bark Silius is quoted by the Paris Herald as expressing the opinion that the vessel may have been struck by a bomb from an aeroplane instead of by a torpedo, as previously reported.

The first officer was on watch at the time and heard a noise which he thought was made by an aeroplane, although he could see none. Then there came a terrific explosion at about the middle of the ship on the port side. A huge wave swept over the vessel, drenching the men.

The crew got into boats with great difficulty and cleared the Silius just as a mast fell. A French torpedo boat took all on board. The officers of the torpedo boat came to the conclusion that the Silius, on which there were several Americans, had been struck by a torpedo from a submarine.

GERMAN LOSS IS ENORMOUS

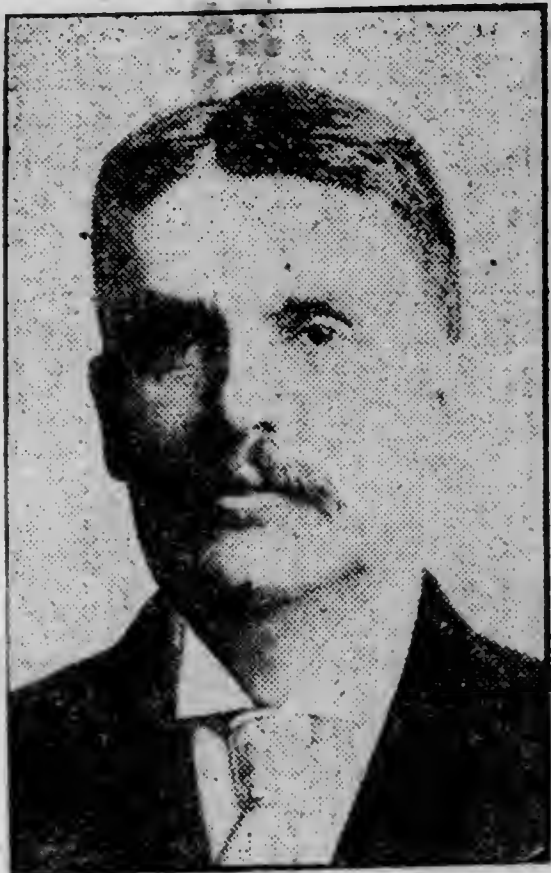

Two-Thirds of Effectives Go Down at Vaux, Says Paris.

Extraordinary Courage Is Manifested By the Teuton Troops.

Paris, March 13.—The German losses in the fighting around Fort Vaux last Friday and Saturday surpass all previous records in this war, according to officers who have returned from Verdun. Time and time again and with extraordinary courage, the Germans in columns four deep rushed from their trenches, only to melt away under the fire of the French 75, 150 and 210-millimeter guns, which rained shells with deadly accuracy into the marching companies. When the smoke and dust cleared, nothing was to be seen but heaps of bodies.

The spur on which the fort is situated is almost perpendicular in certain places. The German lines were forced (Continued on page 11, second column.)

FORMER WARDEN OF SING SING PLACED ON TRIAL FOR PERJURY

BEGIN TRIAL OF OSBORNE

Former Warden of Sing Sing Prison Charged With Perjury.

Grows Out of System of Reform Inaugurated at Penitentiary.

White Plains, N. Y., March 13.—The trial of Thomas Mott Osborne began in the supreme court here today on an indictment charging him with perjury in connection with two investigations into his administration as warden of Sing Sing prison. Osborne is alleged to have sworn that he had no knowledge of certain immoral conditions in Sing Sing which had been testified to by others, including prison inmates. Another indictment charging neglect of duty and immorality is pending.

When Thomas Mott Osborne, wealthy retired manufacturer, lecturer, writer, Harvard graduate, twice mayor of Auburn, N. Y., and 1916 Dodge lecturer at Yale, withdrew last December as warden of Sing Sing prison at Ossining, N. Y., Governor Charles S. Whitman announced that he assumed that Osborne would be reappointed if acquitted of the charges contained in two indictments which had just been brought against him by a Westchester county grand jury which for six weeks had been investigating conditions at Sing Sing. The indictment on which he is now being brought to trial accuses Osborne of perjury. The other pending bill charges him with neglect of duty and immorality.

Organized Mutual Welfare League. During his stewardship of approximately three months at Sing Sing, Osborne organized a system of discipline, personal-degrees method of conducting convict government, known as the Mutual Welfare league. This institution, under which the responsibility for their conduct was imposed upon the inmates, was the outgrowth of a similar association which Osborne had organized at Sing Sing.

BRITISH LOSE 5,000 IN BATTLE AT FELAHIE

So Stated By Turks in Reference to Fighting in Mesopotamia.

Berlin, March 13, wireless to Sayville.—The losses of the British forces in Mesopotamia in the recent battle near Felahie are estimated by the Turkish war office as at least 5,000.

The Turkish statement of March 12 adds:

"In Arabia, on the Yemen front, a British detachment of 6,000 infantry, supported by 800 cavalry and 12-centimeter guns, started on Jan. 12 from Sheikhosman, north of Aden, and occupied Afisch. They attacked the Turkish vanguards with superior forces but were stopped by a counter-attack from El Yahia. After three hours the enemy withdrew. Only the protection of long-range artillery averted a panic.

"The enemy then offered resistance at El Emeshah south of Afisch, in positions prepared in advance, but were forced by the Turkish troops to retreat into the fortified camp of Sheikh Ouman, under the protection of the cannon of ships anchored in the Gulf of Aden.

"The Turks destroyed the town and fortifications of El Emeshah and captured supplies there."

TRI-MOUNTAIN MILL BURNS; LOSS \$200,000

Four-Stamp Plant Between Baltic and Champion Destroyed.

Calumet, Mich., March 13.—(Special to The Herald.)—The Tri-Mountain company's stamp mill, located between Baltic and Champion, was burned last night with a loss of \$200,000. The fire started in No. 1 bin. It was a four-stamp mill, two heads operating on Lake and one on Champion rock. The Lake rock will be sent to the Champion mill. The plant will be rebuilt at once. The origin of the fire is not known.

PORTUGAL ENTERED WAR AT REQUEST OF GREAT BRITAIN.

Washington, March 13.—Portugal entered the war, the Portuguese legation announced today, because Great Britain requested her to do so, in fulfillment of treaty obligations dating back to 1373. Portugal did not enter the war before, the Portuguese minister announced, because Great Britain had not called on her to do so.

A Warning to Carranza: Don't Attempt Anything You Can't Finish.

GEN. CARRANZA GIVEN PERMISSION TO SEND TROOPS INTO THE U. S.

Request for Reciprocal Agreement to Pursue Bandits Granted.

Will Relieve the Situation of Its Chief Menacing Feature.

WASHINGTON, March 13.—The United States this afternoon accepted Gen. Carranza's proposal for a reciprocal agreement by which either his troops or American troops may pursue bandits on either side of the border. A note of acceptance was sent forward to Gen. Carranza at Queretaro.

Washington, March 13.—The United States will reply to Gen. Carranza's request for a reciprocal agreement for crossing of troops at the Mexican border late today after Secretary Lansing has conferred with President Wilson. It was indicated today that Carranza's proposal would be accepted.

The acceptance probably will be made on the ground that Carranza troops may cross into American territory in pursuit of bandits at any time that American forces are not present in sufficient numbers. It may be pointed out that the inability of the Carranza troops to handle the situation in Northern Mexico is the sole ground for entry of American soldiers.

In that way American officials expect the situation will be relieved of its chief menacing feature. They expressed the view today that a great deal of unnecessary pessimism exists as to Gen. Carranza's attitude. As to the attitude of the Mexican people, themselves, however, there is some concern, but it is realized that only the developments of the next few days can clear up that phase of the situation.

Manifesto by Carranza. Mexico City, March 13.—Gen. Carranza last night issued a manifesto in the nation declaring that under no circumstances would the Mexican government permit the entry of American troops into Mexico.

BELGIAN FRONTIER IS AGAIN REOPENED

London, March 13.—An Amsterdam dispatch to the Central News says that on account of the German offensive at Verdun the Dutch-Belgian frontier had been closed for several weeks. That part of it south of Maastricht has now been reopened and this fact is commented on in Holland as probably indicating that the Germans consider their offensive near an end. The Dutch adds that eighty-one more hospital trains with wounded Germans from Verdun have passed through Luxembourg.

SELECTED COMMANDER OF U. S. TROOPS TO CROSS INTO MEXICO

TO INVESTIGATE NEW MOVE OF RAILROADS

Will Attempt to Take Control Out of Hands of States.

Des Moines, Iowa, March 13.—Clifford Thorne, chairman of the Iowa railroad commission, today made public letters from railroad commissioners in Virginia and Minnesota asking him to investigate the reported effort on the part of the railroads of the country to take railroad control out of the hands of the several states.

Attention was called in the letters to the recent newspaper dispatches which said the interstate commerce commission had been asked by the railway executive advisory committee to form a bill to place all railroads directly under federal control, "emanating from the states."

As chairman of the state and Federal legislative committees of the National Association of Railway Commissioners, Mr. Thorne has been asked to make a complete investigation.

American Held for Ransom. El Paso, Tex., March 13.—A report that Juan Bilbao, an American cattleman of El Paso, was held for \$1,500 ransom in Northern Mexico, was received here today. Business associates here of Bilbao have gone to the Big Bend country in Texas, about 200 miles east of here, to investigate. The place of the alleged kidnapping was a few miles across the Mexican border from the Big Bend section.

CAVALRY SQUADRON AT ARIZONA LINE IS READY FOR DASH

Gen. Pershing Placed in Command of Expeditionary Forces and Actual Hour of Start Will Be Fixed By Him.

Shortage of Rolling Stock to Transport Troops Given By Gen. Funston as Reason for Delay in Advance.

El Paso, Tex., March 13.—In spite of official denials, reports persisted here today that American cavalry on the Arizona state line had gathered for immediate crossing of the Mexican border and that they might go across at any moment today. An advance guard of several cavalry troops was collected on that border two days ago with the prospect that it might be the first force into Mexico.

The point where the cavalry expedition is reported gathered today to enter Mexico on the Arizona boundary is near San Bernardino, Mex.

Gen. Pershing to Command. San Antonio, Tex., March 13.—No movement of the expeditionary force which will search for Francisco Villa is probable today, Maj. Gen. Frederick Funston announced this morning. The general said preparations for the expedition were going right ahead, despite Gen. Carranza's notification to the Washington government that he would not consent to American troops entering Mexico unless Carranza troops were allowed to enter the United States.

It was officially announced that Brig.-Gen. John J. Pershing will command the expeditionary forces. Gen. Funston said he had received no notification from Washington to hold back the expedition while negotiations were completed with Gen. Carranza.

Hour Left to Pershing. Gen. Funston said today that the announcement of the expedition's actual start into Mexico probably would come from Gen. Pershing to whom would be left the decision as to the exact hour for setting the movement afoot.

Shortage of rolling stock, Gen. Funston said, was hindering the concentration of cavalry at the base of operations and this was one reason why a movement today was unlikely. The fault, he said, lay with the railroads west of El Paso.

We have even had to transport men in box cars," he declared. "If this had been merely an infantry expedition we could have been into the country long ago."

FIRE BREAKS OUT ANEW ON BRITISH STEAMER

Matatua Will Probably Be Total Loss at St. John, N. B.

St. John, N. B., March 13.—A series of explosions on board the British steamer Matatua early today resulted in a brisk renewal of the fire which heavily damaged her cargo last night. It is supposed the explosions were caused by calcium carbide in her cargo.

Capt. Gillman of the Matatua is thought to have lost his life while directing the work of the firemen. Reports indicated that the Matatua would prove a total loss.

PRESIDENT URGES SPEED ON BILLS

Washington, March 13.—President Wilson urged Speaker Clark and Majority Leader Kitchin today to speed up the army and navy bills, the tariff, Philippine and shipping bills and other measures in the administration legislative program.

MONTEREY PRESIDIO DESTROYED BY FIRE

Monterey, Cal., March 13.—The head-quarters building of the Monterey presidio was totally destroyed by fire early this morning, above six hours of being vacated by troops of the First cavalry who left for the Mexican border. Firemen attempting to extinguish the flames found that the water supply had been shut off at the source.

TWO BUTCHERS ARE KILLED IN CHICAGO

Chicago, March 13.—William Blindrim, aged 60, and his son, George, aged 34, were found murdered in their meat market on North Dearborn street today. The son's head had been split open with a meat cleaver and there was a hole in the top of the father's head apparently made with a sharp instrument. It is believed they were killed while resisting robbers.

MEXICAN CAVALRY SENT TO AID OF COLONY OF MORMONS

Five Hundred at Casas Grandes Cut Off From Communication.

Villa Forces Thought to Be Somewhere in That Neighborhood.

El Paso, Tex., March 13.—Cavalry troops have been dispatched from Laguna on the line of the old Mexican Central railway north of Chihuahua City direct to Casas Grandes to aid the 500 members of the Mormon colony concentrated at that point, but now cut off from communication with either Chihuahua City or Juarez.

Gen. Gavira, commander at Juarez, received news of the new cavalry movement from Gen. Garza this morning. It followed immediately on the heels of a scout train that made a run down the Mexican and Northwestern line in the direction of Casas Grandes, turned back upon seeing smoke ahead

at Santa Sofia, which seemed to come from a burning bridge. Villa was last reported in the neighborhood of Cuernavaca, not far distant from Villa. The Villa's forces were there, the train returned.

Some months ago, the bridges on the section between Madero and Temocachi, below Casas Grandes, were destroyed by Villa. As the telegraph wires to Casas Grandes stopped working suddenly, the new cavalry was sent to investigate. The Villa's forces are now completely isolated. But Gen. Gavira says his friends here are not available for arrival here this morning, is at Laguna, according to Gavira, directing operations from there.

CALL PETITION PREMATURE

Commissioners Have Not
Been Asked for Double
Platoon System.

Request for Initiative on
Plan Already Has 3,000
Signatures.

City commissioners are surprised at the circulation of a petition by Duluth firemen for the establishment of a double platoon system.

They say that no formal request has been made of the council for such a system and that the circulation of a petition is unwarranted at this time, in view of the fact that the sentiment of the commissioners is not known. It is probable, they say, that some satisfactory arrangement can be made after a formal request for the double platoon plan is presented to the council, without necessitating all the work in procuring signatures for an initiative petition.

"I know nothing at all about this

proposed plan," said Mayor Prince this morning, "except what I have read in the newspapers. It seems to me that the firemen should first make a formal request of the commissioners and then, if they are turned down, go ahead and circulate the petition. It is probable that we can come to some agreement if the commissioners are asked to make a change."

Out of Question Now. Commissioner Silberstein, safety head, said he knew nothing of the petition until its circulation was reported to him by an officer of the fire department.

"Establishment of a double platoon system is out of the question at this time, because such a plan would cost approximately \$30,000 a year," he said. "However, if the firemen would formally request the council for a change, it is probable we could work out some scheme at a much lower expense."

Commissioners Voss and Farrell both said that the information they have on the petition was obtained from accounts in the newspapers. The matter has never been discussed officially by the commissioners, the members of the council said this morning.

GETS DIVORCE AND ALIMONY

J. J. Wall Must Pay \$9,000
and \$50 Monthly to
Former Wife.

Under a decree of divorce which has been signed by Judge Ensign in district court, Mrs. Amelia Wall has obtained a legal separation from her husband, James J. Wall, local wholesale and retail liquor dealer, and will receive \$9,000 worth of his property in addition to \$50 monthly alimony.

Mrs. Wall must also pay his minor daughter Margaret, \$75 a month until she reaches her majority.

The court granted the divorce on the grounds of cruel and inhuman treatment. Mrs. Wall testified that her husband had called her names in the presence of third persons and that he had addressed insulting remarks to her and their children. She also alleges that his conduct had been such that their children had been prevented from having friends visit them at home and that it had deprived their daughters from the usual and customary social enjoyments and privileges to which girls of their age and station in life are accustomed.

The court finds that Mr. Wall was possessed of property worth \$30,519, and decrees that Mrs. Wall is entitled to permanent alimony in the sum of \$9,000 to be paid within three years, in addition to \$50 monthly alimony until the further order of the court. The alimony is made a specific lien on Mr. Wall's property.

The Walls were married at Saginaw, Mich., on Sept. 15, 1888, and are parents of five children. B. M. Goldberg and A. P. Neul represent Mrs. Wall in the divorce proceedings and George H. Spear of Fryberger, Fulton & Spear appeared for Mr. Wall.

CONFIDENT OF SULZER'S STRENGTH IN MINNESOTA

I. M. KALNES.

The fight for delegates to the Prohibition national convention, which will be held in St. Paul this year, has been a warm one, there being two prominent men on the ticket for presidential preference. They are William Sulzer, deposed governor of New York, and Eugene Fox, former governor of Massachusetts.

I. M. Kalnes, Sulzer's campaign manager, said, "this being a general and not a local condition. Reports received here show that 275 cases are recorded at the city hall, while a large number of children stricken with the disease have not been reported."

MEASLES EPIDEMIC IS WIDESPREAD

Dr. Fahey Says Eastern
Cities Are in Its
Clutch.

Duluth's epidemic of measles is not local, according to Health Director Fahey, who returned this morning from Kingston, Ont.

"There are epidemics in Toronto, Philadelphia and cities throughout the East," he said, "this being a general and not a local condition. Reports received here show that 275 cases are recorded at the city hall, while a large number of children stricken with the disease have not been reported."

Immediately upon his arrival Dr. Fahey took charge of the campaign, although health department officials believe they have had the epidemic checked since last Friday. It is estimated that 500 cases exist among the school children of the city.

"Illness" Win Victory. Springfield, Ill., March 13.—"Illness" buses are not public utilities as operated in Hillsboro, Ill., according to a decision of the public utilities commission made public today. Operators of bus lines here said the decision would be considered a victory by "illness" men all over the state.

HODAGS ROLL HIGH ONE-GAME SCORE

Rhinelanders Bowlers Make
Mark of 981 in Morning
Bowling Play.

The Hodags of Rhineland, Wis., rolled 2,617 in the five-man event of this morning. This is far over the record of 2,317 made by the West Hotel team last season. But in their final game the members of the visiting team hung up the highest score made to date in the tournament, registering a count of 981.

Starting this afternoon there will be a heavy schedule. The morning scores follow:

Laurence	180	179

NOTED GOLF CLUB IS ABSORBED AND PASSES

Janesville, Wis., March 13.—The Janesville Golf club is no more. By a resolution passed at a recent meeting, this famous golf club, one of the pioneer organizations in the state, passed out of existence and its membership has been consolidated with that of the Janesville Country club, a stock corporation, that owns and operates the golf course in Janesville. The country club will at once reorganize so as to include golf in its list of sports, take over the personal property of the golf club and perhaps include the name, Janesville, in its official title. All but a few of the stockholders in the country club were members of the Janesville club. They own fifty acres of land and have a complete club house and all golf accessories.

Roll Into Fourth Place.

Toledo, Ohio, March 13.—Fourth place fell to a new team in the doubles of the A. B. C. tournament this morning. Banning and A. Stump of Naperville, Ill., a suburb of Chicago, rolled 1135. Strauss and Burkholder of Columbus, superlaid 1171, while Bye and Berger of Chicago, ran into twentieth place with 1135.

AMBASSADOR GERARD TO HAVE A VACATION

Washington, March 13.—Word has gone to American Ambassador James W. Gerard at Berlin authorizing him to leave his post for a vacation. Secretary Lansing has had no word from Mr. Gerard as to when the ambassador will take his leave or where he will spend it. It is considered unlikely, however, that he may go to Switzerland and instead of coming home.

The ambassador recently sustained a painful injury while participating in winter sport and has not fully recovered from its effects. State department officials say the ambassador is absolutely no longer fit for the arduous duties of a leave to Mr. Gerard at this time.

Entrance Examinations.
N. A. Young, county superintendent of schools, has announced that March 22 and 24 will be the dates for the so-called state high school board examinations for the school children of St. Louis county. About 1,500 pupils in this county will take the tests on those dates for the purpose of determining who are eligible to receive certificates entitling them to enter high schools. The examinations are for pupils in the seventh and eighth grades in all schools of the county except those of the Duluth city schools.

St. Paul, Minn., March 13.—(Special to The Herald.)—The possibility of trouble as a result of the Mexican border disturbances is responsible for numerous letters received by Governor Burquist the last few days, asking for information regarding commissions in the Minnesota national guard. Several requests for commissions have already been filed with the governor.

Governor Burquist said today that the giving of such commissions as far as he was concerned was now beyond his control, it being a matter entirely for the federal government. The war situation, however, is calling attention to the federal guard and recruiting is progressing as a result.

PROPERTY OWNERS WOULD CHANGE NAME OF STREET

Wadena street property owners want the name of the highway changed to Grove land street.

Four of the owners filed a petition this morning with City Clerk Borgen requesting the council to change the name. The petition will be presented to the city commissioners this afternoon.

COUNCIL WILL AGAINST TWO LET CONTRACTS APPLICATIONS

Will Award One Paving and Two Sidewalk Jobs.

Mill City Firm May Get Superior Street Work.

Saloon Transfer and Employment License Will Be Opposed.

Dredging of City Dump Will Likely Be Acted On.

One contract for paving and two for cement sidewalks will be awarded by the city commissioners this afternoon. Commissioner Farrell, works head, announced this morning that he would recommend the awarding of the contract for the paving of Superior street, from sixteenth to Twenty-third avenue east, to the General Contracting company of Minneapolis on its bid of \$49,473.60. The street will be paved with asphalt and work will begin some time in April. This will be the first big paving contract awarded this year.

In addition, E. F. Hilliard will be awarded the contract to lay the cement walks authorized for this year. The work will be done on the proposed jobs 14 1/2 cents and 14 cents per square yard, respectively.

The only bid submitted was from Mr. Nyhus of the Klittin company.

West First Street Work. Commissioner Farrell announced that the contract for paving West First street would not be awarded today, but that a resolution would be introduced designating the width of the proposed pavement as thirty-eight feet from Twentieth to Twenty-third avenues, and thirty feet from Twenty-third to Twentieth. The contract, he said, will not be awarded until the thirty-nine property owners withdraw their assessment appeals as agreed upon at the council meeting last week. Otherwise, the city attorney will be instructed to fight the appeals, holding up the improvement until the court's decision is handed down.

E. A. Dahl submitted the low bid on paving East Superior street, but this morning the works head decided in favor of the General Contracting company, which will pave the roadway with Trinidad Lake asphalt and granite "headers" and "stretchers."

There was a difference of \$1,914.60 in the bids. Mr. Dahl being low, but the works commission saw he had been unable to get any satisfactory assurance that Mr. Dahl could purchase the asphalt specified from the company controlling it.

Fine Silver Gray Skin. Intercession, Falls, Minn., March 13.—Fred Shaw, the fur buyer, reports having bought a silver gray fox skin that is No. 1 in quality of fur and skin, and one of the finest that has ever been caught in this section. Erect Electric Barriers. Paris, March 13.—In order to prevent the passage of contraband into Switzerland over Lake Constance, the Swiss military authorities are erecting along the Swiss shore of the lake barbed wire barriers, charged with electricity.

and a resolution awarding the contract to the Zenith Dredging company on their bid of 15 cents a yard will be introduced at the council meeting by Commissioner Silberstein. It is planned to remove 5,000 cubic yards from the dump.

Second reading will be given the ordinance classifying the civil service system and appropriating \$3,000 for hauling pipes during this year and \$2,500 for furnishing the water and light department with another contingent of cast iron pipes.

TELLS STORY OF KILLING

Matt Niemi, the state's star witness in the prosecution of Michael F. Hastings, on trial charged with the murder of William Saari, homesteader, near Brookston, on Oct. 28 last, took the stand in Judge Cant's court this morning and told the story of the alleged killing.

Niemi's recital was the same as that told before the coroner's jury last fall, when he related how the civil servant, attacked by Hastings and his companion, Max Hammons, and Saari was shot and fatally wounded. The shooting took place on a tote road three miles out of Brookston. Niemi was positive in his identification of the defendants.

Niemi was the only witness called this morning. His cross-examination by Attorney Walter F. Dacey was concluded shortly before noon.

WIFE SEEKS DIVORCE ON GROUNDS OF CRUELTY

On the grounds of cruelty and drunkenness, Mrs. Julia Aronson, 38, West 14th street, filed for divorce in district court Saturday afternoon, against her husband, William Aronson, 49, whom she had married in 1908. She alleged that she is the father of her seven children. Mrs. Aronson alleges that her husband is an habitual drunkard and that she has been obliged to support the family most of the time. On several occasions, she says, he has been abusive. On Nov. 9, 1915, she alleges, he threatened to kick her down stairs. She had him arrested and he was committed to the work farm.

Always consult an architect

—he is a "clearing house" of building experiences

Just as you respect the vast amount of work and care it has taken for you to succeed in your business, so you should respect the architect in his business. As an originator and a "clearing house" of building ideas and experiences—gained from putting up many buildings, also from studying the trend of building laws and future needs of housekeeping, he arranges the building so that it shall later suit other folks in case you sell or rent.

Why architecture depends upon comfort

You may build in the joyous Spring-time or Summer, and think only of porches and screens, but the architect always keeps before him a vision of the grim Winter Kings. He knows that when the bitter cold days come, any occupied building will be a failure that is not cleanly, healthfully, genially warmed by coal-economizing radiator heating. These outfits change houses into homes, change barn-like stores into pleasant shops!

Wherein architects save heating costs

The architect will more than earn his fee by alone making the radiator heating outfit cost you nothing, through omitting from the plans the extra chimneys, needless mantels, useless inner doors, double window sash, weather strips, storm doors, etc.

Your architect will tell you that the foundation of comfort is AMERICAN IDEAL heating.

Architects study future values for you

Those who build hope for the neighborhood to improve and value to increase. The architect helps you to study keenly the future of the locality. He will prove to you that property modernized with IDEAL Boilers and AMERICAN Radiators will

No one accepting such large responsibilities charges so little as does the architect—for his is largely a profession of public service. CANAL NOT IN DANGER

Panama Canal Not Likely to Be Destroyed By Earthquake.

Geologist Says That Troublesome Slides Will Be Conquered.

Washington, March 13.—That the Panama canal will not be swallowed up by an earthquake in the future and that the troublesome slides now being encountered will eventually be conquered and the great waterway made an unqualified success, is the opinion of Donald F. MacDonald, formerly canal geologist and now mining geologist for the United States bureau of mines.

Mr. MacDonald, who spent several years on the isthmus making a careful study as to fragility of the earth's crust, has just made an official report to the effect that, while through seis-

mole disturbances the whole isthmus is rising at the rate of three feet every hundred years, this will not necessarily injure the canal. As the canal, but that it will merely mean a little additional expense in the dredging of the big waterway. The cause of this rising, he says, is the sinking of the ocean bottom outside the isthmian shore waters. Every time there is a little movement of the ocean bottom, the isthmus, to be in harmony, joins in.

Not in Any Great Danger. He also suggests that if the rising motion be rapid, then there would be serious danger for the canal, but, that from what has happened in recent geologic time, it may be concluded that the canal is not in any appreciable danger from the instability of the isthmian land. The rising of the isthmus, however, has been responsible for the many slides that have been encountered, in that the motion of the ground has dislocated and crushed the rocks, leaving them weak and unstable.

"At any rate," says Mr. MacDonald, "so far as the digging of the Culebra cut is concerned, these faults have increased the cost of the canal several million dollars. As to the slides, Culebra cut is a vast ditch that passes through many varieties of rock in the nine miles of its length. Some of these are weak and unstable, and where the slopes of the cut were steep and 100 to 300 feet high the weaker rocks crushed down to flatter slopes. Whenever the slope got flat enough, the sliding stopped. At no time did the engineering staff constructing the canal believe that the slides were a menace to the ultimate completion and successful operation of the canal, in spite of the fact that at times they were somewhat troublesome. They have made necessary the excavation of about 30,000,000 cubic yards more than was included in the first estimates for Culebra cut, but they have not in the past and will not in the future endanger the ultimate success of the canal."

Cause of the Slides. Mr. MacDonald calls attention to the fact that one is apt to forget that the greatest variation of atmospheric pressure near sea level may be more than 4,000,000 tons per square mile, and that if the adjustment of atmospheric pressure in a very large cave or mine, lags behind any quick increase in atmospheric pressure at the surface, a considerable strain may be added to the

root of such an excavation. Discussing the real cause of the slides, Mr. MacDonald declares that in many cases the immediate cause was the oversteepness and height of the slopes, the blasting and other work in the vicinity of the cut. He adds that the geologic conditions were not sufficiently considered in the first plans for digging Culebra.

Gatun Dam Safe. As the strength of the Gatun dam has been brought into question on a number of occasions, Mr. MacDonald refers to it in some length. "It was found that the Gatun rocks are relatively solid and compact and suitable for foundations for heavy structures. However, some writers, even recently, have affirmed that the Gatun rocks would soften into mud when Gatun lake filled and thus the locks and dam would sink their foundations and be damaged or destroyed. Opinions of this sort spring from a vivid imagination and not from facts. "If the weight of Gatun lake is going to force water into the Gatun formation and cause it to soften into a semi-mud that will allow the dam to sink, then all the islands in Gatun lake and all the hills around it, which are of the same formation, should also have their bases softened the same way, and sink into the depths. Reports that the Gatun dam and locks are in any danger from sinking have not the slightest geologic data."

Proofs of lowest-priced heating

The testimony of a million owners at home and abroad prove the fuel economy. There is absence of repairs—no wearing out—the screwed-tight joints prevent ash-dust and soot damages to furnishings and decorations. These outfits are simplest to run and property earns lowest insurance rate. IDEAL Boilers and AMERICAN Radiators are the best that money can buy, pay for themselves! Fully guaranteed.

Architects know how this heating pays!

The IDEAL Heating outfit is the only equipment put into a building that will never be worth less than you pay for it, and will repeatedly repay by 100 years of service its original cost, through fuel and labor savings and absence of repairs. FEWER LEAVE DULUTH JOBS

Smaller Number of Drifters Among City Teachers Than Average.

Some Real Veterans on Local Schools' Staff; Colman's Statistics.

One-sixth of the 462 teachers in Duluth schools leave annually, and are replaced by newcomers, according to figures prepared by C. Francis Colman, chairman of the board of education committee on administration and finance.

"United States commissioners of education have estimated that there are 625,000 school teachers in the country," said Mr. Colman, "and that 125,000, or one-fifth of them, leave each year, to be replaced by normal school graduates or university graduates. This would indicate that Duluth is better off, on an average, than the country at large."

Extensive data on the teaching staff in local schools, prepared by Mr. Colman for reference in connection with the question of drafting the 1916-17 salaries, also shows that average yearly salary of grade teachers has increased by \$70 in three years; that the salary of junior high teachers has increased by \$20 since last year, and that senior high teachers average slightly higher than a year ago.

Five Are Real Veterans. One teacher has been employed for thirty-nine years, one for thirty-three years and three for thirty-two years, the record shows. Eighty-two are serving their first year.

Here is Mr. Colman's table, showing the proportion of years of service:

"Under our present system in marking," said Mr. Colman, "the teacher is allowed 50 per cent for teaching ability, 25 per cent for personality, and 25 per cent for scholarship. "From the result of this marking I find that there are seventy-three teachers on our teaching force who have received markings of less than 75 per cent in one or more of these divisions. The special teachers, the Washington elementary teachers, a number of the principals, and the teachers of the outlying schools, a total of about ninety, are not marked at all. This leaves about 372 teachers who have been marked. They rank as follows:

53 received less than 75 per cent in scholarship, 28 received less than 75 per cent in teaching ability, 5 received less than 75 per cent in personality.

GARRIED LIQUOR IN ORDINARY TRUNK

St. Paul Horseman Is Arrested at Pequot, Minn.

Brainerd, Minn., March 13.—(Special to The Herald.)—In response to a message from Mayor Knight of Pequot to the sheriff, Special Officers Boyd and Carson of the Indian department went to Pequot and arrested Charles H. Thompson, a horse dealer from St. Paul, charged with taking liquor in a trunk into Indian country.

A large wooden trunk was found in a pump room in the rear of a hotel at Pequot and it was a lot of wrapping paper, a quart and a pint of whiskey. Thompson was asleep in his room and he submitted to arrest. He was lodged in jail at Brainerd and this morning taken to Little Falls to appear before United States Commissioner Cameron.

ORGANIZING ALL WIRELESS OPERATORS

Amateurs Will Be Available If Needed for Defense.

Duluth and Superior amateur wireless operators have received invitations to join the National Amateur Wireless association with headquarters in New York.

The purpose of the national organization is to teach the amateurs military efficiency with the idea of grouping the members into national defense units. The association hopes to fit many thousands of the country's radio amateurs to pass the government tests so they may be used directly with the army and navy in case of emergency.

It is estimated that there are more than 400,000 radio amateurs in the United States. Duluth and Superior have about eighteen or twenty. Among them are Messrs. Hagen, Juergenson and Fayette W. Keler of Superior; Walter Adahson and H. F. Miller of Duluth.

Mr. Keler's station with its one kilowatt transmitter has reached points in Tennessee, central Missouri and as far west as Denver and his receiving apparatus extends to points in the Atlantic and Pacific oceans.

The prospect for a national association of radio amateurs is being supported by G. Marconi, president of the Wireless Telegraph company.

Crookston, Minn., March 13.—(Special to The Herald.)—The Brainerd Automobile association, at its annual meeting, elected the following officers: President, John Woodhead; vice president, Clarence A. Olson; secretary, C. E. Hansing; board of governors, D. C. Peacock, Dr. J. A. Thibault, G. W. Swanson, Dr. Werner Hemstead and G. S. Smith.

An invitation was ordered extended to the state association to hold its annual tour in June to Brainerd. The club now has sixty-five members. The board of governors is considering placing proper signs on all roads.

Calumet, Mich., March 12.—The funeral of the late William Phillips, who died Friday, was held from the family residence on Mine street, this afternoon at 2 o'clock. Rev. C. L. Adams of the Calumet Methodist Episcopal church officiating. The Masonic and Odd Fellow societies were in charge and interment took place at Lakewood cemetery.

FOR BRONCHITIS, PAINFUL COUGH, WHOOPING COUGH AND COLDS

Cheapest Remedy Made at Home—128 Teaspoonful for 50 Cents.

When in need of a remedy for the treatment of Bronchial Affections, such as Bronchitis, Whooping Cough, Croup, Stomach Coughs, Colds or Hoarseness, don't simply ask the druggist for a "Cough Medicine" but get the best. Tell him to give you Schiffmann's New Concentrated Expecto-

guarantee these druggists give, it will likewise be found the most economical to use, for the reason that one bottle (50 cents' worth) makes a full pint (128 teaspoonfuls) of the most excellent cough medicine, after being mixed at home with one pint of granulated sugar and one-half pint of water. One bottle will probably, therefore, be sufficient for a whole family's supply, while the same quantity of the old, ordinary ready-made cough medicine would cost between \$2 and \$3. It is prepared from strictly harmless plants, contains absolutely no chloroform, opium, morphine or any other narcotic or injurious drugs as do most cough remedies, and it can therefore be given to children with perfect safety. It is pleasant to take, and children are fond of it. Absolutely no risk whatever is run in buying this remedy under the above positive guarantee. R. J. Schiffmann, Prop., St. Paul, Minn.

WOLVES HAVE BAD WINTER

Deep Snow Makes Slaughter of Them Easy; Thousands Killed.

Lively Work By Wolf-Hunting Clubs Reported By Game Wardens.

Carlos Avery, state game and fish commissioner, authority for the statement that during the winter just ended the tables have been turned on the wolves in Minnesota woods, and that these ferocious animals have been hunted persistently and slaughtered by thousands.

Usually during winters when heavy snow has been on the ground, the deer are largely the victims of wolves, owing to the fact that they are handicapped in getting away. This winter, however, it is claimed that the excessively heavy snow has handicapped the wolves also, and has also made the hunting of them comparatively easy.

The early part of the winter was favorable to the wolves, but the unusually heavy falls of snow in January and since then have made a decided change. A statement just issued by the Minnesota game and fish commission is as follows:

"The conditions have favored the hunters and trappers and have been very deep and soft, making it difficult for the wolves to travel fast or for long distances. Rabbits have been scarce and other small animals hard to get—so the wolfish appetite has not been satisfied. Deer have been taken to yards in the swamps owing to the deep snow."

Slaughter in Roseau. "In Roseau county Game Warden Saunders reports that the winter's kill of wolves will be fully 800. Wolf hunting clubs have been formed of young men and boys who have pursued the wolves on horseback and on skis and have literally slaughtered hundreds of them. There were 400 wolves killed in that section in forty-four days this winter. Certain individuals got all the way up to twenty-six pellets. A wolf track in Roseau county is now hard to find."

"On the Canadian border, farther west, Warden C. F. Windsor of International Falls says that wolves are scarce and half-starved, and Warden O'Neil of Aitkin reports the killing of large numbers of wolves this winter, where they have been pursued carefully on snowshoes. Some of the men report that it has even been possible to kill them with clubs. "The above are typical reports and indicate the general condition this winter. The question to be asked, however, and the wolves are generally very dangerous enemies of deer on which bounty hunters will be increased, rather than diminished."

"Arrangements have been made this winter to hunt wolves on the Superior game refuge, permits having been granted to nine trappers. Wolves were also under state supervision, renewal of the permits being conditioned on their success in getting the wolf pelts."

FARM SCHOOLS DEBATE.

Crookston and Morris Teams to Meet at Both Places Saturday.

Crookston, Minn., March 13.—(Special to The Herald.)—The fourth annual debate between the university agricultural schools at Morris and Crookston will take place Saturday evening.

The team will debate the team representing the negative from Morris at Crookston, while the team representing the affirmative will go to Morris and meet the team representing the affirmative there. The question to be debated is "Resolved, That the United States Should Materially Increase Her Army and Navy."

The Crookston boys who will debate at Crookston are: Thorval Tunheim, Alexander Peterson, John E. Fergus, N. D. and Martin Stenseth, Twin Valley. They will meet Frank Field, Gerald Quinlan and Berger Johnson from Morris. The Crookston boys going to Morris are Walter Peterson of Lancaster, Chester Wilson of Thief River Falls and Conrad Clementson of Erskine. The debate here will be held in the armory. It is expected that a large crowd will attend.

The Crookston team has already met teams from the Wahpeton, N. D. school of science, winning on the negative and losing on the affirmative. The judges at Crookston will be Supt. W. B. Dyer of the Redempti public schools, Supt. J. G. Norby of Fergus Falls public schools and Supt. F. W. Dobbins of Little Falls.

Catarrh a Blood Disease

Drives It From Your System

Because Catarrh affects the nose and throat, causing sores in the nostrils, stoppage of air-passages, and gathering in the throat stops the nostrils, it has been common practice to treat Catarrh with salves, washes and sprays. This mode of treatment cannot give permanent relief, and is liable to irritate and aggravate the trouble. Catarrh cannot be trifled with. If allowed to run on it will disease the bronchial tubes, settle on the lungs, affect the stomach. Don't treat it locally. The one treatment that has proven effective in the treatment of Catarrh is S. S. S. It is the

greatest blood purifier and blood tonic, far more effective than any other. It drives the blood through the process of renourishing the blood, renewing its strength and vitality, and has proven effective in the treatment of all blood affections. (Get S. S. PRESIDENTIAL PRIMARY TUESDAY HOLDS CURRENT POLITICAL ATTENTION

Who Will Represent Minnesota at Party Convention Is Question of the Hour; Republican Presidential Situation as Much Muddled as Ever; Hughes Is Talked Again.

The result of tomorrow's primary election will determine how Minnesota will stand in the Republican national convention—the first ballot. Not even the most sanguine Cummins man so far heard believes that Minnesota will be voting for the Iowa senator for the presidential nomination for more than three or four ballots at the most. And at that not all of the delegates to the national convention chosen tomorrow may bear the Cummins label.

Henry D. Eastbrook of New York may pick up a few here and there and the unit rule does not apply by any means.

The election tomorrow will also determine an important question for the Democrats. It has been taken as a fact that no matter what delegates to the St. Louis convention are chosen, they will vote for the renomination of President Wilson—but of the anti-Lynch delegates, uncertainty has arisen.

But the chief question to be determined will be: Do the Democrats of the state want to be represented at their national convention by men picked out as the most representative of the party in Minnesota by a regular conference held by the party members from all sections of the state, set by the members of the party themselves; or do they want to be represented by men who have filed for the offices purely from motives of jealousy and for trouble making?

Delegates Conference Picked.
A strong vote in favor of men who were chosen by the St. Paul state conference will be a stinging and effective rebuke to the insurgents and it is expected that that will be given. Those chosen by the conference for delegates are:

A. C. Weiss, Duluth.
Daniel W. Lawler, St. Paul.
B. F. Nelson, Minneapolis.
W. A. Just, Rapidan.
John Jensen, Jr., Duluth.
Douglas Greeley, Virginia.

Those selected from the Sixth and Ninth districts, neighbors of the Eighth, are:

Sixth—John B. Galarneau, Aitkin.
Ninth—Fred Schilling, St. Cloud.
M. J. Daly, Perham.
Julius J. Olson, Warren.

The Republicans are admittedly still as deeply in a quandary as ever. The season of delegate choosing is on just now, but that does not prevent party worth a snap so far. Indiana chose her delegates last Tuesday, but, of course, the Republican state has her favorite son who, in this instance, is Charles W. Fairbanks, one-time vice president. Minnesota's next on the list and will send delegates to the Chicago convention labeled "Cummins" or "Eastbrook" and, possibly, a little of both. That these labels will be meaningless is a foregone conclusion, and the expectation of most people is that the party will be split.

The news is furnished by Senator Knute Nelson of Minnesota that Justice Hughes would probably accept the nomination were it tendered him. An Eastern newspaper man of note, after having had a talk with the Justice, expressed the same opinion. Both the senator and the newspaper man have gained the impression that while the Justice really does not want the nomination, he would not feel at liberty to refuse it. But he plays safe all of the time—by keeping silent and his job simultaneously, and remaining available for the party if it insists upon having him.

Meanwhile, what of the delegation that Minnesota will choose tomorrow? Despite the labels offered, there is little certainty as to the state over; so where, in the breakaway, will the Minnesota delegates go? Hadley of the New York Tribune, who has been looking over the state, forecasts that ten of the delegates will go to St. Louis against him, and that one is sincerely for Cummins. He also believes that all might for Roosevelt if the election indicates that that would be wise, but that all of them would cheerfully vote for Hughes.

You see, it always returns to Hughes. Like Banquo's ghost, he will not down.

The candidates for delegates-at-large whom the Cummins forces are understood to favor are:

O. J. Larson, Duluth.
S. R. Van Sant, Minneapolis.
J. E. Jacobson, Madison.
F. C. Stevens, St. Paul.

Concerning Justice Hughes' position, the New York Evening Post said recently:

Judge Hughes wants to keep out of the campaign entirely. He will allow no one to speak for him or work for him as a candidate. It seems clear, however, that he will not say the one word which would make his nomination a foregone conclusion. If he were intending ever to say it, the opportunity presented itself long ago. The date of the convention, the classic formula of Gen. Sherman: "I will not accept if nominated," his name will still be seriously considered as the man best fitted to lead a united party. And the call to such a leadership might come in the form of a public duty.

Aside from the presidential primaries, which will be over tomorrow, the senatorial situation is taking the most attention of the body politic. The newspapers of the state are also taking a lively interest and are beginning to express their opinions pretty freely. They are pretty evenly divided in sentiment, although the fight would seem to be lining up as follows: Clapp and Kellogg, with Eberhart rather ignored. However, there is little danger that the former governor will remain on the sidelines for long. He loves the limelight too much for that. The chief danger is that with a fine fight between Clapp and Kellogg, Eberhart might get the prize and go to Washington. In yesterday's Chicago Herald, John Callan O'Leary, the noted political writer, gave Mr. Kellogg the following tribute:

There is no question of Mr. Kellogg's ability and his keen interest in good government. He proved it by his work as speaker of the House for the government in the Standard Oil cases, in the investigation of the Harlingen political roads and in the action to dissolve the Union Pacific-Southern Pacific merger.

He was president of the American Bar association in 1912; he served as Republican national committeeman from 1904 to 1912, and while a warm personal friend of Mr. Kellogg, he remained neutral in the campaign of 1912. There is not the slightest doubt of the high admiration Mr. Kellogg has for Mr. Kellogg, and there is equally little doubt that he would welcome his election, though he will not depart from

nomination were it tendered him. An Eastern newspaper man of note, after having had a talk with the Justice, expressed the same opinion. Both the senator and the newspaper man have gained the impression that while the Justice really does not want the nomination, he would not feel at liberty to refuse it. But he plays safe all of the time—by keeping silent and his job simultaneously, and remaining available for the party if it insists upon having him.

DEMOCRATS ARE URGED TO VOTE EARLY FOR DELEGATES CHOSEN AT CONFERENCE

Democrats are urged not to forget to vote tomorrow, and vote early so that there will be no risk of missing. The polls will be open from 8 a. m. to 9 p. m.

It is hoped that Democrats will not be neglectful of their voting duty tomorrow because, on the surface, there seems to be no pressing need to be careful of who will be delegates to the St. Louis convention "for all are for Wilson, anyway," for it is not satisfactorily established that all ARE for Wilson.

The men who were named by the state conference of Democrats at St. Paul on Feb. 3, ARE for Wilson. They can't get away from it if they wanted to, for they were named at that conference because they are Wilson men. The conference instructed them to vote for Wilson, and did not mention the possibility of their being for anybody else; so it would appear that even though everybody else should desert the conference delegates, they would still be bound to vote for Wilson. And they were instructed to vote as a unit, too; no individual being permitted to kick over and listen to the siren song of somebody else, should anybody else have the inconceivable nerve to try to stir up opposition to this president.

Therefore, it is urged that Democrats get out and vote, and vote for the conference delegates. Those recommended for delegates-at-large and for district delegates from the Eighth congressional district are given in the following table, which shows what the ballot should look like after it has been voted:

For Delegates at Large, Vote for These Four

ANTON C. WEISS X
B. F. NELSON X
DANIEL WILLIAM LAWLER X
W. A. JUST X

For Eighth District Delegates, Vote for These Two

JOHN JENSWOLD, JR. X
DOUGLAS GREELEY X

his policy of refusing to mix in primary elections.

It is not generally known that the colonel relied upon the "trust buster" for advice in many important matters not directly connected with the legal cases upon which the Minnesota lawyer was engaged. Had Mr. Roosevelt had his way, Mr. Taft would have named Mr. Kellogg as attorney general.

In addition to his intimate acquaintance with and experience in domestic affairs, Mr. Kellogg has followed foreign developments with close attention. He has been abroad a great deal and besides being a student of history and literature, he has been in direct personal contact with the statesmen and people of the United States in its hour of need. He is equipped to deal with any matters affecting the United States in the light of the knowledge he has acquired.

Besides having the warm friendship of Col. Roosevelt, it is known that stand-pat Republicans want Mr. Kellogg to effect the nomination and the election. Senator Lodge of Massachusetts makes no secret of his belief that Minnesota should send to the senate a man like Kellogg in order that those who are students of international affairs in the upper house may be re-enforced.

Other comments from the state press on the senatorial situation follow:

Dawson Sentinel: After making a long campaign among the 300 editors who attended the editorial convention, Bob Dunn found seventy-three who were willing to sign a statement declaring for Frank B. Kellogg for United States senator.

This paper does not intend to believe Frank B. Kellogg. He is a strong man, who as a candidate would draw a large vote. He might be elected.

However, the result of the canvass in his behalf does not justify the extravagant claims made by those who seek to create the impression that the state is afloat with the sentiment of his district.

The fact is that most of the people are so well satisfied with Senator Clapp's record that they refuse to be stampeded by the politicians into a movement to retire him.

Most of the anti-Clapp sentiment comes from those who resent Clapp's activities in behalf of Roosevelt candidacy for the presidency. It is significant that many of the men who now actively oppose Clapp and who four years ago op-

IS FOUR-YEAR TERM VALID?

Rumored Attacks May Be Made on County Office Extension.

Opinion of Supreme Court Justice in Duluth Court Case, Basis.

The statement is being made in various parts of the state that an attack may be expected before midsummer on the law under which most of the county officers are holding office for four years instead of for two years as provided by the law under which a series of attacks, or, rather a number of attacks may be made simultaneously in various counties of the state.

It is charged that the law is unconstitutional, for the claim is made that the Constitution provides that all of these officers shall be held for two years, and that therefore the law under which the four-year terms were established, can be of no effect.

The opinion of Justice Oscar Hallam of the state supreme court, dissenting in the Smallwood-Windom case from Duluth, is taken as a basis for the argument of those who would throw the holding of county offices back into the two-year term clutch.

On "Hold-Over" Question.
In giving his opinion in this case, Judge Hallam turned aside to remark that "as a matter of fact county officers in every county of the state today are holding under a statute fixing their term at four years from the first Monday in January, 1915, and until their successors are elected and qualified. This term exceeds the constitutional limit fixed by section 5, article 7, of the Constitution, which permits no hold-over at all. But it has never been considered that such statutes are void except as to the excess over the constitutional limit."

There are those who doubt that the omission of the words "county officers" from the last clause exempts them from the provision regarding the biennial elections, since they are mentioned in such clause. And the last sentence of the section says that "all state, county and other officers elected at the general election whose terms would otherwise expire on the first Monday in January, 1916, shall hold office until the first Monday in January, 1917."

Adams Doubts Applicability.
Charles Adams, special county counsel, said today that he does not believe that such a construction will be placed on the Constitution. He declared that the Constitution provides terms only for judges of the district court, which are for six years, with no clause of holding over until successors are elected; probate judges, for two years, without the hold-over clause; clerk of district court for four years, without the hold-over clause; but no other officers in a county.

Section 4 of article 11, he said, provides that provision shall be made by law for other county and township officers, and that, therefore, the terms can be fixed by law, and change as the legislature sees fit.

If attack should come this year, it would probably take the process of somebody offering to file with the county auditor for some office involved. This would, undoubtedly, be refused, and then the next step would be to mandamus the county auditor to compel him to accept the filing. The courts would have to decide the issue then.

AGED COUPLE DIE.

Shock of One Death Causes the Other at Grand Rapids, Wis.
Grand Rapids, Wis., March 13.—At 4 o'clock Sunday afternoon Mrs. Frederick Pfeiffer summoned a physician for her aged husband, who seemed to be dying. When the physician arrived at the house he found Mrs. Pfeiffer dead. She had died of heart disease, superinduced by the shock incident to the death of her husband. Her body was found lying at the side of her husband's bed. A double funeral will be held at Beaverdam, Wis. where the couple were married in 1878.

James Ruane of the Slayton Gazette protests that he and others who desired to support Ellihu Root are disfranchised because they cannot vote for the man they want under the primary election system. Mr. Root having forbidden his name to be put on the ballot, Mr. Ruane is no more disfranchised through this circumstance than he would be in any other election. The ballot constitutes disfranchisement, the only way to avoid it will be to put the directory of the United States on the ballot and let the voters take their choice.

Concerning the adverse criticisms of the presidential primary, its author, Ernest Lundeen, says:

"Necessary amendments and corrections, as occasion arises, will of course be made. Nothing human is perfect. The primary principle, however, is correct. The voter demands the right to nominate as well as to elect officials."

Shakopee Argus: Leading men in both parties as well as a great many of the Democratic newspaper men around the state have given expression to the opinion that Senator Julius A. Collier is by far the strongest man the Democrats can nominate for governor this year. That he would make a strong race in the polls on the 7th of next November all are agreed.

Julius Collier is not only a strong promise for the Democrats, but would make a strong man for the state to have at its head. He has a lot of experience in state affairs, for he was state senator since he was a pup, until he got tired of it, is conversant with every public question and has a large fund of the good old common or garden variety of horse sense. But he hasn't said he will run. Maybe that is how he is proving that he has sense.

Princeton Union: No loyal son of Minnesota wants to see his state represented by an aggregation of ninnyes at either of the great national political conventions as delegates; men like J. F. Jacobson and Frederick C. Stevens, on the Republican side, and men like Daniel W. Lawler and Anton C. Weiss on the Democratic side.

A typewriter is being introduced into India which will write the 26 characters and signs of the General alphabet.

BRIDGE TRUST AGAIN ACTIVE

State Highway Commission Declares It Is Again Being Attacked.

Cooley Says Townships Are Being Canvassed for Tuesday's Election.

George W. Cooley, state highway engineer, is satisfied that the so-called bridge trust, which a special legislative committee found to exist in 1914, is again attacking a movement to attack the state highway commission at the annual township elections throughout the state tomorrow.

The legislative committee which was headed by C. H. Warner of Aitkin county conducted an exhaustive investigation at the last session of the legislature and reported in April, 1915, that it found evidence that a bridge trust existed which was throttling competition in the various counties and was seeking to upset the highway commission and have the so-called home-rule plan of road and bridge building adopted.

Townships Being Canvassed.
On the eve of the holding of the township meetings the state highway commission says it has been informed that the various townships are being canvassed and the boards asked to pass resolutions declaring for the so-called home rule plan and against the highway commission.

"It is the same attack that is being made on every highway commission in the United States," declares George W. Cooley, state engineer and secretary of the Minnesota highway commission, and it is fostered by bridge builders and material men who object to any central organization which has the facilities for the comparison of prices and methods of construction, and which may reduce the cost of work in the communities interested.

Eleventh Hour Attack.
"The very fact that the attack on the commission is made at the eleventh hour shows that it will not stand the light of investigation. It is the same character of combinations that the various cities have experienced in paying for their bridges."

"For the forty-eight states thirty heavy state highway commissions, while only three are without a thoroughly organized state department, so that the central system for holding direct combinations in check must be successful."

Charles Adams, special county counsel, said today that he does not believe that such a construction will be placed on the Constitution. He declared that the Constitution provides terms only for judges of the district court, which are for six years, with no clause of holding over until successors are elected; probate judges, for two years, without the hold-over clause; clerk of district court for four years, without the hold-over clause; but no other officers in a county.

Section 4 of article 11, he said, provides that provision shall be made by law for other county and township officers, and that, therefore, the terms can be fixed by law, and change as the legislature sees fit.

If attack should come this year, it would probably take the process of somebody offering to file with the county auditor for some office involved. This would, undoubtedly, be refused, and then the next step would be to mandamus the county auditor to compel him to accept the filing. The courts would have to decide the issue then.

AGED COUPLE DIE.
Shock of One Death Causes the Other at Grand Rapids, Wis.
Grand Rapids, Wis., March 13.—At 4 o'clock Sunday afternoon Mrs. Frederick Pfeiffer summoned a physician for her aged husband, who seemed to be dying. When the physician arrived at the house he found Mrs. Pfeiffer dead. She had died of heart disease, superinduced by the shock incident to the death of her husband. Her body was found lying at the side of her husband's bed. A double funeral will be held at Beaverdam, Wis. where the couple were married in 1878.

James Ruane of the Slayton Gazette protests that he and others who desired to support Ellihu Root are disfranchised because they cannot vote for the man they want under the primary election system. Mr. Root having forbidden his name to be put on the ballot, Mr. Ruane is no more disfranchised through this circumstance than he would be in any other election. The ballot constitutes disfranchisement, the only way to avoid it will be to put the directory of the United States on the ballot and let the voters take their choice.

Concerning the adverse criticisms of the presidential primary, its author, Ernest Lundeen, says:

"Necessary amendments and corrections, as occasion arises, will of course be made. Nothing human is perfect. The primary principle, however, is correct. The voter demands the right to nominate as well as to elect officials."

Shakopee Argus: Leading men in both parties as well as a great many of the Democratic newspaper men around the state have given expression to the opinion that Senator Julius A. Collier is by far the strongest man the Democrats can nominate for governor this year. That he would make a strong race in the polls on the 7th of next November all are agreed.

Julius Collier is not only a strong promise for the Democrats, but would make a strong man for the state to have at its head. He has a lot of experience in state affairs, for he was state senator since he was a pup, until he got tired of it, is conversant with every public question and has a large fund of the good old common or garden variety of horse sense. But he hasn't said he will run. Maybe that is how he is proving that he has sense.

Princeton Union: No loyal son of Minnesota wants to see his state represented by an aggregation of ninnyes at either of the great national political conventions as delegates; men like J. F. Jacobson and Frederick C. Stevens, on the Republican side, and men like Daniel W. Lawler and Anton C. Weiss on the Democratic side.

A typewriter is being introduced into India which will write the 26 characters and signs of the General alphabet.

Nemo NEWS

Devoted to the HEALTH, COMFORT and BEAUTY of WOMEN

You Say This?

THOUSANDS of women who read this soliloquy will recognize it as their own:

"Yes, I am going to the Nemo because I have found a Nemo model that fits as though it were made for me, and because the Nemo is a REAL corset—never faddish or freaky."

"Of course Nemo fashion-lines: change with the fashions; but the Nemo hygienic features never change—except when they're improved. I always know just what corset-service I am getting."

"Beside, I have found that the Nemo Corset will wear twice as long as any other."

There is a Nemo model for every type of figure, short or tall; stout, thin or medium. Here is a group of popular Nemo Corsets for stout women of three distinct types:

No. 318 is for the short stout woman, heavy abdomen; No. 319 is for the stout woman of medium height, flesh evenly distributed; and No. 321 is for taller stout figures. All Ego-Shape models, that fit without alteration—\$3.00.

Special Stout Models

Each Nemo Corset performs some specific service for some particular type of figure. That's why you MUST get the model suited to YOUR figure, if you are to enjoy real Nemo corset-contentment.

These are two models for two different types of stout figure—both NEMO, but quite different. If one "just suits" you, you may be sure the other will not.

403 For women with full abdomen, and much flesh evenly distributed. Nemo Relief Backs take up, support and reduce the abdomen at once \$4.00 and permanently—\$4.00.

506 For women with much flesh, rather soft, full back and shoulders. The elastic girths and bands comfortably persuade the flesh into even, shapely lines. A very popular \$5.00 model.

No. 508 is a similar model for taller figures of same type—\$5.00.

There is a Nemo model made just for YOU. Get it at your dealer's.

SOLD EVERYWHERE \$3.00, \$4.00, \$5.00 and \$10

The Drug, Caffeine, In Coffee Is a Habit-Forming Agent

Bulletin 393, U. S. Department of Agriculture, entitled "Habit-Forming Agents," referring to caffeine and other ingredients used in the manufacture of certain soft drinks, headache mixtures, etc., says:

"Until recently it was claimed by some that these agents were harmless and did not belong to the habit-forming group. Later investigations, however, clearly show that this position is unwarranted."

The average cup of coffee contains about 2½ grains of caffeine. Mothers give it to their children and wives give to their husbands—unconscious of the harm coffee does to health.

When the nerves cry out, or indigestion, biliousness, headache or heart flutter begin to trouble, it's time to look to the cause.

An easy, sure way out of coffee troubles is to quit the coffee, and use

POSTUM

—the pure cereal food-drink.

There are two forms of Postum. The original Postum Cereal must be boiled; Instant Postum is quickly soluble in hot water, more convenient to prepare, and has the same rich flavor as the original Postum. Some prefer one form, some the other; both are free from the habit-forming drug, caffeine, or any other harmful substance, and the cost per cup is about the same.

THE engagement of Nathaniel Gidding and Meryl B. Frank, 310 West One Hundred and Third street, New York, was announced yesterday. Mr. Gidding is a brother of J. M. Gidding, and formerly resided in Duluth, though the last three years he has spent in New York.

Events of Interest.

The birthday party given Saturday afternoon by Master John Whyte, son of Mr. and Mrs. Elmer N. Whyte, 2322 East First street, in honor of his fifth anniversary, was the chief event of interest among the "younger society folk" last week, and the climax of joy and anticipation seemed realized when a large tissue paper pie filled with presents for each guest, and the "inner man" was appeased by distastefully life-like white-ice cream bears sitting coyly on nests of luscious real green spun sugar at each guest's place. The invitation list among these younger maids and men included:

Misses—Margaret Dale, Polly De Groat, Alice Ames, Kitty Howe, Margaret Hatch, Alice Gillette, Frances Harrison, Esther, Jim L. Hildred, Milton Baily, David Bradley, Dick Brown.

Mr. and Mrs. D. C. McDonald of Fifty-ninth avenue west and Huntington street, will entertain Saturday night by Duluth and Superior friends, who gave them a dinner set.

The guests and Mesdames—A. Chisholm, Jos. McDougall, Misses—Mary Chisholm, Jessie McCallan, Anna McCallan, Katherine Deaton, Mary Gormly, Marie McIntyre, Jessie Chisholm, Angus Chisholm, Honora McIntyre, Irene McDougall.

Messrs. and Mesdames—Albin Beaton, John McDonald, William Watson, John R. Chisholm, David McDonald, Malcolm McNeil, Angus Campbell, John A. Gillis, Hammond Morris, Charles McDonald, John Gillis, Jr.

The bal-masque of the East End Fortnightly club that was held at Prof. Lee's studio at the Spaulding hotel Saturday night was attended by eighty persons. The characters represented included: Goss of Liberty, Luth, Yana Yamas, Viking, poets, trained nurses, lords, fishermen and geisha girls, sailors, Mexicans, school children, Indians, chefs and Colonial men and women.

Mr. and Mrs. F. H. Fairfax of 5 Munger terrace entertained at three tables at five hundred Saturday night. The St. Patrick's idea was carried out at the luncheon table which was decorated with green and white. The guests were: Messrs. and Mesdames—H. H. Beckwith, E. H. Nordland, H. W. Kling, J. E. Robertson, S. C. Rhodes. Favors were won by Mrs. Nordland and Mr. Robertson.

Mr. and Mrs. Charles Roberts of 124 Sixteenth avenue east entertained at auction bridge Saturday night. The game was played at seven tables and favors were won by Mrs. Roberts and Mrs. R. H. Walter, James Young and C. H. Tanner. The decorations carried out the St. Patrick's day and spring flowers were used in the living and dining rooms.

Will Repeat Concert.

The concert which Mr. and Mrs. R. Buchanan Morton gave last Monday night at Glen Avon Presbyterian church will be repeated at 8:15 o'clock tonight at this church, because the weather of last week made it inconvenient for many of those holding tickets to attend. This will be the last of a series of three concerts given by Mr. and Mrs. Morton. The following program will be given:

EVENTS OF TONIGHT AND TOMORROW.

The Business and Professional Women's club will meet at the Y. W. C. A. at 6:00 o'clock tonight for supper, which will be followed by a social evening.

The Shakespeare class of the Twentieth Century club will meet at 2:30 o'clock tomorrow afternoon at the West Duluth library.

Mr. and Mrs. R. Buchanan Morton will give a concert at 8:15 o'clock tonight at the Glen Avon Presbyterian church. This will be a repetition of the concert that was given last Monday night.

The West Duluth Study class of the Twentieth Century club will meet at 2:30 o'clock tomorrow afternoon at the West Duluth library.

Mr. R. M. Selwood of 1931 East Second street will be the hostess for the meeting of the Ladies' Musical class tomorrow afternoon at the Y. W. C. A.

The study class of the Matinee Musicals will meet at 3 o'clock tomorrow afternoon at the Y. W. C. A.

Orchestra Will Attract Visitors to Duluth

Many inquiries are being received from the ranges and various towns near Duluth in regard to the appearance here on March 28 of the New York Symphony orchestra. The Two Harbors band has ordered a block of seats and undoubtedly many other visitors will come to Duluth after the train facilities, which are now being worked upon, are assured.

One of the treasured mementoes in the vast collection of personal letters from famous men and women in the library of Walter Damrosch, conductor of the New York Symphony orchestra, is a letter from Hans von Bülow concerning a joint concert of the New York Oratorio society and the New York Symphony orchestra at the time when Walter Damrosch was the conductor of both organizations. The most interested auditor was the celebrated von Bülow and after the concert von Bülow wrote the following letter to his young friend:

"You gave me last night a very, very great pleasure, such as has seldom been afforded me, and you know how genuinely happy I am when I am able to admire sincerely an artistic performance. This was the case last night. Your chorus is a collective virtuosity, such as the oldest and most celebrated institutions of the kind in the German emperor's city of Berlin cannot hope to approach. How happy

Duluthians Celebrating Their Sixtieth Wedding Anniversary

Mr. and Mrs. L. Larson of 707 Seventh avenue east are celebrating their sixtieth anniversary of their marriage today at their home. Both Mr. and Mrs. Larson in 1856 in the province of Trondheim, Norway, and came to Duluth eight years ago. They have had thirteen children, of whom eight boys and three girls are living. Forty grandchildren and twenty-four great-grandchildren complete this large family.

Mr. Larson was born in 1856. Mrs. Larson in 1856. They both still enjoy excellent health. Mr. Larson still pursuing his vocation as a painter, though he says he draws the line at painting roofs.

Efficient Housekeeping Universal Nervine

THERE are a hundred ways of cooking potatoes there are as many for cooking tomatoes, but those on the market now are not to be cooked. They are to be brought to the table raw, uncooked, and crisp. These very clear tomatoes should not have their skins scalded off; they are too tender to need it, as they will later in the season. Wash them in cold water, chill on ice a few minutes and slice with a sharp, thin blade. Have curry-powder in a shaker as well as salt and pepper; just a dash of it is delightful on fresh tomatoes.

Lettuce, celery, radishes and onions should be laid in salted cold-water two hours before serving. Cucumbers chilled in the same way and then sliced into vinegar and afterward used to garnish salads. Cucumbers which are appreciated by many. I have always thought Shakespeare was one who could not resist these first early goodies. He was so human, and you remember he wrote, "For this be sure tonight you shall have cramps."

The family castor is often revived and brought to the table with the salad, for there is always a obstinate one present who insists that no one else can dress salads properly. The inventor of the castor did mankind an irreparable injury. The castor and dyspepsia have been called the Siamese twins of the home table. The cucumbers are never air-tight, or they are always being lost. The cucumbers are never kept neatly. Whatever good property the mustard and pepper once had is lost through evaporation. The oil is too

would the departed author of the wonderful art work have been if he could have been present at this transatlantic interpretation! "Per aspera ad astra!" I exclaimed again and again, while the intoxicatingly beautiful sound of so many well-skilled throats came to my ears. Linnaea Branch Changes Name to Adelphi Club

Because of its being confused with the Linnaea club, the Linnaea branch has changed its name to the Adelphi club. "Adelphi" being the Greek meaning "sisterly love."

The club will continue to work for charity, especially for persons suffering from tuberculosis. It is planning to give a play in April to raise funds for its work. Miss Mary Sheegren will direct the play which will be given by a cast of twenty-five girls. Miss Nora Eise is president of the club.

Mary Jane Learns Something

SUNDAY morning, bright and sunny, Mary Jane was up and out to the barn to see if the baby chicks had eaten all the corn. She peered into the nest and poked her finger fearlessly between the soft feathers of the chicks. Not a scrap of corn cake did she find.

"They did eat it all! I know they were hungry," cried Mary Jane, happily. "Adelphi" being the Greek meaning "sisterly love."

"I'll get some breakfast for you, chickens, some breakfast in a minute," said Mary Jane, as she stepped into the house.

But her own breakfast was just ready, so her mother persuaded her to wait and eat while the corn cakes were cooking. "Adelphi" being the Greek meaning "sisterly love."

Personal Mention

Mr. and Mrs. Roy Bridgeman (Anna Jeronimus), who have been making their home in Plymouth, Ind., are visiting Mr. Bridgeman's father, Henry Bridgeman, of Forty-seventh avenue east and London road, before going to Grand Forks, N. D., to live. Mr. Bridgeman will leave this week but Mrs. Bridgeman will be in the city several weeks before joining him.

Mrs. Nettie Cornell, who spent several weeks at Hotel St. Louis while visiting relatives and friends in the city, left last night for her home in New York. She will sail Wednesday for Guayaquil, Ecuador, to be gone several months.

Miss Catherine Sullivan of Chicago, who has spent several summer here as the guest of Mrs. William H. Vaughan of 5333 London road, has arrived in London on her way to France. She and five other Chicago nurses will be at the Twenty-third General hospital of the British expeditionary forces.

Mr. and Mrs. John Sinclair, 2510 East Fifth street, will leave tomorrow for California where they will spend a month.

Mrs. L. W. Leithhead who has been seriously ill at St. Mary's hospital is improving steadily and expects to be able to return to her home today.

Mr. and Mrs. Dwight E. Woodbridge have moved back into their residence at 1235 Wallace avenue, which Mr. and Mrs. W. C. Agnew have been occupying the last year and a half while their home in Hawthorne road has been under construction.

Mr. and Mrs. George W. Buck who have been at the Hotel Royal Palm, Port Myers, Fla., are now at the Hotel Oulishans, Green Cove Springs, Fla.

Mr. and Mrs. William Dalrymple of Minneapolis, formerly of Duluth, last week joined a party at Palm Beach, Fla., that included Mr. and Mrs. D. R.

POPULAR SONG WITH A NOVEL IDEA

LOVE BALLAD CONTAINING AN ECHO IN THE CHORUS.

A new song somewhat out of the ordinary is a quiet affair now popular in New York, called "The Echo of the Moonlight." It contains various pretty strains and a particularly odd idea, namely, a musical echo in the chorus, as will be seen in the first line, as follows:

In the Glory of the Moonlight

A salient feature of the song is its clean and refined text appealing to those who prefer the decent style of popular ballads. In the arrangement are also various quartette effects which lend quite a charm when sung.

The song is said to be one of the novelties in popular music.

McLennan of Chicago, Mrs. Dalrymple's brother-in-law and sister, and Ward Ames of Duluth. They are at the Breakers.

Judge Page Morris of Duluth was in Pasadena last week, a guest of the Vista del Arroyo.

Mr. and Mrs. Lewis B. Newell of Minneapolis, who have been at Sea Breeze, Fla., went last week to Palm Beach to join Mr. and Mrs. Dalrymple.

Miss Helen M. Haines and Charles R. Haines of Duluth are at the Lyndhurst, Dayton, Ohio.

Mrs. A. L. Scott of Minneapolis arrived Friday and is the guest of Mrs. Woodland avenue, 8210 East Superior street.

Mrs. J. R. Patterson of Hunters Park, who has been at St. Mary's hospital for the last two weeks, is expected to return home at the close of this week.

Mr. and Mrs. Hecy actor of Fargo, N. D., are the guests of Mrs. A. C. F. Hector of Lester Park.

Miss Allee Linner of Duluth has been visiting relatives in Stillwater, Minn.

Mrs. L. H. Ellstrand, 1017 East Second street, and her aunt Miss Virginia Geard, have gone to St. Paul for a two-weeks' visit. Mrs. Geard will proceed to Nebraska for a visit.

Miss Odile Lohs of Clonquet was the guest of Miss Maude McIntire, London road, for the week end.

E. A. Forsyth and daughter, Miss Helen Forsyth, East Third street, have returned from a two-weeks' visit in New York city.

Mrs. A. A. Hobbs, who is passing the winter with Miss Beulah Hubbard, of Woodland avenue, has as her guest, her little niece, Ruth Frances Morgan, of Virginia, Minn.

Charles V. McCoy returned the first of the week from his home at 1518 Wallace avenue, from a trip through Northern Minnesota.

Mrs. Louis Zalk of the Holland hotel has left for a visit with her sister, Mrs. Kornfeld, at Great Falls, Mont.

Mr. and Mrs. J. H. Sattler of Duluth are among the new arrivals at Excelsior Springs, Mo.

Samuel Gomborg arrived Saturday night from New York to be the guest of his parents, Mr. and Mrs. William Gomborg, 1212 Grosvenor road for a few days. Mr. Gomborg is returning from a trip to Cuba and Southern points.

Mrs. D. Trine of St. Paul left Wednesday for her home after a two-weeks' visit in Duluth.

Miss Ruth Siegel, 609 East First street, has returned from a three-weeks' visit to relatives in Fargo, N. D. where she attended the Barron-Letvitz wedding.

Fifth Son of the Kaiser Is Married

Amsterdam, March 13.—The marriage of Prince Joachim, the fifth son of Emperor William, and Princess Marie Augustine, daughter of Prince Edward of Anhalt, was celebrated Saturday in the royal castle of Bellevue, according to a dispatch from Berlin. The marriage took place in the presence of the empress of Germany, the duke and duchess of Anhalt, and other relatives. Emperor William was not present.

The engagement of Prince Joachim and Princess Marie Augustine was officially announced Oct. 14, last. Prince Joachim was 26 years old Dec. 15, last, and is captain in the Fourteenth regiment of Hussars. He was the only unmarried child of the emperor. Princess Marie Augustine is the eldest of four children of Prince Edward of An-

Interesting conception, in a manner which stamps him as a leader among performers in his particular line.

Wizards of the accordion are the Bouffant brothers. Their music is a revelation and their repertoire a happy blending of classic and popular numbers, all of which is rendered with fine execution and spirit, registering them one of the big hits of the bill.

America and Mulvey, offering a vaudeville "cocktail" made up of singing, talking and dancing, is good entertainment. Rose McVie, the "Si Hopkins of stageland," will make her screen debut in "A Leap Year."

On Tuesday and Wednesday the last of the Singaree stories will be added to the program.

Little Mary Miles Minter opened a three-day engagement yesterday at the Lyric.

YAKAT, Miss Minter, who is only 17 years old, is said to be the world's youngest star, and critics claim for her a great future.

In her new play "Dimples," Miss Minter in the role of the same name has the best part she has ever attempted.

Dimples is a little girl in love with dolls. Her father is a miser and she is only his gold. So Dimples gives most of her love to her dolls. One day her father is stricken and leaves all his wealth with a half-witted fool who sews the money up in Dimples' doll. He is shot by a thief who tried to rob him but before expiring tells Dimples never to lose her doll as it would make her rich. How Dimples saves her doll time after time when it seemed gone forever, and how she discovered the truth in a story that holds together well. Miss Minter is supported by Thomas J. Curigan together with other well-known screen players.

Manager "Jim" Morrissey believes firmly that the powerful pictorial NEWLYWEDS, perpetually presented in the Lyric, is a masterpiece of THEATRE GUESTS Marriage Game, which is to be at his theater, the Lyric, for two performances, March 17, contains much that would be valuable to newly married couples.

Further, the manager is certain the advice voiced by the "Mrs. Oliver" of the play, would prevent just-joined

couple from falling into the errors which make unhappy married pairs of married folk in the comedy.

Wherefore, certain that it is his duty to assist in starting Duluth benedicts and their smiling spouses on their long journey in the right way, Manager Morrissey announces that the couples married in Duluth on St. Patrick's day, are to be the guests of Manager Balmbridge, Miss Florence Stone and him, self at the play, "The Marriage Game."

All that is necessary is to call at the Lyric box office, before the afternoon or evening performance on St. Patrick's day, present a marriage certificate dated March 17, duly signed and attested by any authorized official or minister; whereupon, Treasurer "Bob" Johnson, with his best smile and best wishes, and the Lyric's compliments, will hand out a pair of the best seats in the house.

With the tickets, etc., also, will go Manager Morrissey's blessing as a benediction.

GROWS RETURN FROM THE SOUTH

First of Feathered Travelers to Leave Their Winter Homes.

The black-capped pirates of the corn fields arrived yesterday with much noisy cawing. They are the first of the feathered travelers to return from their winter homes in the South, and are probably the least welcome. Duluth's bird colony now includes crows, chickadees, downy woodpeckers, bluebirds and the inevitable, chippy, ubiquitous, saucy little English sparrow.

A few red-pollared linnets are also to be found, and the mysterious grosbeaks flit in and out as their fancy dictates.

Student Officers Join Regiments. Junction City, Kan., March 13.—Fourteen student officers of the mounted service school left for Riley today for the border to join their regiments.

Just as the Lyceum program states, "The Mischief Makers" offer "real burlesque."

With an abundance of slap-stick comedy, variety of costumes, the Aloha Hawaiian Hula dances by the Aloha Twins and a variety of songs, dances and jokes, "The Mischief Makers," which opened at the Lyceum theater yesterday, has a long engagement, live up to their predecessors and the program key line, "Not grand opera, but a most enjoyable and real burlesque." Two big audiences greeted the players at the opening performances yesterday.

Although the comedy stunts are anything but new, the principals make the production, and the members of the chorus are not far behind. The extended stage, on which the feature numbers are sung and danced, proved a novelty and distinct hit with the audience.

The Aloha Twins, "with the breath of the Pacific clinging to them" and hardly anything else, are the headline attractions of the show. The two young women play first on the ukulele and then on the "tarpitch," both native Hawaiian instruments. Their closing dance is a wild affair.

Rich McAllister as Shorty is easily the funmaker of the production. He is a good tumbler and aids in getting the slap-stick comedy some real laughs. He is assisted by Felix Brush as Ruben Hay and George Brennan as Pat Trimmer. Miss Mabel Clark as Ruth Smile and Miss Ruby Lusby as Lottie are both clever dancers and singers, and the members of the chorus, with different costumes each time, Miss Clark in particular shows rather exceptional ability as a burlesque comedienne. Her number, "The Fountain of Youth," was about the most particular on the bill.

There is hardly any plot to "The Mischief Makers." The action takes place at the Hotel DeDon Good and the French garden at the Pan-American exposition.

The Mischief Makers will be at the Lyceum today, tomorrow and Wednesday, with daily matinees.

Theater Gossip.

Since 1878 De Wolf Hopper has visited nearly every community in the country.

DE WOLF HOPPER boasted of PLEASES REX PATRONS an opera IN "DON QUIXOTE" would seem from the comment of those who saw

the celebrated comedian and artist in his first film play yesterday at the Rex Beautiful, in "Don Quixote" that this actor has found motion pictures well suited to his talent.

The securing of Hopper for motion pictures and the release of his first screen play by the Triangle Fine Arts company, was a distinct event and one which did not go unnoticed by the critics. He makes the Spanish novelists here stand out so that the audience wishes the picture was twice as long.

Those irresistible Keystone comedies, produced by the Triangle people, are as carefully prepared, built up and acted, as are the dramas offered by them. During the run of "Don Quixote," Rex patrons will see Ford Sterling in "His Fridge and Shame," laughable from beginning to end. Miss Beale Barrielle returns Thursday and the week's offering at the Rex is a most notable one.

Miss Nance O'Neil, who plays the leading part in "The Witch," which began a three-day run at the Lyric yesterday and is to THE LYRIC, he seen today, to the public eye.

morning, had her picture in the "Hall of Fame" at the San Francisco exposition of the most representative American actress from the state of California.

She is a continental favorite now, and motion pictures have introduced this bewitching actress to every corner of the country. She is today applauded from Maine to her native state; from the Everglades of Florida to the Canadian border, and nowhere is she more of a favorite than in the city of Duluth. Her very latest and newest picture, "The Witch," fits Miss O'Neil as her modish gowns become her. It is based on Sardou's famous play, "The Sorceress," and the plot is laid in old Mexico, now so strong in the public eye.

The standing room only conditions at the Lyric yesterday testify as to the popularity of the picture.

TODAY IN HISTORY.

Alaska purchased, 1867.
Popoff, a Cossack, visiting East cape,
Siberia, in 1711, brought back to Rus-
sia the first definite knowledge of
the existence of a continent which
lay beyond the Bering strait.
In 1741, the Great, sailed Bering
strait in 1728, and in 1731, Gwadar,
Cossack, was blown on the Alaska
coast, the first Russian to reach there.
For trading led Russian, English and
other adventurers to Alaska. By a
treaty negotiated by Secretary of State
Seward, despite much opposition, the
United States bought Alaska for \$7,200,000. The real development has
mainly been since the gold discoveries
of 1897-1898.

VOTE THE WILSON TICKET.

Democrats, surely, ought to be out at the
primary election polls tomorrow in full
numbers, if for nothing more than to record
their satisfaction with the policies and re-
cord of a Democratic president who has
done more for the country and his party
than any Democrat since Jackson.

If there were an opposing candidate, it
would bring out the vote; but when the
unopposed candidate is such a man as Wil-
son, the full Democratic vote ought to be
out if nothing more than party pride and
party gratitude—and the pride and grati-
tude of good citizenship—brought it out.

Democrats, surely, ought to go to the
polls tomorrow and vote not only for Wil-
son, but for the Wilson delegates—to be
sure that none but staunch thick-and-thin
supporters of the president go to the na-
tional convention.

Today is Jeff McLemore's birthday. Which
recalls the fact that the Congressional Di-
rectory says he was born on Friday the 12th.

THE RAILROAD ISSUE SHOULD BE ARBITRATED.

The railroad men of the country have
waged heavily in favor of certain demands
relating to pay and hours of labor.

The railroad managers are quoted as say-
ing that they cannot grant these demands.
Both sides are appealing to the public,
and that shows a proper spirit and is to be
applauded.

The railroad employees are vitally inter-
ested in their jobs and in their pay and
hours of work, and the railroad managers
are deeply interested in keeping their re-
ceipts coming in.

But they are not a particle more inter-
ested in these things than the public is in
having railroad service continue without
interruption, and if the dispute grows into
a strike or lockout, railroad service will
cease, or at best will be inadequate and un-
reliable.

The public probably will not go very
deeply into the merits of the controversy.
Insofar as it does, its sympathies probably
will be with the workers by a large ma-
jority. The public wants the railroad work-
ers to have reasonable hours of work, good
working conditions and good pay. It also
wants the railroad service kept up to the
highest possible level, and therefore it
wants the railroad income and outgo prop-
erly balanced.

But above all the public wants no strike
or lockout that will stop railroad service
while the parties to the quarrel fight it out.
Such a test of endurance, the outcome of
which, like the outcome of war, has no rela-
tion to the rights of the issue, victory fol-
lowing to the side that can stick out longer,
would be a terrible hardship on the public,
which is guiltless of no wrong and ought
not to be punished.

On reliable and uninterrupted railroad
service depend many things—food, cloth-
ing, shelter, fuel, supplies of many kinds,
issues of life and death as well as comfort
and convenience. If the railroads should
be tied up for any length of time, hundreds
of thousands of other workers would be
thrown out of employment. Coming just
when things are most promising, a railroad
strike or lockout and a tie-up of railroad
service would be a calamity without parallel
in the country's history.

It is unthinkable that the parties to this
impending conflict will let it come to that.

In one side or the other or somewhere
between there is a point of exact justice.
That point cannot be developed by a fight.
There is no need of paralyzing the whole
country to discover it. Arbitration before
a fair and unbiased tribunal will bring out
the right of it, and while the adjudication
is in progress the railroad men can stay at
their work and the trains continue to run—
wages and railroad earnings suffering no

stoppage, and the public suffering no in-
terruption in railroad service.

Surely both the railroad workers and
their employers must dread a strike or lock-
out from which both—as well as the public
—would suffer irreparably. Surely both
should be eager to do anything within rea-
son to avert that danger. And there can
be no possible doubt that the public would
view a disastrous strike in no very good
temper.

One difficulty with "baby week" is that
the family with the greatest possibilities
for a large entry list is barred from en-
tering by the very fact that its possible en-
try list is so large.

DON'T FORGET THE PRIMARY.

Don't forget that the presidential pre-
ference primary election, the first in the his-
tory of Minnesota, will be held tomorrow.

As a partisan and as a citizen, it is your
duty to participate in this election. It will
be held at the usual polling places and the
rules governing primary elections govern it.

If you are a Republican, don't be re-
strained from voting by the fact that your
party managers have kept off the ballot all
the candidates that are at all likely to be
nominated. Go to the polls and vote for
the candidates for delegate that you feel
can be trusted to do the right thing by the
party in the national convention. The can-
didates they profess to stand for is a mat-
ter of less importance than their personal
character, for they are bound by the direct
expression of the votes on the presidential
candidates.

If you are a Democrat, go to the polls
and vote for Wilson, helping to roll up a
total that will show his party's appreciation
of the noble service he is giving to his
country, and for delegates who can be de-
pendent upon to stand for him and for all
he signifies in the national convention.

Vote at the presidential primary election
tomorrow.

Maybe we could trade our Philippines
equity for the Danish West Indies.

NO TIME FOR A SWASHBUCKLER.

After quoting from and agreeing with
Col. Roosevelt's statement in a letter that
the Republicans ought to get together at
the Chicago convention as patriotic citizens
imbued with "the same lofty devotion to the
interest of our nation as a whole which
was shown in the original Continental Con-
gress"—which is also true of the Democrats
who meet at St. Louis—the Minneapolis
Journal is unkind enough to add:

And in rendering this great service to
their country they (the Republicans) will
nominate no swashbuckler, no "big trill-
ing" in trousers, but a man of broad ex-
perience, of ripe statesmanship, and of
sound and deliberate judgment.

And that, too, is very proper—especially
as every word in it eliminates Roosevelt
from consideration.

"Mr. Watson, come here; I want you," are
said to have been the first words ever
spoken over the telephone. And here we
have been thinking all along that they were
"Quick, Watson, the candle."

WHY CONSTITUTIONAL REVISION WAS DELAYED.

"The Minnesota Constitution," says the
New York Evening Post, "needs revision.
But Minnesota, like Illinois, suffers from
the rivalry of would-be revisers. She
might have passed upon the question of
calling a constitutional convention in 1913,
but the legislature was restrained from this
action by the professed advocates of pro-
gress, who feared that the submission of the
proposal would defeat the radical changes
they were planning to submit in 1914—all
of which the people rejected. Self-govern-
ment is still a long way from being an exact
science."

In this account the Evening Post is en-
tirely correct.

Representative Gunnar Bjornson had a bill
in the 1913 session proposing a convention
to revise the Constitution. Others had bills
in for initiative, referendum, recall and
other more or less important amendments.
The advocates of these amendments feared
that if the question of a complete revision
of the Constitution were put up to the
voters, their amendments would be de-
feats. As Mr. Bjornson favored most of
these amendments and did not wish to do
anything to injure their chances, he did not
press his measure. Undoubtedly, with the
support of those "progressives" who op-
posed him for the reason stated, he could
have put the constitutional convention
measure through at that session.

The failure to take action then, all surely
will agree now, was a mistake.

The thing to do now is to submit the
proposal at the coming session of the leg-
islature.

That won't happen unless a very pro-
nounced public sentiment in favor of a new
Constitution is demonstrated between now
and next January, when the legislature
meets.

Senator Cummins is being referred to by
Minnesota papers as "our neighbor." Since
his vote on the Gore disgrace it wouldn't
grieve Minnesota a lot to see "our neighbor"
move.

Life's Dictionary of Preparedness Terms.

Life: The enemy. Any nation that has a
balance of trade against us.

Patriot: To a munition maker, a man who

The Republican

Split in the House

Editorial in the New York Evening Post.

By far the most significant feature of the
voting in the house was the sharp division
disclosed in the ranks of the Republicans.
On the final roll call 93 of them voted to
sustain the president, while 122 of them
voted against him. We know, of course, that
there was pretense of the issue not being
clear-cut; that some Republicans professed
a sorry display. Despite the fact that a
McLemore resolution, and some another; but
all this will not appeal to the common
sense of the country. What ordinary people
will say is that, after all the sparring and
maneuvering the vote was on the question
whether the president ought to be upheld,
both in his general right to conduct the
foreign policy of the government, and in
the specific matter of his insistence that no
American right must be abridged by an
other nation, and that the Republicans made
a sorry display. Despite the fact that a
great Republican campaign is under way to
attack Wilson for hesitation and weakness
in his attitude towards Germany, on the
first occasion to support him in a firm po-
sition, the majority of the Republicans in
the house ran away.

The result is, first of all, a pretty seri-
ous reflection upon Republican leadership
in the house. Representative Mann is an
alert parliamentarian, a ready debater, a
man keen to score for his party on small
points. Even before yesterday it was doubt-
ful if he had grasped the importance of the
matters of large policy; and now the country
knows that he has not. To run off, as he
did, on petty side issues, when the big ques-
tion is staring him in the face, is a dis-
grace. The face, was the mark of an incapable leader.
Half of his following deserted him on the
spot. The whole was a political blunder
of the basest kind. No one could have be-
lieved that the "party fit to rule" would fall
into it.

Another aspect of the matter is of deep
political import. It is like Root and
Burton and Borah—not to mention
Col. Roosevelt—have been raising a
great cry against the "hyphenates" in our
public life. And a Republican party has
been having hysterics over the Democrats
afraid of the German-American vote, wear-
ing the Kaiser's coat, and running up the
German flag over the capital.

But on the first test vote the Republican
hyphenates are found to outnumber the De-
mocrats more than three to one. If it is a
question of cowardly fear of the German-
American vote, it is a question of the
Republican representatives from the states
of Wisconsin and Illinois. In the delega-
tion from the former, all of the Republi-
cans—eight in number—voted against the
backing up the president in his unyielding
attitude towards Germany. Of the fifteen
Republican representatives from Illinois, all
but one, Mr. Root, voted the same way.

What would Roosevelt say to his beloved
Illinois still taking up with the "Wis-
consin idea"? The Wisconsin idea is, as
explained by the German-American alliance,
to get up a Republican agreement whereby
the voters of German descent will be given
a satisfactory candidate against Wilson. Will
not the events of yesterday be seized upon
as proof that such a thing was done by
us? We do not say that it is, or believe that it
is serious; but the mere report and suspicion
of such a thing are enough to show how
badly the Republican party is divided.

Setting out to prove that the Democratic
party was divided and un-American, they
exhibited themselves to the country as far
more torn apart than they are. They stand
up for American rights unabridged.

President Wilson, being only a professor,
innocent of the wiles of politics, cannot be
thought to have set a trap for the Republi-
cans by demanding a vote in congress. But
as he observes them actually caught in the
trap, he may be pardoned if he smiles. Cer-
tainly, a lot of Republican campaign ma-
terial was spoiled, and a lot of speeches
he made to prove that the Republicans
acted in a truly patriotic spirit; but an in-
credulous world will take a deal of persuad-
ing on this point.

The Republican Idea

of Team Work

New York Times: With great ability and
keen political insight Elihu Root shaped the
vital campaign issue for the Republican
party and put it before the country in his
speech at Carnegie hall. The Democrats
were by demanding a vote in congress. But
as he observes them actually caught in the
trap, he may be pardoned if he smiles. Cer-
tainly, a lot of Republican campaign ma-
terial was spoiled, and a lot of speeches
he made to prove that the Republicans
acted in a truly patriotic spirit; but an in-
credulous world will take a deal of persuad-
ing on this point.

Mr. Root's speech was published in the
morning newspapers of Feb. 16. On the after-
noon of that day the administration dealt
Mr. Root's issue a body blow in the an-
nouncement of the secretary of state that
"any settlement of the Lusitania case must
depend on how German submarine warfare
will be conducted in the future." The next
day the president in his letter to Senator
Stone so grievously mislabeled the Republi-
can issue that it was left gasping and in
need of immediate restorative.
When the Republicans in the house of rep-
resentatives, by casting 102 votes against
tabling the McLemore resolution of surrender
to Germany to 93 in support of the motion
to lay on the table the entire delegation
from some great Republican states voting
solidly against the president, have knocked
the last spark of life out of the fire, they
have actually won the day. The result of the
vote taken on Tuesday was announced it gave a little squeak
and expired. The Republican party now con-
tends the campaign with a candidate who can
be set forth in a speech, described in letter
press, made visible by pictures, or explained
by a diagram.

Rippling Rhymes

The Bally Muse.

Oh, it's hard to keep on singing,
when the muse won't work; when your
brow with sweat is wringing, and the
muse won't work; then I'd throw away
my fader, and go forth to honest labor,
at the wood pile, like my neighbor,
when the muse won't work. It is hard
to keep on harping, when the muse
won't work; and the critics all are
carping, if the muse won't work; "Yon-
der bard his grip is losing," say the
critics, him abusing; "Homer nods, but
he is snoring, and his muse won't
work." I'd like to be a baker, for my
muse won't work; or the village under-
taker, for my muse won't work; I
would like to be a tinner, or a butcher
or a spinner, or a fuller or a skinner;
while my muse won't work. Oh, to
earn a tailor's wages, for my muse
won't work; I have walked the floor
for ages, but my muse won't work;
with my fountain pen I potter, but my
brain begins to totter, though I've
soaked my head in water, and the muse
won't work.

The Wife of Rousseau

From the Kansas City Star.

There is little of narrative in Alexan-
der Dumas' "Joseph Balsamo." But be-
sides the petty life of the court of Louis
XIV. he pictured in the book the reader is
permitted to meet Jean Jacques Rou-
seau, who fought for the rights of man
two hundred years ago, and his wife,
Gilbert, an amateur philosopher, foot-
sore and hungry, is making his way to
Paris. He has had nothing but a cat for
twenty-four hours. Then he meets
Rousseau in the woods.

An old man sat on a log near a pond of
dirty water surrounded with tall grasses.
Innumerable flies skated across its surface,
leaving little rings in their paths. The
expression of the old man's face was mild,
refined and yet penetrating. He was dressed
in brown coat and breeches, with his shaggy
legs incased in gray, cotton stockings.
A box, painted green, filled with plants,
lay open beside him on the ground. He held
a loaf of bread in his hands. From time
to time he broke off small pieces, sharing
them with the birds which were bold
enough to swoop down on the bits he threw
on the ground before him. From a checked
handkerchief beside him he took cherries to
eat with his bread. This was Jean Jacques
Rousseau.

Gilbert approached and told Rou-
seau of his hunger. Rousseau was about
to give the loaf to Gilbert, when suspi-
cious mind, and he withdrew
the extended bread. The soft, penetra-
ting tone of his voice hardened as he
said: "I have had no food for twenty-four
hours. I am hungry, and I am cold. I am
darkness began to inclose them when
they started toward Rousseau's home."

It was 8 o'clock. The nearer Rousseau
approached his wife the faster he walked.
He was feverishly agitated and warned
Gilbert that his wife probably would scold
them for coming in so late. Rousseau ran
up the stairs when he reached the hallway
and pulled a cord and a sharp tinkling bell
rang. The shuffling of slipshod feet drag-
ing along the floor within was heard. The
door opened and a woman about 50 years
old appeared. Two voices arose together—
one that of the woman; the other, that of
Rousseau.

"You are too late, dear Therese," he mur-
mured, timidly.

"A pretty hour, Jacques, to sup at?" she
replied, rudely.

"Come, come; we shall soon make all that
right," Rousseau replied, affectionately,
shutting the door, and then turning to re-
ceive the tin box from Gilbert's hands.
"Oh, a porter to carry your box?" the
old woman cried. "It only wanted that, so you
could not carry all that nasty stuff of grass
and herbs yourself. Indeed! a porter for
Monsieur Jacques! I beg pardon. He is be-
coming a gentleman!"

"Well, well, be calm, Therese," Rousseau
replied, quietly.

"Pay him, then, and send him away. We
don't need a porter," he said.

Gilbert turned pale and sprang to the
door. Rousseau stopped him.

"This gentleman," said he, with less timi-
dity than he had shown at first, "is not a
porter, still less a spy. He is a guest whom
I have brought."

The old woman's arms fell powerless by
her side.

"Come, Therese," Rousseau said in a tone
still affectionate, but in which a shade of
defiance was detected. "That is a candle.
I am heated, and we are thirsty."

The old woman still grumbled, loudly at
first, but gradually subsiding. Then she pro-
ceeded to serve a flask.

The old woman's face was yellow and
morose, the eyes sharp, the features vulgar.
She went about preparing supper, grumbling
of her hard fate and declaring there was
nothing to be done for two but not enough
for three. She berated Rousseau, sarcastically
remarking what hard work it was for a
botanist to pass the day in the shade of
a forest, stooping from time to time to
gather a plant. Rousseau's replies were
kindly, affectionate, yet firmer and firmer
each minute.

Therese announced there was not enough
bread for three and that she was not going
down three flights of stairs to get more.

"Then I shall go down myself," Jacques
replied, frowning. "Open the door, Therese."

"Oh, but—"

"I will go down, I tell you!"

"Well, well," the old woman said in a dis-
contented voice, but at the same time yield-
ing to the absolute tone which her propo-
sition had called forth from Rousseau. "Am I
not always ready to satisfy your whims? I
think we can do with what we have. Come
to supper."

Supper was an affair of grumblings
and lashings from Therese's tongue.
Rousseau answered her calmly and
soothingly. But the storm broke in
all its fury when Rousseau announced
that his wife should fix a bed for Gilbert.

"Bed, are you mad? If you bring any-
one to sleep here, I must tell you. You are
overly bedridden. Or perhaps you are go-
ing to take up a boarding house? If you
are you may as well come and wait on
me. It is quite enough for me to be
your servant, without being servant to other
people."

"Therese," Rousseau replied, resuming his
calm and firm tone, "Therese, please listen
to me. It is only for one night. This young
man has never set foot in Paris before. He
came under my protection and I will not
permit him to sleep on the street. I will not
though I should, as you say, have to resign
him to my own bed."

Again Therese gave in and announced
that she would fix the young man a pal-
let in Rousseau's study near his bundles
of papers.

"No, no," Rousseau said quickly. "A study
is not a fit place to sleep in—he might set
fire to the papers."

"A great misfortune truly!" muttered
Therese as she shuffled off to fix a bed in
the attic.

"And this, Dumas says, was the wife of the
old man of whom he has said he would de-
liver his best friend to enemies, tied hand
and foot, for the smile from a pretty face."

Not "Too Old at Forty"

London Answers: The cry of "Too old at
40 years, in the same, at any rate, got its
death knell during the present war.

The older men have been called to fill
the places of the youngsters who have gone
to the front, and they have filled them well.
The late Dr. Alfred Russell Wallace is-
sued one of his biggest and most learned
books when he had passed his 80th year.
He actually wrote four big books after he
passed his 80th year!

Tennyson was remarkable both for the
quantity and quality of the work he did in
old age. He wrote that supreme lyric,
"Crossing the Bar," when past 80 years old.
One of his most famous poems, "Locksley
Hall," was written when he was over 60.
He actually wrote his sequel, every bit as fine,
sixty years after, as its title shows.

Mr. Gladstone had reached his 84th year
when he was elected to undertake the
presidency of the greatest empire in the
world for the fourth time.

There is much truth in the old saying
that a man feels as young at 80 as an-
other does at 30, and the former is often
a better man than the latter, even if he
can't lift as much. It is less that rule
mankind, not flits, "mated" or otherwise.

Political Straws in the Minnesota Breezes

Campaign Subjects Discussed by Minnesota Editor.

Many Are Wondering the Same Thing.
Present Times: Just for the sake of vari-
ety, why couldn't we see a Republican
time statesmen to congress as well as mere
politicians?

Not to Mention the Gore Resolution.
Slattery Gazette: The Cummins followers
make mention favorable to him of the fact
that he opposed Canadian reciprocity, but
forget to state that he advocated it for
years and even had a lengthy spiel for it in
his inaugural address as governor of Iowa
in 1906. He changed his tune with exceed-
ing swiftness when the farmers of the
Northwest saw what it would lead to. A
real statesman might possibly see this from
the beginning. He also favored tariff re-
vision downward until that was shown to
be the wrong way. He has been wrong too
many times to be a safe leader.

Maybe It Will Come to That.
Little Falls Herald: If Eberhart, Clapp
and Kellogg all make the senatorial race
it will be real interesting. Kellogg can
spring his dignity, Clapp his superb powers
as a stump speaker, and Eberhart will have
an opportunity to see how faithful the
friends will remain. A three-cornered
debate between these three practiced speakers
would be a novel feature. Why not?

But Can the G. O. P. Save Roosevelt?
Monticello News: "Save the Republican
party from Roosevelt is all that we ask in
the next campaign."—Dassel Anchor.

Why, Charles, T. R. is the only man that
can save the Republican party, and it needs
saving mighty bad.

Why Not Eberhart, Too?
Mankato Review: Moses E. Clapp gave a
big boost to Kellogg's senatorial candidacy
when he voted against upholding the presi-
dent on the armed ship question.

The Cummins News Program.
Madison Independent Press: Mr. Roosevelt
has taken to the tall timber for the presi-
dency in June is not so remote as
it might be. In fact, he is the only man
for the nomination than Mr. Cummins. In
this connection we may say that it is quite
probable that after the first ballot Minne-
sota will go to Roosevelt.

Sound Sense From a Republican.
Hokah Chief: We Republicans make the
mistake of thinking an argument is sound
because it is old.

We utter more reason rather than time-hon-
ored phrases to justify our reasons for a
protective tariff.

For instance, we point to the calamity
which has befallen the country now as due
to lack of protection, and say that the dy-
stuffs and chemical industries must be
protected in order to insure against a repeti-
tion of it and to foster the "infant indus-
try" against the cheap labor of Europe after
the war is over.

We use these old gags unthinkingly, and
toss them about as if they had real merit.
We forget that there is a protective
tariff almost unintermittently for fifty
years, and we fail to see that if the dy-
stuffs and chemical "infant" has not grown
able to stand alone at that length of time
he better quit trying, and let somebody stand
who can stand.

We get so bound up in our love for "pro-
tection to American industries," which has
been as lullaby to us for half a century,
years, that we can't see some of the fal-
lacies of it.

PARAGRAPHIC COMMENT OF THE WORLD OF SPORTS

BY BRUCE.
ADAM M'ETTRICK is obviously needed to inject more enthusiasm into the Gibbons-Smith contest. Jeff Smith is a much greater fighter than Ahearn, if ring results count, and yet there is not the waving of flags and shaking of hairy fists that preceded the Gibbons-Ahearn fight and drove \$23,000 into the box office.

Verily the strength of the clever press agent should not be underestimated and the power of the screaming headline despised.

Some Enthusiasm, This.
JOE BETMANEK, manager of Joe Stecher, dropped a friendly line to this column yesterday. Regarding the drawing powers of the "Boy in the Overalls," Hetmanek declared that Butte, Mont., a town smaller than Duluth, turned in a box office count of \$6,000 and that 1,000 persons were turned away because the house was sold out two days before the contest. Some of those unable to buy seats offered \$10 and \$15 for standing room.

Some Peculiar Talk.
FRANK MORAN apparently is training for the fight in his career and apparently in grand condition. New York sporting writers are insinuating the training methods of Jess Willard are far from the orthodox manner of preparing for a great ring encounter.

The Gibbons-McFarland bout was a bloomer. It's surely up to Tom Jones and Jack Curley to do everything in their power to make this heavyweight encounter good. Should Willard enter the ring in poor shape, the boxing game will be dealt a staggering blow.

Moran is a popular fellow and he is apparently going to make a great bid for the title. If the Pittsburgh redhead was returned a winner, mark ye, there would be no great wailing and gnashing of teeth. Jess Willard falls far short of being the ideal heavyweight champion.

Greetings, Norman Selby.
WHO do you think appeared here in moving pictures during the past week? Kid McCoy. Rex theater patrons, lots of them, doubtless, failed to realize that they were looking at one of the greatest boxers and one of the greatest fighters of all time, in a tall man who played an obscure part in a regular film drama. Yip, Kid McCoy has tried a new venture and got away with it very well, indeed.

McCoy has operated a cafe, been a physical culture expert, driven racing automobiles, traveled with a circus, sold adding machines, sold patent medicine, fought, lectured and about everything else. Now he is in the moving picture business. As a general utility man, the pale and rather ethical looking Mr. Selby is some snucks.

James Has a Great Rival.
JIM CORBETT has always been considered the greatest example of the hit and get away act that the world has produced. Villa, though, is running James a close race for the title.

After Pet Brown.
WAINO KETONEN is on the trail of Pet Brown, the famous wrestler of Taylor, Texas. The Texan weighs about 168 pounds and yet has the effrontery to claim the middleweight title. If Ketonen wrestles the Taylorite he will be forced to give away about twelve pounds, and yet the little Finn is willing to take a chance.

Ketonen has been giving away weight ever since he has been in the wrestling game. There is no one his size, with the possible exception of Walter Miller, who can give the Finn a battle.

May Fight in Old K. C.
THERE is a chance that Freddy Welsh and Charley White will box fifteen rounds in Kansas City Mo., some time during the present month. After boxing fifteen rounds with the champion, White would demand a twenty-round contest, that is, if he lost.

The strange part of White's insistence on a twenty-round encounter, is that Welsh is actually better over the longer route than the abbreviated ten-round gallop. All of the greatest fights of the little Briton have been made over the Derby distance.

Ritchie was defeated twice by Welsh in twenty rounds, while Joe Rivers and Leach Cross were made

to look like tyros by the Welshman over the same distance. If White finally succeeded in spearing a twenty-round engagement with Welsh, see if the prophecy made here several times, does not prove to be correct. We say Welsh will beat White handily in twenty rounds.

Chicago Wants Beell.
FREDDY BEELL is wanted on the next card of the newly organized Chicago Wrestling club as an opponent of Joe Stecher. The matchmaker of the club figures that the little Badger, one of the fastest men in the world and knowing every angle of the game, will prove just the opponent to give the scissors grinder one of the greatest bouts he has been up against. Another thing—Beell wrestles so much like Gatch, employing the same lightning shifts and the same leverages, that it will prove infinitely interesting to the public to observe just what Stecher, the reigning sensation of the athletic world, can accomplish in the leg scissoring line against a man wise to every turn of the game and a chap who possesses perhaps nearly the great amount of wrestling brains possessed by Frank A. Gatch.

If Scissors Joe can clamp this terrible leg hold on Beell, it will look rather bad for Gatch, won't it?

DULUTH MEN ON SCHEDULE

Local Bowlers Competing in Northern Pin Tourney.

Starting with the 5 o'clock shift this afternoon Duluth bowlers will hold the boards in the Northern bowling tournament. In both the doubles and the five-man event local pin spillers will be represented. Some of the strongest of the home bowlers are entered in both events and it is expected that some high marks will be set up.

Duluth is more strongly represented in this year in all events than ever before. With more and better bowlers than have ever been entered from this city in the past, home followers of the alley game are hoping that Duluth pin men will win some of the events.

Following is the schedule for today:
Five-Man Event, 2 p. m.
 Alley 1—Hodges, Rhineland, Wis. Doubles, 1 p. m.
 Alley 2—Krause-Judy, Rhineland. Singles, 2 p. m.
 Alley 4—Korbeault, Rhineland; B. C. Anderson, Duluth.
 Alley 5—Lawrence, Rhineland; Judy, Rhineland.
 Alley 6—Krause, Rhineland; Buskey, Rhineland.
Doubles, 5 p. m.
 Alley 1—N. S. Mitchell, Duluth; C. Bergeson, Duluth.
Five-Man Event, 7:30 p. m.
 Alley 1—Northern Shoe company, Duluth.
 Alley 2—Duluth Photo Engraving company, Duluth.
 Alley 3—Spaulding hotel, Duluth.
 Alley 4—St. Louis hotel, Duluth.
 Alley 5—Stags, Duluth.
 Alley 6—M. & N. R. R. Proctor.
Five-Man Event, 9:30 p. m.
 Alley 1—Duluth-Edison Electric company, Duluth.
 Alley 2—Woodruff Lumber company, Duluth.
 Alley 3—Central Bowling alley, Duluth.
 Alley 4—Boston Lunch, Duluth.
 Alley 5—Lenox hotel, Duluth.
 Alley 6—National Meats, Duluth.

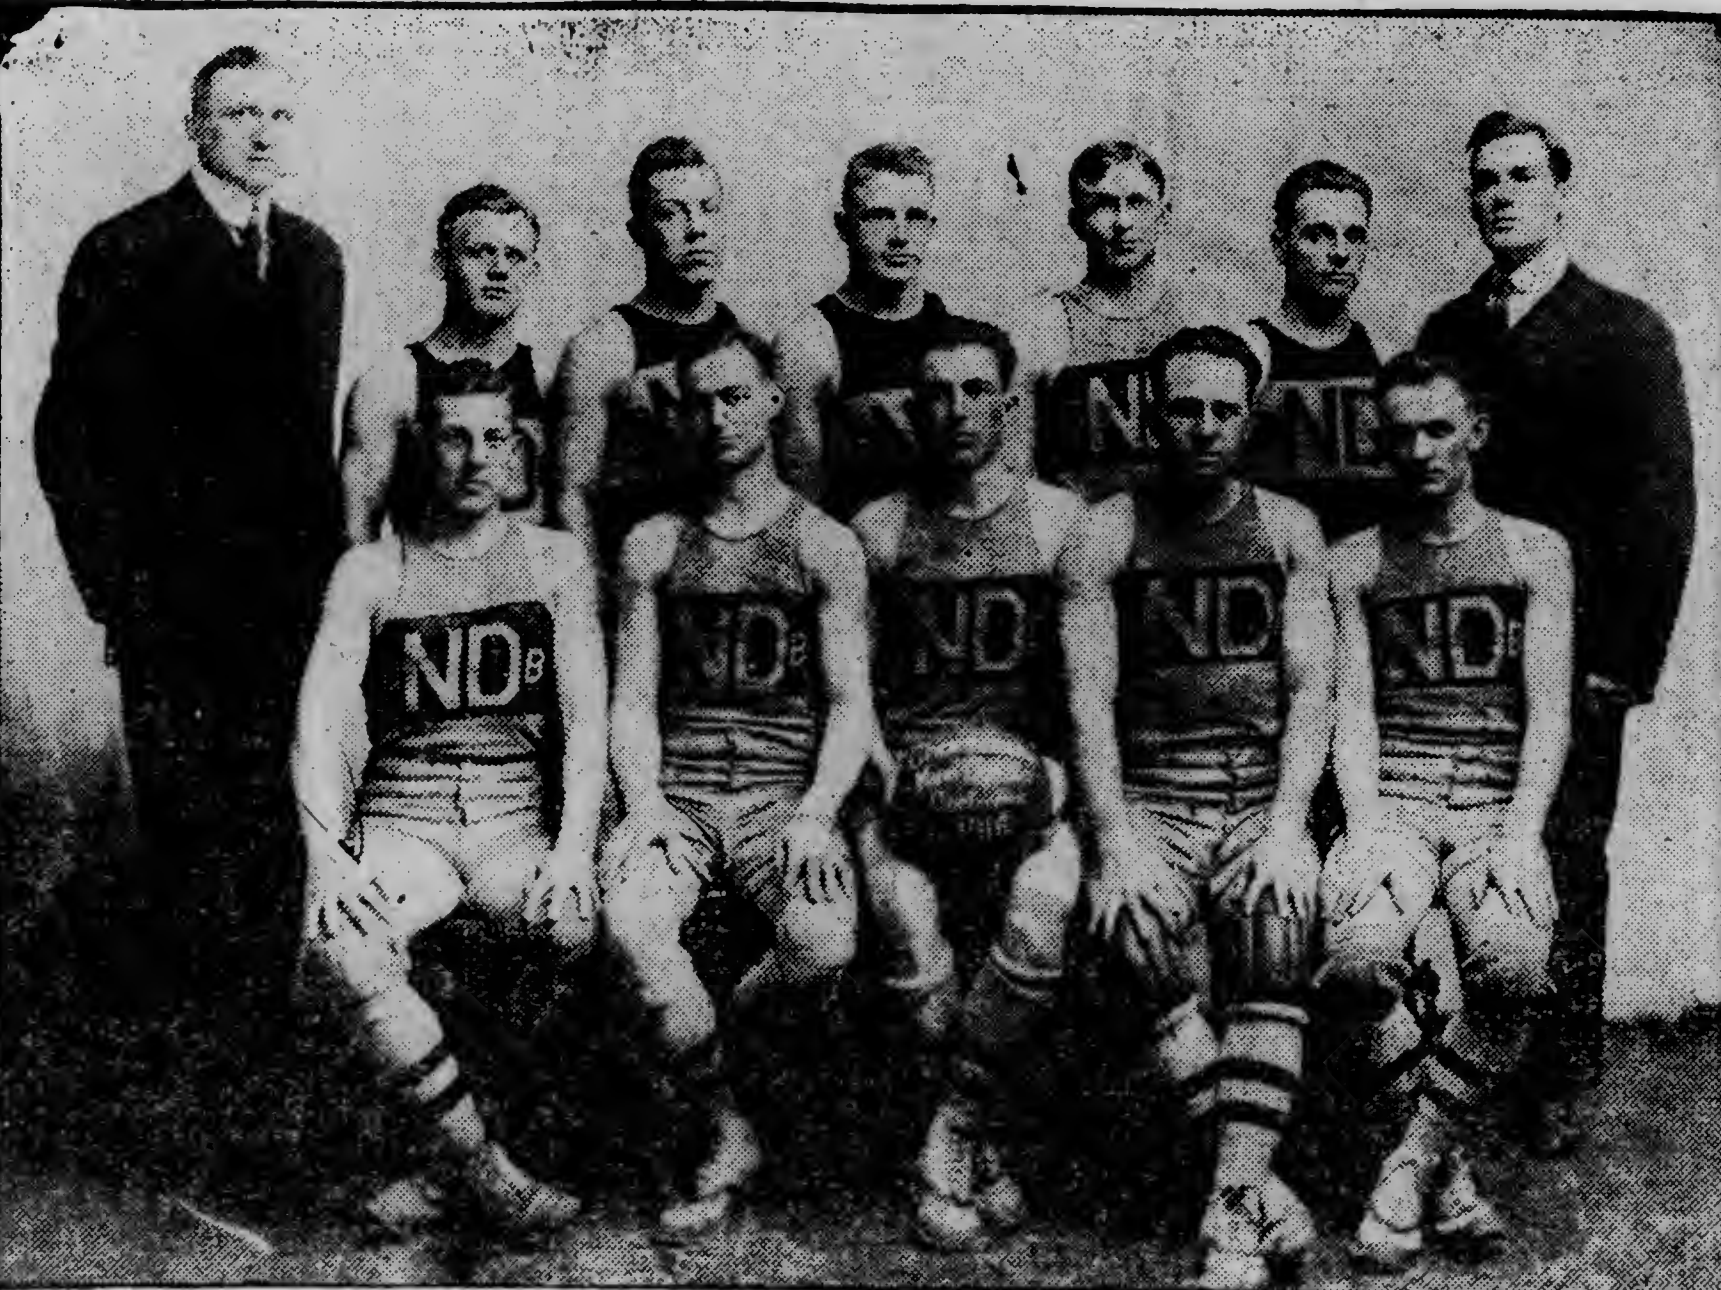

ULRICH WILL REFEREE GIBBONS-SMITH BOUT.
SAM PAUL, Minn., March 13.—William Ulrich, well known in the Northwest as a former light-weight fighter, and also as a promoter and referee, has been selected to officiate in the Mike Gibbons-Smith ten-round bout at the Auditorium here next Friday night.

LEADERS UNDISTURBED.
Still Hold Places in Bowling Congress Tourney at Toledo.

Toledo, Ohio, March 13.—The leaders in the American bowling congress tournament were undisturbed by the work of the players here yesterday, the best attacks coming from the men of the 6 o'clock shift of singles. Ed Wettermann of Cincinnati, was the star at that time with 644, taking third place. Nelson and Huhn of Chicago were highest in the doubles with 1,177.

The Edelweiss No. 1 of Chicago, rolled into second place in the team event on the late shift in action Saturday night with 2,813, the team placing Elmer Hanneker in the lead in all events with 1,847. The North Cin-

NORTH DAKOTA BASKET BALL TEAM CLAIMS THE CHAMPIONSHIP OF TWO STATES

NORTH DAKOTA AGGIES.
 Only 350 points scored by all of their opponents.
 By their remarkable campaign, the Aggies established a clear claim to the North Dakota basketball championship, and by virtue of their victory over the Harding university team, the Dakotans feel they have some claim to the dual state championship.

The greatest success with four veteran players—McKee, McQuillan, Bolsinger and Movold, the Aggies had to develop only a center, and in Houser. Coach Davis found just the man he wanted to complete the aggregation. Houser played in most of the games of the season.

The feature of the season was a trip during which six teams in Minnesota, South Dakota, Wisconsin and Iowa were met and all of them defeated. Guesting Adolphus South Dakota state college, Campion college, Luther college, Upper Iowa university and the teams met on the trip.

Of this year's spectacular team, three members are lost for next year. McKee, Bolsinger and McQuillan being out of the game.

Fort Worth, Texas, March 13.—Fort Worth of the Texas league defeated the Detroit Americans 4 to 3 in the tenth inning here yesterday. Maisei, for Detroit, hit safely three times in four trips to the plate.

MANY NAMES ON PETITION
 Ten Thousand Duluth Signatures on Appeal for National Regatta.

Meeting to Award 1916 Aquatic Event Will Be Held Saturday.

When the petition of the people of Duluth asking for the national rowing regatta of 1916 is received by the directors of the Amateur Rowing Association of America, those august gentlemen will be vastly surprised by discovering that over 10,000 men and women of this city were enough interested to put their name on the petition that strongly urges that the rowing meet generally held in the East, be moved on the waters of St. Louis bay during the month of August.

The various petition blanks were gathered in Saturday evening by the committee men and a rough estimate made of the number of names. The signatures represented all classes of citizens and by the great diversity of their calling and stations, life prove the more forcibly that Duluth is behind in the regatta proposition with all its interests allied.

Officers of the Duluth Boat club will mail the petitions to the national committee men today. The meeting to decide where the 1916 regatta will be staged, is to be held in New York city on March 18. Julius H. Barnes will appear before the committee members to urge the justice and advisability of awarding the regatta to Duluth.

GRAND RAPIDS RECRUIT AFTER FIRST BASE JOB

San Antonio, Tex., March 13.—President B. B. Johnson of the American league was a guest yesterday at the baseball game between the St. Louis Nationals and San Antonio of the Texas league, which the latter won, 7 to 6, in a ninth inning rally.

Dallas, Tex., March 13.—The New York Nationals defeated the Dallas (Texas league) team 5 to 1 in a loosely played game here yesterday. Schuer, who started pitching for New York, was supplanted by Schupp because of wildness.

BOWLERS SET HIGH MARKS IN NORTHERN PIN TOURNNEY

Fiats Pass Last Year's Five-Men Team in First Day of Meet—Single Marks Are So Far Short of 1915 Record—Duluth Bowlers to Hold the Boards This Evening.

When the scores of Sunday's pin shooting of the Northern Bowling association competitors were figured up last evening, it was found that the Fiats of Minneapolis, who last year made records here as the West Hotel team, had hung up a high score that will make some of the other teams hustle along to beat or even equal.

The Fiats, as the West Hotel team, won the five-men event last year with a mark of 2,817, while Saturday the Minneapolis team members hit the wood for a total of 2,833. Many of the followers of the game, however, do not believe that this record will stand. The alleys are in great shape and it is believed that before the meet comes to an end some team will have passed the Fiat mark.

So far the mark in the singles is well under the winning mark of last year. Lavocat of St. Paul is high man with 600, while Henry Martin copped the single prize last year with a mark of 642. But the rolling has just begun and before the final ball is thrown on Saturday night it is expected that this early mark will have been thrown to the discard.

There were a multitude of chances for great single scores that fell flat after a great start. Several total scores look great after the first game or the second, but in each instance the contestant fell down in the third game.

High Game Count.
 L. B. Bird's mark of 255 remains the high count for one game. Bird hung up this score in his first game and great things were looked for from him. Bird fell down badly in his second game, setting but 147, and came back weakly in his third try with a score of 121.

With the tourney but started, the high marks piled up augur well for some new records. The majority of bowling followers believe that before the week's rolling is terminated, there will be some league leaders.

There is a heavy schedule on this evening. There will be twelve five-men teams from Duluth. The Hoads of Rhineland are also scheduled to roll.

Following are the complete scores of Saturday and Sunday:

EVERY THIRD MAN IN ARMY

Dr. Fahey Says Enlisting Is
at Its Height in Dominion
of Canada.

Asked Three Times to Join
Colors in Walking
Six Blocks.

Every third man in Canada is in uniform, with recruiting at its height, according to Dr. E. W. Fahey, director of public health, who returned this morning from Kingston, Ont., where his aged father is seriously ill. Dr. Fahey was called to his father's home suddenly last Monday on receiving word that his father's condition was very low.

"Soldiers are everywhere in Canada," said Dr. Fahey this morning. "In Toronto and Kingston every third man wears a uniform, while recruiting officers are posted at every point. From the railroad station to my home, a distance of six blocks, I was asked three times to join the British colors."

"The recruiting officers beseege every train that comes into a town and no man is allowed to pass without receiving a request to join the Canadian contingent."

"Companies are being organized all the time and soldiers can be seen parading on the streets at all hours of the day. Early in the morning the recruits are taken on long walks and jaunts as part of their training, while in the afternoon the soldiers march as a means of enlisting recruits. Doctors and nurses are greatly in demand for service at the front."

"Physicians and army officers informed me that young men go to college all the year round, so that they can finish their medical courses as early as possible and join the hospital squads on the way to the front. Young men, business men and even ministers are enlisting as privates. Last week after noon I saw 16,000 men on parade at Toronto."

"Whenever Dr. Fahey informed persons that he was from America, he would be besieged with a request for information on how the people of this country view the war. That's the first question asked an American, he said."

**CLOQUET PASTOR
ADDRESSES MANY
THINGS HAVE TO DO
WITH CHRIST.**

Cloquet, Minn., March 13.—(Special to The Herald.)—Rev. W. E. Williams of the First Presbyterian church spoke to a large congregation yesterday on "What Have These to Do With Christ?" which was discussed from the viewpoint of the first things as enunciated by Jesus, primarily as they are effected in the establishment of the kingdom.

Can Be Led to Christ.
He said in effect that the church was called a religious school where the followers of the Christ are to be directed, instructed and inspired and where the concerted aim of all effort must be the characterizing of individual life. Humanity, he said, must be led to Christ through the fascinating living of his followers and therein all approach to Christ will be the work of a real interest and contribute its greatest measure of power, as a seeking and serving witness, that will make the simplicity of relationship, the less of sectarian interest, the simpler the interpretation of teaching, hence more efficient the work the church seeks to accomplish. The means of instruction, instead of glorifying organization, limiting the reach of the human mind, must be widened and reverencing method, must make the channels whereby the soul achieves its closest union with the Divine, make clear the path for weary feet, and unite all days into a holy chain of sacrifice and unselfish service.

**MANUAL TRAINING
IN CLOQUET Y. M. C. A.**

Cloquet, Minn., March 13.—(Special to The Herald.)—Work in the manual training department of the Y. M. C. A. is being rapidly pushed, as they are planning to have their exhibit about the building of the Y. M. C. A. excellent pieces of furniture are being turned out this year, as many who attended last year are in this year's classes. The high score for the week

NOT SURE HIS FIRST MARRIAGE "TOOK" HUSBAND GETS NEW LICENSE FOR POLICE

Here is a husband who wasn't sure that his first marriage "took" and so he married his wife a second time. He is Porter Shackelford, and the wife is Mrs. Donna Williams Shackelford. They never have been divorced, but Saturday they tied themselves to the courthouse, and obtained a license. Within an hour they were "marched" down the aisle again.

Mrs. Shackelford was arrested Friday. Detectives thought she knew something about the theft of \$50 from a transient who was held up and robbed, but she denied her guilt indignantly.

Then officers made another trip to the shackelford home at 274 South First avenue east, and brought in the husband.

"Are you married?" asked Capt. A.

"Yes," said Porter.

"When?"

"Last Saturday."

"Where?"

TERRIER IS RIDDING COMMISSION ROW OF ITS PLAGUE OF RATS

"Mugs" is a thoroughbred soldier who came 150 miles to repel an invasion, and who succeeded as well that he may be retired on a pension. He is the hero of no less than 2,000 sanguinary battles, and commission row men with offices along West Michigan street swear by him.

Several weeks ago rats invaded commission row and the meat packing as well as the fruit and vegetable houses, didn't know what to do. Ordinary traps were inefficient and ordinary terriers were not much better.

Finally Hart Ayers, associated with Swift & Co.'s South St. Paul establishment, said: "I'll settle that question for you."

"Mugs" was the "settlement." He was sent to Duluth from St. Paul for

the express purpose of cleaning up the commission district, and before long rats will be scarce as hen's teeth.

"Mugs" is a product of the Ayers kennel, at Benton, Neb., and is an aristocrat of unquestioned standing in the canine world.

He has been adopted by the Duluth commission men, and reports for duty regularly, although it has not been necessary for him to use a time clock.

Every morning the various commission houses contribute their "catch" of rodents and Mugs starts his work. Thirty or forty battles are staged in a little arena every day, and the rats are becoming discouraged.

Unlike prominent men, "Mugs" is a modest dog, and dislikes very much the idea of having his picture taken. At least one Duluth photographer can testify to this.

DEPOSITS AT RECORD MARK

Duluth's National Banks Have More Than \$30,000,000 on Books.

Gain of Nearly Million Since Dec. 31; Loans Also Increase.

With a total of \$30,511,287.81, deposits in Duluth's four national banks are now at their highest point, and bankers look for the setting of new high records, both in deposits and loans and discounts, during the next few months. Statements of conditions as on March 7 made today at the call of the comptroller of the treasury were gratifying in every respect, showing expansion all along the line.

Deposits showed a gain of \$968,025.26, as compared with the call of Dec. 31 last, the figures standing at \$29,543,262.55, as compared with \$29,646,287.81.

Loans and discounts aggregated \$22,718,537.17, an increase of \$1,917,875.53, as compared with \$20,800,661.64, at the close of the year.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as common when it burns, leaves behind a certain amount of indigestible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which is not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and gleamer, you are told to drink, every morning upon arising, a glass of hot water with a teaspoonful of Epsom salts dissolved in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of Epsom salts costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and Epsom salts act on the inside organs. We must always consider that internal sanitation is as important as external cleanliness, because the skin pores do not absorb impurities into the blood, but the bowels pores do—Advertisement.

GOVERNOR REFUSES LOVEACE REQUISITION

St. Paul, Minn., March 13.—(Special to The Herald.)—Governor Partridge today refused to honor a requisition for the return to Chicago of George F. Loveace, wanted on a warrant of arrest preferred by his wife. The governor held that to return Loveace to Chicago would not better matters as his confinement in jail there would not aid the family.

Loveace has a position in Minneapolis and Governor Burdick in denying the requisition imposed a condition that he pay for the support of two children the sum of \$8 a week.

MAIL SERVICE TO BE IMPROVED

Inspectors Expected Soon; Condition Abnormal This Winter.

Mail carriers in Duluth have had many trying experiences during the last few weeks but, despite handicaps, have done excellent work according to Postmaster William E. McEwen. The work here has greatly increased this winter. Last month showed a gain of 14 per cent in postal receipts over the same period last year, and so far this month there has been a gain about 30 per cent. The weather, storms and a record fall of snow have greatly handicapped carriers in the outlying districts.

"When conditions become normal," said Mr. McEwen today, "we are going to revise the service, and we are expecting a force of inspectors from Washington to go over the whole situation for the purpose of supplying the local office with required men and equipment."

Postmaster McEwen said the department at Washington had shown a decided interest in Duluth conditions and was willing to furnish necessary men and equipment just as soon as it was shown that normal conditions would warrant changes.

Albuquerque, N. M., March 13.—A reward of 40,000 pesos for the body of Francisco Villa has been standing for the last sixty days. The body was found in a cave near the border, it was disclosed today through letters to a local Carranza official.

APPEAL ALLOWED IN SLINGSBY SUIT

London, March 13.—The court of appeals has allowed the appeal in the Slingsby legitimacy suit.

The case involves the question whether an infant born in San Francisco and declared to be the lawful son of Charles R. Slingsby and his wife, Dorothy, is the rightful successor to extensive Slingsby estates in England. A California court said the child was the legitimate heir and a court in England upheld that decision. An appeal was taken and was argued in January and February of this year.

ELDERLY WOMAN STRUCK BY AUTO

An elderly woman who refused to divulge her name, was struck by an automobile shortly after 10 o'clock this morning, while crossing the street near First avenue and Second street.

Those who saw the accident say the car was coming at a high rate of speed, and that the woman, blind as to the danger, was struck and carried a considerable distance.

She was carried into the Y. W. C. A. building at the corner and given aid. A few minutes later relatives appeared and she was taken to her home. Medical assistance was not required, it was said.

BETTERMENT FOR COUNTRY MERCHANT

New Trade Acceptance System Promised By Federal Reserve Bank.

A new trade acceptance plan is being mapped out by the Federal reserve bank directors and is expected to be put into operation in the near future. A wider market in which to buy, opportunity to purchase at better price levels, and a considerably broadened credit, are some of the more important results that officials of the Federal reserve bank of Minneapolis promise the country merchants of the Northwest.

When the new trade acceptance plan has been adopted and comes into general use, comments the Minneapolis reserve bank, it will be a great benefit to the country merchant.

Upon merchandising credits will be paralleled to the effect of the reserve system upon the bank of the country merchant.

It will establish a new liquidity for paper given in payment for purchases from jobbers and wholesalers, and from sellers of merchandise, broadening the credit of the seller in direct proportion to the use made of such acceptances.

The Federal reserve bank, in authorizing Federal reserve banks to discount acceptances at a preferential rate, defines them as "bills of exchange drawn to order, having a definite maturity, payable in dollars in the United States, the obligation to

pay at maturity having been acknowledged by the person, firm or corporation upon whom drawn and indorsed by a stamped and signed notation of acceptance on the back of the bill."

Every acceptance must bear a certain amount of value, and the obligation of the acceptor of this bill arises out of the purchase of goods from the producer to the consumer, and not from the movement of commercial "goods" (wares, merchandise and commodities including livestock), from the producer to the consumer, or one of the steps in this process in practical use, the buyer of goods of established credit will pay with an accepted bill instead of having his goods billed to him under the usual dating. His acceptance, arising out of such purchase, is not limited as to maturity, but when discounted at a Federal reserve bank, must be within ninety days of its due date. When made, it immediately becomes discountable paper, acceptable at commercial banks, and thereby a rate of discounting the rate usually made for cash discounts on merchandise accounts.

The seller is relieved of a settlement with the buyer. There remains nothing but the prompt liquidation of the acceptance at the buyer's home bank at maturity.

START LITTLE MOTHER CLASS. Philadelphia North American: Children in sixteen public schools have enrolled in the "Little Mothers" classes organized by the Child Federation and the bureau of health's division of child hygiene.

A municipal nurse will be the instructor of each class, and enrollment will be voluntary. The work was organized in the schools of neighborhoods where school girls are likely to be called on to take care of baby brothers and sisters. The lessons are particularly attractive, with a life size doll and real baby clothes and equipment.

The Little Mothers' league movement had a small beginning in three experimental classes conducted during the summer of 1913 by the Child Federation, instruction relating to the care of babies in the home, an integral part of the course in domestic economy in the elementary schools in the city. Many hundreds of little girls ineligible for instruction in the domestic economy classes in schools are being instructed by members

LEGAL NOTICES.

SALE OF SCHOOL AND OTHER STATE LANDS

State of Minnesota.
St. Paul, Minn., Feb. 25, 1916.
Notice is hereby given, That on April 13, 1916, at 10 o'clock a. m. in the office of the County Auditor at Duluth, St. Louis County, in the State of Minnesota, I will offer for sale certain unsold state lands, and also those state lands which have reverted to the state by reason of the non-payment of interest.

TERMS OF SALE.
Fifty per cent of the purchase price is payable to the County Treasurer at the time of sale. The unpaid balance is payable at any time, in whole or in part, on or before forty years from the date of sale, at an interest rate of four per cent per annum, due on the first of each year, provided, that the interest can be paid at any time within the interest year without penalty. In effect, this means that the interest money may be paid at any time between June first and May thirty-first of each year, and appraised value of timber, when so stated, must be paid for in full at the time of sale.

All mineral rights are reserved to the State by the laws of this state, and all lands are sold subject to any and all ditch taxes thereon.

Lands on which the interest has become delinquent may be redeemed at any time up to the hour of sale, or before, by the payment of the interest and principal due on the date of sale.

No person can purchase more than 20 acres of land, as provided by the general laws, 1909; provided, however, that state lands purchased previous to 1905 is not charged against such purchase.

Agents acting for purchasers must furnish affidavit of authority. Appraisers' reports showing quality and kind of soil are on file in this office.

Lists giving legal descriptions of lands to be offered may be obtained of the State Auditor or the Immigration Commissioner at St. Paul, or of the County Auditor at above address.

J. A. O. PREUS,
State Auditor.

STRICT CENSORSHIP ON ALL ARMY MOVEMENTS

ARTILLERY FIRE ONLY ACTIVITY AT VERDUN

Violent Cannonading Continues West of the Meuse; French Check Reconnaissance of Germans in Haudremont Woods.

Paris, March 14, 2:30 p. m.—Last night saw a continuance of the artillery activity on the Verdun front. West of the Meuse the cannonading was fairly violent and a reconnaissance of the Germans in the wood of Haudremont was checked by the French, according to official announcement made in Paris this afternoon.

There was severe cannonading near Vaux and also in the Woivre district. In the wood of Le Preire a German detachment advancing on a French trench was driven back.

German Statement.

Berlin, March 14, via London, 3:18 p. m.—No important developments along the western front are recorded.

TO SIDETRACK OTHER BILLS

Army Bill to Be Given Right-of-Way in the House.

Sub-Committee Appointed to Arrange Matter With Speaker.

Washington, March 14.—In keeping with the president's desire to have all preparedness measures rushed through congress, the house rules committee today appointed a subcommittee to confer with Speaker Clark on side tracking all other business after the passage of the free sugar repeal in favor of the army bill.

An agreement was expected before night, if the plan carries the army bill may be before the house Friday.

Besides appointing the subcommittee, the rules committee drew a rule to provide twenty-four hours' debate and night sessions on the army bill.

Chairman Chamberlain of the military committee announced his committee would meet tomorrow to hasten the army reorganization bill report so that the measure may be advanced for consideration at once, subject to calendar. It would be in a position to be taken up whenever the senate votes to consider it.

PRESIDENT ASKS FOR SPEED ON NAVY BILL

Chairman of Naval Committee Urged to Hurry Public Hearings.

Washington, March 14.—President Wilson urged Chairman Baughman of the house naval committee today to hurry the navy bill. Mr. Baughman said the hearings probably would be ended in two weeks and assured the president that a working majority of the committee favored substantial strengthening of the navy and that he expected no trouble in getting the house a naval program to meet with the approval of the administration.

RED CROSS SUPPLIES BURNED AT HALIFAX

Halifax, N. S., March 14.—A large quantity of Red Cross supplies were burned in a fire which destroyed No. 2 pier of the steamship terminals here today. The loss is estimated at \$200,000. Mrs. Casey, in charge of the supplies, who was in the building when the fire started, was missing later, and it was feared that she had perished. The cause of the fire is unknown.

SUMMARY OF THE WAR NEWS

Activities on the Verdun front continue to be chiefly those of the artillery arm, which still is being vigorously employed.

No infantry attack by the Germans has developed. There have been signs that a renewal of the drive was in prospect. The German effort, indeed, seems to have shifted in its most intensive form again to the other bank of the stream, where a reconnaissance in force in the Haudremont wood, west of Denaumont is reported by Paris to have been checked by the French curtain of fire.

Southeast of Denaumont in the region of Vaux and Damloup the violent German bombardment continues, while further south, in the Woivre region, both German and French guns are busy pounding opposing positions.

If Found Bark Silius Was Sunk By German Submarine.

Not Believed in Berlin That Torpedo Sunk the Ship.

Washington, March 14.—Unofficial advice received here today indicate that Germany will make complete amends to the United States if it is found that a German submarine torpedoed the Norwegian bark Silius from which seven Americans were rescued in Havre roads.

The German government is represented here as believing that a torpedo was not responsible for the loss of the bark and that any commander who attacks a neutral ship such as the Silius without warning would be exceeding his instructions.

Cause of Much Concern.

The sinking of the Silius has been the cause of much concern here because American Consul Osborne at Havre reported that the ship was torpedoed without warning. His report was based on statements of American survivors. Officials are inclined to entertain the possibility that the ship might have struck a mine, but the case is being investigated further.

Today the state department received another report from Consul Osborne which made no mention of the cause of the sinking, merely saying the vessel was unharmed, carrying a cargo of grain and no passengers. Of the (Continued on page 4, second column.)

SECRETARY LANSING TAKES A VACATION

Washington, March 14.—Secretary Lansing was on his way to Pinehurst, N. C., today for a week's vacation. For many weeks the secretary has been working steadily in a heavy pressure of diplomatic affairs and feels the need of a rest. Taking a vacation at this time was regarded here as indicative of how completely the state department regards the Mexican situation in the hands of the army and that the understanding with Gen. Carranza is complete.

United States Neutral.

Washington, March 14.—President Wilson today signed a proclamation giving notice of the neutrality of the United States in the state of war between Germany and Portugal. The proclamation follows the text of others.

Leakage of Movements and Plans Causes Gen. Pershing to Take Charge of Wires and Guard All Roads.

Troops All Ready to Cross Into Mexico and Order to Move May Be Given at Any Time.

San Antonio, Tex., March 14.—A rigid censorship was ordered established at Columbus, N. M., today by Maj.-Gen. Frederick Funston. He instructed Brig.-Gen. John J. Pershing, commanding there, to take charge of the telegraph office, watch all automobile routes and guard telephone wires out of the town. This action was taken to prevent news of the troop movement leaking into press dispatches.

Gen. Funston said that newspaper reporters from New Mexico had been revealing every movement of troops, the disposition of the various forces and the amount of their equipment.

There was no use trying to conceal our plans here while there was a leak on the border," he explained. "We had to act."

Mexican General Believes Bandit Has Small Chance of Escape.

Five Columns of Troops Closing in on Much Wanted Man.

El Paso, Tex., March 14.—Villa, heading south from Galeana, is now encircled by Carranza troops, according to Gen. Luis Gutierrez, commander-in-chief of Chihuahua, today. With 15,000 men in Chihuahua and heavy reinforcements on their way from the division of Gen. Calles in Sonora, he thinks Villa has small chance of escape.

Gen. Gutierrez arrived in Juarez early in the day and later met Gen. Gavira, the local commandant, and Gen. Garcia in El Paso in a private conference. Afterward Gen. Gutierrez gave out a statement that besides the troops holding points and maintaining patrols, five columns of 1,200 men each were (Continued on page 4, fourth column.)

Chicago, March 14.—A plea that the indictment against William Orpet, charged with murder in connection with the death of Marion Lambert be quashed was taken under advisement by Judge Edwards at Waukegan and a decision will be rendered Monday. VILLA BANDITS KILLED EVERY SENTRY TO GAIN ENTRANCE TO COLUMBUS

Undetected Until Well Within Borders of the Town.

Mexicans Outnumbered the Americans Over Six to One.

Louisville, Ky., March 14.—Francisco Villa's bandits knifed every sentry and thus effected undetected entry into Columbus, N. M., according to Mrs. James P. Castleman, wife of Lieut. Castleman, officer of the day, during last week's raid of Mexicans on Columbus. Mrs. Castleman was in Columbus during the battle and now is at the home of her parents in Louisville.

"At 4:30 o'clock I heard a shot," said Mrs. Castleman, "and I dressed myself and children. Then bullets rained on the house, I put the children under the bed and got my pistol, for I said they would not take me alive and I would certainly get some of them if they came in."

"An awful half hour followed, in which I heard nothing but shots and shouts of 'Villa Villa, dealers in humans.' Then I heard the Mexican trumpets sound the retreat. Why they didn't get into our house I don't know."

El Paso Hears Mexican General Has Changed His Plans.

Narrow Gap in Sierras Admirably Adapted for Defense.

El Paso, Tex., March 14.—A circumstantial story reached here today from Mexican sources to the effect that Villa had once more changed his plans and intended making a stand against the American punitive expedition at Ojitos pass, the narrow gap in the western Chihuahuas Sierras, through which he made his murderous dash on Columbus.

Americans familiar with the country assert that the Ojitos pass is well adapted for a successful defense.

All night long highly sensational reports poured into this city, but nearly all lacked confirmation. The most definite came from Naco, Ariz. For some days reports have reached here from the border near Naco of heavy movements of Carranza troops under Gen. Calles. Today it was asserted that a considerable number of these troops were showing increasing hostility towards Americans and might even espouse the cause of Villa. The United States military authorities were sufficiently aroused by these stories to rush reinforcements to the garrison at Naco.

Many stories of the activities of Villa agents have been poured into America. Several arrests have already been made and others are expected to follow. That Villa sympathizers are using dogs to (Continued on page 4, second column.)

CHURCH SHOULD ADVERTISE LIKE STORE

SAYS DR. HOVIS

BUILDS BIG PATRONAGE IN MILWAUKEE

The church as well as the department store should be advertised, and all the people within reasonable distance of a church should be informed as to what it has to offer just as in the case of the department store. So says Dr. William Forney Hovis, pastor of the Grand Avenue church of Milwaukee and former pastor of the Endion M. E. church of this city.

Since going to Milwaukee Dr. Hovis has been advertising the big Grand Avenue church, and it has already become known as the "church with a crowd." A publicity department has been organized and money subscribed to meet the expense. The Milwaukee Journal of March 10 says:

"Grand Avenue Methodist church is gaining a reputation outside of Milwaukee because of the success of its advertising campaign in increasing church interest and attendance. Dr. Hovis, 1014, Dr. John North of Toledo says: 'I have come to the conclusion that one of the most prominent causes of tuberculosis is the starvation. In all cases of incipient tuberculosis there is a deficiency of calcium. Many do not eat food containing enough lime. In such cases we must resort to lime medication.'

"All but one of the ten characters for 'The Cricket on the Hearth,' by Charles Dickens, the annual class play to be presented by the seniors of Central high school on April 28 and 29, have been selected. CASE IS CHOSEN FOR SENIOR PLAY

Central Students Will Present "Cricket on Hearth" in April.

"All but one of the ten characters for 'The Cricket on the Hearth,' by Charles Dickens, the annual class play to be presented by the seniors of Central high school on April 28 and 29, have been selected. Lee C. Rasey, who again acted as coach of the senior play, announced the cast with the exception of one character at a meeting of the

fourth-year students yesterday afternoon.

Those selected thus far are as follows: John Perrybingle, Willard Thorpe, John Allen, Caleb Plummer, Philip Bergquist, Caleb Plummer, Irving Auld, Old Gentleman, Donald Alexander, Mrs. Fielding, Dora Mitchell, May Fielding, Pearl Deatherage, Spirit of the Cricket, Daisy Macaskill, Katherine Hovis.

Seventy-five members of the class competed in the tryouts which were held Thursday afternoon of last week. Although some of the candidates showed exceptional ability, it proved impossible to get them into the cast. Dr. Rasey declaring that they were not fitted for any of the roles. Rehearsals for the play will be begun this week and will continue regularly.

WEST END

MAY DECIDE TO USE BRICK

Council Would Now Let West First Street Contract for \$63,257.

Action Depends Upon Property Owners Withdrawing Their Appeal.

If the thirty-eight West First street property owners withdraw their assessment appeals during the week, the city council will award the contract next Monday afternoon to Rogers & McLean on their bid of \$63,257.20 for a brick pavement with a sandstone curb.

This is the latest step taken by the council to settle the West First street paving controversy, which has been waging for the last month, and indications are that the property owners carry out their end of the agreement.

At the meeting yesterday afternoon Commissioner Farrell introduced a resolution providing for the award of the proposed pavement to Rogers & McLean on their bid of \$63,257.20 for a brick pavement with a sandstone curb. The measure was adopted by a unanimous vote of the four commissioners present, Commissioner Merritt being out of the city this week. The original width was 38 feet the entire length of the street.

Following this, Commissioner Farrell introduced a resolution awarding the contract to D. H. Clough & Co. on their bid of \$66,302.55 for a crosstied block pavement. About twenty-five owners were present and another controversy was begun, as they all favored brick and declared themselves opposed to a block pavement. There was a disagreement over the width of the proposed pavement, the majority favoring 38 feet. Mayor Trice spoke in behalf of the commissioners, insisting that this must be settled at once, or the improvement would be laid over until next year.

"For the last three years this improvement has been in the air," Mayor Trice said, "and it is about time the entire matter was settled. If you want the improvement this summer, you must agree to the width of the pavement. The commissioners made a personal inspection of the street, and we have concluded that the width designated in the resolution just adopted are proper at this time. In addition, only a few of the owners west of Twenty-third avenue want a wider pavement than 30 feet. You who live east of Twenty-third avenue have no right to object to this. Although you are entitled to a wider pavement, if you all agree and beside about \$17,000, it isn't necessary to have 38 feet the entire length, and beside you will save \$17,000."

Appeals Must Be Withdrawn.

"However, these appeals must be withdrawn, because the city is ahead, as approximately \$24,000 is tied up. To expedite matters, and on condition that the appeals be withdrawn, Rogers & McLean on their bid of \$63,257.20 for a brick pavement."

A vote was taken and the measure was adopted by a vote of 3 to 1. Commissioner Farrell voting in the negative.

The resolution will come up for a final vote at the meeting next Monday, it was announced.

MUST BE FRIEND TO ALL.

Pastor "Defines" Christian at Revival Service.

A Christian must be a friend, and helpful to those of all ranks and conditions, said Rev. J. Emmett Porter, pastor of the Grace Methodist church, Twenty-second avenue west and Third street, at the revival service held at the church last night on "What it is to be a Christian." He said that a Christian is a person who has become a friend to all. The revival services at Grace church are attracting a large audience. The meetings will be continued every evening this week except Saturday. The series will be completed next Sunday evening.

SPECIAL LENTEN SERVICE.

Will Be in English and Swedish at St. Peter's Church.

Special Lenten services conducted in English and Swedish have been planned for Thursday at St. Peter's Episcopal church, Twenty-eighth avenue west and First street. The English service will be held at 8 o'clock in the afternoon, and following the hour of worship a social session will be held at 8:30 o'clock. The Swedish service will be held at 10 o'clock. The women in charge will be Mrs. Gust Johnson and Mrs. James Harper.

The Swedish services will be held at 10 o'clock. Members of the Rebekah guild will entertain at a social hour following. The women in charge are Mrs. Charles Rundbeck and Mrs. John Olson.

Short services will be held on Friday evening at 7:30 o'clock. Following the services the choir will hold its weekly rehearsal. The confirmation class will meet Saturday morning.

Club May Aid Residents.

The West End Commercial club will hold its regular business meeting Thursday evening at Simonson hall, Twenty-first avenue and Superior street. The club will take up the matter of assisting the residents of the hillside in getting a lowering of the grade on Piedmont avenue above Tenth street, in order that an extension of the Piedmont avenue car line may be made.

St. Patrick's Program.

The Ladies' Aid Society of the Second Presbyterian church, 1515 West Superior street, will entertain Friday evening at St. Patrick's day program. Vocal numbers, readings and instrumental selections will be given. The program will include a piano solo by Miss Alta Jones, duet by the members of the ladies' aid society; young men's trio, consisting of Messrs. McLean, Page and McIntire; reading by Miss Shook; vocal duet, Mr. and Mrs. Alex McRae; "Delegates," by Misses Doris Miller and Millan Page, and an instrumental duet.

Cause of Crime Debate.

A debate on the question "Is Poverty or Riches the Greater Cause of Crime?" will feature the meeting of the Men's Welfare club this evening at the Swedish Mission church, Twenty-first avenue west and Second street. A member from the Parthenon society will take part on each side of the question. Alden Anderson and Miss Agnes Anderson will contend that poverty is the cause, while Harold

Elmer and Miss Hulda Bergquist take the side against wealth.

West End Briefs.

SOCIALIST REBUKED FOR HIS CRITICISMS

Candidate for President Called Down for Remarks About Wilson.

Washington, March 14.—Allen L. Benson of Yonkers, N. Y., Socialist candidate for the presidency, criticized President Wilson's advocacy of preparedness in such blunt terms before the house naval committee yesterday, that Chairman Padgett expunged the remarks from the record. He was permitted to continue his argument against war preparations after being warned that the committee would not tolerate further improper references to the president.

Mr. Benson angrily protested against the chairman's attitude, saying he would withdraw if he was before a Russian committee. Representative Roberts of Massachusetts, Republican, urged that the president be allowed to make his statement without interference, but the chairman sustained objection by Oliver of Alabama and Talbot of Maryland, Democrats, who had interposed when Mr. Benson declared flatly that the president had said what he knew to be untrue, when he asserted in his Cleveland speech that the country should prepare for defense at once, and that nobody knew "it could accept war or reject war" as it chose; that talk of preparedness was inspired by such men as Gen. Leonard Wood, and that the people of the country would not endure the expense involved in the administration army and navy program.

ROYAL LEAGUE

To All Members and Friends: The Royal League of Women will give the largest and best feature of the season Thursday evening, March 16, 8 p. m., at Old Masonic temple hall. Miss this event and regret at leisure. Don't forget the date. Invitations issued.

CLASS OF 1915 TO LEAVE MEMORIAL

Members Will Meet and Dispose of Fund From Last Year.

Members of the alumni of the Central high school class of 1915, who are still in the city, will hold a short business meeting at the high school library this evening at 7:30 o'clock.

The gathering of the 1915 graduates has been called by a joint outing of the class during its four years of high school life. At the end of the school year last spring the class still had more than \$200 in its treasury. Part of this was spent by a joint outing of members of the class during the summer, but there is yet some money in the bank to the credit of the class.

Since it has been the custom for graduating classes to leave the school a remembrance of the school, it is expected that the same action will be taken by the 1915 "grads" at their meeting this evening. Old acquaintances will be renewed and it is expected that there will be a large attendance.

OFFICIALS FOR HAWAII NAMED BY PRESIDENT

Port Alleghe, Pa., March 14.—Keith E. Dalrymple, heir to a fortune of \$400,000, who has been missing for eight years, and for whom a nationwide search has been made, returned to his former home here yesterday. He refused to go into details regarding his wanderings except to say that during that time he had visited various parts of the country, making his living by doing odd jobs. Dalrymple disappeared the age of 15 years, while visiting Mr. and Mrs. Charles M. Palmer, relatives of his family at Siloam Springs, Ark. The young heir was found by Dr. Palmer in a Missouri state hospital, where he was sick and asking that some one come and get him. Dr. Palmer at once recognized him and brought him here.

One of the most important questions that can be asked in considering the selection of a bank, is "What is the opinion of the public regarding that bank?"

One of the best ways to determine this is to learn the resources of the bank and the number of its depositors.

This strong bank has resources of over \$13,000,000. The fact that thousands of people call this bank "their bank" is certainly indicative of the universally satisfactory service that we offer.

send messages and information across the border was the story brought by an American living on the border near here. He said he had seen one dog with a roll of papers tied around its neck running across the border. He fired several bullets at the animal but missed it.

Keen interest is being shown here in the arrival of the aeroplane squadron reported en route from San Antonio and is expected tonight.

When and where the border will be crossed first remains a matter of pure speculation in the absence of any official announcements, but there are numerous signs that the start will not be long delayed.

the gate. He killed all the sentries with knives, noiselessly. His men were in the city before anybody knew it. Some of the soldiers were killed before they got their guns.

Lieut. J. P. Lucas was in command of the machine guns and fought all through the battle barefooted. Why the machine guns failed to work is a question many have asked. The battle was in the dark, only two men could get to Lieut. Lucas' gun. One of these men was killed and he had only himself and another man and there in the dark he must have put the charge in wrong, for the gun jammed. The second machine gun worked.

The battle lasted till 7:30 o'clock. The Mexicans outnumbered us 6 to 1. I do not see how we won unless it was because the Mexicans all shoot high. All the bullets on my house—and it is full of bullets and bullet holes.

STRICT CENSORSHIP ON ALL ARMY MOVEMENTS

troop movements. Before he went to the cabinet meeting, Secretary Baker said he had nothing to indicate when the expedition into Mexico would start.

Senator Chamberlain and Representative Hay, chairmen, respectively, of the senate and house military committees, conferred briefly with the secretary. No announcement as to the purpose of the visit was made.

Chairman Stone of the senate foreign relations committee was told by President Wilson that conditions in Mexico appeared more favorable.

The state department was formally advised of the receipt by Gen. Carranza of the reply sent yesterday to his proposals for a reciprocal agreement as to the pursuit of bandits along the border. Unofficial information reached the department that the American note was favorably received by Gen. Carranza, but the official message made no comment on that point.

The department has not renewed its standing order urging Americans to stay out of Mexico for the time being but it was indicated that the situation of affairs in Mexico might be again directed to those instructions. It is assumed that Consul Cananda at Vera Cruz acted under the standing order in urging Americans to leave the territory of Mexico as reported in news dispatches.

Although protected by a Carranza garrison, the Mormon colony at Casas Grandes, in the heart of Villa's territory, is under the border by the break in the railroad, undoubtedly made by one of the Villa bands. One of the first movements of the American forces probably will be in that direction.

Pershing leaves for West. El Paso, Tex., March 14.—Brig. Gen. John J. Pershing, commanding the American expeditionary force into Mexico, left here on a westbound train last night, and since his departure, military authorities have refused all information about him.

Gen. Pershing's train was held here to be going to Columbus, N. M., where today some 4,000 men of the First expeditionary force are in readiness for the dash after Villa. Some hours

TWO NEW MINISTERS IN MEXICAN CABINET

GEN. OBREGON, Minister of War. GEN. AGUILAR, Minister Foreign Affairs.

Mexico City, March 14.—Gen. Alvaro Obregon has been appointed minister of war and Gen. Aguilera minister of foreign affairs in the new Mexican cabinet. Many foreigners are leaving the city and there is an undercurrent of excitement among all classes.

after Gen. Pershing left here, however, it became evident that military authorities in this section intended that no information should be made public about his further movements. In expectation of the general's departure last night from El Paso, a crowd of photographers and moving picture men had gathered at a railroad station platform. Piles of military equipment and bulky army wagons were parked about the train.

Gen. Pershing, instead of walking down the lane which the photographers had formed, stepped behind an army wagon and drove to the rear of the station. The train was about to pull out when the strongest crowd discovered that the general had unobserved them.

Soon after Gen. Pershing's departure last night, the mass of information that had been pouring in for several days from numerous sources west of here about details of troop movements was completely stopped. This was in line with the policy of military authorities to keep secret the important troop movements.

It is known that the troops now available along the New Mexico-Arizona border are equal in numbers and equipment to any of the strongest forces which the United States has at its disposal, either for parade or for border policing, nothing is known definitely here except that the Columbus force today numbering nearly 4,000 men is the largest.

Arizona troops are being gathered in the border and the plans of General Pershing are explained fully by today's cabinet meeting by Secretary Baker who pointed out on maps kept in the cabinet room the concentration of points and routes. Secretary Baker informed.

GERMAN STATES ARE DISSATISFIED

Committee on Foreign Affairs Called to Hold Meeting.

Amsterdam, Holland, March 14, via London.—German newspapers say that Chancellor von Bethmann-Hollweg has returned from the general headquarters in connection with the illness of Admiral von Tirpitz, the minister of marine, which the newspapers say has created an unusual sensation.

The committee on foreign affairs of the German Federal states is to meet tomorrow under the presidency of the Bavarian premier. Neither the chancellor nor Prussia is represented on this committee, which meets occasionally as a sort of control board of foreign affairs of Germany.

George Bernhard says in the Vossische Zeitung that the decision to hold a meeting of this committee is regarded as a sign that the German states are dissatisfied with the present conduct of affairs with respect to the war. He hints that the committee desires a conference with the chancellor on pending questions, including disputes with the United States.

Herr Bernhard declares the nation is being kept in the dark and takes the position that the government's silence must be broken.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More. "I'd certainly give most anything to be able to eat a few pounds and stay that way," declares every excessively thin man or woman. Such a result is impossible, despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh-producing elements stay in the intestines until they pass from the body as waste.

Supply of the blood and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold at Boyce's drug store and other druggists everywhere. Every package contains a guarantee of weight increase or money back.

NOTE: Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, one should be taken about using it unless a gain of weight is desired.

TODAY IN HISTORY.

Cotton gin patented, 1794.

Bill Whitney did more than anybody
realized when he invented this clever
machine to separate cotton fiber from
the seed, which had previously been
done painfully by the cotton gin.
The revolution in the cotton industry, by
making slave labor more valuable
he helped the gradual disappearance of
slavery, then in steady progress, and
so innocently provoked the Civil war.
Had it not been for the cotton gin,
slavery probably would have virtually
disappeared long before the war period.

A LAW TO BE STRENGTHENED, NOT REPEALED.

Senator Bankhead of Alabama has in-
troduced a bill repealing the law which
requires newspapers and periodicals semi-
annually to make and publish sworn reports
of ownership and circulation.

No honest newspaper wants this bill
passed, and congress should reject it by an
emphatic vote.

The law at which it is aimed is a good
law—wholesome and in the public interest.
It is analogous to the pure food law which
prohibits frauds in labeling and selling food
products. The newspaper law is intended to
prohibit frauds in newspaper dealings with
the public and the advertisers.

The public has a right to know who owns
a newspaper, in order that it may judge
whether the newspaper is a newspaper or
an organ—whether it represents the public
viewpoint or a special interest.

The advertiser has a right to accurate
statements of circulation, since advertising
values depend not only on the quality of
circulation but upon its quantity.

Advertisers no longer select advertising
mediums on circulation claims. A news-
paper that claims twenty-five thousand cir-
culation and has twenty thousand or less
is perpetrating a fraud upon the advertiser;
and the law which Senator Bankhead seeks
to repeal is designed to protect advertisers
against that fraud.

Instead of repealing this law, the govern-
ment should enforce it rigidly. If it lacks
teeth, then it should put teeth into it.

Newspapers, as their duty is, are con-
stantly urging supervision and regulation
of other enterprises in the interest of pub-
lic honesty. They should be willing to take
their own medicine, and the honest news-
paper will not only be willing to abide by
this newspaper law, but will eagerly wel-
come it and demand that it be rigidly en-
forced upon all newspapers.

No newspaper that dares to lay bare its
ownership and to file sworn circulation
statements will be behind Senator Bank-
head in his attempt to destroy this useful
and wholesome law.

It is traditional, none the less, that Amer-
ican rights can be supplemented, when the
occasion demands, by a stiff left punch.

BRANDEIS OPPOSITION AND BRANDEIS SUPPORT.

If the bitterness and venom—and emi-
nence—of the opposition to the confirma-
tion of Louis D. Brandeis as a justice of
the supreme court of the United States are
notable, so is the character of his support.

Perhaps no man ever named for this high
position ever had such bitter enemy nor
such splendid support.

For instance, recently Newton D. Baker
of Cleveland, former mayor of that city,
president of the National Consumers'
league and just appointed secretary of war
in President Wilson's cabinet, presented to
the senate a statement in support of the
Brandeis nomination prepared and signed
by representatives of a large group of New
York manufacturers, labor leaders, arbitra-
tors, social workers and others.

This statement goes straight to the heart
of the main issue in the Brandeis matter—
the question whether he has the "judicial
temperament" to qualify him to sit as an
arbitrator in great causes.

"So far as our city is concerned," the
statement declares, "it is our duty to ex-
press our grateful appreciation for the dis-
tinguished service which he has performed
in the cause of industrial peace—notably
by his contribution of the 'preferential
union shop' as the basis for arbitration be-
tween more than six hundred manufac-
turers and more than a hundred thousand
employees engaged in the so-called needle
trades, whose annual output is approxi-
mately three hundred million dollars. In
these trades almost every year strikes,
involving great financial loss to both em-
ployers and employees and great hardship
upon the taxpayers and consuming public,
had long been customary. For six years

these trades have been at peace. Law and
order have superseded anarchy."

Full credit for this shining achievement,
which could have been wrought only by a
"judicial temperament" of the highest type,
is given to Mr. Brandeis; and this statement
from those who are familiar with his
personal qualities and the character of his
disinterested public service. The charac-
ter and position of the signers of this
statement make it a notable tribute indeed,
weighing heavily in the balance against
the petty personal spite and torism that
actuates the opposition.

Following are some of those who signed
this petition:

Oscar Straus, chairman of the public
service commission;
Charles F. McFarland, secretary of the
Federal Council of Churches of Christ;
Charles R. Crane;
Frederic R. Howe, commissioner of im-
migration, New York;
Stephen S. Wise, rabbi Free Syna-
gogue;
Florence Kelley, secretary of the Na-
tional Consumers' league;

Henry R. Seager, president American
Association for Labor Legislation;
Owen Lovewell, secretary National
Child Labor committee;
John Mitchell, chairman New York

Peter Brady, secretary Allied Printing
Trades Council, New York;
George Wisniewski, general manager
Cloak and Suit Makers' union;
All of the Cloak and Suit Manufac-
turers' association;
All of the Dress and Waist Manufac-
turers' association;
Many manufacturers and labor leaders;
Henderson Holt, editor the Independent;
Henry Bruere, member council of con-
stitution;
Julius Henry Cohen, counsel for manu-
facturers;
Morris Hillquit, counsel for unions.

These are but a few from as notable a
list of supporters as it would be possible to
get in New York for any man living.
Brandeis is honored no less by the charac-
ter of his opposition than by the charac-
ter of his support.

His appointment is a mighty credit to
the president, and his confirmation will be
a vast credit to the country.

It is not well to indulge in hasty criti-
cism, even of a groundhog.

THE POLLS ARE OPEN TILL NINE.

Have you voted?
This is presidential preference primary
day. Party members have an opportunity
under the full protection of law to vote
their preferences for presidential candi-
dates and for delegates to the national con-
vention.

If the welfare of your country and your
party means enough to you to warrant the
sacrifice of a few minutes' inconvenience,
go to your polling place, call for the ballot
of your party, and vote.

The polls will remain open till nine, and
there is yet plenty of time to vote.

THE ARMY BILLS.

The army bills are now before congress,
and early action is indicated. They go
somewhat further than the president's re-
commendations. They are somewhat more
elaborate, in the Herald's opinion, than the
situation calls for.

Yet they fall so far short of the extraor-
dinary demands of the militarists who have
lost their balance and sanity that no great
harm can come of them. They have the
opposition of the extreme pacifists who do
not believe in any armament at all, and of
the extremists who want the largest army
in the world, and therefore they will be
cordially received by the great majority of
the citizens.

And yet their record so far suggests a
warning—that once started on this process,
the way is greased and it is too ridicu-
lously easy to go too far. The committee bills
go somewhat farther than the president's
recommendations. The senate's bill goes
farther than the house bill. The tendency
is to make the senate's bill the basis for
the measure that will be passed. There
will be strong efforts to increase the scope
of the measures now before congress. That
is the natural tendency of discussion of this
sort. Even the president, sane and well-
poised and sensible as he is, when he got
to talking about preparedness during his
recent tour of the Middle West, let him-
self get worked up to the point where, with
doubtless his later regret, he advocated
the greatest navy in the world.

There is no need of urging congress to
speed up in this movement. It is far more
desirable that it be watched to see that it
does not let itself be carried away by the
momentum of the military movement, and
go too far. It would be foolish to burden
the nation with a great expense when the
chances are that within three years the
present silly panic will have subsided and
there will be little public interest in a large
armament—except a hostile interest.

Imagine an ex-mayor of Chicago in the
cabinet!

Maybe if Brandeis hadn't proved himself
so well able to accomplish things there
wouldn't have been so much opposition to
him as a judge.

If you've been planning on doing a lot
of waiting this spring, begin now while
the snow here and you'll be surprised to
find how much easier it comes after the
snow is gone.

Of course it is absurd to say we are at
war with Mexico, for today it is customary
for a country at war to "go dry," and
neither the United States nor Mexico has
entered that classification as yet.

The Original Mugwump

By Sawyer.

Washington, March 14.—(Special to the
Herald.)—The historian, Macaulay, of a cer-
tain epoch in English politics, wrote:
"Among those who, in parliament or out of
parliament, assailed the administration of
Walpole, were Bolingbroke, Cartaret, Ches-
terfield, Argyle, Pultney, Wyndham, Dod-
dington, Pitt, Littleton, Barnard, Folke,
Sefton, Gay, Acheson, Fielding, Johnson,
Thomas, Akenhead, Glover," a political con-
stellation the most formidable, perhaps, even En-
gland has known when we contemplate the
genius of its members for debate, spoken and
written.

And here in our own country, some eight
score years later, we find Woodrow Wilson
assailed by numerous and varied and dis-
cordant elements. I shall try to enumerate
a few of them. Wall Street, Roosevelt,
house of representatives, the administration,
the British publication, the Tribune, of New
York; the German publication, the Father-
land, of New York; fanatic Catholics because
of lying reports of outrages visited on al-
lions by aliens in a foreign country; fanatic
A. P. A.'s, who think our Scotch Presbyterian
of a president is too much of a Catholic;
William J. Bryan, John R. McLean, Claude
Kitchin, Cotton Denmark and Sugar Demo-
crats. Then there are others, such as the
unspeakable Hearst and the impossible
George Fred Williams.

"This of the last named that I would speak
particularly. If you are familiar with
the career of the great Irish agitator,
Daniel O'Connell, you will recall that on one
occasion he was arguing a case at nisi prius,
and was repeatedly interrupted by the coun-
sel of the opposite side. The court ruled
the counsel for his unwarranted interference,
but without avail. Finally O'Connell de-
clared that he would not be interrupted, and
upon the little man, in a voice of thunder he
exclaimed:

"Silence, you insolent, impudent, auda-
cious, contemptible, pug-nacious, presumptuous,
irrepressible ram-cat."
That settled him.
But it would have abashed in the least

No Name Given.
A communication has been received from Minnesota, Minn., accompanied by initials only. It is necessary that the identity of the writer be known in this office before a communication will be published. If the writer of the one in question will send in his name his letter will be published at an early date.—The Editor.

WE REFUSE TO ANSWER;
REFERRED TO COUNSEL

To the Editor of The Herald:
A number of persons who claim to know some of the provisions of the proposed milk ordinance suggest that it will be a drastic measure which is wholly unneeded for, and may be injurious to some of the small milk dealers who have from one to five cows. As it is reported that it will provide that the health director may revoke a dairyman's license for any violation of the proposed ordinance, and in view of some of the reported conditions to be required, I wish to know the following: Suppose that the milk ordinance, which is the talk of the city, is proposed and passed and does contain things that are detrimental to the small dealers—if a referendum petition is presented on the twenty-ninth day after the last publication, which the clerk cannot certify to before the ten-day limit for checking, owing to other duties, could the health director disqualify the provisions, or should he revoke the license within that ten-day period required to check up on the petition if the provisions were not lived up to? Suppose a small dealer who has furnished milk from one cow, as is often required, could the health director disqualify the ordinance during that ten-day period and permit the owner to furnish that cow's milk, unless all the provisions of the ordinance were complied with? In other words, would the ordinance

be in effect, or not, until the clerk's certificate had been made? If it was found to be in effect and had not been enforced, would the dealer be guilty of offense against the ordinance? If it was enforced and found to have been suspended from operation, would there be just claims for damages against the city?

In the case of the proposed milk ordinance, damage may be light, and the offense against the city ordinance may be small, but would not an ordinance with a heavy penalty attached result in a serious damage for the city to pay? Oh, what the use? Nobody's supposed to understand law unless he claims to be an attorney, anyhow. A. Duluth, March 13.

A REASONABLE THEORY.

To the Editor of The Herald:
On the 11th inst. I received a letter from "The American Embargo Conference," room 426 Manhattan building, with several form letters enclosed asking me to sign one and get some other men to sign the others and return them in the stamped envelope enclosed, to be sent to our congressman at Washington, advising him that we want an embargo placed on ammunition.

Who is this party that is flooding the country with such rot? Are they in the pay of the German government, or just simply trying to embarrass our president in his stand for neutrality? It is probably such stuff that induced our members the other day to vote for Germany and against America. Yours, FOR WILSON.

Hibbing, Minn., March 12.

QUESTIONS AND ANSWERS

This department does not pretend to be infallible. It is endeavoring, however, to answer questions sent to it by readers of The Herald. It is not the right to ignore all that are trifling or of concern only to the questioner, or that ask for advice on legal or medical questions. To receive attention, every inquiry must bear the name and address of the questioner, and be accompanied by a return address, and they must be accompanied by a return address.

Joe Meehan, Virginia, Minn.: I would have following questions answered in the Open Court: (1) A child is born on the ocean, to what country does the child belong, the parents of the child being Americans? A tells me if a child is born on German waters, the child is a German. (2) The laws of Minnesota, chapter 5514, paragraph 13, say: "The month shall mean a calendar month, unless otherwise expressed." Webster's dictionary gives the following definition of "calendar month": "The time from any day of any month named in the calendar to the corresponding day (if any) of the next month."

"D. N. J.": Duluth. A claims that a house built upon cedar posts dug directly into the ground does not constitute a part of the real estate, but is personal property; a house built upon a brick, stone or cement foundation, or upon stumps, is real estate. B contends that a house built upon cedar posts dug vertically into the ground, or any other foundation that is physically connected with the ground, is not real estate on this point, kindly advise what seems to be the trend of judicial decisions on the subject.

Ans.: The laws of Minnesota, chapter 5514, paragraph 4, say: "The words 'real estate' shall include lands, tenements and hereditaments, and all rights thereto and interests therein."

POEMS ASKED FOR.

A Bird in a Gilded Cage.
The ball room was filled with fashion's throng
And shone with a thousand lights.
And there was a woman who passed along—
A beautiful sight to see.
You may think she is happy and free
But she is a bird in a gilded cage.
She's not, though she seems to be.
It is sad when you think of her
"But she married for wealth, not for love,"
"Though she lives in her mansion grand."

Chorus:
She is only a bird in a gilded cage.
A beautiful sight to see.
You may think she is happy and free
But she is a bird in a gilded cage.
She's not, though she seems to be.
It is sad when you think of her
"But she married for wealth, not for love,"
"Though she lives in her mansion grand."

Chorus:
She is only a bird in a gilded cage.
A beautiful sight to see.
You may think she is happy and free
But she is a bird in a gilded cage.
She's not, though she seems to be.
It is sad when you think of her
"But she married for wealth, not for love,"
"Though she lives in her mansion grand."

Chorus:
She is only a bird in a gilded cage.

Has often refused me with scorn and
When I ask for the crumbs from
And when with the cravings of hun-
I turn from his door to decamp.
He'll once turn his dogs loose upon
Because I am only a tramp.

It was only last night on the railroad
That a man both tired and footsore,
Spied an empty box-car standing still
On the track,
So he got in and closed the door.
But he had not gone far in that empty
box-car.

Till the brakeman came round
with his lamp.
He was thrown from his resting
place, kicked in the face.
Because he was only a tramp.

But the day will soon come when the
rich man and I
Shall be laid in the same mother
earth.
Each joy and all sorrows will then
be the same.
And I hope better times come to
Kind friends, you must always re-

That every poor man's not a
scamp.
For there's many a true heart a-beat-

Beneath the old coat of a tramp.

Judicial Ditch No. 4, recently established by an order of the district court, is located near Floodwood and will drain an area of about 23,000 acres. Engineers have estimated the cost of the ditch at \$1,375,510.34.

P. J. McCauley of Floodwood is the engineer in charge of the project. The estimates submitted by him, and the bids have been called, are as follows:

Ditches with base 3 feet and length, 84,844 cubic yards. Engineer's estimate, \$23,265.04.
Ditches with base less than 3 feet, 60,002 cubic yards. Engineer's estimate, \$9,900.30.

Bridges: Class A, 17 at \$250; Class B, 19 at \$109. Engineer's estimate, \$6,850.
Clearing right-of-way, 621 acres at \$16. Engineer's estimate, \$7,965.
Grubbing, 22 acres. Engineer's estimate, \$650.
Leveling roadway, 55 miles. Engineer's estimate, \$5,500.
192 culverts, 15 by 30 inches. Engineer's estimate, \$5,700.
Surfacing overhead, 7,420 cubic yards. Engineer's estimate, \$7,420.
Total, \$137,510.34.

SENATE LEADERS
URGE PREPAREDNESS

Washington, March 14.—Danger of grave complications growing out of the sending of American troops into Mexico to hunt down Villa and his bandits, was urged in the senate by Senator Chamberlain, chairman of the military committee, and Senator Borah, Republican, in advocating laying aside temporarily all other legislation, in order to dispose promptly of preparedness measures.

When the band is playing "Dixie," I'm humming "Home Sweet Home." It was on a day when soldiers write to their wives and sweethearts, and mothers, wives and sweethearts, when a fair-haired boy sat dreaming of a far-off Southern town, and a dark-eyed maid who was waiting day by day.

The strain of "Down in Dixie" softly floated over the breeze,
With tear-dimmed eyes he drank in every note.
For his thoughts were back in Georgia with the girl he left behind,
And that day these simple words to her he wrote.

While the band is playing "Dixie," I'm humming "Home Sweet Home." For I takes me back to Georgia though I'm far across the foam, Once again beside the river with my Mary dear, I roam.

While the band is playing "Dixie," I'm humming "Home Sweet Home." On that night when all were sleeping came the bugle call to arms, With flashing eyes they plunged into the fray.

Among the first to give his life all for the flag he loved
Was a boy who dreamed of Dixie far away.
They found within his pocket there a blood-stained little note,
A bullet hole had pierced it through and through.

It began with, "Darling Mary, if I don't come back again, just remember that my last thoughts were of you."
Chorus.
Only a Tramp.
I'm a broken-down man without money.
My clothes are all tattered and torn.
Not a friend in this wide world have I.
"Tis a pity I ever was born.
In vain have I searched for employment.
Sleeping out on the ground cold and damp.
I'm starved in the face by starvation;
Oh, pity the fate of a tramp!

They tell me go work for my living,
And not go through this country to a scamp.
But then when I ask for employment,
They say I am only a tramp.

TAVENNER
ANSWERED

Navy League Makes Reply to Statements By Congressman.

Accused of Knowing That Charges He Makes Are Untrue.

Washington, March 14.—The Navy League of the United States gave out a statement today in answer to the attacks made upon it by Representative Clyde M. Tavenner in his speech, "The Navy League Unmasked," which was franked all over the country by Tavenner at the expense of the people.

Tavenner is accused in this statement not only of being a seeker for "preparedness pork," but it is also asserted that he has made charges he makes in his speeches are untrue.

The statement follows: "The Navy League has just been advised that Congressman Clyde M. Tavenner is continuing to send out unfranked copies of his speech, 'The Navy League Unmasked,' and extracts therefrom. Mr. Tavenner has been shown that he was misinformed in the charges he makes in his speech, and Tavenner knows the charges he makes are untrue."

CONSPIRACY
IS CHARGED

East Superior Street Paving Contract Cause of Heated Dispute.

Duluth Bids Low But Farrell Fears He Cannot Get Material.

Charges of paving conspiracies and combinations were made at the regular council meeting yesterday afternoon, when Commissioner Farrell, works head, introduced a resolution awarding the contract for the paving of Superior street, from Sixteenth to Twenty-third avenue east, to the General Contracting company of Minneapolis on its bid of \$19,473.60. Final action will be taken next Monday.

Charles O. Baldwin, attorney for E. A. Dahl, declared that district court proceedings would be instituted if the council refused to award his client the contract, as Mr. Dahl had submitted the lowest bid on an asphalt pavement with granite "headers" and "stretchers." The local contractor's bid was \$214,400, lower than that of the Minneapolis company, but Commissioner Farrell explained that the Barber Asphalt company, which controls the manufacture of Trinidad Lake asphalt, the kind specified in the bids, has refused to sell the material to Mr. Dahl.

Can't Get Asphalt.
"I know Mr. Dahl and know that he is all right," said Commissioner Farrell, "but the Barber company writes us that it will not furnish him with the asphalt, because he has not the proper equipment. I know he can do the work and if Mr. Dahl could have obtained the material I would have awarded him the contract. All the asphalt jobs in Duluth were done with Trinidad Lake asphalt and the property owners have asked for the material. They insist on it and the only way for them to get it is to have the Barber company furnish it."

At this point Mr. Baldwin interjected in behalf of his client, declaring that the latter has submitted the lowest bid and is willing to post a \$100,000 bond that he will furnish the material specified in his bid.

"This is all a paving conspiracy, a combination formed to crowd away other contractors out," he said. "Mr. Dahl went to the Barber company and obtained figures on Trinidad Lake asphalt before submitting his bid on the job. And now, when he is lower than the Minneapolis company by nearly \$20,000, a conspiracy is formed and the Barber company refuses to sell the material. Mr. Dahl is a reliable man, has the backing and equipment and guarantee to comply with the requirements of the bid. If you give us the contract, we will give you the material. We will give you a satisfactory job and we will give you a bond to guarantee the furnishing of whatever material you want."

The charter requires you to award any contract to the lowest bidder and it becomes necessary for the parents to administer a remedy. Cathartics and purgatives should never be used as these agents afford only temporary relief while their violent action shocks the system unduly. Mrs. Eva P. Gaff, 517 Tenth St., Warren, D. C., says that her little girl, Marie, had been subject to constipation, and that she found Dr. Caldwell's Syrup Pepsin the best remedy because of its mildness, and now always keeps a bottle of it in the house.

Dr. Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs of any kind, and is an ideal remedy for children because of its mild action and positive effect. Its use tends to strengthen the impaired bowel action and restore normal regularity.

It is important that parents should know of a dependable remedy with no unpleasant after effects, griping or

thing in their power to bring the convention to Duluth in 1917. The following were elected: First representative, E. M. Monroe; second, J. E. Lawrence; third, J. P. Neff; fourth, C. W. Sutton; second alternate, J. E. Lawrence; and third alternate, George Spies.

Promises to Get Material.
Mr. Dahl promised to be paid with Trinidad Lake asphalt and if our plan is not satisfactory to the council or the Barber company, we will buy a new one. We will do a good job and comply with all the regulations of the city engineer's office.

Thomas S. Wood and E. P. Alexander, two of the property owners, urged the council to insist on Trinidad Lake asphalt, the material favored by all the owners.

"I want the best pavement that can be laid," said Mr. Wood. "In the last analysis, we should have big say, because we pay for the improvement. If Mr. Dahl cannot furnish the material, then give the contract to whoever can. We've had enough of bad pavements in the past. What if it is \$2,000 higher? It means \$4 or \$5 a lot."

J. H. Whiteley, another owner, urged the council to give the contract to the lowest bidder, but to select another material, rather than be dictated to by the Barber company.

Commissioner Farrell then explained that, if the Minneapolis company is awarded the contract, the concrete base and preliminary work will be done by D. H. Clough & Co., according to an agreement made recently between representatives of the two companies.

Final action on the contract will be taken next Monday, it was announced at the meeting yesterday afternoon.

PARAGRAPHIC COMMENT OF THE WORLD OF SPORTS

BY BRUCE.

Tom Jones, manager of Jess Willard, is confined to his bed by illness. The New York boxing commission decided that Willard could no longer charge admission to his training quarters.

Three in One Night.

In Salt Lake City Friday night Joe Stecher tossed three men in less than forty five minutes. Mike Yokel, George Nelson, the huge Salt Lake fireman, and John Kilous, the husky Greek, were the latest victims of the scissor grinder. We wonder what old Mike Yokel did when the Stecher person clamped those scissors on.

This Is an Awful Jim.

Lots of persons are beginning to believe Frank Moran is going to defeat Jess Willard. Jim Corbett has picked Willard to win.

He Should Go to Work.

Doc Krone of Chicago has offered \$55,000 for the Gutch-Stecher match. Doc weighs 350 pounds. A man that heavy should do something besides making promises.

The Anti Climax.

Al Lippe, manager of Jefferson Smith, boxer, came to St. Paul with the next opponent of Mike Gibbons, and has as yet failed to call anyone a horse thief or intimate that nerve specialists will be called to administer sedatives to quiet the throbbing nerves of Michael before he enters the ring with such a bearcat as the Smith person.

After the avalanche of adjectives and shower of invective contributed by Dan McKetrick, the dove-like demeanor of Lippe has left the natives of the down river city yearning for excitement and clamoring for noise. McKetrick and Ahearn did all of their frightfulness before the battle, maybe Lippe and Smith plan to ex-

ecute their big gun fire after the gong rings.

The Caustic Critics.

Frank Chance has been farming for the last year. Some of the New York followers of baseball declare that is what Frank should have been doing for the last three years.

Just Cause for Suspicion.

Reports from the coast state that Frank Gotch showed a lot of his old time speed and ability in his Los Angeles match with Bill Demetral. For one who has been out of the game for so long, the showing of the Humboldt man is said to be really remarkable. In his prime Gotch was invincible, the fastest big man the wrestling pad ever produced. If he can approach his ability of old, what a wonderful contest he will give Joe Stecher, the "Boy in the Overalls."

Listen to Him Rave.

Dan McKetrick has written every sporting editor in the United States declaring Soldier Barfield is the world's champion welterweight. If he is, then Mike O'Dowd can lick Jess Willard.

Tastes Are Different.

Some persons declare they go to a burlesque show to hear the music.

Where Do They Go?

Very few of the Duluth passenger nerve show Monday afternoons.

How Quickly They Learn.

Jess Willard declares, he cares nothing for the \$47,500. That's some of Jack Curley's philosophy.

One Meet After Another.

One running meet has been postponed in Mexico. Another one has been started.

One Reason Advanced.

Fred Fulton is to fight Jim Flynn in Milwaukee. There is reason to believe Fred is in need of money.

for the paper. He lauds his battler to the sky at the expense of his opponent, and tells why his man is champion. But not so with Lippe. The man who looks after the business affairs of the conqueror of Les Barcy rests his case on his boxer's record. Jeff has met all of the middleweights in the world, and that includes Australia, France and England, besides those in this country. He has waded through the best like a 42-centimeter gun, and only Gibbons stands between him and the championship. The above also is true of Gibbons. While he has not fought across the pond, he has defeated the best in this country with such ridiculous ease, that he has earned the name of plume of "Phantom." "Fighting Ghost," "Wizard of the West" and several other titles. The winner of the match on St. Patrick's night will be recognized as the middleweight champion by boxing authorities.

FAMOUS SKI RIDER MAY TRY AVIATING

AXEL HENDRICKSON.

This picture shows the Duluth ski rider, who recently lost his leg as the result of an accident, lying in a Madison, Wis., hospital. Hendrickson was the greatest trick ski rider in the world, his somersault on skis being a thrilling feat. In the summer time he performed the feat at country fairs and at carnivals, using a greased slide. He had only recently signed a contract that called for a very large amount of money. Now all the plans of the dare-devil rider will have to be abandoned. It is said that Hendrickson may try aviating and attempt to become as famous as the late Lincoln Beachey or the daring Art Smith.

NEW YORK SPORT LETTER

Sale of Tickets for Willard-Moran Bout on March 25, Surpasses All Expectations and Is Second Largest on Record—Intersectional Baseball Game Between College Teams.

New York, March 14.—With two weeks intervening before the principals enter the ring, the Willard-Moran bout has already broken all financial records for pugilistic battles held in New York state. The actual receipts for tickets sold and paid for to date is in round figures \$75,000. In addition to this sum tickets valued at \$20,000 are being held for persons who have not as yet taken up their reservations. Of the \$125,000 worth of tickets originally printed, but \$30,000 remain unsold and the majority of these are the \$3 and \$5 seats, which will not be put on sale until a day or two before the bout. The heaviest sale has been made in the \$25 reserved and box seats, although there is a big demand for the \$10 and \$15 coupons. Notwithstanding the care exercised by the promoters, a considerable number of tickets are finding their way into the hands of speculators and the indications point to these gentry reaping a royal harvest since one box has already been sold for \$600, which is several times the face value of the pastebords. The demand for seats from out-of-town points is the most surprising feature of the advance sale. Forty per cent of the tickets disposed of to date have been taken by mail and telegram applications from the large cities of the Middle West, South and New England, Chicago, Pittsburgh, Boston, Cleveland and Detroit put in large applications with scattering requests as far west as Kansas City. This advance sale clearly indicates that the receipts for the ten-round no decision bout scheduled for March 25

will surpass by more than \$50,000 the largest gate ever collected for such a contest in New York state and, with the exception of the Johnson-Jeffries battle at Reno, Nev., July 4, 1910, the largest sale of tickets for a prize fight. The gross receipts of this bout were \$270,755. Jeffries and Sharkey drew \$65,000 when they fought at Coney Island in 1899; Gibbons and McFarland boxed before a \$48,069 gate when they met at Brighton Beach last September and the Corbett-McCoy contest in New York city on Aug. 30, 1900, drew \$66,350. The Gans-Nelson, Johnson-Burns and Johnson-Willard bouts, held respectively at Goldfield, Sydney and Havana, brought out gates that ranged between \$65,000 and \$69,000. A number of intersectional baseball games between the leading college and university nines of the South and Middle West will be a feature of the intercollegiate baseball season which will open early next month. During the Southern training trips of the Eastern variety teams, Virginia will play Amherst, Williams, Harvard and Cornell. The Navy has games with Amherst, Lafayette, Williams, Cornell, Harvard and Trinity. Georgetown will meet Williams, Princeton, Penn. State and Yale. Later in the season several of the Southern and Western college nines will play in the East. The principal contests being as follows: Harvard vs. Georgetown and Virginia, Yale vs. Virginia and Georgetown, Williams vs. Virginia, Princeton vs. Virginia and Army vs. Georgetown. Both Michigan and the Michigan Aggies will play one or more games in the East, the leading contest being as follows: Rochester vs. Michigan Aggies; Michigan vs. Cornell, Syracuse, Swarthmore and Pennsylvania.

Cleveland's Rink Defeated in Final By Score of 11 to 6.

Billy Dinham last evening won The Herald curling trophy event by the defeat of Sam Cleveland's rink, 11 to 6. The finals in the contest, which have been postponed for several weeks, were played before a large gallery and proved the feature game of the evening's card. Dinham got away to a lead early and was never headed, the members of his rink backing up his excellent playing by steady and consistent work. The capture of The Herald by Dinham winds up the last of the major events of the season.

Chapman "Played Out."

Chicago, March 14.—Jesse L. Chapman of Chicago wound up his part in the pocket billiard tournament yesterday with two defeats, making his final standing one match won and eleven lost. In the first John Layton of Sedalia, Mo., defeated him 100 to 41 in twenty-one innings, the visitor getting a 21 for the game's high run. A high run of 40 by Ralph Greenleaf spoiled what chance Chapman had in the second match, which the Monmouth boy won, 100 to 23 in twenty-three innings. Greenleaf played a very brilliant game. Both matches were played in short time.

FINAL GAME OF THE YEAR

Universals and Northern Hockey Teams Will Play Benefit Contest.

The 1915-1916 hockey season will close Thursday evening with the benefit exhibition game at the curling club rink between the Northern and Universals. The officials of the curling club have given the use of the rink, and the proceeds of the game will be used to defray the expenses of the Duluth Amateur Hockey association's third annual banquet.

Contrary to the custom of former years, the plates at this banquet will be free to the members of the various teams.

When Dave Larson, manager of the Northern, was asked to play his team in this contest, he made a characteristic reply. "You bet," he said, "my fellows will play and be glad of the chance to trim up the Universals."

For a try-out the season has been fairly successful and the officers have great plans for next year. The secretary of the Northern has been working on the coach problem for several weeks, and it seems reasonably sure that the league will have the best coach for the Duluth boys that this country or Canada can produce. This will place hockey in Duluth on the very highest plane and solve many perplexing problems of discipline. The directors are eager to build up hockey in Duluth along right lines and on a solid and lasting foundation and make Duluth famous for amateur hockey as it is for rowing.

LOCAL BOWLERS FAIL TO REACH HIGH SCORE MARKS

Five Men Record Set By Fiats Remains Safe—Rhinelander Pin Men Make Good Showing in Singles and Doubles—Crack Major Rollers on Night's Program.

Last night's Northern Bowling association tourney play was confined to local teams. The marks set up by the home pin men failed to come up to the high scores established by the invading pin spillers. The five-men mark of the Fiats was not approached in the pin rolling of last evening.

The Fractores hung up a score of 2,625 against the 2,833 of the Minneapolis five, scored earlier in the tournament. The Hodags of Rhinelander, Wis., made a score of 2,617.

In the doubles Buskey and Krause of Rhinelander hung up the high score of 1,178. In the singles Krause made the total count of 567, and Buskey, his fellow townsman, led the field with the count of 571.

Peering of the National Meats team won a box of cigars for making the high count of the day, a mark of 236.

Some of the crack players entered in the tournament are on today's schedule. The 8 o'clock shift contains the entries of the very best of the Major league bowlers and in addition the crack Central of Minneapolis will take a crack at the five-men event.

SOX WILL TRAIN HERE

Owner Blume Decides Not to Assemble Candidates in Mason City.

Harry A. Blume, president of the Duluth Baseball association, announced today that he has decided that the candidates for the White Sox team will do their preliminary spring training in Duluth rather than journey to Mason City, Iowa.

"We can get games with Superior here at home, and besides there will be a saving in expense," said Magistrate Blume today. "Money is not so plentiful that we feel that we can afford a trip to Mason City. Besides, we could not get the dates we desired in the Iowa city. Here we will have Superior to play at least two games with, for the candidates for the Superior team will also train at home."

O'Brien had counted on working his pitchers out in a milder spring atmosphere than usually prevails in Duluth. Last year the Dock ascribed his failure to be up in the race to the fact that his pitchers never got started, due to inability to get their arms right in the early spring. However, O'Brien will be forced to make the best of the situation.

Meeting to Be Called.
There will be a meeting of the Northern league managers some time the present month. Harry Blume has, as yet, received no official notification of the date decided upon. It is believed the club owners will assemble in Minneapolis and complete details for the opening of the 1916 season.

The contract of Webb, an infielder procured from the Indianapolis club, came in today. With Webb's contract in, the infield material for the Sox appears to be very strong.

Jeff Smith Expected to Give Gibbons the Battle of His Career.

St. Paul, Minn., March 14.—Curly Ulrich, an old-time fighter, who met the best lightweight in the class in his day, has been selected to referee the Gibbons-Smith match at the auditorium next Friday night. The Phantom and Al Lippe, Smith's manager, got together late yesterday and there was little snubbing over the selection of the third man, Ulrich being satisfactory to both of them.

Al Lippe is the original splint of the fight managers. In other words, he is the exception that proves the rule. In these modern days of pugilism, it is customary for a manager to take his trusty typewriter in hand every six hours and tear off a "piece"

WHEAT TRADE IS NERVOUS

Market Has Good Early Advance But Breaks in Late Trading.

Flaxseed Sells Off With Limited Support From Crushers' Interests.

Duluth Board of Trade, March 14.—The market was easy at the close, and the gains of the session were nearly all lost on a selling and realizing movement.

May wheat closed $\frac{1}{2}$ ¢ up and July $\frac{1}{2}$ ¢ up.

May durum closed $\frac{1}{2}$ ¢ up and July $\frac{1}{2}$ ¢ up.

Oats closed $\frac{1}{2}$ ¢ up at 40 $\frac{1}{2}$ ¢-41 $\frac{1}{2}$ ¢ for on the track; $\frac{1}{2}$ ¢ up at 38 $\frac{1}{2}$ ¢-39 $\frac{1}{2}$ ¢ for on the track.

At Minneapolis, May wheat closed at 41 $\frac{1}{2}$ ¢ and July at 41 $\frac{1}{2}$ ¢.

At Kansas City, May wheat closed at 41 $\frac{1}{2}$ ¢ and July at 41 $\frac{1}{2}$ ¢.

Holders were at the bat in the Duluth market today, and prices were given a good turn upwards.

The advance was attributable to the raising of embargoes against wheat and oats by the Erie and Baltimore and Ohio railroads, and consequent expectations that at least some measure of relief will be afforded.

At St. Louis, May wheat closed at 41 $\frac{1}{2}$ ¢ and July at 41 $\frac{1}{2}$ ¢.

At Chicago, May wheat closed at 41 $\frac{1}{2}$ ¢ and July at 41 $\frac{1}{2}$ ¢.

MARKET GOSSIP.

There is nothing especially new in the Duluth cash wheat market today. The basis was unchanged at $\frac{1}{2}$ ¢ under to the latter premium for choice.

Cash No. 1 durum sold at $\frac{1}{2}$ ¢ under to the May price. Trade in the off grade was quiet in both spring wheat and durum and the spreads showed a further tendency to widen.

At Minneapolis there was a dull turn to cash wheat. Millers picked up a few cars and dropped out. Sales showed less loss in premiums. Blue No. 1 northern sold $\frac{1}{2}$ ¢ to $\frac{1}{2}$ ¢ under to the May price.

Port Arthur and St. William stocks: Total wheat this week, 24,625,102 bu; last week, 22,572,696 bu; last year, 23,944,231 bu.

Broomhall called from Liverpool: "Wheat was dull but steadier with export offers lighter and strong freights. Carriage was stronger. Manitoba 13d up. There appears a tendency to elaborate upon the winter wheat outlook in America as being unfavorable. This is offset by heavy reserves in the grain and heavy offers are of good quality. Demand for American wheat was moderate and will continue so under present conditions."

Bradstreet's world's visible: Wheat, 23,514,000 bu; year ago, 151,677,000 bu; last year, 151,677,000 bu.

European visible: Wheat, 15,288,000 bu; year ago, 15,288,000 bu; last year, 15,288,000 bu.

Foreign corn summary: Argentina—Rain hindered the movement, but it is too late for corn.

United Kingdom—Entry weather is hindering late seedling. Arrivals are being handled by Argentina and Australia. The extent of that movement is, however, dependent upon the weather.

India—Recent rains were very beneficial to the general outlook is favorable for an increase in the export of wheat.

Australia—Late harvesting confirms a large yield. Shipments will be moderate for some little time on account of shortage of tonnage.

Duluth car inspection: Wheat—No. 1 hard, 10; No. 2 northern, 6; No. 3 northern, 18; No. 4 northern, 12; No. 5 northern, 10; No. 6 northern, 10; No. 7 northern, 10; No. 8 northern, 10; No. 9 northern, 10; No. 10 northern, 10.

Duluth grain stocks, giving changes in two days: Wheat—Western and winter, 707,000 bu; increase, 1,000 bu; spring, 7,821,000 bu; increase, 7,000 bu; durum, 6,844,000 bu; increase, 5,000 bu; total, 14,348,000 bu; net increase, 252,000 bu.

Clearance reported: Wheat, 614,000 bu; flour, 60,000 bu; together equal to 674,000 bu; corn, 260,000 bu; oats, 444,000 bu.

Primary markets report the following: Wheat—Receipts, 1,333,000 bu; last year, 1,333,000 bu; shipments, 854,000 bu; last year, 854,000 bu.

Corn—Receipts, 1,022,000 bu; last year, 1,022,000 bu; shipments, 481,000 bu; last year, 481,000 bu.

Oats—Receipts, 70,000 bu; last year, 70,000 bu; shipments, 729,000 bu; last year, 729,000 bu.

Duluth bonded grain receipts: Wheat, 104 cars; oats, 1 car. Total, 105 cars.
